ASUM Office Manager
Resolution for ASUM support and recognition of the work by the Residence Life Office to make the dorms more energy efficient

Whereas, The University of Montana is a campus that prides itself on its close connection with the environment;

Whereas, the students of The University of Montana would benefit financially from a lower energy cost for the dorms;

Whereas, rising utility costs have resulted in a large portion of Residence Life fee increases;

Whereas, many steps are already being taken by the Residence Life Office of The University of Montana to make the dorms more energy efficient through changing windows, light fixtures, hot water heaters, etc.;

Whereas, The Associated Students of The University of Montana (ASUM) are to look out for the best interest of the students and encourage ideas that help to promote student welfare;

Therefore, Let It Be Resolved that the Senate of the Associated Students of The University of Montana (ASUM) supports the work by the Residence Life Office to make the dorms more energy efficient.

Therefore, Let It Be Further Resolved that ASUM encourages Residence Life Director Ron Brunell to continue improving the energy efficiency of the dorms and thus make living in the dorms more affordable to students.

Therefore, Let It Be Further Resolved that a copy of this resolution be sent to Ron Brunell, Director of Residence Life, and Dr. Teresa Branch, Vice President for Student Affairs.
