The meeting adjourned at 7:28 p.m.
Resolution Supporting Automatic Fee Increases for
the University Center & Campus Recreation

Whereas, the University Center and Campus Recreation derive the bulk of
their financial support from student fees;

Whereas, the money generated from fees is crucial to the continued
operation of both units;

Whereas, the expenses associated with personnel, operating expenses,
utilities, and facility maintenance continue to escalate;

Whereas, sound business practice dictates that inflationary increases
should be sought in the student fees annually;

Whereas, it is acknowledged that putting forth proposals for fee increases
is labor and time consuming for all parties;

Therefore, Let It Be Resolved, the Associated Students of The University
of Montana support the following Memorandum of Understanding (MOU) between
the ASUM and the UM Division of Student Affairs regarding the annual
automatic indexing of student fees to support the University Center and
Campus Recreation.

Memorandum of Understanding Between the ASUM and the UM Division of
Student Affairs

This Memorandum of Understanding (MOU) is between the Associated Students
of The University of Montana (ASUM) and the UM Division of Student
Affairs. This MOU will be valid upon endorsement from the UC Board and
Campus Rec and Sports Committee and approval from ASUM and the Vice
President for Student Affairs, as indicated by the signatures below, and
will only be nullified with the expressed consent of the student body
through a referendum or ASUM with a 2/3 vote of the Senate. This agreement
is subject to approval by the President of the University and the Montana
Board of Regents.

This MOU acknowledges that it is most likely that there will be a need for
some inflationary increase in the University Center and Campus Recreation
student fees (excluding the UC Renovation Fee) every year, and that this
is a natural and appropriate outcome of doing business. As such, any
inflationary increase will be implemented subject to the following
guidelines:

There is no expectation of any programmatic or service level increase as a
result of the inflationary increase: this is the cost of maintaining
current service levels in the face of inflation.
Increases will be determined based upon all relevant indices - i.e., CPI (Consumer Price Index) and HEPI (Higher Education Price Index) as well as projected assumptions for expenses associated with salaries, benefits, operating, utilities, and facility maintenance.

Proposed fee increases up to 3.5% will require recommendation by the unit and endorsement by the respective advisory board (University Center Board for the University Center and Campus Rec & Sports Committee for Campus Recreation).

Proposed fee increases greater than 3.5% but less than 5.0% which have been justified by the unit and endorsed by the respective advisory board (University Center Board for the University Center and Campus Rec & Sports Committee for Campus Recreation) will be implemented automatically unless overturned by a 2/3 vote of ASUM Senate. At this time Campus Recreation and University Center management shall be responsible for providing a justification of the fee increase.

Proposed fee increases which exceed 5.0% annually will seek endorsement by the relevant advisory board (University Center Board for the University Center and Campus Rec & Sports Committee for Campus Recreation) and endorsement through a vote of ASUM Senate.

Other increases may be proposed at any time, for expansion of programs or services, or for cost increases beyond the anticipated "normal" inflation factor - and these will involve the usual endorsement process to provide evidence of student support.

Management of the University Center and Campus Recreation will be required to present a financial report to ASUM in October of each year.

This agreement shall be reviewed by all parties in Fall 2008 and at four-year intervals thereafter to determine its effectiveness.

Resolution to Support the Hiring of a Sustainability Coordinator

Whereas, there are several student groups that are working towards making the campus more environmentally sustainable;

Whereas, student groups would be more productive with a campus organizer to coordinate efforts, research and pursue grant opportunities;

Whereas, the Director of Residence Life, Ron Brunnell, has worked towards increasing energy efficiency in the dorms on campus;

Whereas, The University of Montana may be foregoing alternative revenue by not taking advantage of grant opportunities;

Whereas, Federal funds, in the form of grants, were made available in previous Congressional sessions to encourage projects that promote sustainability on campus;

Whereas, energy efficiency measures save students money by reducing wasted electricity;

Whereas, President Dennison created the Sustainable Campus Committee with the expressed purpose of increasing campus sustainability;

Whereas, after extended deliberation, the Sustainable Campus Committee has made the executive recommendation that the best way to increase sustainability on campus is to hire a full-time Sustainability Coordinator;

Therefore, Let It be Resolved that ASUM supports the Sustainable Campus Committee’s recommendation; and,

Let It Be Further Resolved that ASUM urges President Dennison to hire a full-time Sustainability Coordinator; and,

Let It Be Further Resolved that a copy of this resolution be sent to President Dennison and Executive Vice President Jim Foley.

Resolution to encourage The University of Montana
Change Oval Usage Policy

Whereas, at The University of Montana there is a want to allow for
more visibility for freedom of speech;

Whereas, The University of Montana's primary goal is to educate;

Whereas, the goal to educate in and outside the classroom should not
be hindered;

Whereas, protest and other demonstrations further the education of
contemporary issues;

Whereas, protests can add to the diversity of ideas upon the campus;

Whereas, the use of the Oval is limited under Facilities Use Policy
80.0;

Whereas, protests cannot unreasonably interfere with the classroom
instruction;

Whereas, the enforcement of prohibiting unreasonable interference
protects the right to an educational environment;

Therefore, Let It Be Resolved that ASUM encourages President Dennison
and/or
Executive Vice President Jim Foley to make changes to the Facilities
Use
Policy 80.0 by making the Oval a Free Speech Zone similar to the Mall
that would allow demonstrations on the Oval during traditional
classroom hours and would allow
disruptive demonstrations after that time and/or on non-academic days.

Therefore, Let It Be Further Resolved that this resolution be sent to
University of Montana President George Dennison, UM Event Planning,
and The Staff Senate President Michelle Crow, and
University of Montana Faculty Senate Chair Joe Crepeau.

Resolution in support of Mansfield Library’s Extended Library Hours

Whereas, the Associated Students of the University of Montana’s mission statement declares that we diligently work toward providing quality education for all The University of Montana;

Whereas, The University of Montana is committed to a program of equal opportunity for education;

Whereas, not every student on campus has a personal computer and access to the Internet;

Whereas, the rising cost of tuition is escalating the population of students without a personal computer and household Internet access;

Whereas, the Missoula community doesn’t provide a public affordable venue to access the Internet beyond the University of Montana’s computer lab hours and the Mansfield Library hours;

Whereas, student’s limited access to the Internet and its resources therein significantly disadvantage their opportunity for academic success;

Whereas, the Mansfield Library’s extended library hours offers 20 extra hours of general library access and more importantly internet access on a weekly basis;

Whereas, 6,425 users have attended Mansfield Library’s extended hours between January and March 2006;

Whereas, no negative incidents have been reported during extended hours at Mansfield Library;

Whereas, over 750 users have utilized the extended morning hours and over 5,500 users have utilized the extended evening hours at the Mansfield Library;

Whereas, the use of the extended hours at Mansfield Library has progressively increased from January 2006 to February and from February to March 2006, leading us to believe that use will continue to rise as the extended hours become more widely known;

Therefore let it be resolved that the Associated Students of the University of Montana support Mansfield Library’s Extended Hours Pilot Program and encourages the administration to continue funding the extended hours in perpetuity;

Let it be further resolved that a copy of this resolution be sent to the Interim Dean of Libraries Erling Oelz and the University of Montana’s President George Dennison, Vice President Robert Duringer, and Vice President of Student Affairs Teresa Branch.

Passed 4/19/06
Resolution Opposing Current Montana Department of Transportation Drafts of the Arthur Avenue Project

Whereas, the ASUM Resolution SB48-04/05 called for a public meeting in order for the student body and the general public to comment on the project;

Whereas, the meeting held in response to the above mentioned resolution was held in early April 2005;

Whereas, there was considerable student and public opposition to the Montana Department of Transportation (MDT) preferred alternative design of the Arthur Avenue project, specifically to the large size of the proposed road expansion;

Whereas, the road width proposed for Arthur Avenue between 5th and 6th Streets in the MDT preferred alternative design is 100 ft, which is wider than Reserve Street and would make the 5th and Arthur intersection the largest in Missoula;

Whereas, the current preferred alternative for the project will cause significant disruption of pedestrian and bicycle safety, decrease safety for pedestrians and bicyclists, and create an environment conducive to increased motor vehicle speeds;

Whereas, the ASUM Office of Transportation Board, after reviewing the draft environmental assessment submitted by MDT, has concluded that the draft environmental assessment has failed to adequately address the concerns of the student body and general public and has failed to meet all the specified goals of the project;

Therefore, Let It Be Resolved that the Associated Students of The University of Montana (ASUM) do not support either option proposed in the draft environmental assessment of the Arthur Avenue project submitted by the Montana Department of Transportation.
