Resolution on Segway Purchases

Whereas, students at The University of Montana are against misappropriated spending and gross misspending;

Whereas, the benefits of using Segway personalized motorized transportation devices are not significant enough to justify the purchase of these devices;

Whereas, the use of these devices are extremely limited by weather conditions during the academic year;

Whereas, the upkeep and maintenance of these devices is expensive;

Whereas, the Office of Public Safety's purchase of several new Segway personalized motorized transportation devices is an example of gross misspending;

Whereas, parking problems and parking efficiency on the campus of The University of Montana will not be resolved by this purchasing;

Whereas, a bicycle would be a sufficient and efficient alternative to these devices;

Whereas, any continued spending on personalized motorized transportation devices would be a continued example of gross misspending;

Therefore, let it be resolved that the Associated Students of The University of Montana (ASUM) disagree with the past purchase and discourage any future purchase(s) of personalized motorized transportation devices.

Authorized by: Eric Schultz, ASUM Senator

Sponsored by: James Greer, ASUM Senator

Passed with unanimous consent 10-11-06
