Whereas, the lighting in pedestrian areas on The University of Montana’s campus is insufficient;
Whereas, this insufficiency has raised safety concerns by students walking across campus at night;
Whereas, better lighting in pedestrian areas would assist in preventing assault in problem areas due to a lack of sufficient visibility;
Whereas, pursuing sustainable lighting options coincides with the President’s 2020 Carbon Neutral plan;

Therefore, Let It Be Resolved, that The Associated Students of The University of Montana 2012-2013 Senate applauds and endorses the current student Community Change Project Initiative to improve campus safety by pursuing more adequate and sustainable lighting on campus.
