12. ADJOURNMENT
Senate Meeting 8/27/14
Meeting called to order at 6:01

Roll was called:
   Absent: Dykstra and Forstag.
Approval of minutes: Ryan moved, chestnut seconded. Hohman unanimous consent was called. No objections.

Public comment:
1. LOL Club, Jule Olivieri – Invite to table at Welcome Feast, there will be an event called Team-O, and they will be having fun throwing pies with shaving cream. Hazen asked a question about throwing pie at McQuillan.
2. Archery Club, Jared Ryan – Changed venues to Five Valley’s archery. They are all very excited for this year. They will be at Welcome Feast with a table.
3. Montana Kaimin, Nick McKinney + Ric Sanchez – Thanking us for their support over the summer, and came to represent the Kaimin and talk about the resolution that is presented before us SB 004. First week of publication, and the ads are all up and right where they want to be for now. President Hohman asked them whether they feel there is some resentment towards ASUM in the office. President Hohman also noted that ASUM could have reduced the budget, and that ASUM is not forcing the Kaimin into anything.

Forstag came in at 6:08
President’s Report:
A. Welcome – President Hohman welcomed everyone that attended from the GSA.
   a. President Royce Engstrom will be reading the Oath of Office to Senator Andersen, and Senator Busch.
   b. Both Senators were sworn in
B. President Royce Engstrom – He welcomed all of the Senators and is looking forward to working with all of us throughout the year. He thanked us for our leadership and would like to maintain in close communication as well. There is a monthly breakfast meeting that he hopes to see some of us at in the future. Priorities that were set forth in the State of the Union Address: 3 very important studies going on this year: Academic Alignment and Innovation Program (led by the Faculty Senate – they will also need student Senators to sit on these committees too), Administrative Program Review, Financial Management Review led by Mike Reid (look at all financial practices as a University). Senator input is needed. University of Montana will also be having a lot of construction going on this year, Missoula College, Gilkey Center, Softball Campus on the South Campus, and the Student Athlete Academic Center. On October 10, University of Montana will have a grand opening of the lower level of the Native American Center that will have some really amazing features. They are also finishing an interdisciplinary science building. Private philanthropy will be pursued in a major way this year that will benefit future generations of students and faculty. He is putting in a set of priorities for private funding in the future. There were no questions or discussion.
C. Legal Counsel Lucy France – welcomed all of the senators, she has put together a University Operating Policy. There is a policy that students can go through in order to change University Operating Policy if they so wish. She also mentioned that there is a three year review policy. President Hohman also asked if she could explain a little bit about her job. She said that the first question that she asks herself is what is in the best interest of the student. There were no questions or discussion.
D. President of Graduate Student Association; – Special thanks to all of the Senators for hearing the proposal tonight, and President Hohman for helping them all throughout the summer. There is about 15 students right now of the Graduate Student Association. They are hoping to put together
a referenda to students to raise fees in order to provide a more sustained and consistent financial support to the graduate student body. He spoke about how they would love to strengthen the relationship between ASUM and the graduate student association. Their commitment is to support graduate students, through funding and support for the short term and long term.

a. Senator Heimlich-Bowler asked a question about how the fee affects the undergraduate population.
   i. He says that the graduate students directly help the undergraduate program. As you support the graduate students you are directly supporting the undergraduate programs that could potentially strengthen both groups. He says that research is also a significant thing that will be affected in the future.

b. Senator Meixner asked a question about how many undergraduates go on to become graduate students.
   i. He will get us that information later.

c. Senator Bart asked a question regarding the Four Bear Program, and whether the graduate program was similar to this University Program. He believes that the undergraduate population needs help figuring out mechanisms that could help them grow as students.

d. Vice President McQuillan asked a question about the majority of the 45,000 students at the University of Montana will be charged the $3 dollar fee, even though that $3 dollars will be only helping the graduate program.
   i. He responded saying that they will be serving the entire student body, because they do not want to be exclusive and want to meet the needs of the graduate student body.

e. Senator Story asked whether they would be willing to have an Opt - out fee similar to the Mont PIRG fee.
   i. They do not have the funds or the strength of a graduate class to settle for an Opt - out fee.

f. Senator Forstag asked whether the numbers for enrollment would incur a greater fee for students. (Something about $20 dollars – couldn’t hear)
   i. He is hoping to go to the Board of Regents in the future, and he is hoping in the future that graduates and undergraduates will be supported in the same way.

g. Senator Sewell yielded her time.

h. Senator Smith asked how they arrived at the $3 dollar number.
   i. Looked at overall programming and bringing in a speaker, travel grants, and looked systematically on what they need to provide to all students.

i. Senator Bart asked about what the $3 dollars will be for and thanked the GSA for coming.
   i. The President of GSA responded saying that Travel Grants from the University System was changing to a lottery system. This caused students to not know whether they could go to conferences, or work for the University and go nowhere with their publications. He wants to be able to always have money for travel allocation that will never change or be subject to budgetary issues. With a student initiated fee increase there will always be support for longevity of student programs.

j. Senator Frissel had a clarifying question regarding a Constitutional Referenda and how that works for the future.

k. Senator Fuson asked whether the $3 dollar fee increase will be able to sustain them for years to come or whether they will need another increase soon.
   i. He is hoping that this is a door way into grant support where they can be a self-sustaining entity.
1. Vice President McQuillan – commented on the graduate program and how they would only pay $12 while the undergraduate program would be paying $24 dollars.
   i. Most people in graduate programs are here for 3 years while doctorates take much longer. He believes if you could aspire to think differently than the returns on the investment will be far greater than the small amount of fee increase that will be derived from students.

m. Senator Forstag – (couldn’t hear his question again)
   i. He doesn’t believe that he is a student that imposes knowledge on to students. We are all people that is trying to better our entire University as a whole, and if we could improve one side of our University then it is systemic and will all be better.

n. Senator Smith – would like to ask whether we could have a breakdown of all of the budget of the GSA.

o. Senator Heimlich – Bowler asked a question.
   i. The $3 dollar will be affecting all of the student body as a whole.

p. BM Hazen – graduate student credits?
   i. You have to have 9 credits to be a full time. To be enrolled in a program you must have 9 credits.

q. Senator Frissel – asked when we will be voting on it to President Hohman.
   i. Next week if it passes through R &A.

r. Senator Sewell – asked about the stress factor, and activities that can or cannot be done because they do not have the money.
   i. This fee is for activities that cannot be done because they do not have money.
   ii. The money is going towards graduate students that can help benefit undergraduate students as well. If you support one, then you are supporting the other.

E. Vote on Operating Procedures
   a. President Hohman asked for any objections.
   b. BM Hazen asked for a roll call vote.
   c. Support: All but BM Hazen 25 – 1

F. Other: President Hohman will be leaving at 8:25 to speak at Convocation.
