Fifty students earned a straight-A average for spring quarter at Montana State University, Missoula, according to Registrar Leo Smith. A total of 379 students placed on the honor roll, he said.

A straight-A average means that a student has earned a grade index of 4.0. The index is figured by multiplying the number of credits a student carries by the number of grade points he earns and dividing by the number of credits. The grade A is given four grade points; B, three; C, two; D, one; and F, none.

To be eligible for the honor roll, a student must have either a minimum of 54 grade points with an index of 3 or a minimum of 42 grade points with an index of 3.5.
