Art Education in the 21st century is a process and product of historical considerations, philosophies, practices, educational research, and trends in the worlds of art and visual culture.

COURSE DESCRIPTION FROM CATALOGUE
Preparation for art specialists to include history and current trends in curriculum development, teaching procedures, child growth and development in art, resources, evaluation, advocacy and directed teaching experience in a school setting.
COURSE UNDERSTANDINGS (Synonymous with course objectives / targets / outcomes)

1. Develop an understanding of the relationship between socio-culture diversity and student learning, including aspects of identity such as age, developmental and physical ability, race, ethnicity, socio-economic status, sexuality, indigenous background, nationality, and gender.

10. Reflect on professional practices and demonstrate commitment to fulfilling responsibilities set forth in Core Values: Professional and Interpersonal Competencies.

COURSE OUTLINE

The course outline is basically listed below, beginning with Week 1: Community and Vocation. Be forewarned that a course outline is a document in process; it evolves responding to students’ needs and the scheduling needs of instructor.
CRITERIA FOR SUCCESS

All coursework will be evaluated in self / peer / faculty format via essays, rubrics, and/or tally charts. Evaluators will vary depending on assignment. If only a self-reflection is required, I will review your reflections and override your evaluations if necessary. Final grades are determined on a percentage basis. NASAD requires five hours additional outside of class per week in addition to the four hours we meet in class. (1 credit = 3 hours of study per week for 16 weeks. A 3 credit class = 9 hours a week of study. We meet 4 hours a week, which leaves 5 hours of homework per week.) This is a demanding course, as is the profession of teaching. If you’re not up to the challenge and fueled by passion and dedication, you might want to consider another occupation.

80% Assignments
This portion includes homework and in-class assignments. Detailed evaluations and reflection questions will accompany all assignments. Assignments will support the development of curricula for your elementary, middle school, and high school teaching experiences.

20% Community Development
This includes class participation (verbal and physical), work habits with a positive attitude, daily and semester’s end room care, and community building games and activities.

The total will be added and the percentage of points earned will be assigned letter grades as follows:

100 - 94 = A, 93 - 91 = A-, 90 - 88 = B+, 87 - 84 = B, 83 - 81 = B-, 80 - 78 = C+, 77 - 74 = C, 73 - 71 = C-, 70 - 68 = D+

SEMINAR
Candidates are expected to be prepared for seminar. This looks like having notes
and questions from the readings or printed-out copies of the readings with notes in the margins in front of you when seminar begins.

ISBN 0 8077 4371 2

ISBN 0 8077 369 0

Additional supplies may be requested as needed.
STUDENT CONDUCT CODE/CLASSROOM CONDUCT

- All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The code is available for review online at http://life.umt.edu/vpsa/student_conduct.php.

- Students may not use headphones or ear buds during class time. This is to build community between one another and to learn from conversations occurring around you as you work. I also encourage you to walk around the room to look at other students’ works to learn and grow.

- Students should wear clothing to class that they feel comfortable staining. (Feel free to wear an apron in class.)

- Cell phones should be put away while class is in session. They may be occasionally used for educational purposes only, such as photographing work (if no model is in the room), looking up information, or adding a due date to your calendar, etc. If students need to access phones for an academic purpose, a verbal announcement stating the purpose of use must be stated to the entire class. Texting and calling may take place before and after scheduled class times.
Students are expected to arrive on time and be in class. All absences, regardless of cause (sleeping in/travel/medical emergency/family emergency), follow the following guidelines:

- Two absences/late arrivals/leaving early: No grade change
- Three to four absences/late arrivals/leaving early: One full grade drop
- Five to six absences/late arrivals/leaving early: Two full grades dropped
- More than six absences/late arrivals/leaving early: Retake course

**FINAL EXAM / MEETING**

Our final meeting is scheduled for Monday, December 10 from 3:20 – 5:20. This meeting is required. Student attendance follows the above policy.

**DUE DATES**

Work is to be typed and submitted in paper format (not e-mailed) unless otherwise noted. Late work is not accepted. If you predict an absence, submit assignments early. This policy comes with a caveat: students may revise assignments post-deadlines to improve their grades. This must take place within one week after the deadline. Both dates need to be included on the assignment.

**LEGIBILITY AND LABELING**

Label all class assignments with your name. Label artwork on the back. Written materials should be presented in a legible and professional format. Papers must
be typed.

Begin a computer file and labeling system that will allow you to find curriculum and lesson plans you develop. I recommend that you develop the habit of revising lesson plans after class/critique/teaching so that they are ready for use in future years. Many new teachers are asked to show lesson plans as part of the interview process. A series of smart, attractively presented lesson/project plans is an essential component of your job search portfolio and your readiness to teach when you get your ideal job.

**WRITING**

Well-written papers and lesson plans are required for this course. Check written work carefully before submitting it. If you are not a strong writer, please make use of The Writing Center at UM. A tutor will help you to improve written assignments and thus help you to develop the writing skills you need as a professional educator. [http://www.umt.edu/writingcenter/](http://www.umt.edu/writingcenter/)

Throughout this course, we will identify some common writing errors. You are expected to remediate these as they are covered. Remember, someday your writing will be a part of the process by which you are hired and evaluated.

Ways to get started:
- Study up on gender-biased free writing. (“Their” is not a gender-neutral substitute for singular possessive referring to a student. What can you write instead?) Which is correct? “The teacher that got a job...” or, “The teacher who got the job...”? Why?
SPECIAL NEEDS

Students with special needs should contact me within the first two weeks of the course. Please communicate with me regarding learning styles/disabilities so we can create a learning plan together for your success in this course; I simply need to be informed. Disability Services provides support for students who are in need.

WHY DO I NEED LESSON PLANS?
Good lesson plans avoid teacher burnout: conserve energy.
Good lesson plans save time: specificity of directions.
Good lesson plans avoid discipline problems: clear expectations for method and production.
Good lesson plans increase focus and complexity: nuanced spaces for investigation and play.
Good lesson plans enhance individuality: teacher time is spent in supporting idiosyncratic thinking, not in re-teaching basics.

Opening one’s artistic practice to others
Congruence between form, content, and technique

DEVELOPING PROJECTS IS HARD – WORK WITH A PARTNER
Matching art and artists to a generative theme/enduring idea
Brainstorming project ideas
Specifying the potential of what is to be investigated
Identifying workable and appropriate techniques and processes
Making art together; don’t just talk about your ideas with your partner
Revise project based on what you have learned. Begin again if necessary.
Reality check: would a real artist use this process? Why?
Is there a reason why 100 (or more) of these should exist?

STEP-BY-STEP VISUALIZATION
Make a fabulous teacher sample—if you can’t make a convincing project, who can?
Reality-check planning (teacher time, materials, and skills)
Clearly specify conceptual, aesthetic, and technical objectives—not just what the students will make, but why.
Avoid stunned and motionless silences (followed by discipline problems) at the beginning with clear, interesting Start-Up activities.
Space and time logistics—especially plan to avoid bottlenecks.
Keep everyone busy—all of the time!
Create strategies for giving absent students the missing information: triads, poster, information sheets, etc.
Set up. Clean up.
Closure: evaluation and display.
