COURSE DESCRIPTION
This course explores how the relationship between human societies and the natural world has been influenced throughout history by various thinkers and ideas. We also consider how nature itself and our ability to manipulate it has influenced society, and in turn, environmental thought. Thus, we examine ecological and biogeographical constraints and ways humans have culturally adapted in attempting to surmount those limits. We explore Western (Euro-American) environmental thought from prehistory until today. To help us understand its distinctiveness we also touch on some contrasting nonwestern perspectives. We necessarily are only able to give limited attention to the various ages, even within the western tradition, and thus, environmental thought and developments of many societies and civilizations are not covered.

Nevertheless, we will examine major paradigmatic shifts and strive to understand how environmental thought has affected the way different societies have viewed nature, their place with respect to the natural world, and in turn, their interactions with it. By exploring that theme, we will also see connections between ideas, writers, and thinkers of the past and the current global environmental crisis. We will ponder if the answers to a more sustainable, prosperous, and just society in the future reside in history and its lessons, or whether we will need to forge new ideas, sensibilities, and ways of relating to each other and nature. Students are encouraged to explore their own connections with the past, develop principles and values that have personal meaning, and contemplate their place in nature and society.

OBJECTIVES
Upon completion of this course, students should be able to:

1. Articulate the distinctive ideas, and social and historical contexts, of influential thinkers and their writings about the role of humans in relation to the natural world.
2. Think critically about the effects of such views on different societies’ interactions with the natural world.
3. Recognize the importance of other historical factors, particularly scientific advancements, technological developments, and changes in social organization.
4. Synthesize ideas and events that led to several major paradigmatic shifts, from pre-history to the present, regarding dominant societal views of the place of humans in nature.
5. Analyze current environmental issues utilizing historical ideas, thinkers, and events.
6. Articulate their personal perspectives on human-nature interactions in relation to historical ideas, thinkers, and events.
TEACHING ASSISTANTS

Jim Giese: james.giese@umontana.edu; Office: Rankin M-2
Arza Hammond: arza.hammond@umontana.edu; Office: Rankin M-1C
Nick Littman: nicholas.littman@umontana.edu; Office: Rankin M-2

REQUIRED TEXTS

ERES Readings: Electronic Reserve and Hard Copies on Reserve in the Mansfield Library

REQUIREMENTS

• PLEASE TURN OFF ALL ELECTRONIC DEVICES DURING CLASS
• Regular class attendance and participation that demonstrates a grasp of the reading assignments
• Short critical response essay on Ishmael
• Weekly 2-page response essays to the readings
• Written midterm and final exams
• 5 hours of “ecological immersion” and reflective essay
• Final essay synthesizing learnings from the course

CLASS MEETINGS AND FORMAT

Class meets Monday, Wednesday, and Friday from 10:10–11:00 am. On Monday and Wednesday we meet in University Hall 210. Most Fridays the class will be divided into smaller activity sections, which will meet separately with either the instructor or one of the teaching assistants. Your class location and teacher for Friday class will be announced in class the first week. Readings not listed in the course schedule may be assigned for Friday sections by your teacher (see Electronic Reserves). Quizzes, in-class writing and reading, discussion, and other activities will occur on Fridays and will usually, but not always, cover material, ideas, and questions raised during the week. Special assignments for sections can also be expected.

ASSIGNMENTS AND CLASSES

Final Learning Synthesis Essay Due in class

5/10 F 41 Section Meetings: Review for Final Exam

Final Exam Period: Monday, May 13, 10:10-12:10, UH 210
Grading Policy

1. *Ishmael* critical response essay: 10%
2. Participation in the Friday sessions: 10%
3. Weekly response essays to the readings: 15%
4. 5 hours of Ecological Immersion and essay: 10%
5. Midterm Exams: 30% (15% each)
6. Final “Learning Synthesis” Essay: 10%
7. Final exam: 15%

**Note Re Papers:** Papers are due in class on or before the date listed in the syllabus. Unless you have made a prior agreement with me, I will take off one grade level (A becomes A-) for each class day an assignment is late. **Note:** Email submissions will not be accepted; paper copies only. Papers with an undue number of errors of punctuation, spelling, or grammar will be returned ungraded for correction and the final grade will be marked down one full letter grade. Written work will be evaluated in terms of your depth of critical analysis, thoughtfulness of reflection, clarity of writing, and ability to address issues raised in the text and in class on the topic at hand. Grades given reflect the following criteria of judgment:

- **F:** Failure to meet minimum requirements
- **D:** Unsatisfactory, but some effort to meet minimum requirements
- **C:** Satisfactory; meet minimum requirements of assignment but not much more
- **B:** Good to Very Good: thoughtful reflection, good analysis, clear writing style
- **A:** Excellent depth of critical analysis, thoughtfulness of reflection, and writing style; demonstrate creativity and mature analytical skills in going beyond the primary requirements of the assignment

**Note:** Final Grades will be recorded using pluses and minuses.

**Attendance:** Regular attendance and participation in the class is expected. More than four (4) absences will result in losing any benefit of the doubt on your final grade. More than seven (7) absences will result in one grade reduction. More than ten (10) absences will result in a failing course grade. Late arrivals in class will count as an absence. **(Note: I do not distinguish between excused and unexcused absences in totaling your number of absences. If you have a valid reason for missing several classes, such as illness or other conflicting commitments, you still must speak with the instructor.)**

**Cellphones & Electronic Devices:** Please turn off all cellphones and electronic devices during class time. Students who text or use electronic devices during class will be asked to leave and counted as absent for that class.

**Academic Dishonesty and Plagiarism:** All work submitted is expected to be the student's own. Any acts of plagiarism or academic dishonesty will result in automatic failure of the course, and may result in further academic punishment. If you have any doubts about definitions of plagiarism or academic dishonesty, please review the relevant sections of the University Catalog.
**WEIGHT AND TIMELINE OF ASSIGNMENTS**

The total number of points available for class assignments is 500 points. There are no extra credit points available (so please don’t ask).

In order of due dates, the assignments are:

**DESCRIPTION OF WRITTEN ASSIGNMENTS**

1. *Ishmael* critical response essay (10%): Write a 5 page, typed, double-spaced critical response to Daniel Quinn’s novel, *Ishmael*. Much of your essay should be a thoughtful exposition and summary of the main points in the book. Then consider some of these questions: What are his main arguments in the book? What do you see as the strengths and weaknesses of Quinn’s arguments, and why? What do you see as some of the central insights you have gained from the book, and how do they help you to think about cultural views of and responses to nature and the environment? Would you recommend this book to others? Why or why not? (Note: Your essay must contain specific references to and relevant quotes from the text to support your exposition and argument. Your audience is someone who has not read the book.). *(Paper Due: Feb 13)*

2. Weekly Response Essays: Your main job to prepared for the participation portion of this course is to do each assigned reading thoughtfully before class and then to help us discuss it in class, particularly the Friday sessions. To help you think critically about what you read, write a short two page response essay where you identify and discuss two to three points from at least one the weekly readings that you find interesting, important, or provocative. You might:

   - Identify points you disagree or agree with in the readings that you would like to discuss;
   - Relate the material to something you read or experienced elsewhere;
   - Make comparisons between the ideas of different authors;
   - Identify questions or difficulties you had with the reading.

   Turn in your essay to your Friday instructor at the beginning of each *Wednesday* class session starting the week of *Wednesday, February 20*. Your essays should be typed and double-
spaced and proofread for writing errors. Please note at the top of the essay which reading(s) you are responding to in the essay. They will be evaluated by: check-minus (needs more development); check (satisfactory to strong; could be developed further); check-plus (excellent and insightful). Your 6 strongest responses will be used to calculate your grade for this assignment. Check-plus = 11-12 pts, check = 9-10 pts; check-minus = 8 pts; 3 bonus points available for completing all 7 response essays. Late papers will not be accepted.

The purpose is to help you do the reading well and to prepare for the Friday discussion sessions where we will all share our ideas about the reading. You should be prepared to speak about your ideas or questions during the class discussion (We may select interesting questions from the sheets and identify you as the author, so please come to class prepared to discuss what you have written down!). These papers will also let us know what you are thinking about or struggling with. You should have a conversation with what you read. Talk back to it! Be an active reader!

3. Ecological Immersion Exercise and Essay: Each class member should do a minimum of five hours of "ecological immersion" -- participation with a group or in an activity focused on environmental issues. We will discuss various possibilities during the Friday session on February 25; you are also free to choose your own activity (just run it by your session instructor first). Check the Conservation Calendar on the EVST website at www.cas.umt.edu/evst/events_calendars.htm for possibilities. After you have completed your 5 hours, write a 3-page reflection/analysis paper describing the activity and analyzing the underlying ethical and philosophical values and assumptions you observed within the group and/or individuals. Can you place the approach(es) and philosophies within the different ecological perspectives we explore during the semester? (Due: Monday April 29)

Note: All ENST 230 students should subscribe to the EVST Undergraduate News listserv for the semester to receive weekly information about EVST activities. To subscribe or unsubscribe send an email with no message to:

List-Subscribe: mailto: EVSTUNESW-subscribe-request@LISTS.UMT.EDU
List-Unsubscribe: mailto: EVSTUNESW-unsubscribe-request@LISTS.UMT.EDU

4. Final “Learning Synthesis” Essay: The assignment is designed to help you synthesize what you have learned throughout the semester by reflecting on your own views in light of the course materials. The specific directions will be handed out and discussed in your Friday section on April 22nd. The essay itself is due on Wednesday the final week of classes. (Due: Wed, May 8)

5. Midterm and Final Exams: These are 50-minute exams that cover material from the first, second and third portions of the semester. The format of the exam will include multiple choice and short answer identifications to cover basic content you should know, as well as essay questions to assess how well you are able to integrate and reflect on what you are learning. Review sessions will take place on March 1, March 22 and May 10. Midterm exams: March 4 & March 29; Final exam: May 13th 10:10 am – 12:10 pm. Note: No makeup tests for these dates will be allowed without signed official documentation and advanced consent of instructor.
Participation grade: Your participation in the Friday sessions is worth 10% of the final grade in the course, and is based on your attendance, active participation, your timely completion of section assignments, and the quality of your work for those assignments.

**ERES**: To access the ERES readings:

a. Go into http://eres.lib.umt.edu/
b. Click on Electronic Reserves and Course Materials
c. Under Instructor, find and select SPENCER, Daniel
d. Click on the course name: ENST 230.
e. Enter the password, "nature"
f. The first entry, "Reading List," is a Table of Contents. The rest of the readings are entered in the order we will discuss them. The readings are in PDF format.

**Important University Policies, Dates and Deadlines**: See the Calendar page in Cyberbear for a list of important dates for **Spring 2013**: http://www.umt.edu/registrar/calendar.aspx

**Credit/No Credit Grade option**: A minimum grade average of D- (60) is required for a CR grade in the CR/NC Grade option.

**Incomplete Grade**: Please see the criteria that must be met for an Incomplete in the University Catalog. No exceptions will be made for these criteria.

**Learning Disabilities**: The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). If you think you may have a disability adversely affecting your academic performance, and you have not already registered with DSS, please contact DSS in Lommasson 154. I will work with you and DSS to provide an appropriate accommodation. For more information, please consult http://www.umt.edu/disability.
