Central Board Minutes
February 19, 1956

The meeting was called to order by President Jystad.

FOOTBALL AWARDS
Jystad read the names of those recommended by the Athletic Department for awards in Freshman football. Fowler moved these names be accepted. Bayley seconded. Passed 7-1. (Leuthold) Jystad read the names of those recommended by the Athletic Department for awards in varsity football. Fowler moved they be accepted. Bayley seconded. Passed 7-1. (Leuthold).

ATHLETIC BOARD:
Jystad reported on the meeting of Athletic Board. The Skyline conference regulations for the awarding and earning of letters are such that each school draws up its own requirements. It was suggested in Athletic Board meeting that the old method of awarding letters (before joining the Skyline) be again put into effect. The board is considering this proposal and will again report to Central Board.

PAYMENT OF ASMSU OFFICERS
Jystad presented several arguments for the payment of the ASMSU officers. These points are: It would not lower the prestige of the officers; many students must work part-time while attending school - and these students would be made ineligible for the positions because of their working; the officers might feel more obligated to attend to their duties; the students might take more interest in their student government. Jystad said that he thought that a scholarship was not appropriate for this case.

ELECTION FOR JUDICIAL COUNCIL
Crawford gave each Central Board member one list of groups to call informing that group of the meeting of the precinct chairman, and explaining the petitions and applications for the judicial council. Crawford announced the Primary for the election of the Judicial Board Chairman to be on March 1, and the General Election on March 8. It was also emphasized that the petitions are due on February 27. The applications for membership on the Judicial Council are due March 2. The students will be interviewed on March 3. There will also be interviews of those who have applied to that time on February 25.

NSA
Jystad told that he believes the NSA organization can contribute greatly to making our student government more effective on this campus. Jystad pointed out that the NSA has travelers who regularly visit the campuses of member schools, aiding them in solution of their problems; the organization has large files of information on student government, the problems of student government, ideas and information on improving situations, etc.; the cost of joining and belonging to the organization would be about $350; the member schools are a part of the universities of the world, and the NSA organization strives to constantly remember this, and work toward understandings in this area; the organization strives to train in world problems. It was decided that the Central Board members would study the information which we now have about the NSA organization, and more information would be requested.
CENTRAL BOARD MEETING TIMES
The meeting time for Central Board has been changed to Saturday mornings from 9 to 12.

GOLF COURSE
Beatty reported that the golf course committee now has five faculty members and two students. Beatty said that the committee would like more student representation on the committee. John Boil, Jack Peterson, Barbara Tascher, Wayne Linnell will be contacted by Beatty to determine if they are interested in serving on this committee. A report will be given next meeting.

CONSTITUTIONAL AMENDMENT
Leuthold reported on the proposed ASMSU PLANNING suggestion for the changing of the membership of Central Board. He said that the quorum requirements would have to be changed. He also pointed out that the problem of initiating this new system would present complications— for there are no carry over members now as the system requires, and those on Central Board now who are to be carry over members under the old system (present system), would also present problems of determining what type terms they should serve. Leuthold pointed out that the constitutional amendment and the election of the members are contingent upon the same election—and this presents problems. Jystad suggested that if the amendment passed at the general election, a second election electing the new members to the board could be held. Lambros suggested that this spring the amendment be handled as any ordinary amendment would be voted on. Then next fall, he suggested, the additional members could be elected and the new system initiated—if the amendment passed in the spring elections. This will be discussed further next meeting.

Respectfully submitted,

Ann Crocker
Secretary, ASMSU

Hayley, Leuthold, Erickson, Fowler, Lambros, Crocker, Beatty, Jystad, Crawford, Riddle
