Course Objectives
ANTIY 451 will provide students with a full understanding of the world of cultural resource management (CRM). Students will learn the pertinent laws, agencies, and procedures of CRM. What are cultural resources? What does it mean to manage them? Why do we need to manage them? Students will learn about CRM via video lectures, web sites, videos, and readings. ANTY 451 is an Upper Division writing course and will require students to effectively present their ideas/knowledge both visually and in writing. Information literacy is expected of students, meaning that you will need to know how to use the library and online data sources to conduct research. By the end of the course, students will have a strong understanding of what it takes to be a cultural resource manager and will have enough information to determine if this is a potential career option.

Course Requirements and Assignments
Students will take an online quiz or an exam almost every week. The week 1 Moodle Tutorial is worth 5 points. There are 8 short-answer quizzes, each worth 15 points (120 points total). There are two exams (midterm and final), each worth 100 points (200 points total). The major project for the semester is to prepare a research paper (140 points) and an associated visual presentation (35 points). A draft of the paper (40 points) is due October 31, while the final paper (100 points)/presentation (35 points) is due December 14. The final paper assignment is to write about cultural resource management in a state, tribe, or world nation. Details of the final paper assignment are posted in the assignments section of this class’ website. There are 500 total points available, with grading based on a standard percentage of 100 (e.g., 360 points is 90% and is an A-).

There will be forums for class participation on Moodle. You can ask me questions in those forums, as well as converse with your fellow students and myself. While participation in these forums is not required, those who do participate will be rewarded in final grading (informal extra credit). For example, if you have a class average of 89% and you participated regularly in forums, you will be bumped up to an A- in final grading.

Since this is an online class, we will use Moodle for weekly topics, course announcements, grades, videos, readings, and the posting of lecture and exam/quiz study notes. All quizzes and exams will be taken on Moodle. Papers and presentations will also be submitted/uploaded by students via Moodle. The course gradebook will be kept in Moodle. Forums will be operated through Moodle.
