Course policies

Exams: All exams must be taken at the assigned time for your section, unless you have my written approval prior to the exam. Material covered on the exams will come from class lectures, class handouts, and the textbook. Exam questions may also be taken from CPA review materials (Accounting and Reporting section of the CPA exam), so students may find it helpful to purchase a CPA exam study guide.

CAFR assignment: You must obtain the most recent (2001 or 2002) CAFR (comprehensive annual financial report) of either a state or a city in the US. Questions from the text will be assigned for students to answer. No two students may select the same CAFR. Sign-ups will be on a first-come basis beginning on Wednesday, September 11. The CAFR assignment is due Monday, December 9. More details will be provided in class regarding this assignment.

Current events assignment: You must find and evaluate newspaper, magazine, or website articles on topics discussed in class. The written portion of this assignment is due on Monday, December 2. In-class presentations will be given during the last two week of class. More details will be provided in class regarding this assignment.

Student responsibilities: It is your responsibility to prepare for class by reading the assigned text material and attempting to answer the homework questions before they are discussed in class. You are expected to be a contributing member of the class. It is also your responsibility to monitor your progress in the class and to attend office hours if you do not understand the material.
