\$18,700 NSF GRANT AWARDED FOR RESEARCH IN FREEZING

MISSOULA---

55

A National Science Foundation grant of \$18,700 has been awarded to the University of Montana Foundation, Missoula, for research in freezing. Dr. George Woodbury, assistant professor in the Department of Chemistry at UM since 1966, will direct the study.

The study involves calculating and analyzing intermolecular forces responsible freezing. Computers will be used in the study.

The grant is effective June 1, 1968, for a period of two years:
