FORESTRY SCHOOL RECEIVES BOOK LOAN

MISSOULA--

The University of Montana Forest and Conservation Library has received 42 volumes on loan from the Dr. R.R. Parker-Dr. Gordon E. Davis Library in Hamilton.

Mrs. Irene Evers, forestry school library, reported the volumes were collected, arranged and loaned to the library by Dr. William L. Jellison. Dr. Jellison is a retired researcher from the Rocky Mountain Laboratory in Hamilton.

In 1961, Dr. and Mrs. Jellison opened a studio-library complex in Hamilton to build up a center of bibliographical material on science in the Bitter Root.

Dr. Jellison uses the complex to collect and arrange scientific materials while Mrs. Jellison runs the art studio. Mrs. Jellison is also an artist and several of her paintings are on display in the studio.

The Jellisons moved to Hamilton in 1929 and have collected bulletins, reprints, leaflets, books and papers on wildlife biology dating from 1901.

Mrs. Evers reports some of the volumes in the collection loan to the library date back to 1901. She said the collection will be placed on a separate shelf in the library for recognition of the Jellison's contribution to education.
