Tape subscribers:

Enclosed is the first offering of the new season for University of Montana tapes.

Bill Schwanke, the sports information director talks about the Grizzly football team and its elevator season.

I produced the other, and it contains excerpts from a speech given by former Harlem Congressman Adam Clayton Powell at the University last week.

Instead of trying to build news feature tapes from nothing as we had to do a few times last year, we will send news tapes only when an event occurs on campus which we feel merits tape coverage.

There will, however, be a five minute sports tape weekly for everyone on the network.

After airing, please return the tapes as quickly as possible because we do have a limited number of blanks and a low number of tapes per station.

We will record the return of each tape and if a station fails to send back tapes enough to keep the circulation moving, no more programs will be sent to that station until previous tapes are returned.

Again, any comments or questions are solicited and gratefully received.

Welcome to the network.

Sincerely,

Jim Eggensperger,
Assistant News Editor
