PHIL 110: Introduction to Ethics, Velasco

Class Info and Office Hours:
- Dr. Melodie Velasco Stenger, melodie.velasco@msou.montana.edu
- Office: Liberal Arts Building Room 147
- Office Hours: 1-2pm Monday/Wednesday/Friday and by appointment

Teaching Assistant:
- Toryn Rogers, toryn.rogers@umontana.edu

Course Description:
This course begins with the meta-ethical task of defining and situating the Self via the work of various essayists, creative writers, philosophers, and psychologists (including Virginia Woolf, Garcia Marquez, Camus, Erik Erikson, Descartes, Hegel, and Lawrence Kohlberg). It then takes up four major ethical theories (virtue, deontological, consequentialist, and care ethics) as presented by Carol Gilligan, Aristotle, Kant, and J.S. Mill. The central line of questioning connecting both halves of the course is how one’s ethical outlook relates to one’s understanding of both Self and Other. Limited consideration will be given to contemporary ethical debates, though there will be some focus on animal and environmental ethics. This is a lecture course with a conversational tone that makes considerable use of Moodle. Weekly reading journal assignments and frequent tests are required.

Learning Outcomes:
As an introductory philosophy course, this course will coach students to attain, at minimum, an ability to read exceedingly complicated and nuanced texts; this ability is not presupposed. The excellent student, however, will surpass this skill if she attains the ability to write in such a way that her complicated and nuanced understanding—her reading of the text—is communicated in a clear and persuasive fashion. As an introductory ethics course, this course uses the self-development of the traditional college-aged student within broader society as its touchstone. The excellent student will discover that the sensitivity and responsibility required by successful reading and writing is also required by successful ethical exchange between self and society.

At the conclusion of this course, the successful student will be able to:
1. Demonstrate habits of a successful reader (vocabulary, marginalia, Spark Points).
2. List and define the chief parts of a Problem Synopsis and an Argument Analysis;
3. Define each of the Key Terms identified in each lesson’s Text Map;
4. Recognize and identify the outline of an argument within a text;

The excellent student will, in addition, be able to:
1. Critique the argument or a sub-argument in a given portion of text;
2. Formulate a counter-argument in response to a given text’s argument;
3. Construct a clean and organized prose presentation of a counter-argument, once formulated.

Texts:
I require the following editions so that everyone has the same text. Do not wait to purchase these; do it now.

Additiónally, these two texts are optional:

Finally, PDFs of additional individual readings will be made available on Moodle. *I require that you print these pdfs instead of trying to read them on the computer.* To facilitate this, I have compiled all readings into one file that you can easily print all at once.

**Requirements:**

**Spark Points/Burning Questions (25% of final grade):**
Upon completing each reading assignment, each student shall post at least one and not more than three Points on the appropriate Moodle discussion board, usually before Saturday at 11:55pm. In no more text than will fit on one side of a 3x5 card, each SP should contain three parts: A quotation from the reading assignment that grabbed the student’s attention, typed in full; a specific citation that allows that quotation to be located in the text, and a question about the quotation. (The question, “is this what this passage says [restatement in your own words]?” is a valid question, as is “how does this passage compare to this other passage?”)

- Additionally, a student may choose to post one of these three Spark Points on the Burning Question Board (usu. due Monday at 11:55pm). This chosen point should be substantive, i.e., could serve as the basis for further inquiry and examination. (Please also see “The Right to Write” under “Policies.”)
- **Grading:** Only Points with 3 parts (quotation, citation, response) will be graded. One Point per assignment earns a C; 2, a B; 3, an A. A submission to the Burning Question Board will raise the grade of the assignment by one +. *Also note that the “Introduction” and “Reflection” boards count towards this grade, graded A/0.*

**Tests (50% of final grade):**
These 7 closed-note, technology-free Tests will consist of:

- A set of 10 multiple choice, true/false, fill-in-the-blank questions along with space to detail or explain your answers if you choose to do so;
- An essay question about the current reading assignment, to be answered in ~200 words.
- **Grading:** Part (a) will together receive a stepped letter grade (A, A-, B+…); part (b) will be graded as P (increasing the grade of part (a) by one step, e.g. from a B to a B+), U (decreasing the grade of part (a) by one step, e.g. from a B to a B-), or E (increasing the grade of part (a) by two steps, or one full letter.)

**Final Exam (25% of final grade):**
During Final Exam week, on *May 10th at 10:10a.m. -12:10pm*, a Final Exam will be administered. The Final Exam will consist of approximately 75% questions taken from previous exams and/or study guides. The remaining questions, including a final essay question, will be new.

- **Grading:** The Final Exam will receive a traditional stepped letter grade with the final essay question raising or lowering that grade as on the Tests.

**Evaluations (0% of final grade):**
Participating in periodic evaluations will:
g. Improve your metacognition of your own progress in the course, thereby improving your experience in the course;
h. Improve my understanding of how to teach this particular group of individuals, thereby making our course more dynamic and engaging;
i. Assist you in learning to give quality feedback, which is an important professional skill no matter your profession.

Policies:

The Right to Write:
Students who have submitted at least one Spark Point on the Burning Question Board may submit a letter of request by April 24th petitioning for the chance to write a Philosophical Paper (due 5/12 at 11:55p.m.) instead of taking the Final Exam (5/10). This letter should consist of:
  a. The Spark Point from the Burning Question Board upon which the paper shall be based, presented in full;
  b. A brief and tentative Problem Synopsis and Argument Analysis of the proposed paper;
  c. A self-assessment wherein the student evaluates him or herself against the Learning Outcomes enumerated on page 1 of this syllabus.

Tests (make-ups and re-takes):
If you miss or do poorly on a Test, you may design and take your own version of the Test (using questions from the actual Test is not allowed.) The burden is on you to demonstrate that you have understood the material; you will be graded not only on what your present, but also on any glaring omissions. These make-ups/re-takes must be submitted via email as soon as possible (definitely before April 29th at 11:55pm), and will not be returned unless requested at office hours. This policy was designed out of consideration of you; please employ it in consideration of me, and do not submit all seven Tests on April 29th.

Academic Honesty:
All students must practice academic honesty. Academic misconduct is subject to an academic penalty by myself (which often becomes its own lesson about the ethics of plagiarism) and/or a disciplinary sanction by the University. Make-up and re-take Tests may be screened by various plagiarism-screening websites. For more, please review the University of Montana Student Conduct Code: (http://www.umt.edu/vpsa/policies/student_conduct.php).

Technology:
The use of mobile phones is not permitted in class. Students using phones will be asked to leave. I strongly discourage students from using laptops or tablets to take notes. If you would like to hear more about why, please visit me in office hours. If you feel strongly about using a laptop to take notes, please be courteous by sitting in the very back of the classroom.

Accessibility:
Students with disabilities will receive reasonable accommodations. Please place your request with sufficient advance notice and be prepared to provide verification of disability and its impact from Disability Services. If you are going to take the Final Exam at DSS, please schedule it well in advance. As Disability Services for Students website at www.umt.edu/dss/.
