DALE L. STAGG WILL TEACH
IN SALT LAKE CITY

MISSOULA--

Dale L. Stagg, 24, a graduate assistant in physical education at the University of Montana, will assume his new position as teacher of health and assistant coaching at South High School, Salt Lake City, Utah, 1969-70.

Stagg is the son of Mr. and Mrs. Charles E. Stagg, 448 Kensington Ave., Salt Lake City.

During this summer Stagg has instructed a new youth recreation program on the Missoula campus. The program began June 23 and will continue through Aug. 22.

The program, for boys and girls 8-12 years old, attracted children of faculty, students and the public.

Stagg conceived the program with David A. Dainty, a UM graduate assistant from Toronto, Ont., Can., and Gordon S. (Don) Morris, who was a graduate assistant at UM last spring. Stagg will continue the program the remainder of the summer.

The program, termed "excellent" by Stagg, includes activities as gymnastics, soccer, volleyball, badminton, swimming, punch ball and push ball.

Stagg expects to receive his master's degree in physical education at UM in spring of 1970 following the completion of his thesis on the relationship of aerobic and anerobic capacities to performance in running.

Stagg's long-range plans include college coaching. Stagg received his bachelor's degree from Weber State College, Ogden, Utah, in 1968.

He is married to the former Carol Ann Custick, a native of Salt Lake City. The couple has one child.
