President.

A. B., Cornell University, 1892; A. M., Harvard University, 1894;
Ph. D., Harvard University, 1897; Instructor in History, Harvard Uni-
versity and Radcliffe College, 1896-97; Assistant Professor of History,
Leland Stanford, Jr., University, 1897-99; Associate Professor of His-
tory, Stanford University, 1899-1908; Associate Professor of His-
tory, University of California, Summer School, 1906; Student in Leipzig,
Berlin, and Paris, 1901-02; Professor of History, Stanford University,
1908; President, University of Montana, from September 1, 1908 to
September 1, 1912.
The Faculty
(continued)

W. M. ABER, A. B. .......................... 402 Eddy St.
Professor of Latin and Greek.
Graduate from Normal School at Oswego, N. Y., 1872, and from Yale
in 1878; Graduate Student at Johns Hopkins, Cornell and University of
Chicago; Instructor in Oswego Normal School; Professor of Latin and
Greek, University of Utah, 1890-94; Professor of Latin and Greek,
University of Montana, since 1895.

FREDERICK C. SCHEUCH, M. E., A. C. .... 309 S. Fifth St. West
Professor of Modern Languages.
Attended Public Schools, Barcelona, Spain; Graduate, Gymnasium,
Frankfurt on the Main, Germany; M. E., Purdue University, 1893;
A. C., same, 1894; Secretary of the Faculty, University of Montana,
1895-1909; Professor of Modern Languages, since 1895.

MORTON JOHN ELROD, PH. D. ............ 205 S. Fifth St. East
Professor of Biology.
B. A., Simpson, 1887; M. A., Simpson, 1890; M. S., Simpson, 1898;
Ph. D., Illinois Wesleyan University, 1905; Adjunct Professor of Science,
Illinois Wesleyan University, 1888-89; Professor of Biology and Physics,
Illinois Wesleyan University, 1889-97; Director, University of Montana
Biological Station, since 1889; Professor of Biology, University of
Montana, since 1897.

FRANCES CORBIN, B. L. ................... 110 S. Fourth St. West
Professor of Literature.
Chicago Woman's College, 1885-87; New York State Normal School,
Graduated, 1888; Student in Vassar College, 1890-92; B. L., Ohio College,

and Principal, Butte High School, 1893-1900; Professor of Literature,
University of Montana, since 1900.

WILLIAM D. HARKINS, PH. D. .......... 521 E. Pine St.
Professor of Chemistry.
A. B. Stanford University, 1900; Ph. D., 1907; Graduate Student, Univer-
sity of Chicago, 1901 and 1904; Graduate Student Stanford Uni-
versity, 1905-06; Assistant in Chemistry, Stanford University, 1898-1900;
Instructor in Analytical Chemistry, Stanford University, 1909; Instructor
in Chemistry and Physics, University of Montana, 1909-10; Institut fur
Physikalische Chemie u. Elektrochemie, Karlsruhe, i. B., 1909; Research
Associate, Research Laboratory of Physical Chemistry, Massachusetts
Institute of Technology, 1910; Expert Chemist, U. S. Department of
Justice, 1910-11; Professor of Chemistry, University of Montana, since 1901.
The Faculty
(continued)

Jesse Perry Rowe, Ph. D. . . . . . 319 University Avenue
Professor of Geology.
B. S., University of Nebraska, 1897; M. A., 1903; Ph. D., 1906; Student, University of Oregon, 1893; Graduate Student, University of California, Summer, 1901; Graduate Student, Chicago University, Summer, 1905; Assistant in Geology, University of Nebraska, 1894-97; Fellow and Instructor, 1897-98; Assistant Principal, High School, Butte, 1898-99; Principal, Lincoln School, Butte, 1899-1900; Instructor in Physics and Geology, University of Montana, 1900-01; Director, University of Montana Geological Survey, since 1902; Assistant, United States Geological Survey, 1906; Professor of Physics and Geology, University of Montana, 1901-10; Professor of Geology, University of Montana, since 1910.

William Frederick Book, Ph. D. . . . 402 Eddy Street
Professor of Psychology and Education.
A. B., Indiana University, 1900; Ph. D., Clark University, 1906; Graduate Student, Chicago University, 1901; Fellow in Psychology, Clark University, 1902-06; Principal High School, Princeton, Indiana, 1906-09; Instructor in Psychology, Summer Quarter, Indiana University, 1907; Special Lecturer, Educational Psychology, Indiana University, Summer Quarter, 1910; Professor of Psychology and Education, University of Montana, since 1906.

Joseph Harding Underwood, Ph. D., LL. D. Dakota and Arthur
Professor of History and Economics.
B. A., Western College, 1902; M. A., State University of Iowa, 1904; Ph. D., Columbia University, 1907; LL.D., Otterbein University, 1910; Graduate Scholar in Economics, State University of Iowa, 1902-03; Fellow in Economics, State University of Iowa, 1903-04; University Fellow in Sociology, Columbia University, 1904-05; Student, University of Chicago, 1906; Instructor in English and History, Nora Springs (Iowa) Seminary, 1905-06; Professor of History and Political Science, Leander Clark College, 1906-07; Professor of History and Economics, University of Montana, since 1907.

Louis Clark Plant, M. S. . . . . . 404 Eddy Street
Professor of Mathematics.
Ph. B., University of Michigan, 1897; Principal, Olive, Michigan, 1889-91; Overisel, Michigan, 1891-92; Graduate Student, University of Chicago, 1897-98, and Summers, 1899, 1900, 1902, 1905, 1906, 1907; M. S., University of Chicago, 1904; Assistant in Mathematics, Bradley Polytechnic Institute. 1898-1900; Associate, Ibid., 1900-04; Instructor, Ibid., 1904-07; Associate Professor of Mathematics, University of Montana, 1907-08, and Professor of Mathematics, since 1908.
The Faculty

(continued)

ARTHUR WILLIAM RICHTER, M. M. E.  .  .  .  .  305 University Avenue
Professor of Engineering, in charge of School of Engineering.

Graduate, University of Wisconsin and Cornell University; M. M. E.,
Cornell University and University of Wisconsin; Instructor in Engineering,
Assistant Professor of Steam Engineering, Assistant Professor of
Experimental Engineering, and Professor of Experimental Engineering,
University of Wisconsin, 1902-09; Consulting Engineer, Wisconsin State
Board of Control, 1908-09; Professor of Engineering, University of Monta­
tana, since September 1, 1909.

JOSEPH EDWARD KIRKWOOD, Ph. D.  .  .  .  .  520 Ford Street
Professor of Botany and Forestry.

A. B., Pacific University, 1898; A. M., Princeton University, 1902; Ph.
D., Columbia University, 1903; Fellow in Biology, Princeton University,
1898-99; New York Botanical Garden, 1899-1901; Assistant in Botany,
Columbia University Summer School, 1900; Assistant in Biology,
Teachers' College, 1900-01; Instructor in Botany, Syracuse University,
1901-03; Associate Professor of Botany, 1903-07, and Professor of
Botany, 1907; Assistant Botanist, Department of Investigation, Continental-
Mexican Rubber Co., 1907-08; Carnegie Institution, Desert
Laboratory, Tucson, 1908-09; Assistant Professor of Botany and For­
estry, University of Montana, 1909-10; Professor of Botany and For­
estry, since September 1, 1910.

GEORGE FULLMER REYNOLDS, Ph. D.  .  .  .  .  315 University Avenue
Professor of English and Rhetoric.

Ph. B., Lawrence University, 1898; Ph. D., University of Chicago, 1905;
Teacher of English, Weyauwega, Wis., High School, 1898-99; Teacher of
English, Chicago Manual Training School, 1900-01; Fellow in English,
University of Chicago, 1901-02; Head of English Department, Shattuk
School, Faribault, Minn., 1902-09; Assistant Professor of English and
Rhetoric, University of Montana, 1909-10; Professor of English and
Rhetoric, since September 1, 1910.

JOHN B. CLAYBERG, LL. B. (Michigan).

Honorary Dean, Professor of Montana Code Practice and
Mining and Irrigation Law.

HENRY WINTHROP BALLANTINE, A. B., LL. B.

Professor of Law, Acting Dean of the Law School.

A. B. Harvard College, 1900; LL. B., Harvard Law School, 1904; Lect­
turer in Law, University of California, 1905-1909; Assistant Professor
of Law, Hastings College of the Law, 1905-1909; Practicing Attorney
in San Francisco, 1904-1911; Professor of Law, University of Montana,
since September, 1911.
A. N. Whitlock, A. M., LL. B.

Assistant Professor of Law.

A. B. University of Kentucky, 1906; A. M. ibid., 1908; Principal, Caldwell High School, Richmond, Ky., 1906; Assistant Professor in English and Assistant in Acacemy, University of Kentucky, 1906-1908; LL. B., Harvard Law School, 1911; Member of Kentucky Bar, since 1909; Assistant Professor in Law at University of Montana, since September, 1911.

Gustav L. Fischer . . . . 419 South Third Street West

Professor of Music.

Musical Student in Hamburg, Weimar, Buckeburg, and Frankfurt; Member of Theodore Thomas Orchestra, St. Louis Choral Symphony Society and World's Fair Symphony Orchestra; Professor of Music, University of Montana, since September 1, 1916.

Robert Neal Thompson, B. S. . . . 319 University Avenue

Assistant Professor of Physics.

L. S., University of Nashville, 1905; Grammar Principal, Montgomery Bell Academy, Nashville, 1903-06; Assistant in Biology, University of Nashville, Summer, 1906; Student, University of Chicago, 1906-09; Acting Associate Professor of Physics, Oberlin College, 1908; Instructor in Physics, Chicago University High School, 1909; Instructor in Physics, University of Montana, 1909-10; Assistant Professor of Physics, since September 1, 1910.

Eloise Knowles, Ph. M. . . . South Second Street West

Instructor in Fine Arts.

Boston Art School, 1892-93; Ph. B., University of Montana, 1898; Chase Art School, Shinnecock Hills, 1899; School of Education, University of Chicago, 1904; Art Institute, Chicago, 1904; Columbia University, 1909; Ph. M., University of Chicago, 1910; abroad, summers of 1903, 1906 and 1919; Instructor in Drawing, University of Montana, 1898-1910; Instructor in Fine Arts, since September 1, 1910.

Mary Stewart, A. B. . . . Woman's Hall, University Grounds

Dean of Women and Instructor in Latin and English.

Physical Director.

Student, University of Montana, 1904-06; Ph. B., Yale, 1909; Physical Director, University of Montana, since September 1, 1910.

WILLIAM R. PLEW, M. S. . . . . . . Grand Street
Instructor in Engineering.

B. S. Rose Polytechnic Institute, 1907; M. S., 1910; Instructor in Civil Engineering, Rose Polytechnic, 1907-10; Assistant to City Engineer, City of Terre Haute, Ind., 1907-09; Engineer Paris Bridge Co., Paris, Ill., 1909; Instructor in Civil Engineering, University of Montana, since September 1, 1910.

JOHN HOWARD STOUTEMYER, Ph. D. . . . 402 Eddy Avenue
Instructor in History and Education.

A. B., Kalamazoo College, 1905; Ph. D., Clark University, 1910; Graduate Student, University of Chicago, 1905-07; Fellow in Psychology, Clark University, 1908-10; Instructor in History and Education, University of Montana, since September 1, 1910.
The Faculty
(continued)

JOHN WARREN HILL, M. A. 1009 Poplar Street
Instructor in Chemistry.
B. A., University of New Brunswick, 1905; M. A., Yale, 1909; Graduate Student, University of New Brunswick, 1906-07; Graduate Student, Yale, 1908-10; Demonstrator in Chemistry, University of New Brunswick, 1904-05; Principal McAdam Superior School, 1905-06; Principal Gibson School, 1906-08; Instructor in Chemistry, Rutherford Institute, New Haven, 1908-09; Assistant in Chemistry, Yale, University, 1909-10; Instructor in Chemistry, University of Montana, since September 1, 1910.

MARGERY WINNIFRED FEIGHNER, B. A. 315 East Front Street
Assistant Librarian.
B. A., University of Montana, 1908; Student, Library School, Simmons College, 1908-09; Assistant Librarian, University of Montana, since September 1, 1909.

B. R. COLE, A. B.
Instructor in German.
A. B. Oberlin College, 1900; Instructor in German at University of Montana, since September, 1911.

CARRIE CADE PATTON, A. B., B. L. S.
Assistant in Library.
A. B., Northwestern University, 1909; Illinois State Library School, 1911; Assistant in Library, University of Montana, since September, 1911.

GEORGE MERIT PALMER, A. M.
Instructor in English.
Graduate Illinois State Normal University, 1899; A. B., University of Illinois, 1907; A. M., University of Illinois, 1909; Graduate Work, University of Illinois in History, English and Education, 1908-11; Superintendent Schools, Averyville, Illinois, 1897-98, 1899-1901; Teacher of English, Philippine Islands, 1901-04; Superintendent Schools, Milaca, Minn., 1904-07; Instructor in English, Academy, University of Illinois, 1907-09; Instructor in English in Academy and Supervisor of Practice Teaching in English in School of Education, University of Illinois, 1909-11; Instructor in English, University of Montana, since September, 1911.
The Faculty

(continued)

GEORGE H. CUNNINGHAM, B. S., M. E.
Instructor in Mechanical Engineering.
B. S., Virginia Polytechnic Institute, 1906; M. E., Cornell University, 1908; Instructor in Graphics, Virginia Polytechnic Institute, 1906-07; Engineering Department of Tennessee Coal, Iron & Railroad Co., Ensley, Ala., on Steel Mill and Blast Furnace Construction, 1908-09; Engineering Department, Virginia Bridge and Iron Co., Roanoke, Va., 1909-10; Assistant Superintendent, Power and Mechanical Department, Consolidation Coal Co., Jenkins, Ky., 1911; Instructor in Mechanical Engineering, University of Montana, since September, 1911.

G. A. GROSS.
Instructor in Shop Practice.
Lake Mills High School, 1900; Assistant Foreman, Fargo Creamery Supply Co., 1904-1908; Mechanician, College of Engineering, University of Wisconsin, 1908-1911; Instructor in Shop Practice, University of Montana, since September, 1911.

Special Lecturers in Forestry

C. H. ADAMS, E. M.
Assistant District Forester in Charge of Grazing, District No. 1.

F. E. BONNER
Draftsman, District No. 1.

J. T. JARDINE
Inspector of Grazing, United States Department of Agriculture.

CHARLES W. JUNGBERG
State Forester of Montana.

D. T. MASON, M. F., M. S.
Supervisor Deer Lodge National Forest.

P. J. O'BRIEN
Claims Examiner, District No. 1.

DORR SKEELS
Supervisor Kootenai National Forest.

CARL CAMERON.............. President
HAZEL LYMAN.............. Vice-President
GLADYS HUFFMAN............ Secretary
PETER HANSEN............. Treasurer

Colors: Yale Blue and White
Motto: “Slow, But Sure”
HAZEL LYMAN.
Here is a young lady so fair—
’Tis Hazel with light curly hair—
She’s quite a whist shark,
But now keep it dark,
As for driving a car she’s right there.

PETE HANSEN.
Here is a fellow named Pete,
Who scorns all the maidens so sweet;
He holds the class “mon”
And thinks it quite fun
To make out his billets so neat.

CARL CAMERON.
Here is our prexie so tall,
Who isn’t a fussier at all;
He spends all his time
In studying crime,
Up in the loft at Main Hall.

GLADYS HUFFMAN.
Here’s Gladys our musical shark,
Who whistles just like a lark;
Yet many pictures she took,
May be found in this book—
She is clever, we pause to remark.
Mildred Ingalls.
There is a young lady not slow,
Whose hair has a wonderful glow.
She lives in a luxury,
She's all in a fury,
'Tis Mildred so busy, you know.

Cecil Dobson.
There is a young fellow called Dobby
Who has one particular hobby:
A blue-eyed maid
By whose side he stayed,
So faithful and true was this Dobby.

Alice Mathewson.
There is a young maiden so gay,
Who has given her heart quite away;
She ne'er looks at a boy,
This Alice, so coy;
But talks of the "man" night and day.

G. P. Stone.
An exceedingly bright man named
Stone,
Who was rarely seen to go out alone;
Went one day to steal fruit,
But found it "nicht gute,"
So turned and came home with a
groan.

Louise Smith.
Ah, here is a maiden so gay—
Do you remember Louise in the play?
She made a fine widow,
But I am not sure, oh,
That she is a widow today.
JOHN TAYLOR.
Here is the Sentinel Ed:
'Tis John whose hair is red;
He's editor-in-chief,
And within all belief,
He is "right on the job," as 'tis said.

CECIL KRAMER.
Here is our Cecil so gay;
A jolly, good student they say;
Plant calls her a shark,
And so does Prof. Hark.
She's a prize winning girl any day.

SADIE STABERN.
This is our own dear Stanford maid—
A little bit stubborn, I'm afraid;
But she's still very sweet,
And it's sure quite a treat.
To walk with this dear, little "Sade."

ROSE LEOPOLD.
There is a young lady so wise—
'Tis Rose with her pretty, dark eyes;
She picked out a Freshman,
You'll admit she's a wise one,
For now in an auto she drives.

ROYAL SLOANE.
There is a young fellow named Sloane,
Who is far too industrious to bone;
When girls did appear,
This shy engineer,
At once on the sidewalk fell prone.
FLORENC Matthews.
An excitabla maiden named Florence
Held all foolish things in abhorrence;
Studied early and late,
Could orate and debate,
And when mad fairly talked in torrents.

PAUL GERVAIS.
Let me introduce "Frenchy" Gervais—
To classes he never will stray;
His full name is Paul,
And he plays basketball;
We'll be proud of this Frenchman some day.

ROSCOE WELLS.
There's a curly haired lad named Wells,
Whose bad habits this limeric tells:
He was always so busy,
It made us all dizzy,
And he was never on time with the bells.

DICK JOHNSON.
There's a happy young student named,
Who was never known to kick;
He has won great renown,
By looking after the prom,
And, besides, quite a "fusser" was Dick.

GLADINE LEWIS.
Here's a dignified girl named Gladine,
Who is hard from her studies to wean;
She is tall and quite thin,
And so high holds her chin,
That of women she might have been dean.
Mable Garlington.
Mable was ever as still as a mouse,
She didn't know what it was to rough-house;
She'd study and cram,
For a final exam,
And get a grade that would take down
the house.

Gladys Freeze.
There is our Gladys, serene,
With a bearing like that of a queen;
With dignified calm,
She bears without qualm,
With unruffled manner and mien.

Herman Allison.
There is a young fellow so nice,
Who never will drink or shake dice;
Through hardship and trial
He works that same smile—
Herman, so prissy precise.

Viola Golder.
There is a young lady named Golder,
Who never would let anyone hold her;
But when she gets older,
She'll surely grow bolder,
And drape her fair head on his shoulder.

Mary Shull.
Here is our Mary, so true;
Her eyes are so bright and so blue;
She's true to thirteen,
Always to be sure
Helping in all she can do.
Gladys Heyward.
There is a maiden, they say,
Who goes for a walk every day;
First it was "Mick,"
And now it is Dick—
'Tis Gladys with her sweet, winning way.

O. D. Speer.
There is a young fellow named Speer,
Who is far too quiet, we fear;
He's chock full of fun,
When once he's begun,
But we see it but seldom 'round here.

"Spud" Wiedman.
Here is a young legal light
Well versed in pleading, quite right;
From Stanford he hails;
And "Wied" never fails
To shoot baskets with neatness and might.

Ann Hutchinson.
There is a young lady named Ann,
Who goes with a very tall man;
They take long walks;
They have wondrous talks;
For Bill takes her, whenever he can.

ROLL OF STUDENTS AT THE MONTANA STATE LAW SCHOOL
FOR THE YEAR 1911-1912

CARL E. CAMERON, MONTANA, '13; Law, '14.
EDDIE CORBIN, Montana, '06; Law, special.
PAUL L. DORNBLASER, '14.
A. B. HOBBLITT, Hamline University, St. Cloud Normal School, Minnesota, '09; Law, '13.
E. P. KELLY, Dartmouth, '09; Law, '14.
C. F. MADDOX, Bordentown Military Institute, '10; Law, '14.
M. A. MEAGHER, Gonzaga College, '11; Law, '15.
F. R. MERRILL, Minnesota, '13; Law, '14.
LA RUE SMITH, Wisconsin, '13; Law, '14.
J. O. SAFFORD, Harvard University, '05; Law, '14.
B. R. COLE, Oberlin College, '02; Law, '13.
D. C. WARREN, Montana, '12.
RAY WIEDMAN, Stanford, '13; Law, '14.
N THE MORNING of the twenty-ninth day of February, 1912, the University community was startled by a most hilarious demonstration of student insubordination. The staid and moss-grown traditions of tranquil inoffensiveness, formerly peculiar to the rocky hillside environs of the populous city of Missoula, were rudely discredited, and the harmonious unanimity of the student body manifested on that day, revealed encouraging possibilities for the development of a clean, strong university fellowship. Incidentally, it was remarked that the students of the law school were at the head of the movement. It seemed a little strange to some, no doubt, that men, who in several instances had completed their collegiate work, should be indulging in such a frolic. It is safe to say that those men were even more surprised at the necessity of adopting such measures in order to develop such an atmosphere of college life about our University as to induce the people of the state to believe in it as a real institution of higher learning. If we are to have a school to which we can attract the students who rightfully belong here, we must in so far as possible, provide inducements of the same character as are found in the larger universities. This includes a strong school spirit and opportunity for an occasional outburst of real enthusiasm, as well as facilities for intellectual nourishment.

This is the spirit which has been manifested by the newly-established Law School ever since its initial appearance on the local boards, September 12, 1911, and it presages good for the University of Montana. The students, without exception, are boosters of the most approved type, and have identified themselves prominently with every branch of college activity. The faculty members are strong, conscientious men, and the facilities for legal study are far advanced.

The Law Department has reason to congratulate itself, above all other things, for the remarkably well-balanced faculty which has guided its destinies during its first year. At the head stands Judge John B. Clayberg. He is an old graduate of the Michigan Law School, who has practiced law in Montana for twenty-eight years. Being in close touch with mining liti-
gations in the Treasure State, he has become a recognized authority in that branch of law, and was chosen to write the section on Mining Law in "Cyc," the greatest American legal encyclopedia. He has, moreover, been a lecturer for several years at Ann Arbor, and occasionally at Columbia, on the subjects of mining law and water rights. Judge Clayberg is an honor to the State of Montana and the recognition which has been accorded him by his selection for the position of Honorary Dean, is a fitting tribute from the people of the state.

Henry W. Ballantine, Professor of Law, and Acting Dean, is a Harvard law man, who has engaged in the practice of law in San Francisco and who has been identified with the faculty of both the College of Jurisprudence of the University of California and the Hastings Law School of San Francisco. Mr. Ballantine has also been a frequent contributor to the law journals and other publications.

The third member of the force is Albert N. Whitlock, also graduate of Harvard, who comes to us after a short career as a practicing attorney in New York. Mr. Whitlock presents the rare combination of New England conservatism, Southern geniality and Western force, each predominating according to the mood and the subject under discussion. In law he is essentially a conservative, full of the theories of Gray and Ames, and jealous of any departure from Harvard methods.

Judge Clayberg is essentially a practical lawyer, having the advantage of a deep legal training, but above all things insisting that the student should become thoroughly acquainted with methods of court procedure, forms and rules of evidence and practice. Mr. Whitlock is a careful student and theoretician, while Professor Ballantine is a happy combination of the two, a thorough student and a resourceful practitioner. In his class-room work he has put into practical operation in connection with the case-book system, an auxiliary method, consisting in the working out of problem cases. This latter method familiarizes the student with actual legal research, and develops the individual resourcefulness of each far beyond the best that can be expected of the case-book system alone.

The result of this combination has been to afford the best possible opportunity for legal study, and to develop moot court work along the lines of actual court procedure as well as in the direction of brief-making and argument.

The added feature of small classes has given the students practically personal instruction, and has made it possible to cover the work of the various courses more thoroughly and more completely than is done in most famous law schools, where the progress of the classes is impeded by the large numbers in attendance, and the difficulty of properly controlling class discussions.

In equipment the Law School is singularly fortunate. The library, a collection of about three thousand, eight hundred volumes, is a fine working set of books. It is made up of the sets formerly owned by W. W. Dixon and Thomas C. Marshall, brought down to date, and supplemented by carefully considered additions in the way of later publications. The library
contains a complete set of the National Reporter system, the Federal and United States Cases, American Decisions, American Reports, American State Reports, several sets of the state reports, "Cyc," the American Digest, Lawyers' Reports Annotated—old and new series, Decisions of the Interior Department on Public Lands, together with several other sets and the best texts.

As to quarters, it is not so fortunate, the present space being already overtaxed and the next legislature should be thoroughly impressed with the necessity of the immediate erection of a new Law building. The library fails to hold the books at present on hand, and is both too small and too poorly lighted to provide an adequate place for studying. The single lecture room cannot possibly accommodate classes in subjects covering a three-year curriculum.

After all, of course, the history of the school will be written by its school life, by its resident workers, and its efficiency and practical worth by the work of its graduates. As yet we have our first alumnus to honor and to depend upon. But in the body of men who have come together for the first year, we can easily pick future Websters, Marshalls and even an occasional Blackstone. In the total of eighteen who registered for law work, are to be found representatives from eleven different states, only four of the number having been born in Montana. Harvard, Wisconsin, Oberlin, Dartmouth, Minnesota, Northwestern and Stanford are represented among the universities, and five men who have completed regular collegiate work leading to the A. B. degree, are taking their advanced law work here in contemplation of practicing in Montana.

Kelly and Dornblaser in football; Meagher and Wiedman in basketball; Kelly and Smith in baseball; Cameron, Kelly, Maddox, O'Rourke and Wiedman in track; Kelly in dramatics; Warren and Miller in debating; and Maddox in social events make up the representation of the law school in the various school activities.

Under the able management of L. R. Smith, the Law School on February 29, 1912, issued a special edition of The Weekly Kaimin, which received wide circulation throughout the state and excited favorable comment from many sources.

Aside from the moot court work, formerly referred to, a very beneficial feature of the work taken up this year by the lawyers is that of preparing headnotes of the various supreme court cases as decided, for publication. At first these were sent to the various papers throughout the state, but later it was decided to publish them in The Weekly Kaimin. This will be a regular feature of the weekly henceforth, and it is hoped that the lawyers of the state may in this way avail themselves of the decisions of the supreme court some weeks ahead of the time of their regular publication. The students by preparing these advance notes keep in touch with current litigation in the state, and with the class of cases handled in our courts.

The faculty have been so fortunate as to be able to persuade several leading members of the bar, as well as all the members of the supreme bench, to address the students on pertinent subjects. Those who have given their
time and effort for the benefit of the law students are: Hon. Theo. Brantly, Hon. Henry C. Smith, Hon. Wm. L. Holloway, all of the Supreme Court of the State of Montana, and Chas. H. Hall, F. H. Woody, Theo. Lentz, W. F. Wayne, John H. Tolan, Gilbert Heyfron, H. H. Parsons and Ronald Higgins, all of the Missoula bar. In this connection it is interesting to note that the law school is also sending out its talent for the benefit of the rest of the people of the state. Professor A. N. Whitlock has delivered extension lectures during the year to appreciative audiences at Red Lodge, Billings and Kalispell. He speaks on current phases of the law from a popular viewpoint, and always commands the complete interest and attention of his hearers.

On the whole, the year has been a highly successful one in the Law School. Only the first two years' subjects have been covered, but beginning with next year the whole three years' schedule will be taught. Judge Clayberg has given instruction in Mining Law, Pleading and Practice, Montana Practice and Irrigation Law; Professor Ballantine's subjects have been Torts, Contracts, Equity, Sales, Carriers; Professor Whitlock has handled Crimes, Property I.—Agency, Trusts, Negotiable Instruments, Corporations, Brief-Making; Property II. in conjunction with Professor Ballantine, and all of the faculty has assisted in the practice court work.

The new year will start with a strong group of old men, already proud of the standing which the new school has assumed, and anxious to initiate and perpetuate such customs as will best forward the interests of the Law School and of the University. We will await with interest and expect with pleasure the new group who will become a part of us next fall.

—R. Justin Miller.
LOOK AT THIS. Here’s something queer.” Clayborne looked up from the evening paper and then went on to read: “ ‘Two hunters, stumbling upon a cabin in Redwell’s Gulch yesterday found there the dead body of an old man. There was no apparent cause for death except old age. On a table near the dead man was found a paper on which was written, ‘The prophecy is fulfilled.’ The body when found had been dead a day or more.’ ”

“I should hardly call it queer,” said Dustin, coolly. “Lots of men die from old age.”

“Yes, but look at this.” Again Clayborne thoughtfully read, “ ‘On a table near the dead man was found a paper on which was written, ‘The prophecy is fulfilled.’ ” “Don’t you think that queer, Besoird?”

We turned to our host. He had been curiously silent the whole evening, when of all evenings he should have been elated. He had received a magnificent ovation at his appearance on the stage the night before, and had been declared “the greatest violinist of the century” by critics and the public alike. It was to celebrate the occasion that we, a few of his friends, were, at his invitation, spending the evening with him. We had just been discussing his wonderful technique and thought that perhaps modesty had been the reason for his reticence. Now, as we looked to him for an answer, we noticed a strange, fixed look in his eyes. Suddenly realizing that we were regarding him, he started slightly and drew his hand across his eyes as if to brush away an unruly lock of hair.

“What did you say that paper—” he began abruptly. “Oh, yes—. Well, no; I don’t think it is queer. That is, not exactly queer. Many prophecies are fulfilled I believe.”

“Surely you don’t believe in prophecies,” Clayborne burst out impetuously, “why, that’s all rot, you know.”

Besoird stared moodily into the fire. “Is it?” he said slowly. “Perhaps. I wish I knew.” His voice had sunk almost to a whisper and as he ended he drew his breath in sharply. Wondering, we watched him while he walked over to the window, opened it and looked out. Suddenly he turned. “I am not very good company tonight, am I?” he asked seriously, “but wait. I’ll tell you an interesting— no, a— well, just a story.
See what you think of it. No,’” as Clayborne drew a chair nearer the fire. “I would rather stand here where I can see the sky and the outside.”

You remember two years ago when we went hunting and I got lost in the mountains. I told you afterward that an old trapper found me and put me right; well, that was a lie. I never saw a trapper. But at the end of the second day I stumbled upon a little cabin set in behind a big rock. Half fainting with hunger and fatigue I crawled to the door and vainly struggled with the latch. It was opened from the inside and I fell forward across the doorway. Dimly I remember being lifted to a chair and something hot being forced down my throat. Some time later, I don’t know how long, when I opened my eyes, the first thing I noticed was the portrait of a beautiful woman. I can’t tell what made her beautiful. I didn’t notice the color of her eyes or hair. You’ll just have to take my word for it. And yet there was something else beside beauty in her portrait, something not so pleasing. Wondering I turned my head and looked about me.

An old man, evidently a hermit, was watching me closely. In his face there was a look of intelligence and refinement and something more—doubt, or perhaps fear. His eyes, the most wonderful I have ever seen, fairly blazed out upon me. Their almost startling blackness was heightened by his long white beard and white hair and eyebrows, till they
glowed with an intensity that seemed to reflect many conflicting emotions. Deep, glowing, mysterious, they were what I imagine black diamonds would look like. A long, thin nose, with sensitive nostrils distended, also revealed the passing of some strong emotion, whether of distrust or fear I could not tell.

Seeing that I was awake he quietly turned to get me something to eat. When he again faced me his countenance was calm and reposed, with no sign of agitation. As he set out a simple meal I noticed his hands, white and thin, with long, tapering fingers. He used them with an indescribable grace that fascinated me. Presently he spoke.

"How did you get here?" His peculiar emphasis on the word "you" made me wonder if he thought he knew me.

I told him I was lost.

"But you—Besoird. You are Besoird, aren't you?" He hesitated. "Damarel's pupil. Oh," seeing my amazement, "I know you. I am not entirely ignorant of the world and its affairs. I, too, am a violinist."

If he had been any other than the man he was, I should have laughed. To have an old hermit, out in the woods, calmly look at me and say, "I, too, am a violinist." But simply and unaffectedly as he said it, I believed it. Besides, he had almost supernaturally spoken my name and coupled it with that of my old master, long since dead. So, instead of expressing any wonder I humbly asked: "Will you play for me?"

"Not now," he said, "but I will show you my violin."

He took down a battered old leather case and opened it, disclosing a violin of peculiar shape and construction, one in a thousand.

"Damarel's violin," I whispered involuntarily.
"You remember it, then?" said my host, as he lifted the instrument from its case.

Yes, I remember it, that wonderful, mysterious, much fought-over violin. It was a violin never to be forgotten. There had been a vague rumor of a prophecy connected with it, a prophecy that the violin would be the means of determining the greatest violinist of the century, that it would finally be possessed and played by the master player. Since Damarel had so completely disappeared, the violin had been neither seen nor heard of. Some had construed its disappearance as proof of Damarel's mastery. And now—think, if you can, what must have been my feelings—here it was in an old cabin in the mountains, within an arm's reach of me.

"How—where did you get that?" I faltered.

"He left it with me. I was his friend," he replied. "I was with him when he died." His tone somehow seemed to reproach me for not having been with "him."

"When he died," I repeated slowly. "No, I was not with him. How was I to know?"

"Oh, I understand. I do not reproach you. After all, what does it matter to me? But he spoke of you. He didn't want you to think badly of him. He wanted you to know why he killed himself?" I suddenly felt rather than saw, the hermit's eyes regarding me. "I wonder—what did you think of him?"
"I thought he was wonderful—before. Far too wonderful, too big, to
do what he did." I went on heedlessly, my feelings getting the better of
me. "A suicide. That was weak." I realized, even as I spoke, how fool­
ish I must have sounded—I, pretending to judge, and to the friend of the
man I was condemning, a man old enough to be my father. When the
hermit raised his troubled eyes to me, I wished fervently that I had the
power of recalling my words, for I knew I had expressed only the con­
ventional judgment of society.

In some way he must have read my thoughts, for he said: "Yes, I
know that is what the world thinks. A coward! But he thought—he
hoped—that you wouldn't think so. Perhaps you wouldn't if you knew
why he did it. I am sure he would like you to know. I'll tell you why."

He stopped a moment, maybe to reconsider, perhaps to recollect.

"You knew Damarel well enough to know how sensitive he was and
how strong were his emotions. All his life he felt and rebelled against the
shallowness and artificiality of life. He was offensive to most people; for
that matter, most people were offensive to him. So that when, at last, he
did fall in love, his love was almost a religion with him. He forgot his
bitterness against the world in his happiness, for the girl returned his
affection. For a time he was very happy. Then—" the hermit turned
his head from me and his voice, when he spoke again, was low, "he noticed
a misunderstanding growing between them. The girl was jealous of his
art, the attention he paid to it, and the part it played in his life. Finally,
she quarreled openly with him and refused even to see him. On the night
of his last concert, just before he had sent asking her forgiveness, he
received a note from her. It was an announcement of her engagement to another man, a former suitor." My host looked at me. "You know how he played that night. He gave the world all he could. He put all his skill, all his art into that one brief hour. And his audience understood and appreciated. That night he, too, was declared the 'greatest violinist of the century.' But he died." A silence followed which I neither dared nor wished to interrupt. Then—"you are now the world's idol," he said, 'the greatest violinist of the century.' I wonder if you are. I would like—" An idea seemed suddenly to come to him and his voice trailed off into silence as he walked to the door.

"Come here," he said presently. With Damarel's violin in one hand and leading me with the other, he left the cabin and came out upon an open place from which he could view the mountains far on the opposite side of the valley. Through the valley, itself a soft black mass of pine trees in the failing light, a bluish mist marked the course of a stream. At a little distance beyond the creek on the far side, a cliff arose grandly, overtopping the rest of the peaks. The light of the setting sun lingered just enough to trace its glowing outline against the sky.

I don't know what I played, but I'm sure I was inspired. I don't believe another violin like that one ever existed. Its sonorous tone held me enthralled. And yet, the whole time I was conscious of a lack of
something. Ah, my friends, it was not "technique" that I lacked. The icy perfections with which I dazzle my audiences seemed useless, even childish. It was soul. The thought flashed over me that somehow my music was like the woman in the portrait. It was not "of the mountains." It was not big enough. And yet it was wonderful. It could not help but be. I was playing on Damarel's violin.

When I finished the light had died out of the sky, the cliff arose, a black, shapeless mass in a dark blue vault, and a silence almost audible in its perfect calmness had settled over the whole valley.

For a moment after I had handed it to him the hermit held the violin in his arms, motionless. Then he raised it to his shoulder and played—a haunting, compelling melody like nothing I had ever heard before. Oh, how I wish that you could have heard him as he stood there in the dark, playing— to God.

Were you ever out in the mountains, with all the awfulness of an untamed wilderness almost smothering you; the moon, cold and clear, lighting up the immense vastness; the stars, little points of steel piercing the dark blue of the sky; the cliffs, sacred temples, loftily defying time; and the mountains, everywhere the mountains, crouching over against the skyline, rising up on all sides, majestic, magnificent, remorseless? Haven't you ever felt how small, how worthless, how insignificant you were in God's world? Ah, that's what the music told, and
more, hunger, loneliness, sorrow, the strains of the violin rising and falling in sobbing reverberations. And then softer and clearer, it told of resigna­tion, of peace, and of strength. Only once after that did it change, rising more and more powerfully in a piercing wail, like the cry of a trapped animal.

Then he stopped and the echo returned faintly, like the remembrance of a song. In the silence that followed I stood breathless and tense, conjecturing, wondering. Slowly and without effort the understanding came to me. This was not the first time I had heard this man play. Now I was sure.

"Damarel," I said softly, "it is you." I turned. I was alone. I walked back to the cabin like a man in a dream. Damarel, for it was he, was sitting with bowed head looking at the violin in his lap. As I entered he raised his head and smiled.

"Do you know me now? Do you understand?" he asked. Sometimes words are poor things. I could only nod.

But he went on: "This violin—is yours. At first I wondered, almost fearfully, why you came. But when you played, I knew. It was to show me my successor, my master. And I am glad it is to be yours, 'Besoird, the greatest violinist of the century.'"

I roused myself to expostulate. I knew that the violin was not mine, even if the prophecy were true. And I, like you all, did not believe in prophecies. But, by all I said, Damarel was unmoved.

"Ah, it is yours, the prophecy is true. You must believe it," he said earnestly. "And do not think that I want the violin so badly. After all, what is greatness? It is not always happiness. Why should I desire it. I
have much more than you have with all your greatness. I have the mountains. They are enough.” He stopped and laid his hand on the violin. “On the day you hear of my death, this will be in your keeping. Till then you will permit me to have it? Remember, it is yours.”

Nothing I could say would change his conviction that I was the master player. Finally, he would not even argue with me, and when I talked the loudest, only smiled at my impetuousness. In the morning, beyond giving me directions, he took scarcely any notice of me and when I left he barely noticed it. He was watching for the first glint of the sun on the cliff.

Besoird stopped suddenly and closed the window.

“‘But what next? Where is he now?’ asked Clayborne, voicing the unspoken question that was on all our tongues.

Besoird pointed to the paper. ‘You just read the notice of his death. Do you think I would have told you, if he were still alive?’ We were silent and ashamed. We knew he wouldn’t.

‘And you let him stay out there in the wilderness. Why didn’t you bring him back?’ asked Dustin.

‘Why? I don’t know. I never thought of it. He was too happy where he was.’ Besoird came over to the fire.

‘But the violin?’ insisted Clayborne. ‘The prophecy? ‘On the day you hear of his death you—’”

Besoird shook his head. ‘I don’t know. I wonder. Just a short time ago it was that I heard—’”

A loud knock jarringly interrupted.

‘An express package for Mr. Besoird,’” announced a porter through the open door.
As Besoird took the long, ungainly package, his face paled. For a moment I thought he was going to faint.

"It can’t be," he whispered hoarsely, "it can’t be."

Slowly he untied the package while we eagerly crowded around. Fumbling with the wrappings, he at length disclosed a battered violin case. Besoird opened it and looked.

"The prophecy," he said. "It is fulfilled." Wrapped in felt lay the violin in a thousand, an ebony fingerboard and a crushed mass of splinters.

Nat Little, '14.
A Legend of Sentinel

"Neath the pine tree's balmy bough,
Old Pan lay in dreamy sleep;
Chaplet fallen from his brow,
Oak-twined staff within the keep
Of gnarled hand with brown palm deep.
Rested now
Sunbeams on his buskined feet.

Quivering through the woods, the sun
Touched the pine trees' cones with gold;
White clouds, wafted one by one,
Sailed the heaven's azure bold—
Ships by fairy hands controlled.
Clothed with blooms of white and gold,
Filled the ragged crevice old.

O'er the mountain's highest mound
Tripped sweet spring in misty light,
Fragrant hair with violet bound,
Eyes like amethystine night,
Lips a-smile and lashes bright.
Loosely wound
Folds cerulean swept the ground.

On her arm a pannier
Filled with flowers of glorious hue;
Where her footsteps, light as air,
Touched the greenward bright with dew,
Sprang a bitter-root to view.

Tree buds rare
Started, called to life anew.

Spring paused on the purple height,
Saw the valley's distant plain,
Beating haze and tender light,
Meads soft-hued and washed with rain;
Hummed a gentle, low refrain.

Wondrous sight!
Spring saw there her fair domain.

In his dream-adorned doze
Pan-god heard somebody sing.
Startled, staring, he arose.
What was this unheard of thing
On this rough rock balancing?
Belligerent
Pan-god plunged toward fairy Spring.

Hark! the crack of twigs of pine.
What this massive, shaggy head,
Eyes of fire, staff serpentine?
Spring glanced 'round, then quickly fled
Toward the river's shimmering red.
In a line
Down the slope the great Pan fled.

Alas, for Spring! Her light foot tripped
O'er a stone in larkspur blue.
From her grasp the basket slipped,
Down the slope like a rocket flew.
Up Spring leaped and fled anew.

Faintly lipped,
"Save Hill-god! Thy will I'll do."

God of Hills this very hour
Wandered 'mong his forest trees,
Heard the cry outside his bower,
Brought by Zephyrus, the breeze.
"Amazement, Pan now quickly seize.
By my power
Magic works," the God decrees.

Now, in wake of the basket's fall,
Flowers dropped as the basket rolled;
Sprang they into bushes tall,
Clothed with blooms of white and gold,
Filled the ragged crevice old.

Magic all,
Clusters from some fairy wold.

Great Pan, trembling, gaped alone—
Strange the burst of clusters white—
Shone his eyes like emerald stone—
Then recalled—where was the sprite?
The stream below flowed mistily on,
Sentinel's zone
Quivered with its pine trees slight.

Somewhere—above, below?
Laughed a voice from depths of space,
Sweet and soft like winds that blow
When lilies take on springtime grace,
And wind flowers lift a smiling face.
All around
Old Pan looked. Of Spring, no trace.

Looked he in the distance dim,
Toward the purpling canon's deep,
Far to the heaven's rosy rim,
South, where summer's warm winds sleep.
But for him
Only baffling landscapes' sweep.

Spring was gone, Pan knew not where.
Long he searched where wood nymphs play.
Found no trace despite his care.
"Spring? Why she came not this way,"
Every nymph to him would say.
Light as air
On they sped in Pleasure's sway.

Clusters astral still adorn,
When maple buds begin to swell,
Where the hill is crevice torn.
People of the valley tell—
For they love the story well—
How up there
Spring once fled down Sentinel.
The last whistle blows its command to “lower men.” The timekeeper slams down his checking window, and the miners in working clothes crowd toward the collar of the shaft, impatient to be out of the cold. The cage glides up noiselessly from the yawning mouth of the shaft and vacillating on its safety springs for a moment, settles with a metallic clang upon the station “guards.” The station-tender throws back the outer bar, opens the safety lattice of the cage and admits nine of the waiting men upon each deck. The lattices are closed, the bar is thrown back into the clutch, the guards are released from under the cage and the station signal is given the engineer. With a slight bouncing motion the cage commences its descent.

The light fades out rapidly as the speed downward increases, and, as the station lights flit by in rapid succession, the ear-drums pop and a buzzing, sinking sensation is experienced. In the dark interludes between stations you would be unable to say whether you were ascending or descending, but as soon as you shoot past a blinking station light you are brought back to reality. Suddenly the cage seems to be suspended in mid-shaft, the guards scrape slowly along the fir guides, and with an unexpected glare the station lights of the 1200 level break in upon you. With a slow descending motion and some oscillation of the safety springs the cage jars as it encounters the station “dogs,” and finally rests. A station tender, wet with the drippings from overhead, releases the men who shuffle off in a long line into the drifts.

—Hubert.
When, O Sluffer, will you cease to abuse the patience of the long-suffering faculty? How long will this defiance of yours still mock us? When is there to be an end of this bold effrontery, swaggering about the campus as it does now? Does not the president, looking reproachfully at you, does not the summons from the registrar, does not the opinion of your fellow students and of all the faculty—does not the precaution taken of making more stringent absence rules—do not the looks and countenances of the venerable attendance committee here present, have any effect on you? Do you not feel that your “cuts” are detected? Do you not see that your carefully planned excuse is already vitiated and rendered ineffective by the knowledge, which everyone here possesses, that you were down eating ice cream at Elton’s? What were you doing last Wednesday, when you should have been at convocation, what the day before when you should have been at gym class? Where is it that you were—who was there that you summoned from the “Dorm” to meet you—what agreement was made by you both to escape the vigilance of the chairman of the scholarship committee, with which you think that any one of us is unacquainted?

Shame on the younger generation and its principles.

—LITTLE.
"Advice"

Did you ever get a letter from the mother at home that read something like this:

"Dear Son: Your young brother is getting so bad that we can't do anything with him. Won't you write to him and give him some advice. You will probably have more effect on him than we have. Etc. With love. Write soon."

You sit down to your writing desk with a stern resolve to write the rules of the "to do's" and "not to do's." to your small brother. You will tell him that this playing hookey is foolish and that he had better stick to his books; suddenly you remember in those old high school days how this same young brother waited around till dark for you to come back from a trip to the river and take him home from town. Did he complain about waiting around that livery barn and threaten to tell pa about your staying out all day? No, never a whimper from him. You can hardly give advice on truancy and be consistent, can you?

Then you start a little lecture on the injury of cigarettes, only to stop short when the thoughts come flying back of the many times the little brother braved the family strap to snatch a handful of father's Seal of North Carolina for you to choke and sneeze with on your way to town. When you got sick, did he tell mama that you had been smoking. No, your little brother never breathed a word. A man could hardly preach a sermon to him on this.

Anyway, you must give him the dickens for playing pool for chips. That is a little more than even you can stand. But not so far distant, back a few years, you remember suddenly how the little brother often went hungry at noon-time just because you were donating to that fascinating game of pea-ball pool. Did he complain? Never! You throw down your pen in disgust. You can't reprove that little brother. Let the folks do it themselves.

—Armitage.

My Boarding House

Here's to my boarding house, where I ruined my stomach. Where the beefsteak was always tough and the pie was always soggy. Where I learned a lot of bad manners, and developed an awful reach. Where I learned, too, that the best man got the most to eat. Where I met a number of undesirable people, and got into the habit of actually using my fork when ladies were present, and telling shady stories when only the men were there. So here's to my boarding house. God bless it! I wish that I could get away from it, but I'm afraid that I can't—I owe too much back board.

—Glick.

The University Press Club was organized in the fall of 1909, for the purpose of publishing a weekly paper at the University. It has been a highly successful venture and The Kaimin is known today as one of the best of college newspapers. It has seemed advisable to many, however, that the official organ of the student body be controlled by the students themselves. With the close of the present school year, therefore, the Press Club will close its career and the control of The Kaimin will pass to the A. S. U. M.

The Y. M. C. A. made its first attempt this year at running a house. The venture was not an unqualified success financially, but it is confidently expected that next year will prove more successful. The need of such a house for the increasing number of students who are registering at the University is apparent. The sophomore pledging rule for fraternities should do much to increase this need, as well as to make a successful house possible.

Mary Stewart ........................................... Secretary

The Equal Suffrage Club of the University of Montana was organized in March, 1912. Much of the credit of the organization is due to the work of Miss Grace Rankin, the president. The purpose of the club is to disseminate information in regard to woman’s suffrage, and to arouse wider interest in the subject. Each member is appointed a committee of one to distribute suffrage literature and to work for equal suffrage in his own community. The club feels that it has exceptional opportunities to help in passing a bill through the legislature, since its members are from all parts of the state, and can influence a great many legislators. During the year the club has enjoyed talks by Dr. Duniway, by Miss Stewart, and by Miss Jeanette Rankin, who is doing such good work for the cause in Ohio.

Constitution

Article I. The name of this organization shall be "The Woodrow Wilson League of College Men."

Article II. The object of this organization shall be to unite college men in promoting the candidacy of Woodrow Wilson for the presidency of the United States.

Article III. The officers of the league shall consist of a president, a first vice-president, a second vice-president, a recording secretary, a corresponding secretary and a treasurer whose duties shall be such as commonly attach themselves to such offices in similar organizations.

Article IV. The League in furtherance of its design shall (1) conduct correspondence, (2) solicit the support of the college press, (3) submit articles for publication in the various democratic organs of the country, (4) interview delegates to the democratic conventions, (5) seek to follow the instructions of the Wilson bureau, (6) and by all these means to get college men squarely behind the college men's candidate.

Seattle, Wash.—Miss Florence Currie, 4519 Fourteenth Avenue, N. E.
St. Louis, Mo.—Dr. Frances L. Bishop, 4271 Washington Avenue.
Review of the Athletic Year

Montana's 1911-1912 athletic season was the most unsuccessful, so far as victories were concerned, in years. The football championship was won, but it was an empty glory. The basketball team did not win a game, and the track team was defeated by the Aggies for the first time in the history of the two schools. The baseball team hardly deserves mention, not only because it was not supported by the A. S. U. M., but because it was unable to schedule any collegiate games.

But victories cannot always come to Montana, and it is to the University's credit that after so many years of uncontested victory, her supporters accepted defeat without a whimper. In the face of sure defeat, the Varsity teams fought just as hard as when, in the days gone by, their victory was assured. It is this spirit, after all, that counts, and that is going to bring championships back to Montana next year.
THE SEASON started off gloomily. Despite the fact that there was a wealth of material in school, a mere handful of men reported each evening for practice. The squad lacked snap and ginger and rounded slowly into form. This state of affairs lasted for about two weeks. Then the men of the University got "hep to themselves." A bunch of ineligibles banded themselves together one night and turned out for practice against the Varsity. This was the turning point. Men began to come out who had not been regarded as football material at all and a complete shake-up of the squad followed. It was too late to do anything for the game with Washington State, however, and after some correspondence the game with that college, which was to have been played on October 14, was called off without hurting the University's standing at all.

The action of the ineligibles, or the "Misfits," as they called themselves, started things; the appearance of big Paul Dornblaser on the field capped the climax. "Dorn" had said that he would be unable to play because of an overabundance of work. When he saw the condition the team was in, though, he made some serious sacrifices and turned out. That was all the team needed. On October 21, the squad went to Butte, full of snap and ready to tackle anything. In eleven years the Varsity had beaten the Miners on their own grounds only once, and that time by a score of 3 to 0. Last year, when the smoke had cleared, the score stood 12 to 0 in favor of the Varsity and the wearers of the copper, silver and gold had not shown a single trick play or used any of the season's ammunition in the way of strategy, either. It was a glorious victory. The week before the Miners played the Aggies to a 0 to 0 tie in Bozeman, thus giving the championship to Montana.

On the following Saturday the Varsity went up against the fast Utah Aggies on Montana field. The game was one of the prettiest and scrappiest
ever played in Missoula, and although the Varsity lost by a score of 8 to 0, the defeat was almost as good as a victory, since the Mormons had already beaten the Montana Aggies by a score of 26 to 0. At that, the score against the Varsity should have been 3 to 0. The touchdown the visitors scored was the result of a fluke. Brossard, the Mormon quarterback, caught a punt well down in his own territory. As he did so the umpire blew his whistle. Again the whistle sounded as the runner started down the field. Captain Winstanley, thinking the play stopped, told his men not to tackle the runner, who walked across the goal line unmolested. The touchdown was allowed, however, on the grounds that the referee did not blow his whistle.

This was really the last game of the season. The death of one of the Aggie players resulted in the cancellation of all the college's games and a blizzard prevented the Miners from playing a return game in Missoula. The last game of the season, which was to have been played against Gonzaga College was called off because of serious injury to one of the Spokane College players. To take the place of these games a battle was scheduled with a town team from Polson which resulted in an easy victory for the Varsity in a snapless game. The score was 28 to 6.

But despite its inability to display its valor, last year's team will have a chance this fall. Only two members of the team, Winstanley and Conner, will graduate this year and, hard though it will be to fill Windy's place, the team next fall should be the strongest Montana has ever had. Dornblaser has been chosen to lead the eleven and is already working hard to make the 1912 season a successful one.
MONTANA put a basketball team into the field last year for the first time since 1908. This team did just what should have been expected of a team of men who had never played in an intercollegiate game, and did it gracefully. Six games the team played and six games it lost, but never was there a sign of unsportsmanlike work or of submission. The team fought hard against uneven odds and made its opponents work hard to win.

Coach Whitlock, Captain McCarthy and Manager Baker did one thing last winter, however. They developed a lot of material, and gave a year of good experience to the men who will compose next year's team. In 1913 Montana will have a team of championship timber in the field.
Particularly creditable to Montana was the fight her track team put up this spring. From the start it was evident that the loss of such men as Ryan, Maclay and McDonald would make a repetition of the Varsity’s success in 1911 out of the question. With Cameron, Conrad and Owsley it was hoped, however, that the Varsity would be able to defeat the Aggies by a narrow margin. The withdrawal of the Miners had made the Triangular meet a dual contest and, as events later showed, had taken the championship away from Montana. In preparation for this one meet practice began. Disaster at once stepped in and on the eve of the meet crippled Captain Cameron so as to put him out of the running. It looked as if the Aggies would score an overwhelming victory.

But the Varsity went into the meet full of fight and when the last event had been decided the score stood 68 to 58, far closer than the most optimistic Varsity supporter had dared to hope. It was a splendid battle against odds and reflected great credit upon Montana’s team. Had the Miners been in the meet with Reid to take the hurdle races, Montana would have won. As meets in Montana go, the 1912 dual was unusually slow as the following records will show:

<table>
<thead>
<tr>
<th>Event</th>

### Individual Championship

Won by Edwin Hauser of Anaconda for the second time, with 20 points. Mr. Lewis Jolley of Gallatin won second place, with 18 points.
DECLARATION CONTEST

Girls—Hazel Baird, Stevensville, first; Antoinette Simon, Butte, second; Phoebe King, Bozeman, third.
Boys—David Roberts, Missoula, first; F. D. Higson, Helena, second; Bruce Hopper, Billings, third.

DEBATE

Question: RESOLVED, That the movement of organized labor for the closed shop should receive the support of public opinion.

Won by Gallatin County team, debating the negative against the Fergus County team.

The prize for the best individual debater went to Mr. Joseph Cotton of the Fergus County team.

The Carter Memorial Medal and the Mulroney Scholarship for the best essay written by a high school senior was won by Miss Helen Spain of Gallatin County.

Important facts concerning this interesting village brought to light by the excavations and study of Dr. No It All, assisted by Prof. Dig Em Out.

Report of Dr. I No It All given before the Society of Historical Research of Lookin, China, at their last regular meeting in the summer of 2504.

Latest edition, completely revised and enlarged.

FOREWORD

When, after years of fruitless search in the wilds of Nawtham Erika, Dr. lle Findit Yet reported to this honorable body five years ago that he had at last uncovered some interesting ruins, which he believed to be those of that famous institution of learning, Vah Si Ti, the joy that filled our hearts knew no bounds. Immediately there was a general demand for a more thorough investigation of the remains to ascertain whether or not Dr. lle was correct in his conclusion. The discoverer himself was so broken in health as a result of his labors that, in spite of his willingness to go and his undoubted fitness for the task, it was deemed inadvisable by all concerned to allow him to proceed with the work. It then devolved upon this body to choose another to take up the search where he was forced to lay it down. The society gave ample evidence of its far-seeing sagacity in selecting for the task this humble earth-worm, who is here before you to present the report of his tremendous achievement. With all due modesty and retirement he shrinks from stating that his is undoubtedly the greatest work which has been accomplished since the fall of the empire.

THE JOURNEY

Following the route mapped out by Dr. lle Findit Yet, we came to the site of his excavations after a long and arduous journey. We travelled down the valley mentioned in all the literature of Vah Si Ti, as acrimonious Tuber (Note: Dr. lle Findit Yet insists that the correct translation of the name of this valley is Bitter Root.) Here we uncovered the remains of what was undoubtedly the shrine of some saint (Dr. lle Findit Yet asserts that it was a famous hostelry much patronized by the young of Vah Si Ti.)

Continuing on our way, we came to the broad triangular valley at the eastern corner of which we found the remains. At first we did not believe that we had reached the spot. We sought and continued up the great trench which is the means of exit from the valley on the east and whose mouth is famed in all the traditions of the extinct race as Perdition Portal. There are many beautiful pastoral poems dealing with pilgrimages taken by the youths and maidens up the canyon of Perdition Portal. *

Our commissary wagons, which brought up the rear, noticed when trying to take a short cut to catch up with us, that in front of the sharp peak on the south side of Perdition Portal there were traces of excavations. They immediately signalled to us and we hastened to the spot. A small pyramid had been uncovered. We dug down a little farther and discovered a black circle set about with mystic numbers and two indicators pointing to them. At first I judged this to be a fortune telling wheel, or perhaps

*We are unable to determine the nature of the pilgrimages because of the apparently irreconcilable difference between the meaning of the word cannon as used here and as used in all other places where it occurs. Elsewhere it means a large instrument of warfare, but that meaning is incongruous with the sentiment of the poems, which simply describe short pilgrimages up a beautiful valley and back. The following is one of the most exquisite fragments found:

Then up the dusty road they trudged,
Filled with wondrous joy of early spring,
Tall Robert walked with little athletic step,
Oft glancing down the while at sweet — — — — — —,
Who gayly chattering beside him kept the pace.
even a gambling device. Further investigation, however, showed it to be a time-piece which by its mechanism caused a bell to be tolled at stated intervals. At certain tollings the populace of the town gathered to sacrifice to their various gods of erudition, recreation and reciprocal affection.

Our joy at this discovery can be imagined. We immediately set to work to erect a semi-permanent structure to house the party. We built a modest thirty-story hotel with ample though simple apartments for the entire company. A sketch of it is given here-with. It was my belief that no satisfactory work could be accomplished unless the leaders of the party were comfortable.

When the village was finally completely uncovered we discovered it to consist of six buildings, five comparatively large and one very small. These were grouped about an oval space, in the center of which was a low, flat altar (dedicated, as we afterward learned, to the God of Reciprocal Affection and termed Spooney Rock, although the reason for the name is obscure, for "spoon" in their language is the name of an article of silverware used in eating.)

Beside this altar was another higher, more pointed one, which is not mentioned anywhere by name, but which undoubtedly was used when an additional altar was needed on a festival occasion.

At the north end of the oval was an imposing structure with a high tower, the top of which was the pyramid that gave us our first clue. On the front of this building was a slab bearing the letters, UNIVERSITY HALL. This was probably the name of the building. North of this building was a castle-like structure, which from its plan we concluded to be JIM. To the west of the Jim and directly upon the oval, we found the Hall of Archives, also called the Library. In this building we found most of the writings. Southwest of the chief edifice was the great workshop of the village, Sigh Ants Hall. The building west of Sigh Ants Hall was Craig Hall, a communal dwelling place. The sixth building stood directly south of Craig Hall, and may have been an out-house or else a place for punishment by solitary confinement. It was called Infirmary. The whole plot of ground whereon this town was built was called the Campus.
THE PEOPLE OF VAH SI TI

Vah Si Ti was inhabited by a race of people called Studes. For the most part they seem to have been a happy, care-free nation and originally most devout worshipers of a god called Recreation. When, however, they were conquered they were forced to abandon this worship for that of the god Erudition, in connection with whose service they were forced to perform many difficult tasks.

This worship was introduced and maintained by the Profs, a band of foreigners, who about the year 1895, had entered the town and conquered the people. From that time they had with difficulty held the Studes in a state of partial subjugation. Occasionally, after a long and arduous period of servitude, a few Studes would be permitted to go free. Such freed-men were known as Alumni. After their release they would usually leave the town entirely, but would return at irregular intervals to see how their brethren were faring. They would also endeavor to assist them in their efforts to escape and sometimes would encourage insurrections.

Some dynasties of the Profs were good and kind, and the Studes submitted to them peacefully. Others gained their disfavor and ruled with difficulty. Individual Profs secured the affection or dislike of their particular groups of Studes and their provinces were correspondingly free from or subject to insurrections. When the Studes acted in a body they could generally accomplish what they wanted, but unfortunately for them, all was not peace and harmony among the Studes themselves. The Profs had divided them into groups for convenience in governing them. These groups were known as the unsalted Souls, or Freshies, the Sophs, the June Years and the Seen Years. Occasionally a few disgruntled members of one division would become jealous of another, and immediately the whole division or class would take up the quarrel. These outbreaks were most frequent among the Freshies and the Sophs and resulted in occasional pitched battles. In the fall of the year 1911, a notable one occurred wherein a band of Sophs attacked a band of Freshies, and after a furious struggle in which one man was overcome by force, a number of the Freshies were caught and fast bound. Then their heads were partially shorn by the victorious Sophs and they were released to go about their duties, objects of ridicule for the rest of the Studes. This battle is reported, however, to have brought down upon the Sophs the displeasure of the other Studes for their crude manner of engaging in it.

Another battle of note is best described by the pictures opposite.
168
LIFE OF THE STUDES

Beautiful in its simplicity and truthfulness to life is the story of the marriage of Miss Gwendolynne Snodgrass-Snelfungus to Mr. Chancey de Whatte f’ Short. The ceremony took place in the evening as was customary. The guests assembled in the parlors of the Dorm or Craig Hall, as it is also called. At eight o’clock the ushers, five young men, friends of the bridegroom, marked off an aisle with strips of white baby ribbon. Then they unrolled a beautiful strip of the same material down the aisle itself. The orchestra struck up a wedding march, in tempo furioso lunatico, and the bridal party advanced up the aisle to where the minister and the bridegroom were waiting. The service proceeded calmly for a time but was rudely interrupted by a jilted lover of the bride, who declared that she was a false, fickle female who had hangnails. Words cannot describe the wrath which filled the heart of the bridegroom at these words. But he exerted his self-control and the ceremony proceeded. At its conclusion the couple were the recipients of the felicitations of their host of friends. Refreshments were served to the hungry multitude by the parents of the bride, and when all had stayed their appetites the party adjourned to the lower regions and joined in a festival dance. The guests received as favors bits of wedding cake, cut in the shape of peanuts. In a room set apart was a gorgeous display of the gifts presented to the bride.
Each year the Studes were compelled to submit to a dreadful torture. For days and weeks beforehand the notices would be up in the buildings saying: "Get your picture taken for the Sentinel," or words to that effect. The Studes were most reluctant to undergo this torture, for although the rewards were great the pain was so intense that it was all that they could do to endure it. There were, however, some stoics who seemed to take a sort of savage delight in the suffering they underwent. In an old manuscript we came across an illustration of the torture which we present herewith. The small, erect figure is that of the victim, the taller, that of the executioner. The instruments shown are those used to inflict the pain.

But sometimes the Studes got revenge for what they suffered. Within their prison walls they would devote such spare time as they had to the creation of allegorical pictures representing their sufferings. With what delight they would meditate on these we can guess. The following is an excellent example of this sort of drawing.

![Stude's Conscience](image)

Exactly what the conscience was, we are unable to determine.

It seems to have been some sort of a noxious parasite whose growth on the Studes was encouraged by the Profs. The Profs themselves are well known to have been completely free from them. The chief characteristic of this parasite was that it prevented the Stude's doing anything that gave him pleasure, but was no obstacle to the performance of the tasks assigned by the Profs. That these oppressors were free from them is evidenced by the fact that the only times they mentioned being so afflicted were when the Studes would ask favors of them. Then they would say that their conscience would not permit them to grant these petitions.
Another picture represented a protest against the tyrannous decrees of the year 1912. It is self-explanatory.

Flunking seems to have been the usual punishment inflicted by the Profs upon Studes who failed to complete their quota of work. Its exact nature is not clear, for Studes so disciplined exhibited no outward effects. It is known, however, that Studes who were known to have been flunked were kept under close observation and forced to perform
many arduous duties. Another form of punishment was canning. This seems to have been the last resort of Profs in the case of an unruly Stude. This operation was the sealing up of the object to be canned in an airtight jar. It was practiced rather frequently, strange as it may seem, in such an enlightened community. Just the horrible warning forced upon the Studes by the sight of their fellows sealed up alive in these prisons was sufficient.

The drastic action taken by the Profs, after the rebellion of the twenty-ninth, as it is called, was the inspiration of many works of art and literature, pictorial representation, and other forms.

The interesting cut given below is from a mural painting found on the walls of the infirmary. As a word of explanation, we may state that college spirit, university spirit, or Montana spirit, as it is variously called, was an intoxicating beverage, somewhat resembling the elixir of life of the ancients and actually serving that purpose among the Studes, which was under the ban of the Profs. It was absolutely forbidden to the Studes because the Profs disliked the taste of it and feared the consequences when their subjects partook of it.*

It would be wrong to conclude this discussion without mention of the way the dramatic instinct found expression among the Studes. Several times a year they gave exhibitions with the permission of the Profs, chief among these was the one called Hi Jinx,

*At times, however, the beverage was known to produce most desirable results. Under its influence the Studes accomplished double the amount of work that they did without it. It also made them less fretful under restraint, but it united them, and this was what the Profs feared.
at which they gave free rein to their feelings and presented their wrongs before their masters under the license of the drama. On another occasion they gave modifications of their ancestral dances for the entertainment of the Profs. Two of the dances are shown in the cut.

I think I have made clear to you the tremendous value of my achievements, and am now ready to receive the highest awards. Gentlemen, present me your medal.

I NO IT ALL,
Doctor of Everything Under the Sun.
APPENDIX A
APPENDIX B

The following are extracts from a collection of documents, every few sheets of which bore the heading:

THE WEEKLY KAIMIN

A perusal of these indicated that the writings composed a sort of record of current events from the point of view of the Studes. The control of the writings which found a place in these documents was an office much sought after among the Studes, especially the red-haired variety.

As to the extracts printed herewith, none requires much explanation but the one concerning the Soph. This Stude, we gather from the documents, was, perhaps, the most prominent figure among the Studes in the years 1911-12. His opinion was valued very highly, as is evidenced by the frequency with which it found expression in these pages.

BLACK HAND HOLDS SECRET MEETING

The Mystical Brotherhood Passes a Few Weighty Resolutions.

Last night, at midnight or later, the Black Hand Society of the University held a secret meeting in the parlors of the Louvre. The proceedings have all been kept dark, but we feel assured that they have plotted only for the worst interests of the University. When seen this morning, one of the leading conspirators said that he did not wish to be quoted; but this was probably the last year that there would be any professors in the University, that not satisfied with the way the instruction was being given at present, they meant to amend matters, and do the teaching themselves in the future. This was all that the gentleman would divulge, but we know that other equally brilliant plans are on foot.

MISS ——— TO LEAVE.

To Take Advantage of Leap Year and Wed.

When seen yesterday by a Kaimin reporter Miss ——— said that she had nothing to say. “Yes,” she continued, “I am going to resign. I am going to take advantage of the leap year. I am sorry. I hate to leave, for I find my associations and my associates most delightful here. I dearly love the girls in the dormitory. They are very kind and most considerate to me. The lucky man? Oh, I am not telling at present.”

Later in the day one of the girls passing her door saw her tossing up a penny.

AN UNUSUALLY STUPID TALK

Honorale Dry Bones of the State Bar Association Addresses Assembly.

Honorale Dry Bones of the State Bar Association gave an unusually stupid and dull talk before assembly on last Wednesday. He chose as his topic, “Character and the Way Our Modern Industrial Disasters Are Pending.” In the course of his remarks he praised the Law School, and said that he hoped that it would not come to a bad end. He had a word of cheer for everyone, and prophesied that the worst was yet to come. The students cheered him wildly at the conclusion. Assembly was dismissed at quarter to one o’clock.

WOMEN SUFFRAGISTS MEET.

Whitlock Addresses the Ladies.

The Equal Suffrage League met yesterday in the parlors of the dormitory. Professor Whitlock of the Law School addressed the ladies. In the course of his remarks he said that whatever the ladies did suited him. Violent cheering accompanied his speech and the club, as a whole, voted to give him a hand-mirror. At a late hour tea and wafers were indulged in.
SOCIETY NOTES.

Rappa Rappa Damma Spread.

Rappa Rappa Damma gave a spread in their suite last Monday evening in honor of themselves. Many delicious dainties were served. The girls all report having a most delightful time.

Rappa Walpha Cheta at Bridge.

Rappa Walpha Cheta entertained themselves at bridge yesterday afternoon. Only a few blunders were committed, the girls reporting that they are learning fast. At the end of the cards a delicious luncheon was served, and Sisterino gave a most pleasing and interesting talk on the proper angle at which your fork should rest on your plate. Under the guidance of Sisterino the girls are progressing.

Helpa Damma Fudge Party.

On Thursday evening the members of Helpa Damma entertained themselves at a delightful fudge party in their parlments at Craig Hall. During the evening the orchestra, composed of Sisterinos Huffle and little Mable, discoursed charming music, while such of the guests as were not too busy eating fudge indulged in vocal gymnastics for the edification of the rest.

RACKET AT THE Y. M. C. A. HOUSE.

Folsom and a Few Friends Have a Beer Bust

Last Sunday evening Mr. Folsom and a few of his friends, Conrad, Thompson, Rask, Haines, Speer, etc., disgraced themselves by having a beer bust. All of the men present became slightly intoxicated. One bottle of beer in tablespoon doses was consumed by the crowd. After the debauchery they united in playing strip poker. No serious harm was done save the ineffaceable stain that will be left upon their characters.

POLITICAL NOTES.

The La Follette Club held a meeting last Tuesday evening and after discussing the best means for assisting the cause of the progressive republican leaders, decided to become the Roosevelt Club.

The Woodrow Wilson Club held a meeting last Thursday evening and discussed the best means of assisting the cause of the collegeman’s candidate.

The Equal Suffrage Club held a meeting and discussed the best means for assisting the cause of “martyrs” in England. They also discussed the merits of the various candidates for the presidency, and concluding that none of them was sufficiently favorable to the cause, appointed a committee to survey the field with a view to selecting an eligible suffragette.

The Taft Club also met.

THE SOPH ON THE RISING OF THE SUN AND THE GOING DOWN OF SAME.

“Gee,” said the Soph, as he strolled into the office where the Owl was busy reading off his weekly quota of “dope” for the Kalmian, “I certainly am glad that that measure for 8 o’clock classes didn’t get through, after all.”

“What’s bothering you now?” asked the Owl. “Don’t you see that I’m up to my eyebrows in work? Besides, I thought that you were one of those energetic ones who love to see the sun rise.”

“That’s just the point!” replied the Soph, “I like to see it rise before I begin to work. At least I like to know that it has risen, even if it doesn’t manage to do it before breakfast.”

“What has all that got to do with 8 o’clock classes? In the spring and summer the sun is certainly up high enough by 8 o’clock for you to see your way around.”

“It’s not so bad in spring, but for a good half of the year the sun doesn’t get over the top of Sentinel till after 9 o’clock. All the west side of town has at least an hour more of sunshine each day than we have.”

“I don’t see, though, that there is much for you to do about it. The University site was chosen over here by the hill and it seems to me that it is not exactly for us to change it.”

“Of course, we couldn’t change the site of the University. It has grown now to such a size that it would be an awkward undertaking, to say the least. I have another scheme.”

“Well, out with it, then. Do you suggest tearing down Sentinel? That sounds just like one of your brilliant ideas.”

“I should think not!” denied the Soph, hotly. “There is too much sentiment attached to our mountain for any such action. The students wouldn’t stand for it. Why, practically all the Varsity traditions have to do with it. Besides, it forms an attractive background for the buildings. No, my idea—”

“See here,” the Owl interrupted, “I haven’t time to fool with you any more. If you have anything to say, say it, and if you haven’t, get out and let me work.”

“My idea,” resumed the Soph, “is to change the sun. Have it rise from behind the mountains by the Rattlesnake and set behind Lolo. Then all the buildings would get the sun for at least part of the day, and it wouldn’t be half so cold early in the morning.”

“That’s not a bad idea.”

“Then, no one side of town would have so much advantage over another. The hills there are not so high and close-in as Jumbo and Sentinel and practically every spot would get the early morning sunshine.”

“It certainly would be an advantage.”

“Then, just think what a beautiful sunset it would make behind Lolo. Instead of sinking behind a practically straight horizon the sun would slip gently down, silhouetting the beautiful jagged lines of Lolo against a
background of coral and gold. Well, I haven't time to dream about it now. I'll go over and get the engineers started on a scheme for doing it."

"That chap has more bright and original ideas than anyone else around this place," mused the Owl, as the Soph ambled out of his office.

SMOKE WREATHS.

Professor Plew (in Surveying)—Mr. V—, how did you get that number?

Bill—Oh, I matriculated between two values.

Member of Sentinel Staff—Yes, I'm going to spare Dud this time.

Co-ed—You can carry it too far.

Fair Co-ed to Dauntless Freshman, dancing (the silence has been oppressive)—I'm sorry to inflict myself upon you, Mr. N—, for I know I'm a poor dancer.

D. F. (in a consoling voice)—Oh, never mind; you're only a little worse than I am.

The marvelous Tatum is superstitious. He would bet his pile any day on three queens.

The Senior Engineers are a much abused bunch. They go into Professor Richter's office when he is using it. The Freshmen keep them from the drawing room. The Sophomores hold down the reading room, while the Juniors have taken possession of the front lecture room. All that is left for the poor Seniors is the smoking room. No wonder they will be glad to graduate.

Mr. Conway's friends will be delighted to learn that his name is being considered for the office of city jailer. His qualifications for that position are self-evident. For nine months he held down the job of head doorkeeper of the Dorm dining room, firmly refusing to let in any guests of the University after 7:45 o'clock, and admitting only favored member(s) of the Y. M. C. A. after that hour.

Bill (in Chemistry, discussing an unknown)—Could you get any sparks to come? I couldn't.

John Eugene—We're not much on sparking, are we?

LATE SOCIETY.

The A. S. U. M. held another of its charming little dances in the gym. About six couples tripped the light fantastic to the melodious strains of the orchestra. During the evening rubber foam was served at the south end of the hall. It was nearly midnight when the party broke up, the guests all vowing that they never were so tired before.

The A. S. U. M. is $30 more in debt as the result of this festivities, but such is the devotion of the students that a petition was presented on Saturday morning requesting that the price of admission be cut down to 25 cents in view of the fact that the students paid a $5 incidental fee at the beginning of the year.
APPENDIX C

In a sort of prison, high up under the roof of Main Hall, we found some very interesting fragments. This prison was the place known as the Law School. Here the Profs were wont to place certain of the Studes who were heard to boast that they possessed more than the other Studes of certain riches forbidden by the governing powers and known as college spirit. Being men dauntless in courage, when not engaged in accomplishing the difficult tasks set them by the Profs, these Studes, commonly called Law Studes, would utilize the precious moments by writing down incidents from their daily life for the benefit of those who should follow them.

Below we give a few examples from the vast store discovered:

ALIENATION OF AFFECTION SUIT
BROUGHT BY
"BILL" FERGUSON AGAINST LA RUE SMITH

The Principals

What promises to be one of the most sensational law suits ever brought before the University District Court, is that of Ferguson vs. Smith. The suit will be tried some time during the court’s summer sittings, according to the court calendar.

It seems that prior to Smith’s advent upon the University campus, Ferguson’s life was one long, sweet song. There was no competition and Bill did the monopoly act to the queen’s taste. But he failed to get it patented, and it was not long before one La Rue Smith entered, “infringed,” so Bill says, and did feloniously steal the affections of one pretty maid, the sole object of the one and only of Bill’s affections. Poor Bill!

For the past four months Bill has led a miserable existence. He refuses even to smile, and he avers that he can prove that the defendant Smith stole the affections of his sweetheart, and that for so doing he is going to sue Smith for $500,000 damages. For further developments see our next issue.
A FEW POINTERS FROM THE LAWS

It is with pleasure that we bestow the honor of "champeen" fence jumper of the league upon R. Justin Miller. He takes a picket fence as easily and as gracefully as a bird on the wing, and it never seems to make him weary.

* * *

Dornblaser would like an "addition" to the Law Library, but he refuses to tell anybody what it is. Come on, Dutchman, cough up!

* * *

Cameron, the "girl-less" wonder of the department!

* * *

Judge Cole had his hair cut the other day. The barber must have used a sickle.

Wow!

* * *

But speaking about the social whirl, we would suggest Xoddam Rehetelf Nruboe as a candidate for Missoula's 400. The "deah" boy is a constant and persistent reader of the Delineator, can talk style, knows Butterick's latest patterns, can give you all the cuts of the L-system, plays bridge like marbles, dances as though he were jumping rope, sings like a "fony-graff," plays the piano like a battering ram, and fusses regularly every Wednesday and Sunday evening. Ladies and gentlemen, we present to you for your consideration Xoddam Rehetelf Nruboe.

* * *

It is a shame the way some of these fellows butt in. There's that Dick Johnson following the example of La Rue Smith and jumping in on Artie O'Rourke, galivanting around with Artie's side-partner. Get at him, Mick, our money's on you.

* * *

Yes, "Doc" Smith also has a line on a certain young lady of the University. We'll hand it to Doc, he's up and coming all the time.

* * *

Poor Wiedman, ever since he met "Tom" his competitive spirit has been stifled. Don't you care, Spud, the potatoes will soon be ripe.

* * *

For he's a jolly good fellow,
A diamond in the rough,
Who gets his work done every day,
And never's known to slough.

Bro. Hoblett.
TO DEWITT

FIRST EPISODE
He journeyed to the Bitter Root,
A social function to attend;
He made a hit with all the girls,
They all called him their friend.

SECOND EPISODE
He rambled to the coffee house
A lengthy fast to break,
His friends from Hamilton were there,
While he partook of steak.

CATASTROPHE
One looked across at him and smiled,
But Dewitt never quivered;
She blushed a bit and then was heard
To say that she'd been "shivered."

EPILOGUE
And still he never recognized
His friends from up the Root;
But when he goes up there again
I'll bet he'll get the boot.

* * *

The following was found among the official records of the Law School:

DORM GIRLS, ET AL, VS. "BARON" KESSLER

Suit in equity, praying for an injunction against said Kessler, for inflicting great quantities of soft coal smoke upon the campus of the University of Montana, and especially upon those parts of said campus surrounding and being in the immediate vicinity of Craig Hall, otherwise known as the "Dorm," and that said "Baron" Kessler be required to adopt such measures as may be necessary to prevent the continuance of said nuisance, above set out, either by ceasing the use of said soft coal, or by sufficiently increasing the height of the smoke-stack from which he causes to be emitted said great quantities of soft coal smoke, to the great annoyance of the general public, and of plaintiffs in particular.

Plaintiffs further pray damages in the sum of $1,000,000 for injuries caused by said soft coal smoke to the snow surrounding, lying and being upon the lawn about said "Dorm" and to immediate lace curtains, etc., and for whatever other relief in the premises as may in the judgment of the Court be deemed reasonable.
Whittie and his girls  ???  ???  ???  ???  ???
The delicate question – Which???

21. Bullerdick and Warren chosen as debaters to meet Pullman.

24. The Foresters entertain the Engineers at a smoker. Oh, those cigars!

25. Kappa Kappa Gamma house party at the Hall. Much noise and rough house.

27. Sigma Tau Gamma reception for Delta Gamma inspectors.

29. The appropriation bill dies. Midnight funeral on campus.

30. Editor-in-chief Taylor appoints Sentinel Editors.
1. Gold found on Sentinel? Flags mark prospector's holes.
4. President Duniway entertains the Foresters.
5. Judge W. Bickford addresses assembly.
6. Sophomore class draws for partners for a moonlight picnic. Dobby's draw indicates that John Taylor was bribed.
7. Kappa Kappa Gamma gives a "nigger heaven party" at "Old Homestead."
11. Roosevelt day. Colonel Roosevelt addresses the students in assembly.
13. Joyce Memorial Prize awarded to Helen Wear.
14. Class day officers elected by Senior Class. Sophomores have a moonlight picnic up Hell Gate canyon.
16. Dorm girls sneak off on Easter vacations.
17. University lecture course.
19. Senior luncheon at Craig Hall.
21. Tote pays Missoula another visit.
22. Misses Smith and Stewart entertain at a chafing dish party.
25. Freshman High School track meet 57-69.
29. Freshmen win inter-class track meet. Senior girls entertain all the women of the University.
1. May day. Oh, you picnics!

2. Special meeting of "Sluffers" on Spooney Rock.

3. Juniors give a "Ten cent show" at convocation.

4. The night was very, very dark. There appeared mysterious figures, clothed in white. They marched and sang about the Dorm. A pajama parade. You've guessed it right.

7. Earl Speer and Ralph Smith move to the "Sigma Nu Annex" (the infirmary) with the mumps. A stone makes its way from the Dorm through the infirmary window. Who had a murderous intent?

8. Inter-High School Debate.

12. "Good-bye" to contestants. The Dorm settles down to calmness again.

19. Iota Nu annual banquet at Shapard hotel. Kappa Kappa Gamma dance given at Keith's.

20. Sigma Nu Freshmen entertain. President Duniway entertains Junior and Sophomore men.

23. Ernest Hubert elected to honored office of prexy of A. S. U. M.

26. Sigma Nu entertains a ten-cent show party with supper afterwards. Sigma Chi gives a dance.

27. The 1912 Sentinel appears. Kappa Alpha Theta has another picnic.

30. Sigma Nu have a picnic up the Rattlesnake.

31. Kappa Alpha Theta annual commencement banquet. Sigma Tau Gamma entertains for their Seniors.

17. Mr. Bear visits the Dorm.

19. Kappa Alpha Theta entertains at a Kensington for Mrs. Thomson.

22. And President Duniway swore. First A. S. U. M. dance of the new year.

23. The Sigma Nu’s start on a joy ride up the Bitter Root.

24. Kappa Alpha Theta box party at the “Russian Ballet.”

28. Sigma Nu ten-cent show party and joy ride. Sigma Chi dance.

30. Kappa Alpha Theta initiation. Fancy dress party at the Dorm. Some “rude little boys” turn the hose on the dean.
1. The Sigma Chi's go for a joy-ride up the Bitter Root.
2. Sigma Nu withdraws from Pan-Hellenic.
3. Sigma Nu pledges.
6. Iota Nu house party at John Taylor's. Sigma Chi smoker.
7. Kappa Kappa Gamma entertains at dinner at the Bitter Root Inn. Dr. Reynolds falls off his perch.
11. Freshman dance.
12. Columbus Day celebrated with picnics.
13. Sigma Nu entertains at a duck dinner. Delta Gamma at home to its friends at the home of Mrs. T. Thompson. Sigma Chi dance.
18. A. S. U. M. mass meeting to practice yells.
20. Kappa Alpha Theta banquet at the Palace hotel.
21. Football game—U. of M. vs. M. S. S. M. in Butte, 12 to 0. Rally at the Milwaukee station.
25. Kappa Kappa Gamma entertains with a dance at Mr. Keith's.
31. University lecture course.
1. Kappa Kappa Gamma spread in honor of pledges.
2. Students serenade Dr. Duniway in honor of his birthday. Kappa Alpha Theta spread in honor of pledges.
3. Hallow’een party at the Dormitory and Catty drew the thimble from the cake.
6. Montana State School of Agriculture withdraws from the football league.
7. Mock burglary trial in Law Department. Armitage, Dobson and Wolfe acquitted.
9. Miss Stewart at home to women of the faculty and women of the institution.
10. Y. W. C. A. doll party.
13. Clarkia gives a spread.
16. University lecture course.
17. Florence Matthews entertains Delta Gamma.
24. The Co-ed Prom and the perfumed belles and beaux frolicked. Oh, you slippery floor!
1. Girls organize basketball team.

2. Stormy, Dorm parlor popular.

4. Sigma Nu initiation.

6. Petition for Xmas vacation graciously granted by Kaimin.

7. Stung. Kaimin had a bum hunch.

8. — University lecture course. A. S. U. M. day at Elton’s. Seniors’ party.

9. R. Justin Miller admitted to bar.

10. Arthur gives a party for two on the Gym steps.

11. Interclass B. B. series won by 1914.

16. Hi Jinx. “Has anybody here seen Kelly?”

17. Dornblaser chosen football captain for 1912.

Vacation ends.
3. Foresters register.
4. Foresters organize.
5. Sigma Chi sleigh ride. "You mustn't—stop!"
6. Sigma Nu entertains at cards.
8. Kenneth takes a vacation.
11. Mr. and Mrs. Evans entertain for Sigma Nu.
12. Teacup shower for Kappa Alpha Theta.
13. Senior leap-year party.
14. Self-government at Dorm. Dorm girls rebel?
19. Advanced elocution class presents "The Wedding Journey."
20. Ice carnival.
21. Bill asked to Leap Year ball.
22. Bill returns compliment to the Athletic ball.
23. Holmes takes the rest cure near Bonner.
24. Kappa Kappa Gamma spread.
25. Exams.
26. Athletic Ball.
27. Kappa Alpha Theta and Kappa Kappa Gamma initiations.
28. Mrs. Evans entertains Delta Gamma.
30. Registration day. Leap Year ball. "And the women did the work."
31. Second semester begins.
1. La Rue a victim to Cupid.
4. ‘Pep’ takes an auto ride with a friend.
6. ‘Pep’ takes an auto ride with the same friend.
7. La Rue studies at the library. So does she.
8. Penetration initiates.
10. Sigma Chi initiation. Coburn scrubs the Dorm porch.
14. Housecleaning at Dorm.
15. Housecleaning at Dorm.
20. Miller and Sewell to debate with Pullman.
22. William George.
24. Initial appearance of University girls B. B. team.
25. Dick is invited to take a walk.
29. Students enjoy Leap Year holiday.
1. Foresters’ banquet.
2. Sigma Nu initiation. Mud pie party at Dorm. Mrs. Duniway’s tea to the new girls.
3. “Pep” and “Bob” entertain at a Fudge party.
4. Sigma Nu banquet.
5. Jimmie and Pink take a tramp to Kalispell.
7. Those “M” sweaters arrive at last. So does Arthur’s.
9. Sigma Nu box party.
11. Jimmie and Pink return tired, but happy.
14. Sigma Nu smoker.
15. Sigma Chi dance.
16. St. Patrick’s day jig.
18. Professor Richter entertains the Foresters at a smoker.
20. Mrs. Spottswood’s reception for Kappa Alpha Theta.
21. Glee Club makes its debut at Darby. (The audience is still alive.)

This store, the largest, best and most progressive in the University City, is the conceded head-quarters for everything one needs to wear, to add to the comforts of home, to eat and use. Its twelve immense departments, each one a complete store itself, affords the widest variety from which to make selections, and everything sold is of the highest quality, though, through the agency of enormous purchases to supply our wholesale and retail trade, moderately priced.

What Are You Making of Yourself?

Every man is the architect of his own fortune and the architect of his own life. If he would only realize it in time, he wouldn’t waste his best years in uncertainties, but would begin at once by a thorough business education that would fit him to occupy a position as an expert accountant, bookkeeper or stenographer by taking a course at the Butte Business College. In session all summer.

RICE, FULTON & MAY, Proprietors

The Price of our Fixtures

If quoted here would give you no idea of their beauty, convenience and efficiency. For while the price is the same as that charged for ordinary gas or electric fixtures, the fixtures themselves are far above the ordinary. Better come round and judge for yourself.
