Ball Bearings
Give Greater Speed and Stability to the

L.C. Smith & Bros. Typewriter
(Ball Bearing, Long Wearing)

Because of ball bearing typebars, the keys respond as readily as perfect piano keys. The capital shift works with equal ease — no lifting of a heavy carriage but simply shifting the light typebar segment, thus insuring absolute accuracy.

No fingers can move too fast for this machine — there isn't one delaying movement from "Salutation" to "Signature." Instead of expensive and awkward attachments, all change controls are connected with keyboard — including shift key, shift lock, space bar, back spacer, ribbon key.

Another advantage — this machine is complete in itself for all kinds of work: tabulating, billing, large envelopes, cards or paper as narrow as a postage stamp.

Every College Man Needs a Typewriter

The student who gets his work out in typewritten form has a better standing with the professors and is also enabled to preserve carbon copies of lectures and theses. You will appreciate these in after years.

The store, the largest best and most progressive in the University City, is the conceded headquarters for everything one needs to wear, to add to the comforts of home, to eat and use. Its twelve immense departments, each one a complete store itself, affords the widest variety from which to make selections, and everything sold is of the highest quality, though, through the agency of enormous purchases to supply our wholesale and retail trade, moderately priced.
