THE FIRST QUARTERS OF THE UNIVERSITY

From Small Beginnings

Thirty years ago in a borrowed building with a faculty of seven the doors of the State University of Montana were thrown open for the first time and during that first year instruction was given to a total of 135 students, all but a few of whom were registered in the academic department. Missoula county had voted a special tax for the purpose of completing the South Side school building (pictured above) for the free use of the University until a University building could be constructed. For four years the University occupied these temporary quarters.

The campus site was donated to the state by Edward L. Bonner and Frances G. Higgins of Missoula. In 1897 the legislature authorized the issuance of bonds to the amount of \$100,000 and from the funds thus acquired University Hall and Science Hall were constructed. In 1899 the State University occupied its permanent quarters. Craig Hall and the Women's Gymnasium were constructed in 1901 and the Library building, which is now occupied by the Law School, was completed in 1907.

During the period from 1895 to 1912 the average enrollment of resident students was between two and three hundred students; the faculty slowly grew to 35; maintenance expenditures increased from twelve to ninety-four thousand dollars. Two degrees were granted in 1898 at the first commencement, and the number of degrees granted yearly grew irregularly until in 1911-12 thirty were granted.

Beginning with the year 1912-13 the increase in students, faculty, maintenance expenditures and degrees granted became marked and constant. There are now twelve buildings of instruction on the campus. There are also other buildings such as the Music Practice House, three dormitories, a store, a carpenter shop, and heating plant. Total maintenance expenditures now amount to about \$450,000 a year, and there are over one hundred on the staff. Resident students in 1926-27 numbered 1874 and in addition 528 took advantage of correspondence study courses. At the commencement in June, 1927, 210 degrees were granted.

The State University of Montana is a class "A" college, accredited by the Association of American Universities and a member of the North Central Association of Colleges and the American Council of Education. It is no longer a small institution but has become one of the nation's larger institutions of higher education.

Largest Homecoming in University's History Planned for October 14-15

(From an interview with George R. Shepard, '21, Homecoming Chairman for 1927.)

EDITOR'S NOTE: Mr. Shepard is the President of the Alumni-Challenge Field Corporation and was of great service to the University during the last session of the legislature. He was appointed Chairman of the 1927 Homecoming by the Executive Committee of the Alumni Association and the President of the University.

A well-balanced program of receptions, dinners, dances, meetings, and a football game and parade is gradually coming into form for the Alumni of the State University when they meet again on the campus at Missoula on October 14-15.

Beginning with an S. O. S. at 7:30, Friday evening, October 14, the Homecoming program will continue through Saturday and Saturday evening. The Alumni dinner will be held in the dining room of the new dormitory, Corbin Hall, which was completed last January; the dance will be held in the big gym which will be elaborately decorated for the occasion; and the Homecoming game will be played on the new Dornblaser field which the Alumni have planned, financed, and brought almost to completion.

But the best feature of the Homecoming is that you will be here under the shadow of old Mt. Sentinel, and hundreds of your friends and fellow Alumni will be here, too. Old friends, old times, and old scenes will be the central theme of the Homecoming, and you will be swept back into the spirit of your college days.

The S. O. S.

The first event of the Homecoming at which old friends will gather will be the Singing-on-the-Steps of old Main Hall Friday evening—a few words by prominent Alumni, a few cheers and songs, and then, after the tower clock has struck eight, the singing of "College Chums." A reception by President and Mrs. Clapp from 8:00 to 10:30 and reunions of fraternities and sororities beginning at 8:30, will follow.

The program for Saturday will begin at 9:30 a. m. with get-togethers of the Alumni with faculty members in the various schools and departments, the business meeting of the Alumni Association will be held at 10:30, and the Homecoming Day Parade will begin at 11:30.

The Big Game

The game with the University of Washington will begin at 2:00 p. m. There will be student stunts between halves. October 14 will be the first time that the University of Washington, the oldest and largest University of the Northwest, has left its home field to engage the Grizzlies. The new Dornblaser field is in readiness for the greatest conflict ever witnessed at the State University.

The Alumni Dinner

The big Alumni dinner will be held at Corbin Hall at 6:15 Saturday evening. There will be a few words by well-known figures on the campus, but there will be nothing formal about the program. At 9:00 p. m., the Homecoming program will close with a dance in the Men's Gymnasium.

"Come Home at Homecoming"

But this is your Homecoming; it will not be a success unless you and a thousand others are present, for it takes old friends and old faces as well as old scenes to make a Homecoming.

1927 Summer School Opens June 20 With Substantial Increase in Students

The 1927 summer session is now half over and the registration figures for the first two terms has reached 470 which is an increase of over 50 students over the total figures for last summer.

There is a noticeable increase in the number of students taking graduate work and the number working for the bachelor's degree. There are over 90 graduate students registered, about half of whom are graduates of the State University. There are six graduates of the Montana State College in attendance and about 40 graduates of colleges in other states. No normal school graduates are counted in these figures.

Week-End Trips

The weekly excursions into the country around Missoula are the principal feature of the summer session. Greater numbers than ever before are taking part in these excursions and hikes. Dean Stone and Professor Ramskill are in charge of this feature of the session.

Visiting Faculty Members

Although there is not as many visiting faculty members as last year, there are several distinguished teachers on the staff this summer. In the Department of Education are the following visiting instructors: Ira B. Fee, superintendent of schools at Missoula; S. R. Logan, assistant superintendent of schools at Winnetka, Illinois; John G. Rossman, assistant superintendent of schools at Gary, Indiana; Payne Templeton, principal of Flathead County high school; and Ernest R. Wood, director of the Bureau of Educational Measurements at Kansas State Teachers College of Emporia.

In the Department of English there are the following visiting instructors: Charlotte Bockes, instructor in English and speech arts, Cleveland Junior Teachers College; Aelyn Burtis, technical director of the North Shore Theatre Guild, art director of the Arthur William Swan Studio, and manager of the Chicago Drama League, Little The-

atre Tournament; Alexander Dean, associate professor of dramatic art and literature at Northwestern University; and Wilbur Daniel Steele, well known author.

The visiting instructors in other departments are: Dr. Gerald Birney Smith of the University of Chicago in the Department of Religion; Max Daehler of Coe College in the School of Music, and Frank B. Cotner of the Montana State College in the Department of Biology.

The program of courses is planned to meet the needs of college students, teachers, and professional people. The division of the session into three terms of three weeks each has made it possible for almost anyone to attend at least one of the terms.

Other Features

Corbin Hall, the new women's dormitory, and the west wing of North Hall have been opened to women residents; and the east wing of North Hall is opened to men. The large dining room of Corbin Hall has been in operation since the opening of the session.

Three programs of plays have been scheduled by the Masquers, two major productions and a program of one act plays. Besides these, frequent dances, dinners, etc., make up the social program for summer.

There is a convocation with a special speaker each Tuesday morning, and the lectures in the course in **American Culture** are open to the public and students. There are also special lectures during the session by visiting lecturers.

Have You Filled Out and Returned the Alumni Cards Sent You Last Spring?

The Alumni Association has gone to a great deal of trouble and expense to plan and prepare a complete filing system in order to improve the efficiency of the Alumni service. Besides, with the rapidly growing body of Alumni, the new system will be almost indispensable in editing and mailing THE MONTANA ALUMNUS.

**IF YOU HAVE NOT DONE SO
BE SURE TO FILL OUT AND RETURN THE RECORD CARDS
IMMEDIATELY**

This file should be complete before the opening of the University next fall so that it may be used in sending out the Homecoming announcements and the next issue of THE MONTANA ALUMNUS.

THE FOLLOWING ALUMNI HAVE BEEN "LOST."

DO YOU KNOW WHERE THEY ARE?

We have no addresses for these graduates of the University. If you happen to know where they may be reached, help us complete our files by sending in their names and addresses. It will help the person whose address you send as well as us for then he or she will get the Alumni announcements and bulletins.

There he met the friends so valuable to him later. His principal work has been in Arizona, but he has assisted in smelter construction in many parts of the world. Now he is one of the best known metallurgical engineers in America, and his O. K. has been sought for in the construction of most modern smelters.

THE CLASSES

1901

Mrs. William Murphy (Edith Bickford) sailed from New York on May 28 on the Republic for Cherbourg, France. Following a short time in Paris she will go to San Sebastian, Spain, where she will be the guest of Major and Mrs. C. T. DeWitt Grubbs (Caroline Conkrite).

They have organized a company, "Flotation Research Corporation," to administer these patents. During the last two years Mr. Sheridan has spent a great deal of time in New York, and has journeyed from coast to coast, and from Montreal to Mexico City, in the interests of this work. Ben Stewart has recently written to Guy Sheridan and says that his work for the Geological Survey takes him over the entire Alaskan Territory.

Jeanette Rankin is expected to spend a part of the summer with her mother in Missoula. Other guests at the Rankin home during the summer will be Mrs. John W. McKinnon ('16) with her two children, John and Dorothy; Mrs. Thomas Kinney ('12) and her children, Janet, John and Tom; and Mrs. Herbert Bragg ('09) and children, Kenneth and Mary Jane.

1905

Marjory made the National Honor Society, a distinction earned by only fifteen out of the one hundred and

seventy-five graduates of this year. She also received other honors, having won the gold medal given for the best accompanist at the State Music Meet in April, also a bronze medal for third place in the piano solo contest. Marjory, who displays considerable talent in music, gave her final recital for the year, under the direction of Miss Bernice Berry, in the main auditorium at the University in June. Her work on the piano is most artistic and pleasing. She plans to major in music at the U next year.

The class was well represented at the senior-alumni dinner this year, there being four out of thirteen present, namely, Ed Simons, Blanche Simpson Borg, and Mr. and Mrs. Dickinson.

The appliance is an auto seat for a child, which may be fastened in the car, and which makes it possible for the driver to be unhampered in the driving, that is, free from worry about the safety of the child. The device is manufactured in Berkeley. Herman's address is 973 Indian Rock avenue.

Mr. Lapeyre, formerly artist on the "Montanan" at the State College, was among the artists who exhibited paintings at the art exhibit held in Great Falls in March, in commemoration of the late Charles M. Russell. Lapeyre was well acquainted with Mr. Russell and was among those who received valuable criticism from him.

Mr. and Mrs. Abbott B. Silva (Gladys Heyward) are to be found at 3280 East Fairfax Road, Cleveland, Ohio. Mr. Silva's work is landscape contracting and forestry. They have two boys, Abbott, Jr., six years old, and Billy (William Heyward), three and a half. Gladys writes that short trips usually comprise their vacation as Mr. Silva is especially busy in summer. In July they expect to motor to Niagara or to Washington, D. C.

Gladine Lewis Crawford has recently been acting on the county examining board and helping to grade examination papers.

Mr. Wells' mother, sister and little niece live with him in Washington.

Mr. and Mrs. Sam Wright (Hazel Hawk) and children have left Missoula and are now living in Salmon, Idaho, where Mr. Wright has bought a flour mill.

Mr. Powell has been with the Midwest Company nearly six years in the department of industrial relations stationed in Midwest, Wyoming. Quoting from an item in the Midwest Review, "He is as versatile a man as one ever meets, for he can preside at a christening, referee a prize fight, umpire a football game, preach a sermon, act as toastmaster or comfort the afflicted in distress, all with equal grace, and in a manner that leaves nothing to be desired. He was married about a year ago, and he and his charming wife have won a warm place in the hearts of the people of the Field. . . . He left Midwest on the afternoon of New Years day, everyone wishing him and his wife God speed."

Mrs. D. D. Richards (Helen McLeod, ex-'16) and infant daughter are here from Chicago to spend the summer visiting at the home of her parents.

Class secretary, Elsie A. Thompson, 521 Arrowhead Avenue, San Bernardino, California.

June 10, 1927.

Dear Alums:

I do not know exactly how this has happened, but I have assumed the duties of class secretary. No doubt Mildred (Lore) Jameson is acquiring too many household duties, but I am still free of those afflictions(?). If I had been a journalism student as Sol, for example, I believe that I might make a better reporter now. If you will please overlook my various mistakes, I shall continue my duties.

This past year I have been teaching Physical Education in San Bernardino, California.

During the year I have seen many Montana students and although many of these are not members of our class, this is the scandal I have heard about them:

Margaret Keough, 1923, may be reached at 246 S. Kenmore Avenue, Los Angeles. "Peg" has been teaching at Hutington Park which will soon be incorporated with Los Angeles, it is reported.

Summer must be catching any number of our class alumni on the fly for they answer

missing to roll call. Then, too, some are afraid to write because they fear publication of their letters. To tell the truth, or the near truth, I did think we might have some choice bits of vacation news to expose but none of it came home to roost, so I fear it is still in the making. Anyway, I won't reveal any letters to the public eye which are distinctly marked private.

Now as to news of our scattering alumni. Paul DeVore seems to claim honors on the notoriety this issue, because of the attention he is trying to avoid. One morning I glanced through the associated press reports in the Spokesman-Review, and there I discovered a boxed story about Paul DeVore doing the rush act in ejecting a quiet little mouse from one of the rooms in the Montana capitol building. He did remove the mouse after he broke an expensive chandelier and a couple of rare vases. Paul didn't mention the incident but a rival reporter recognized a piece of news there, and it buzzed over the wires.

Vacation plans for Elizabeth Kilroy include a month's vacation at the Butte Camp Fire Girls' camp at Georgetown lake, and then a trip to Denver. The least we can wish the people who "do" the south and parts unknown is a little heat to add variety.

Eleanor Leach and Alva Larson are attending the summer term at the University of Washington. Eleanor will teach Latin, French and English in the Hamilton high school and Alva will teach languages at Choteau, her home town, next year.

Midge Moore is employed in the blood chemistry department of the Presbyterian hospital, Chicago. Her room-mates in a convenient apartment include Opal James, '25, who will be married to a Chicago physician later this month, Winnifred Brennan and Helen Hammerstrom.

I'm leaving soon for an automobile tour through the middle west, the land of the fireflies, unless activities are postponed by too many bridge washouts. Swimming isn't one of my accomplishments.

There are several alumni who have not been mentioned this year in the Alumnus. Perhaps, by fall, they will come forth from a year of hibernation and let us know where they are. Until they do, we of flying fame are

Yours truly,

ANN NILSON.

FRESHMAN WEEK--

An Introduction to University Life

The transition from secondary school to University is, under the most favorable circumstances, difficult. To prevent the mistakes and misconceptions so frequently made on entrance into the University the faculty has instituted a "Freshman Week." A program has been arranged for the first five days of the autumn quarter which will be supervised by the faculty, the administration, and the upperclass students.
