This Syllabus is brought to you for free and open access by the Open Educational Resources (OER) at ScholarWorks at University of Montana. It has been accepted for inclusion in University of Montana Course Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.

Syllabus Econ 201S-01 Spring 19 CHCB 131 MWF 10 – 10:50am

Instructor: Jon Aliri

**Office Hrs: Tue 2-3pm, Wed 11-2pm
and by Appointment**

Room# 402

Email: ivan.aliri@umontana.edu

TA: Sam Supplee-Niederman

Email: samuelsupplee-niederman@umconnect.umn.edu

O. Hours: MTW 12-1pm

Room # LA410

1. Economics 201S: Microeconomics is a branch of economics that studies how individuals, households, and firms make decisions to allocate limited resources, typically in markets where goods or services are being bought and sold. I will connect the material in class with current social, life and of course economic events and issues nationally and internationally. Your input during these discussions is of the essence. **SPEAK OUT!**

This course is required for economics and business majors and fulfills a general education course for social sciences. Completing Econ 201 will enhance your understanding of how choices made by individuals and society regarding the allocation of resources influence the wellbeing of households and firms.

2. Course Materials: All course materials costs are included in your tuition and are hosted in MindTap. Please be sure to access and learn the basic navigation right away so you do not fall behind on assignments.

Here are the instructions to access all course materials, including assignments:

1. Go to Moodle and access this course
2. Go to the “course materials link”, select open in new window and retrieve your access code (copy this access code)
3. Go to the following address

<https://www.cengage.com/dashboard/#/course-confirmation/MTPNQSBNPZG1/initial-course-confirmation>

COURSE KEY: MTPNQSBNPZG1

4. Create an account and follow the prompts

If you have any issues with access please let me know as soon as possible

3. Exams: There will be 3 non-cumulative midterm exams and an optional final exam on the dates indicated in the reading list. Each is worth 25% of the course grade and the final exam may substitute you lowest score exam. Exam questions will include multiple choice, short answers and problems.

You are encouraged to use a 1 Line calculator on exams. Multiple line calculators, cell phones and portable electronic devices of any kind are not permitted in class on exam days. Collusion on any exam results in an irrevocable zero for that work; in addition to University Conduct Code sanctions (Please see last section).

4. **Assignments:** Homework is worth 100 points.

	Points	Percentage
Exam 1	100	25%
Exam 2	100	25%
Exam 3	100	25%
Assignments	100 (Scaled)	25%
TOTAL	400	100%

5. Teaching Method: I will be using Power Point slides, lecture notes and the good old blackboard/whiteboard to present the material. I will use the Socratic Method to engage everyone and discuss topics applying the material learned. I expect everyone to spend at least an hour after class reviewing/revising/rewriting your notes. This will help you retain the material and prepare you for the next class better. **IT IS JUST A MATTER OF KEEPING UP WITH THE MATERIAL BUT THERE IS A LOT OF MATERIAL!**

All notes and videos will be posted on Moodle so the goal will be for every student to understand the material while it is explained and applied in class and then solidifying your understanding of it during the note rewriting.

6. Academic Dishonesty, Plagiarism and Cheating:

Appropriate ethical behavior in the classroom is required of every student. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University.

Definition: Academic Dishonesty

Academic dishonesty includes “cheating” and “plagiarism”, the theft of ideas and other forms of intellectual property – published or unpublished.

Definition: Plagiarism

Plagiarism is the use of another writer’s words or ideas without acknowledging the source. Plagiarism also means “passing off a source’s information, ideas, or words as your own by omitting to cite them, which makes it an act of lying, cheating, and stealing.”

Definition: Cheating

Cheating is defined as obtaining or attempting to obtain, or aiding another to obtain credit for work, or any improvement in evaluation of performance, by any dishonest/deceptive means.

All students need to be familiar with the *Student Conduct Code*, which is available for review online at www.umt.edu/SA/VPSA/index.cfm/page/2585
