IS 371 - Syllabus for Spring 2004

Textbook: Bradley and Millspaugh, Programming in Visual Basic .Net

Software: Visual Studio.Net 2003 is available in L26, 208, and 213.
You may pick up a copy for your home computer at the Help Desk in GBB 208.

Handouts: Data and handouts will be available on the Internet via Blackboard.
Login immediately, change your password (if necessary), and verify your email address.

Instructor: Lee Tangedahl
Email: lee.tangedahl@business.umt.edu
Phone: (243)-6687
Office: GBB 313
Office Hours: 9:30-11:00 Tuesday and Thursday

Course Description: In this course you will learn to program in VisualBasic.Net using VisualStudio.Net.

Assignments: Problems will be assigned in each chapter, you will not turn them in but you should complete all of them to prepare for the test.

Proposed Grading:	<u>Points Possible</u>	<u>Percentage</u>
Lab Tests (4 @ 100):	400	67%
Class Project:	200	33%
Total:	<u>600</u>	

Your letter grade will be based on your point standing in comparison to the rest of the class.

Important Notes: Any form of cheating on any test may directly result in a failing grade.
An optional comprehensive final will serve as a makeup test.
Last day to drop this course (without petition): October 13

Suggestions for success in this class:

1. Read the chapter **before** the lectures.
2. **Do** ask lots of questions in class.
3. Read the chapter **again** after the lectures.
4. Work on all the problems **before** the lab session (start right after the first lecture).
5. Feel free to **work together** on the problems.
6. Do **ALL** the assigned problems, they will help you prepare for the test.
7. **KEEP UP** with all the reading and assigned projects
8. **If you need help**, contact me by email or see me in my office.
9. Plan to **spend a lot of time on the computer** (it's the only way to learn the material).

First Assignment: Read chapter 1 for Thursday's class.
Complete the case study for Valley Boulevard (VB) Auto Center by next Tuesday.
