FIRST ESTABLISHMENT--Today's edition of the Establishment is the first published for the fall quarter by UM Information Services, room 302, Main Hall. The paper will be published Monday through Friday this week and Monday, Wednesday and Friday beginning next week. The main distribution points for the Establishment include the University Center, Liberal Arts Building, Library, Science Complex, Main Hall and the Lodge **COMPLETE REGISTRATION**--Students will complete registration by paying fees and checking out in the Women's Center Gym **PARKING RESTRICTION**--Due to the resumption of activities on campus and the relocation of key administrative offices in the Lodge, it has become necessary to establish a 30-minute parking restriction in the new lot behind the Lodge. The restriction, effective today (Sept. 18), is designed to facilitate transient parking for students, faculty, staff and visitors who have official business in the new administrative offices. Because of the extreme need for parking turnover in this area, vehicle operators violating the 30-minute restriction, or parking illegally in yellow zones, or obstructing service drives, will be subject to vehicle removal and resultant towing charges and fine. It is sincerely hoped that a high level of cooperation in this matter will minimize the necessity for vehicle removal. Please be assured the administration is exploring every possible avenue to alleviate the tight parking situation. Thank you **ADDITIONAL PARKING**--In order to help alleviate the tight parking situation on campus, the administration has announced that the planned mall area between the University Center and the new Library will be reopened to parking soon. The administration learned last week that plans for construction of the new mall will not be completed in time to allow performance of the necessary work ahead of the winter weather. Thus, the area, effective soon, will be utilized for parking until construction becomes feasible in the spring quarter **PARKING STICKERS**--Students may register their motor vehicles in the Women's Center Gym during fall quarter registration. They may obtain the parking stickers at the gym or at the Traffic Security Office at the UM Physical Plant. The stickers are available beginning Monday (Sept. 18). Faculty and staff members will receive vehicle registration forms via campus mail about Sept. 22, with the decals available on or about Sept. 25. Parking decals must be affixed to bumpers no later than Oct. 16. Registration fees are \$9 for the first vehicle, \$5 for the second vehicle and \$3 for motorbikes.

WEATHER FORECAST--Fair to partly cloudy with little change in temperature through Tuesday. High today and tomorrow 70, low tonight 40.

UM ATHLETIC FUNDING AGREEMENT REACHED

Last spring's decision by Central Board, the UM student government, to cut back student athletic funding has been upheld, according to statements released by UM President Robert T. Pantzer and student body President Robert E. Sorenson.

The cut, which was passed by Central Board in late May, reduces student contributions to the operation of intercollegiate athletics at UM to \$105,070 for the current fiscal year, as compared to a \$147,000 figure last year. The \$41,930 cut amounts to 28.6 per cent.

In an effort to offset the cut and to place the burden of support on those students who benefit, as spectators, from football and basketball games, a fee will be levied on individuals attending home games. For each football game the charge will be one dollar. A decision on the policy for basketball games is yet to be made.

Both President Pantzer and Sorenson indicated that the charging of fees, which was part of Central Board's action in the spring, at the games is experimental. President Pantzer said, "Because it is believed that it is possible that student funding might best come about through admission charges to such events, it would be helpful to test out that method to determine whether such form of funding is practical."

Sorenson stated that he hoped the decision, "as an experiment will relieve the pressure within the student body regarding athletics."

"I am reacting favorably to the desires of the student leaders with the expectation that for a reasonable period of time in the future student fee support will be adequate to maintain a viable but rational program of intercollegiate athletics at the University," said President Pantzer in his prepared statement.

Referring to his election platform that advocated a 25% reduction in the student funding of athletics, Sorenson said, "I do feel that from the results of the last ASUM election, the majority of the students favored a cut."
