PROCEEDINGS AND DEBATES OF THE 81st CONGRESS, SECOND SESSION

Mike Mansfield Reports on Project Developments in Western Montana

REMARKS OF

HON. MIKE MANSFIELD

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES
Monday, September 18, 1950

Mr. MANSFIELD. Mr. Speaker, in accord with my annual custom, I am happy to include with my remarks a summary of appropriations approved by the Congress for specific Reclamation, Bonneville Power Administration, Rural Electrification Administration, Indian Office, and Army Engineer's projects in the district I have the honor and the privilege to represent. The time covered by these appropriations is for the period during my service as a Representative from the First District of Montana and follows up similar reports sent out by me in previous years.

These projects, with the coming into western Montana of new industries in the Butte-Anaconda and Hungry Horse areas, mark the beginning of the development of our State, a diversification of our economy, and greater security for our people.
