MISSOULA HIGH SCHOOL TEAM, CHAMPIONS OF MONTANA, 1904

HISTORY OF THE MEET

VIEW of the importance of all forms of motor expression for education or development, and realizing the great educational value of play and all forms of athletic contests and sports, the President and Faculty of the University of Montana outlined definite plans in the fall of 1903, for arranging and carrying on a State Interscholastic High School Meet. By January, 1904, their plans were completed and the University invited all high schools of the state to meet at the University for friendly contest in declamation and all forms of field sports. Some twenty schools responded to the University's invitation to participate in this first State Interscholastic Meet. During the four years that the meets have been held all the commissioned high schools of the state and many of the smaller schools have been added to the list of contestants. In fact ever since the opening day of the first meet, the middle of May has been remembered as a great gala day for Missoula and the University; for here have gathered each year the flower of the state to see and enjoy the hospitality of the Garden City and Montana's highest institution of learning, getting acquainted and showing each other what they could do.

By the establishment and maintenance of the meet, through the contests in athletics and jousts in oratory and debate held during the past four years, the University has stimulated an interest not only in all forms of field sports, but aroused a live interest in declamation and debate. Through the extended acquaintance and good fellowship which result from such friendly contests and meets all educational interests of the state have been drawn closely together.

Each year since the establishment of the meet the University has paid the railroad fare of three pupils from each of the competing high schools of the state to Missoula and return, and provided entertainment, lodgings, meals, transfer of baggage, etc., free to all contestants and chaperones. In addition gold, silver and bronze medals have

been awarded to all winners in athletics and declamation. In addition to the medals the University has awarded two prizes each year. A cup or gold watch to the individual winning the greatest number of points in the meet, and a silver cup to the school winning the relay race. In addition the Missoula Mercantile Company has awarded a handsome silver cup each year to the school winning the meet. Last year these patriotic friends gave, in addition, a beautiful pennant in the respective high school colors and letters, to each school participating in the meet. This flag rally was one of the most enjoyable and spectacular events of the meet. The town was painted in glowing colors of every hue. No trophy of the meet was more appreciated than this coveted prize.

Great interest is manifested throughout the state in this year's meet since the special Spalding cup, for which the different schools have been competing four years, is to be permanently awarded at the close of the meet to the school which will have won the greatest number of points in athletics in five years. Thus far the honors have been well distributed among the different high schools. Missoula high school won the first meet, Butte, Helena, Gallatin, Flathead, Virginia City, Anaconda, Park, Powell, Fergus and Billings coming in for a fair share of the points. The Spalding cup next went to Butte, winner of the second meet, with Missoula and Anaconda close seconds. But it was evident that Joe Horn, Anaconda's favorite son, had his eye on the Spalding cup. Not content to be individual champion in 1905, winning all alone 22 points, and third place in the meet for his school, he returned in the spring of 1906, won the individual championship prize a second time, and by the help of his faithful Anaconda braves wrested the cup from Butte by rolling up the highest score yet made by any school in one year, carrying the Spalding cup to Anaconda. Here it remained until Denney, the Flathead giant, heard of it. Not content to win permanently the special Victor relay cup, Flathead had set her heart on the Spalding cup and succeeded in carrying it to the far famed Flathead Country, where it found a welcome home the past year.

This year this special trophy of the meet will somewhere find a permanent resting place. Where, no one can tell. For four years the different schools have done battle for the cup and have been piling up points for the final count this year. The winner is not easy to select. Any one of four or five schools may win this cup. The following is a summary of points won to date:

LLOYD DENNEY
Individual Champion of Montana, 1907

FLATHEAD HIGH SCHOOL TEAM, CHAMPIONS OF MONTANA, 1907

FLATHEAD RELAY TEAM, WINNERS OF VICTOR CUP

Special interest has centered each year in the individual championship prize and in the relay race. Piggott of Helena, won the first individual prize, Powell County carrying off the honors in the relay race. For the years of 1905 and 1906, the individual prize was carried away by Joe Horn of Anaconda, Flathead winning the Victor relay cup by capturing the relay race in two successive years. For 1907 Lloyd Denney of Flathead, won the individual prize and Great Falls carried off the relay cup.

This year Anaconda seems as determined as when they won their thirty-three points. Flathead is elated over her wonderful victory last year and the strength and enthusiasm that goes with victory must be reckoned with. Butte, Missoula, Fergus County. Great Falls, are all trimming their feathers for a desperate sprint this year, but they will have to reckon with Richard Crum, the record breaking captain from Helena. Many surprises are sure to be sprung. Last year nine records out of a possible fifteen were smashed. With two more schools entered than ever competed and more contestants than in previous years. with all of last year's favorites back, Denny, Crum and Belden, and so much new material, interest grows magnetic. It is impossible to pick the winners of the Spalding cup or this year's champion, much less to select the one who will wear the gold watch.

MONTANA HIGH SCHOOLS

There are in the State of Montana today, twenty-eight accredited high schools, twelve city, fifteen county, and one training school. Most of these schools have been organized within the last eight years. The growth of these schools has been phenomenal. The following cases are representative. The Great Falls high school was organized as a separate department of the public school system of the city, in September, 1892, with an enrollment of twenty-three students. Its first graduating class numbered but four. It now enrolls 315 and has a teaching force of fourteen and graduates forty or fifty students each year. To meet the ever increasing demand of the school, the Central high school was erected in the fall of 1906, at a cost of \$110,000.

GREAT FALLS HIGH SCHOOL

Mr. G. H. Willman of the Chinook high school, accredited in 1906, writes: "Last year we had fourteen high school students; this year we have twenty-four; next year we will have forty-five." Another of the smaller schools accredited in 1906, sent each member of its first graduating class, seven in number, to the University. This year it has won in debate from the schools in the east and southern districts of the state, and this week meets the Missoula high school, the champion for the western and northern districts, in a contest debate for the state championship. Columbus is also taking part in the declamation contest and athletic meet, making its influence felt throughout the state. The Granite County high school organized in 1905, with an enrollment of 76, this year has an enrollment of 87, with a graduating class of 14. This, notwithstanding the fact that the town where it is located has

suffered a loss in population since the establishment of the school. Flathead, which jumped from fifth to first place in athletics in the last three years, Hamilton, champion in debate for 1906, Missoula, who has won the highest number of points in athletics in four years, and this week does battle with Columbus for championship in debate, and soon to be "at home" in its new \$75,000 building, Park and Beaverhead

Scholastic Athletic Association, the State Debating League and such meetings as the State Interscholastic Meet. In no other state are the high schools so closely drawn together as in Montana. In no other state do we find such close sympathy and general intimate acquaintance among its secondary schools. Though the third state in size, and its schools separated by such magnificent stretches of distance, the

Counties, these have all shown remarkable growth.

Montana has cause to feel proud of her secondary schools. It can not be questioned that the enthusiasm and phenomenal growth shown by Montana high schools is due, in part at least, to the stimulating effect of such organizations as the State Inter-

high schools of the state meet together once each year in friendly contest on stage and field, comparing their talents, testing their strength, becoming better acquainted, thus stimulating each other to higher achievements. These contests, as a courtesy to the University for organizing and supporting the State Interscholastic Meet are held, each year, on Montana field.

SINGING ON THE STEPS

THURSDAY EVENING

7:15 to 8:00

It is the custom of the students of the University of Montana to gather every little while upon the steps of University Hall about seven fifteen in the evening to sing old songs, tell stories and enjoy a general good time. Promptly as the old clock above strikes eight, the "singing on the steps" closes. No matter what is taking place a hush falls over those present, everyone rises to their feet and the men with bowed heads wait in silence till the clock finishes tolling the hour when all retire from the building in silence.
