SB07-04/05 Resolution encouraging Universal Standard in +/- Grading

Whereas, during the 2003 spring semester the Associated Students of The University of Montana voted 15-4 in support of SB44-02/03 supporting the implementation of a +/- grading system at The University of Montana;

Whereas, The University of Montana Faculty Senate voted 22-14 in support of implementing a +/- grading system;

Whereas, students of The University of Montana have expressed concern regarding the inconsistent use of the new +/- grading system;

Whereas, campus-wide inconsistencies of the +/- system often result in different grades for equal achievement and effort;

Whereas, differentiation in grade-value will more often hurt the grade-point average of students, rather than strengthen it;

Whereas, a universal standard in grade value would provide for equality in all classes using the +/- system at The University of Montana;

Whereas, The University of Montana Faculty is best adept to create a new standard in +/- grading;

Therefore, let it be resolved that the Associated Students of The University of Montana strongly encourage all faculty to implement a fair universal standard value for each grade used in the normal application of the +/- grading system.

Authored by Bryce Bennett, ASUM Senator
Resolution Regarding Montana Constitutional Initiative-96

Whereas, Constitutional Initiative-96 (CI-96) proposes that the voters of the state of Montana alter the Montana Constitution to define marriage as being between “one man and one woman,” and would explicitly exclude marriage between same-sex partners in the Montana Constitution;

Whereas, The University of Montana has a large population of gay, lesbian, bisexual and transgender students, staff and faculty;

Whereas, the passage of CI-96 could jeopardize the stances that ASUM took in SB49-99/00, SB43-00/01, SB29-01/02 and SB29-02/03, supporting same-sex health benefits for faculty, staff and students of The University of Montana;

Whereas, a constitutional ban on marriage between same-sex partners could cause gay, lesbian, bisexual and transgender students to choose to attend institutions of higher education in states that do not discriminate in such a manner, thus limiting the diversity of the student body on this campus;

Whereas, a constitutional ban on marriage between same-sex partners could cause gay, lesbian, bisexual and transgender faculty and staff to choose to work at other jobs in states that do not discriminate in such a manner, and will limit The University of Montana’s ability to hire the most qualified individuals for each position;

Whereas, students benefit from the diversity within the University community that would be limited by the passage of CI-96,

Whereas, the mission statement of the Senate of the Associated Students of The University of Montana asserts that we will “maintain our expectations as students desiring quality education for all The University of Montana,” and that we will “do all in our power to achieve this goal”;

Whereas, the mission statement of the Senate of the Associated Students of The University of Montana directs us to be “open-minded, ethical and accepting to all”;

Therefore Let It Be Resolved That we, the Senate of the Associated Students of The University of Montana strongly oppose CI-96 and urge our fellow students at The University of Montana to take the above reasoning into consideration as they make their choice at the polls on November 2, 2004;

And Let It Be Further Resolved That the Senate of the Associated Students of The University of Montana directs ASUM President Gale Price to draft and submit a Letter to the Editor of the Montana Kaimin explaining the Senate’s position and reasoning to the students of The University of Montana.

Gale Price, ASUM President
