\*Expenditures may appear lower than the actual costs born by visitor groups since dollars are averaged across all visitor groups whether or not they spent money in that category.

\*\*These numbers represent the number and percent of visitor groups who actually spent money in each category. The dollar values are reflective of the actual average amount spent per category.

Note: All amounts are rounded to nearest dollar.

<sup>1</sup> Visiting friends and/or relatives.

<sup>2</sup> Mean, or average, is the total of the values divided by the number of values.

<sup>3</sup> Median is the middle value, with half of the values higher, and half lower than the median.
