BOARD OF EXAMINERS IN CERTIFIED PUBLIC ACCOUNTANCY
Douglas N. Wilson, Great Falls; James C. Phillips, Butte, Ira B. Fee (Secretary), Missoula.
University of Montana

An act of congress approved February 18, 1881, dedicated for university purposes in Montana seventy-two sections of the public domain. The enabling act, providing for the organization of the State of Montana and its admission to the Union, February 22, 1889, confirmed this grant to the state and added 100,000 acres for a school of mines, 100,000 acres for normal schools, and 140,000 acres for an agricultural college.

The Third Legislative Assembly of the State of Montana, in February, 1893, enacted laws providing for the establishment of all these institutions, and locating the State University at Missoula, the State School of Mines at Butte, the State Normal School at Dillon, and the State Agricultural College at Bozeman.

As the lands granted for higher educational purposes, together with timber or stone thereon, have been sold, the proceeds have gone into permanent funds invested for the various institutions, and the interest on these funds, together with the rentals of unsold lands, has been used for the support of the respective institutions. These maintenance resources have been supplemented with appropriations made each subsequent biennium by the legislative assembly, which has also provided for the erection of buildings at the expense of the state.

These institutions were administered independently by the local executive boards for some years under the general supervision of the State Board of Education; by a law of 1909 the powers of the local boards were more closely defined and the direction of the State Board of Education made more effective. By the enactment of Chapter 92 of the laws of the Thirteenth Legislative Assembly in 1913, the four institutions were combined into the University of Montana under the executive control of an officer whose title is Chancellor. In October, 1915, the State Board of Education appointed Edward C. Elliott, then of the University of Wisconsin, as the first Chancellor of the University of Montana. He assumed his duties February 1, 1916.
State University

The State University, located in Missoula, was formally opened in 1895. For four years the institution occupied temporary quarters. Oscar J. Craig was the first president. The local executive board, named by the governor, was made up of J. H. T. Ryman, Hiram Knowles and Thomas C. Marshall. The first faculty consisted of the president and four associates.

In 1897, the legislature authorized the issuance of bonds, in amount of $100,000, for the construction of two buildings. The campus site was donated to the state by Edward L. Bonner and Francis G. Higgins of Missoula. In 1899 the university occupied its permanent quarters. President Craig remained at the head of the University until 1908, when failing health compelled his resignation. He was succeeded by Clyde A. Duniway, who came to Montana from Stanford university. During the administration of President Duniway, the summer session was inaugurated and the School of Law established. In 1912, Edwin Boone Craighead of Tulane university, succeeded President Duniway. He continued in office until 1915. Under his presidency the Schools of Forestry and of Journalism were established; the School of Pharmacy re-organized; the departments of Business Administration and of Domestic Science were added to the College of Arts and Sciences.

In 1915, Professor Frederick C. Scheuch was appointed acting president and continued in that capacity until the summer of 1917. Edward O. Sisson was appointed president of the university in 1917, coming to Montana from Idaho, where he had held the office of State Commissioner of Education.

THE CAMPUS.

The university campus comprises 60 acres. It lies southeast of Missoula at the head of the Missoula valley. The entrance to the campus is on the west side, from University avenue. Trees, lawns, shrubbery and flowers, interspersed among the walks and drives, make an attractive setting for the buildings. Directly east of the campus is Mount Sentinel, 2,000 feet high, upon whose slope the university owns 520 acres, extending to the summit.

BUILDINGS.

The buildings of the State University are: University hall, Science hall, Natural Science hall, Craig hall, Library hall, the Gymnasium,
Forestry building, Music building, the Hospital, Simpkins hall, Cook hall, and Y. W. C. A. building.

University hall is the administration building. Here also are the assembly hall of the university and classrooms, lecture rooms and laboratories.

Science hall is occupied by the School of Pharmacy and the department of Chemistry.

Natural Science hall, completed January, 1919, is a modern, three-story laboratory building. It contains the classrooms and laboratories of the departments of Biology, Botany, Home Economics and Physics. It has also a large lecture room, equipped with stereopticon and motion-picture apparatus.

Craig hall is the woman's dormitory, entirely used as a domicile for the women students of the institution.

The gymnasium is equipped for the physical education of all students. Adjoining it is Dornblaser field, the athletic ground, with its bleachers and tracks.

Library hall contains the university library, the law library, the classrooms of the School of Law and other lecture and classrooms.

The Forestry and Music buildings are frame structures, affording temporary quarters for these schools.

The hospital is designed for the isolation of students who may be suffering from contagious or infectious diseases and for their treatment.

Simpkins hall and Cook hall are the buildings erected for barracks. They have been remodeled so that Simpkins hall serves as a men's dormitory and Cook hall is the armory of the R. O. T. C. and temporary quarters of the School of Journalism.

SURROUNDINGS.

Missoula, the seat of the State University, is the principal city in western Montana. It is reached by the main lines of the Northern Pacific and the Chicago, Milwaukee & St. Paul railways and by the Bitter Root, Flathead and Coeur d'Alene branches of the Northern Pacific.

Missoula is a pleasant residence city. Its climate and sanitary conditions are excellent. The scenery of western Montana is beautiful. As a place for college residence, Missoula offers special advantages.
ADMISSION

The entrance requirements to regular standing in the College of Arts and Sciences, and the Schools of Business Administration, Education, Forestry, Journalism, Music, and Pharmacy amount to fifteen units of preparatory work. (A unit is the amount of work represented by the successful completion of one subject pursued for a school year of not less than thirty-six weeks, with five recitations per week each period not less than forty-five minutes in length. Two periods of laboratory, shop, or drawing work count as one recitation. A student in high school normally earns four units each year.)

These units may be secured in any of the following ways:

(a) By examination.
(b) By graduation from an accredited high school or other accredited preparatory school.
(c) By transfer from another college or university of recognized standing.

For admission to regular standing in the School of Law the applicant must offer in addition to fifteen units of preparatory subjects two years of work in a college or university of recognized standing.

Under certain regulations as described below applicants for admission who have not the full entrance requirements may be admitted as special or conditioned students.

ADMISSION BY CERTIFICATE

A graduate of a fully accredited high school is admitted to regular standing in the University by the presentation of an official certificate of his graduation. A fully accredited high school must require for graduation a four years' course of not less than fifteen units. It is suggested that high school students who expect to attend the University include in their program of studies the following:

(a) English composition and literature 3 units.
(b) Science and Mathematics, 3 units.
(c) Foreign language, 2 units.
(d) History and social science, 2 units.

These are not required for entrance to the University but if this work is done in high school the student has much greater freedom in the selection of courses, after he enters the University.

The University furnishes blanks for these certificates and they may be obtained by writing to the Registrar's office. These certificates should be filled out and signed by the principal of the high school and mailed to the Registrar's office a month or more before the date of registration.

Accredited High Schools of Montana 1919-20:

District High Schools: Alberton, Anaconda, Augusta, Baker, Belgrade, Belt, Big Sandy, Billings, Bridger, Broadview, Butte, Camas

County High Schools: Beaverhead (Dillon), Broadwater (Townsend), Carbon (Red Lodge), Chouteau (Fort Benton), Custer (Miles City), Dawson (Glendive), Fergus (Lewistown), Flathead (Kalispell), Gallatin (Bozeman), Granite (Philipsburg), Jefferson (Boulder), Lincoln (Eureka), Missoula (Missoula), Park (Livingston), Powell (Deer Lodge), Sweet Grass (Big Timber), Teton (Choteau), Wibaux (Wibaux).

Private Schools: Academy of Montana Wesleyan College (Helena), Academy of Mount St. Charles College (Helena), Butte Business College (Butte), Central High School (Butte), Loyola High School (Missoula), Mount Angela Ursuline Academy (Great Falls), Polytechnic Institute (Billings), Sacred Heart Academy (Missoula), St. Vincent's Academy (Helena).

ADMISSION BY EXAMINATION

Applicants for admission to regular standing by examination are required to pass an examination over all of a four-year course amounting to a total of fifteen units or of that part of such a course as is not covered by a proper certificate. Those who expect to take such examinations must notify the Registrar in advance, stating what subjects they desire to offer by examination. For the academic year 1920-21 the examination days are September 25-26, and for the Winter and Spring quarters by special arrangement.

ADMISSION BY TRANSFER FROM OTHER COLLEGES OR UNIVERSITIES

Students from other colleges or universities of recognized standing will be admitted without condition provided they furnish a certificate from such college or university that they have completed the required fifteen entrance units and have an honorable dismissal.

State Normal College Credits

Graduates from the regular two-year course of the State Normal college, who have also had a four-year high school course or its equivalent, are granted junior standing in the State University with 90 quarter-credits.
Graduates of the State Normal college, who have earned credits after the completion of the two-year course, will be given hour-for-hour credit in subjects of university or college character up to a maximum of 45 credits.

SPECIAL STUDENTS

The University courses are organized primarily for regular students, that is, for those who have had a full high school course. The requirements of graduation from high school may be waived in special cases as described below:

1. Applicants who are not less than twenty-one years of age will be admitted to the University without the usual entrance units. Such special students will be permitted to take only such courses as they appear able to carry.

2. Former soldiers or sailors will be admitted without the usual entrance units and without being held to the age requirements of other specials. "Soldier specials" will be permitted to register for such courses as they appear able to carry.

The University has laid down the following rules for the admission of Soldier Specials:

Men recently discharged from the army and navy not regularly or formally prepared for college now aspire, as a result of their army contacts, to a more advanced training. Some have valuable trade or business experience. Some have had foreign travel and the tremendous mental and moral experiences of active service at the front. In any event, all have had the intensive training of the camps. In maturity of mind as well as in natural capacity, many of these men are probably excellent college material.

At the University a special method of admission and classification has been adopted for such students to be known as Soldier Specials, and satisfy entrance requirements of regular students. These students may specialize along any line desired, taking such subjects as their former training and experience would warrant. The subsequent advancement of Soldier Specials to regular standing will depend, for those who desire it, on their ability to pursue the course. Soldier Specials who do not desire to attain regular standing may be furnished upon leaving with a certificate indicating the work actually accomplished.

3. Students in music who cannot qualify under requirements (1) or (2) may enroll for private lessons in music.

Special students will receive credit towards a degree or certificate by fulfilling the requirements for fifteen entrance units. The Registrar will transfer University credit to entrance until the full fifteen units required for admission as regular students are met.

REQUIREMENTS FOR ADMISSION TO THE SCHOOL OF LAW

Students may register in the School of Law either in regular or
special standing. Regular students who are candidates for the degree of Bachelor of Laws (LL.B.) must present credentials showing that they have completed substantially one-half or more of the work required for the degree of B.A. or B.S. in the University of Montana, or two years' work in some other college or university whose credits are recognized by the University of Montana.

Special students may be admitted provided they are twenty-one years of age, or more, and are qualified to enter the freshman class of the University of Montana.

ADMISSION TO ADVANCED STANDING

Students who present proper certification to the Registrar may receive University credit for courses taken in other institutions of approved standards:

1. Credits for War Training: The University grants credit for definite and measurable attainments of mind resulting from war experience and training. Application for such credits must be made to the Committee on Admission and Registration. Such credits shall not exceed 15 credits for each year in the national service and the total of all such credits shall not exceed forty-five.

2. Students from Junior Colleges, Normal Schools, Colleges, and Universities: University credit will be given for work of collegiate grade done in other institutions of approved standing. Graduates of an approved two-year normal course, who have also completed a fifteen units for entrance are admitted to junior standing in the College of Arts and Sciences.

ADMISSION TO GRADUATE STANDING

Candidates for admission to graduate standing must have a bachelor's degree from the University of Montana or from another institution of equal rank.

DEGREES AND CERTIFICATES

The Bachelor's degree is awarded to regular students who complete any of the four-year courses offered by the University and who fulfill the other conditions required for graduation.

The Master's degree is given to those who complete a satisfactory course of one year in work beyond that required for a Bachelor's degree.

The degree of Bachelor of Arts is offered upon graduation in the College of Arts and Sciences and the School of Business Administration.

The University certificate of qualification to teach may be ob-
tained by graduates of any of the four-year courses of the University who complete certain required courses in Psychology and Education.

The University also issues a certificate for public accountancy under the conditions as described in the announcement of the School of Business Administration.

The degree of Bachelor of Laws is conferred upon graduates of the School of Law who have previously completed two years of college work and upon special students in law who have made an average grade of B throughout their law course. Those who finish a three-year course in Law but do not comply with the other requirements for graduation are awarded a certificate of completion of the course in law.

The degree of Bachelor of Arts in Journalism is conferred upon graduates of the School of Journalism.

The degree of Bachelor of Science in Forestry is conferred upon graduates of the School of Forestry.

The degree of Bachelor of Science is conferred upon graduates of the four-year course in Pharmacy. Graduates of the three-year course receive a degree of Pharmaceutical Chemists and graduates of the two-year course receive a degree of Graduate in Pharmacy.

Graduates of the School of Music are awarded the degree of Bachelor of Music. Those who complete the approved two-year course of music are given a Certificate in Music.

---

**REQUIREMENTS FOR GRADUATION**

Students of the University who are admitted as candidates for a degree must have satisfied the following conditions: (a) they must have fulfilled the 15 entrance units required of regular students; (b) they must complete the required curriculum of the course or the school in which they are registered.

---

**CREDITS**

The work in the University is named in terms of credit and candidates must have the number of credits required for graduation. One credit represents 3 hours of time per week for one quarter of twelve weeks. The time required for each credit may be distributed in any combination between preparation, recitation, lecture, or laboratory work. Candidates for a Bachelor's degree from the College of Arts and Sciences, the School of Business Administration, the School of Education, the School of Music, and the School of Pharmacy, are required to complete 186 credits of work. Candidates for Bachelor's degree in Forestry must complete 204 credits. Candidates for a degree of Graduate in Pharmacy must complete 96 credits and for a degree of Pharmaceutical Chemist 140 credits. Candidates for a degree
of Bachelor of Law must complete three full years of professional study in addition to 93 hours of other University work or have made an average grade of B throughout their entire course; (c) residence candidates for graduation must fulfill the residence requirements of the University. This may be done in one of the following ways: (1) Completion of one academic year of residence at the University during which time the student must earn not less than 45 credits of University work; (2) completion of four summer terms or two summer quarters of actual residence during which time the student must earn not less than thirty-two credits of University work; (3) students who have fulfilled the residence requirements in other institutions of the University of Montana may graduate with a minimum of a quarter and one summer term of six weeks of residence at the State University, during which time they must earn not less than 24 credits of University work.

CURRICULA REQUIREMENTS

Candidates for graduation must complete the subjects prescribed by the college or school in which they are registered. The requirements for each college or school are given in detail under the announcements of the colleges and schools.

SCHOLARSHIP AND CONDUCT

The University requires all its students to conform to the usual standards of society and law-abiding citizenship and to manifest a serious purpose by maintaining satisfactory standing in the courses which they undertake. No student will be permitted to continue his connection with the university who shows persistent unwillingness or inability to comply with these requirements.

If a student is absent from classes 12 times during one quarter, one credit is deducted from the total of his credits acquired and an additional credit is deducted for each additional 12 absences or major fraction thereof. Absences are not counted when a student is absent on departmental work or representing the university in extra-curricular activities.

The State University is a member of the Pacific Northwest Intercollegiate conference, whose rules govern all athletic contests. These rules are: (1) Students must be regularly enrolled in the university; (2) they must hold passing grade in at least 12 credits of regular University work; (3) they must have passed in at least 12 credits of the work of the previous semester; (4) they must not have total delinquencies in
their previous records, amounting to more than 12 credits; (5) they must register not later than two weeks after the opening of the quarter.

These activities, in addition to athletics, come under the university's eligibility rules: Intercollegiate debate, intercollegiate oratory, managership of the University Sentinel, managership of The Kaimin, managership of the Associated Students of the University of Montana, contests for university prizes, carrying a leading part in a university play.

SCHOLARSHIP GRADES

Grades are given in the State University according to the following system of marking:

"A"—Work of the best grade.
"B"—Work better than average.
"C"—Average work.
"D"—Work below average, but of passing grade.
"E"—Condition.
"F"—Failure.

If all the work in a course has not been done and there is sufficient reason for this, the mark "I" is given. This incomplete work must be completed not later than the time of the next repetition of the course, but arrangements may be made with the instructor for its earlier completion.

In credits counted toward graduation, a student may not have more than 25 per cent of such credits of grade "D."

A student may withdraw from a course in which he has registered:
(1) During the first week of a quarter, with the consent of his adviser;
(2) during the second week, with the consent of adviser and instructor;
(3) during the period from the third to the ninth week, with the consent of adviser and instructor and the formal permission of the committee on registration and admission. In these cases, the student is given a mark, "W", which carries no credit. After the ninth week, the student who withdraws receives a grade, usually "I". All withdrawals must be formal and must be recorded by the student with the registrar.

HONOR ROLL

At the close of each quarter's work, an honor list is published of those students who have gained a grade of at least B in 12 credits, with no grade below C.
EXPENSES

Women students who do not make their homes with their families are expected to live in Craig Hall, unless permission to live elsewhere is obtained. The University conducts Craig Hall. Each room in the hall must have two occupants. The dormitory will house 72 students. Rooms are fully furnished, except that each student is expected to supply necessary sheets, pillow cases, towels, curtains and napkins.

Men students may find board and room in Simpkins hall, the men's dormitory. Men students may also combine in clubs and live economically. The fraternity houses provide economical college homes.

Students will be permitted to live only in such places as have the approval of the university officers.

Rates for room and board at Craig hall and Simpkins hall may be obtained by inquiry of the Registrar of the University at Missoula.

RESERVATION OF ROOMS IN CRAIG AND SIMPKINS HALLS

Application for the reservation of a room in Craig and Simpkins halls should be made as soon as the student decides he wishes to live in these residence halls. Rooms are reserved in order of receipt by the Registrar of the application accompanied by a remittance for the reservation fee. This fee is later applied on the students' board and room account, or returned to the student if he notifies the Registrar within ten days prior to the date for which the room was reserved that he wishes to cancel the reservation.

Students not residents of Montana are not accepted in the residence halls as long as there are Montana students on the waiting list.

The reservation fees are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Fall, Winter and Spring Quarter</th>
<th>Summer Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Craig Hall</td>
<td>$10.00</td>
<td>$5.00</td>
</tr>
<tr>
<td>Simpkins Hall</td>
<td>10.00</td>
<td>5.00</td>

</tbody>
</table>

Checks should be made payable to the "State University of Montana." Rates for board and room at residence halls may be obtained on application to the Registrar.

RAILWAY FARE REFUND

In accordance with the provisions of Chapter 123, Session Laws of 1917, and under regulations established by the State Board of Education, railway fare in excess of five dollars actually paid by any student for a round trip between his Montana home and any institution of the University of Montana, once each year, will be refunded. Students must
