ENST 230H.01: Nature and Society

Peter McDonough

University of Montana, peter.mcdonough@umontana.edu
COURSE DESCRIPTION
This course explores how the relationship between human societies and the natural world has been influenced throughout history by various thinkers and ideas. We also consider how nature itself and our interactions with it has influenced society, and in turn, environmental thought. Thus, we examine ecological and biogeographical constraints and ways humans have culturally adapted in attempting to surmount those limits. We explore Western (Euro-American) environmental thought from prehistory until today. To help us understand its distinctiveness we also touch on some contrasting nonwestern perspectives. We necessarily are only able to give limited attention to the various ages, even within the western tradition, and thus, environmental thought and developments of many societies and civilizations are not covered.

Nevertheless, we will examine major paradigmatic shifts and strive to understand how environmental thought has affected the way different societies have viewed nature, their place with respect to the natural world, and in turn, their interactions with it. By exploring that theme, we will also see connections between ideas, writers, and thinkers of the past and the current global environmental crisis. We will ponder if the answers to a more sustainable, prosperous, and just society in the future reside in history and its lessons, or whether we will need to forge new ideas, sensibilities, and ways of relating to each other and nature. Students are encouraged to explore their own connections with the past, develop principles and values that have personal meaning, and contemplate their place in nature and society.

OBJECTIVES
Upon completion of this course, students should be able to:

1. Articulate the distinctive ideas, and social and historical contexts, of influential thinkers and their writings about the role of humans in relation to the natural world.
2. Think critically about the effects of such views on different societies’ interactions with the natural world.
3. Recognize the importance of other historical factors, particularly scientific advancements, technological developments, and changes in social organization.
4. Synthesize ideas and events that led to several major paradigmatic shifts, from pre-history to the present, regarding dominant societal views of the place of humans in nature.
5. Analyze current environmental issues utilizing historical ideas, thinkers, and events.
6. Articulate their personal perspectives on human-nature interactions in relation to historical ideas, thinkers, and events.
GENERAL EDUCATION IN HISTORICAL AND CULTURAL STUDIES (H) (from UM's website)

These courses present the historical or cultural contexts of ideas and institutions, and examine cultural development or differentiation in the human past. They are foundational in that they are wide-ranging in chronological, geographical, or topical focus, or in that they introduce students to methods of inquiry specific to a particular discipline.

Upon completion of a Historical and Cultural Studies course, students will be able to:

1. Synthesize ideas and information with a view to understanding the causes and consequences of historical developments and events;
2. Evaluate texts or artifacts within their historical and/or cultural contexts;
3. Analyze human behavior, ideas, and institutions within their respective historical and/or cultural contexts.

Office: JRH M1C

Fri 11:00 AM – 12:00 PM  
Thurs 11:00 AM – 12:00 PM  
Thurs 8:00 – 9:00 AM

REQUIRED TEXTS

Electronic Reserve Readings on Moodle: (MOODLE)

REQUIREMENTS

*PLEASE TURN OFF ALL ELECTRONIC DEVICES DURING CLASS [This includes cell phones, tablets, and laptops]*

Regular class attendance and participation that demonstrates a grasp of the reading assignments

Short critical response essay on Ishmael

Weekly 2-page response essays to the readings

Written midterms and final exam

5 hours of “ecological immersion” and reflective essay

Final essay synthesizing learnings from the course
CLASS MEETINGS AND FORMAT

Class meets Monday, Wednesday, and Friday from 10:00–10:50 am. On Monday and Wednesday we meet in University Hall 210. Most Fridays the class will be divided into smaller activity sections, which will meet separately with either the instructor or one of the teaching assistants. Your class location and teacher for Friday class will be announced in class the first full week. Readings and assignments not listed in the course schedule may be assigned for Friday sections by your teacher. Tests, in-class writing and reading, discussion, and other activities will mostly occur on Fridays and will usually, but not always, cover material, ideas, and questions raised during the week.

GRADING POLICY

1. *Ishmael* critical response essay: 10%
2. *Journey of the Universe* response essay: 5%
3. Six weekly response essays to the readings: 15%
4. 5 hours of Ecological Immersion and essay: 10%
5. 2 Midterm Exams: 30% (15% each)
7. Final exam: 15%

**Note Re Papers:** Papers are due in class **on or before** the date listed in the syllabus. Unless you have made a prior agreement with me, I will take off one grade level (A becomes A-) for each class day an assignment is late. **Note: Email submissions will not be accepted; paper copies only.** Papers with an undue number of errors of punctuation, spelling, or grammar will be returned ungraded for correction and the final grade will be marked down one full letter grade. Written work will be evaluated in terms of your depth of critical analysis, thoughtfulness of reflection, clarity of writing, and ability to address issues raised in the text and in class on the topic at hand. Grades given reflect the following criteria of judgment:

   - **F:** Failure to meet minimum requirements
   - **D:** Unsatisfactory, but some effort to meet minimum requirements
   - **C:** Satisfactory; meet minimum requirements of assignment but not much more
   - **B:** Good to Very Good: thoughtful reflection, good analysis, clear writing style
   - **A:** Excellent depth of critical analysis, thoughtfulness of reflection, and writing style; demonstrate creativity and mature analytical skills in going beyond the primary requirements of the assignment

**Note:** Final Grades will be recorded using pluses and minuses.

**Attendance:** Regular attendance and participation in the class is expected. More than **four** (4) absences will result in losing any benefit of the doubt on your final grade. More than **seven** (7) absences will result in one grade reduction. More than **ten** (10) absences will result in a failing course grade. Late arrivals in class will count as an absence. **(Note: I do not distinguish between excused and unexcused absences in totaling your number of absences. If you have a valid reason for missing several classes, such as illness or other conflicting commitments, you still must speak with the instructor.)**

**Cellphones & Electronic Devices:** Please turn off all cellphones and electronic devices during class time. **Students who text or use electronic devices during class will be asked to leave and counted as absent for that class.**

**Academic Dishonesty and Plagiarism:** All work submitted is expected to be the student’s own. Any acts of plagiarism or academic dishonesty will result in automatic failure of the course, and may result in further academic punishment. If you have any doubts about definitions of plagiarism or academic dishonesty, please review the relevant sections of the University Catalog.
WEIGHT AND TIMELINE OF ASSIGNMENTS

The total number of points available for class assignments is 500 credit points. There are not extra credit points available (so please don’t ask).

DESCRIPTION OF WRITTEN ASSIGNMENTS

Response essay to Journey of the Universe (5%)

This is a 3-page critical response essay to the book and documentary, Journey of the Universe. See the detailed assignment posted on Moodle for specific instructions. (Paper Due in class: Jan 25)

Ishmael critical response essay (10%)

Write a 5-6 page, typed, double-spaced critical response to Daniel Quinn’s novel, Ishmael. Roughly two-thirds of your essay (4 pages) should be a thoughtful exposition of the main points in the book where you summarize and explain Quinn’s argument. Then develop your response to the book in the final third of your paper. See the detailed assignment posted on Moodle for specific instructions. (Note: Your essay must contain specific references to and relevant quotes from the text to support your exposition and argument. Give page numbers for quotes or where you are summarizing from the text. Your audience has not read the book.) (Paper Due: Feb 4)

Weekly Response Essays (15%)

Your main job to prepare for the participation portion of this course is to do each assigned reading thoughtfully before class and then to help us discuss it in class, particularly the Friday sessions. To help you think critically about what you read, each week you will write a short two-page response essay to the weekly readings. See the more detailed assignment posted on Moodle for specific instructions.

Turn in your essay to your Friday instructor at the beginning of each Wednesday class session starting the week of Wednesday, February 13th. Your essays should be typed and double-spaced and proofread for writing errors. The purpose is to help you do the reading well and to prepare for the Friday discussion sessions where we will all share our ideas about the reading. You should be prepared to speak about your ideas or questions during the class discussion.

Ecological Immersion Exercise and Essay (10%)

Each class member will do a minimum of five hours of "ecological immersion" -- participation with a group or in an organized activity focused on environmental issues. We will discuss various
possibilities during the Friday session on March 8th; you are also free to choose your own activity (just run it by your session instructor first).

Check the Conservation Calendar on the UM Environmental Studies Program website at http://www.cas.umt.edu/evst/calendars/conservation-cal.php for possibilities. Read the more detailed assignment posted on Moodle for specific instructions. (Due: Friday April 19)

Final “Learning Synthesis” Essay (15%)

The assignment is designed to help you synthesize what you have learned throughout the semester by reflecting on your own views in light of the course materials. The specific directions will be handed out and discussed in your Friday section on April 12th. The essay itself is due on Friday the final week of classes. (Due: Fri, April 26)

Midterm and Final Exams (15% each)

These are 50-minute exams that cover material from the first, second and third portions of the semester. The format of the exam will include multiple choice and short answer identifications to cover basic content you should know, as well as essay questions to assess how well you are able to integrate and reflect on what you are learning. Review sessions will take place on February 15, March 8, and April 26.

Midterm exams: February 22 & March 15;

Final exam: May 1, 10:10 AM – 12:10 PM. Note: No makeup tests for these dates will be allowed without signed official documentation and advanced consent of instructor.

Important University Policies, Dates and Deadlines

See the Calendar page in Cyberbear for a list of important dates for Spring 2018: Registrar Calendar

Students are responsible for being aware of these dates.

Credit/No Credit Grade option: A minimum grade average of D- (60) is required for a CR grade in the CR/NC Grade option.

Incomplete Grade: Please see the criteria that must be met for an Incomplete in the University Catalog. No exceptions will be made for these criteria.

Food Insecurity: Any student who has difficulty affording groceries or accessing sufficient food to eat every day, or who lacks a safe and stable place to live, and believes this may affect their performance in school, is urged to notify the professor if you are comfortable doing so. The UC will be opening a Food Pantry in early February, available to any student facing food insecurity.

Learning Disabilities: The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). If you think you may have a disability adversely affecting your academic performance, and you have not already registered with DSS, please contact DSS in Lommasson 154. I will work with you and DSS to provide an appropriate accommodation. For more information, please consult U Montana Disability Information.
LIST OF MOODLE READINGS, SPRING 2019

50. Rosalyn LaPier. “Why Native Americans struggle to protect their sacred places.” _The Conversation_ (August 14, 2018)
