- 4. Identify costs of quality and produce a quality cost report
- 5. Accumulate costs utilizing job order costing system
- 6. Prepare contribution margin income statement
- 7. Conduct cost-volume-profit analysis in single- and multi-product environment
- 8. Preparation of absorption and variable costing statements; ability to compare effect of two methods on net income
- Identify activities and activity cost pools, calculate activity rates and prepare management reports utilizing ABC system
- 10. Recognize various budgeting methods; prepare master budget including ancillary schedules
- 11. Account for transactions utilizing a standard costing system and apply overhead
- 12. Conduct variance analysis using standard costing system
- 13. Identify segments in decentralized reporting environment; prepare reports by cost, profit and investment centers
- 14. Calculate rate of return, residual income and segment margin
- 15. Delineate relevant costs and analyze decisions utilizing relevant costs

COURSE RESOURCES:

 Managerial Accounting 11/e by Garrison and Noreen Various readings and homework found on e-reserve (at URL <u>http://eres.lib.umt.edu</u>) **DISCUSSION BOARD PARTICIPATION:** I will occasionally ask you to participate in a discussion forum through the discussion board, and will assign points based upon participation.

HOMEWORK: Reading assignments and problems will be assigned each week. Homework will be assigned points and counted as "turned in" when it appears in the Digital Dropbox (under Tools). *No late homework will be accepted.* I will post the solutions on the date it is due. I will assign homework points according to effort and completeness, not numerical accuracy.

PROJECTS: There will be 2 projects and these will be 'turned in' through the Digital Dropbox as well. Solutions will be posted to these after all papers are turned in. Projects will be the primary assessment tool in this course.

STUDENT CONDUCT CODE: this can be found at <u>www.umt.edu/studentsaffairs/policy/code.htm</u>. Students are expected to practice academic honesty. Academic misconduct includes, but is not limited to plagiarism, misconduct during quizzes or exams, unauthorized possession of course materials, and facilitating academic dishonesty.

STUDENT PERFORMANCE ASSESSMENT METHODS AND GRADING PROCEDURES:

Homework and tests will be given point values. The total points earned will be divided by the total points available to determine the grade. The points available are as follows:

Discussion Board Participation	10
Project	200
Weekly Homework	110
Tests	400
Total Points	720 points
