Relationship to Program: This course offers students the opportunity to develop beginning skills in the use of medical terminology. The student will be able to build on these beginning skills by taking advanced medical terminology courses. This course is a foundation course in developing skills to communicate in the health care setting.

Course Description: Introduction to a medical word building system using Greek and Latin word roots, combining forms, suffixes, and prefixes.

Student Performance Outcomes:
Upon completion of the course the student will be able to:
1. Identify and define basic word composition (parts); i.e., prefixes, suffixes, combining forms, and word roots.
2. Analyze medical terms using knowledge of word parts.
3. Formulate valid medical terms by combining appropriate word parts.
4. Assess common medical acronyms and abbreviations from a selected list and apply appropriately.
5. Synthesize course knowledge to increase medical vocabulary skills in practice and/or advanced courses.

Method of Instruction: Discussion, demonstrations, reference reading, and group discussion.

Student Assessment Methods and Grading Procedures:
Point Breakdown: Final Grade Scoring:
Total Test Points Possible: 600
A = 90-100%  585 – 650 Points
Total Final Exam Points Possible: 50
B = 80-89%  520 – 584 Points
C = 75-79%  487 – 519 Points
D = 70-74%  455 – 486 Points
F = 0-69%  0 – 454 Points
Total Course Points Possible: 650

Attendance: Attendance is strongly encouraged. Attendance is a strong indicator of an individual’s commitment to the health care profession. No points will be added for attending class.

Cell Phones & Pagers: Due to an increasing number of students who own and use cell phones and pagers, it has become necessary to institute a policy regarding these items during class times. As you are aware, these items are distracting to an entire class; however, some students require them for business purposes, which allow them to further their education. Please follow these guidelines:
1. If the cell phone or pager is not business or emergency related, please turn it off.
2. Use the vibrating option on the cell phone or pager.
3. Do not listen to the message in class. Leave class quietly.
SEATING: Many classrooms have chairs to accommodate persons with disabilities. These chairs will display the international disability symbol and are assigned to a particular student. Please refrain from using these chairs or making adjustments to them unless the chair is assigned to you. If you think you may have the need for a special chair, please contact Disability Student Services. Thank you for your cooperation.

TEST MAKEUP: Tests may not be made up.
