Exam #3

Exams: Three examinations will be given. Expect that approximately half of each exam will cover class lecture material not covered in the text. Exams 1 and 2 will not be cumulative, but Exam 3 may have questions which review the basic issues learned during the semester.
Grades: Grades will be based on the following formula:

- Exam scores 40%
- Quizzes 25%
- Class Assignments 10%
- Class Participation 25%

I have regularly dropped grades from A to C for lack of class attendance. **No letter grades will be assigned for individual exams or quizzes.**

**Of your three exam scores, the lowest will be weighted 25%, the second 30%, and the highest 45%.** As a result, it will be difficult to predict your final course grade until after the third exam.

**Topics to be covered:**

Legal System: US vs international legal systems, sources of law, judicial process, the role of the US Constitution in the regulation of business, alternative dispute resolution.

Business Organization Issues: Partnerships, Limited Partnerships, LLP’s, LLC’s, S Corp, C Corp, going public (securities issues), operating a corporation (structure, dealing with shareholders, board members), choosing between various business entities, antitrust issues.

Employment Issues: Hiring issues (Discrimination issues, ADA), unionization, OSHA, testing, sexual harassment, affirmative action, employment at will, wrongful discharge, worker compensation insurance.

Tort Liability: Distinctions between negligent, intentional and strict torts, insuring liability through auto, homeowner, CGL, D&O, E&O liability policies, product liability theories, strict liability under environmental laws.

Money Issues: Secured transactions under UCC Article 9, Bankruptcy under Chapters 7, 11, 12 and 13, Foreign Corrupt Practices Act.

Property Issues: Intellectual property law (trademarks, patents, copyrights, trade secrets, the Economic Espionage Act), real property (listings, contracts of sale, title insurance, real estate financing, encumbrances, environmental liability), landlord-tenant issues in a commercial setting.

As a course overview, we attempt to interject whenever possible the distinction between legal and ethical concerns, society's endless pursuit for the appropriate amount of government regulation of business transactions and the impact of globalization.

The time allotment for the semester course is 1/3 of the semester on the Legal System and Contract Issues, 1/3 on Business Organization Issues and Employment Issues, 1/3 on Tort Liability, Money Issues and Property Issues. The time spent on each subtopic may vary according to significant current events.
