## SOPHS FIRST BLOOD

SECOND CLASS DEFEATS FRESHMEN IN MISCELLANEOUS SCRIMMAGE.

## BIG CONTEST TODAY

Regulated Scrap on Campus Today—Will Be in Charge of the Upper Classmen.

On Friday morning at about 8:20 occurred the first active encounter between the freshmen and the sophs. There had been rumors of a scrimmage the night before, but the rain had evidently discouraged most of the men. However, three freshmen, varying in size from six to four feet, bravely stood in the rain at the main entrance. When they saw a party of four sophomores congregate they evidently thought all danger was past, for they calmly strolled away, leaving an approaching freshman at the mercy of the sophs, who promptly downed and tied him. His cries brought the trusty three from their trance and they rushed over to the scene of battle only to be bound themselves. With four freshmen lying in the mud the sophomores went forth on the campus to seek for new conquest. They did not seek long. In fact, they were fought. From that time on there was a scramble, but always with the sophomores on top. The freshmen seemed to be bashful about musing up the campus. They preferred to fight and roll on the stone steps of the main building. But not so with the sophomores. They took keen delight in decorating the campus with the recumbent forms of frightened freshmen. The freshmen seemed inclined to object so in order to instill the principles of obedience into their minds some were bereft of their "crowning glory." For a while the clippers traveled merrily over the heads of the freshmen and everyone was happy. But this condition did not long exist. The little "rushing party" finally ended when Dr. Duniway appeared.

The Kaimin feels that special mention should be made of an incident that most people failed to note, namely, that one young freshman girl, alone and unattended, went forth in the midst of the struggle and bravely cut the bonds that held her fellow classman.

"Bind or Be Bound."

In view of the fact that freshmen and sophomores have certain acquired

G. M. PALMER  
Assistant in English.

## MANY MORE MEMBERS

Facts About New Additions to the Faculty—Prominent People Plainly.

The University's improvement and advance over the previous year has been shown in more ways than the increased enrollment and the new law school. When the students returned this year they found some unfamiliar faces among the faculty. The fact that the University of Montana has advanced to such a degree in one year that five new faculty members are required, speaks well for the institution. If there have been some who doubted the real work and improvement in the University, surely this fact

DR. PAUL O. PHILIPS  
Assistant in History.

alone must change their attitude. The new instructors secured this year are all well fitted to fill their positions and should add considerably to the efficiency of the University. They all come to the University highly recommended by the institutions with which they were formerly associated. The new members are Professor Palmer, who will teach English; Professor P. C. Phillips, assistant in electrical engineering; Miss Carrie C. Patton, assistant librarian; and Professor G. A. Gross, engineering assistant.

The University has been most fortunate in securing the services of such a man as Professor Palmer. Before coming to the University of Montana he was the supervisor of practical work in English in the University of Illinois academy. He received the degrees of A. B. and A. M. at the University of Illinois, and may secure the degree of Ph. D. by one more year's work. He is a graduate of the Illinois State Normal School and for 11 years has taught and superintended schools in the United States and in the Philippines. Mr. Palmer has had a great deal of experience in debating, having been a member of the University of Illinois teams. He has also coached several debating teams to victory. One of the most important of the new courses offered is Prof. Palmer's course in debating.

Professor Phillips, the new assistant in history, also comes to us from the University of Illinois, having held the position of assistant in history at that institution. He has spent three years of graduate work in history for the degree of Ph. D. Some of this time he spent working among the government archives in London and Paris in connection with his work on the American Revolution.

Professor Biegler, assistant in electrical engineering, comes from Purdue University, where he held a similar position to the one he occupies at the

## HIGH SCHOOL EXCHANGE

KAIMIN TO ESTABLISH ASSOCIATED PRESS AMONG THE HIGH SCHOOLS.

## ALL ARE TO JOIN

Every School Asked to Help Kaimin in New Venture—Will Be Success.

The Weekly Kaimin has always been in the front rank of college newspapers in the Northwest, and to secure her place has from time to time offered to her subscribers unique things in the way of news. But the latest thing thought of, and one which the Kaimin knows to be a new custom, is the establishment of a High School Exchange, or news bureau; in other words, the Kaimin is going to start a miniature "Associated Press" among the High Schools of the state. We want everyone in on this, for it is going to do more than all track meets, basket ball tournaments and debates to get the High Schools acquainted with and interested in each other. The University has always been friendly with the High Schools, and we want to extend that friendship into fellowship.

But to come down to facts, the Kaimin is having a two-column head made under which the news of all the High Schools is to go and no one is going to be slighted or "cut out," even if we have to run a sixteen-page paper with a comic section and have a Sunday edition. The principals of the High Schools will soon receive letters informing them of the established bureau and asking them to have the correspondent for the Kaimin's Associated Press elected by the students, or, if preferred, one appointed.

The news should be sent in regularly and timed to arrive in Missoula on Monday or Tuesday, just in time to catch the Kaimin before it goes to press. We want this done, because nobody likes to see anything in a paper which is called "news" but was written B. C. We don't want anything old and stale, but something short and crisp and snappy; something that will make your neighbor sit up and take notice; something that will "cinch" you a place on the High School map, even though you may be small.

One other thing also, the Kaimin wants "scoops." If you have anything especially good, send it right on and the editor will give it a place on the front page. The "Butte Evening News," upon its demise some time ago, willed the Kaimin a few cases of red type and we will drag them forth if we can't make your news prominent in any other way. So come on, High Schools, help us and we'll soon have something moving.

University of Montana. Formerly he was assistant professor in electrical engineering at the University of Iowa. Prof. Biegler is a graduate of the University of Wisconsin and has had 11 years practical experience as an electrical engineer and a mechanician.

Miss Carrie C. Patton, the new library assistant, is a graduate of the University of Illinois. She has had special training in library work and comes to us highly recommended.

In securing Professor G. A. Gross the university has gotten a man that is a practical engineer in every way. Professor Gross is to have charge of the shops. Before coming to Montana Pro-

(Continued on Page Five.)

## COMMITTEES NAMED

President Duniway Names Standing Faculty Committees for the Year.

The president has completed the appointment of the faculty committees which are to serve for the coming year. These committees deal with the things that come under their province and in this way relieve the president of much of the routine work. There have been made this year a few changes in the personnel of some of the committees, but essentially they are the same as heretofore. One of the innovations made this time is the addition of a scholarship committee which will deal with all cases wherein scholarship is concerned.

By the addition of this scholarship committee much of the work that formerly fell on various other committees will be removed. This committee is to have charge of scholarship standing, no matter in what connection it may be with other committees. This committee will pass on the eligibility of all representatives of the university. They will say, as far as scholarship is involved, who will be on the various athletic teams. Their work will consist principally of enforcing all rules and regulations pertaining to scholarship.

Below is printed the various committees as appointed by the president. It is well for the students to bear these committees in mind, so that they will know whom to see if they run amuck of any of the rulings of the faculty, or if they wish any favors granted.

Standing committees of the faculty, 1911-1912.

Admission and registration—Aber, Book, Corbin, Rowe, Richter, Spear.

Athletics—Cary, Harkins, Piew, Rowe, Whitlock.

Employment for students—Plant, Cary, Elrod, Knowles, Scheuch.

Extension lectures and correspondence—Book, Kirkwood, Knowles, Palmer, Phillips, Plant, Richter.

Graduate work—Harkins, Book, Elrod, Reynolds, Underwood.

Interscholastic meet—Rowe, Book, Cary, Elrod, Reynolds, Stewart, Thompson.

Lecture course—Elrod, Buckhouse, Rowe, Smith Thompson.

Public Accountancy—Underwood, Ballantine, Spear.

Public exercises—Reynolds, Aber, Corbin, Fischer, Smith, Underwood.

Recommendations—Book, Corbin, Harkins, Richter, Spear.

Schedule and examinations—Scheuch, Aber, Biegler, Carey, Palmer.

Scholarship—Plant, Ballantine, Richter, Reynolds, Stewart, Spear.

State fair exhibit—Aber, Elrod, Kirkwood, Knowles, Richter.

Student affairs—Rowe, Cunningham, Harkins, Reynolds, Stewart.

## STATE FAIR EXHIBIT

COLLEGE SENDS USUAL COLLECTION TO HELENA—IN CHARGE OF JAMES HAINES.

## WOODS AND ENGINES

Forsters and Engineers Send Principal Part—Law Department Also Represented.

The time for the Montana State Fair has again arrived and this year the University of Montana has an exhibit that will eclipse any of its previous ones. The university has an exhibit that will be a credit to the institution because people from all over the state will visit Helena during fair week and the university wishes to show the advancement being made.

This year the university will have an exhibit that will advertise the institution and the work it is doing. Two sets of colored photographic transparencies will be on exhibition at the fair this week. These transparencies are scenes of the university and the surrounding country, and portray university life in all its phases. For some time these scenes have been on exhibition in the basement of the library building, and have been the source of a great deal of admiration. These pictures should do a great deal toward arousing the interest of people of the state in their university.

The engineering department will also have an exhibit which will consist of drawings and photographs made in this department. The drawings are cross-sections of intricate pieces of machinery and bear silent evidence of the kind of work done at the university by the future engineers of our state. The photographs are also of machines, made for the purpose of giving a clearer idea of the working parts of various machines.

In order to arouse the interest of the state in the forestry department, Prof. Kirkwood has prepared several specimens of the various native woods of the state and some rare woods taken from other forests. There are also several photographs taken in the various districts of western Montana.

But one of the principal ways of advertising the university will be through the medium of pamphlets and bulletins concerning the school. During the summer two good booklets were gotten out, one on "Why Go to College?" by Prof. G. F. Reynolds of the English department and the other, "Through the Year at the U," by George Stone, '13, a student.

The former booklet was sent all over

## TOO BAD.

In addressing the second assembly of the college year the other day President Duniway spoke at some length concerning the daubing and defacing of university property. It is a lamentable fact that time had to be taken up for a subject of this kind, but nevertheless depredations have been committed on the campus in the past.

The most flagrant case occurred a year or so ago when some thought it funny to come upon the campus and maliciously paint figures and numerals on the doors and windows of the buildings.

So far this year nothing has been done that in the least will permanently deface any building, but the lamentable thing is that it cannot be foreseen when some one will think it "smart" to deface something in a building or commit some depredation upon the outside of some building.

It is to be regretted that students, some of them, cannot grasp the idea that the university is their Alma Mater, a thing to be proud of and fought for, and not merely a school building to be carved or painted upon whenever the "teacher" isn't looking.

The university is a place for higher education, wherein knowledge is obtained. If defacing is the idea of some people of higher education and the art of defacing is all the knowledge that they are able to obtain, the quicker they are routed out of the student body of any institution the better it will be for that institution.

This may seem uncalled for at this time, and maybe we shouldn't cross the bridge before we come to it. But if we know that there is a bridge it is just as well to be prepared for it. Up to this time everything has gone on smoothly and let's all get together and see that things go on in just that way for the rest of the year. If public opinion is to be the judge of all things as many great men think, let our public opinion on this matter be distinctly understood and we may rest assured that no depredations will be committed.

## FACULTY ON PLATFORM.

Now that we have an excellent system for setting and taking the roll of all the students in assemblies it would seem only proper that we should continue the good work in regard to the faculty.

In years gone by the members of the faculty used to sit upon the platform on either side of the president. This was always a pleasant sight to the student body. It was with regret that the students saw the pretty custom abolished.

If this custom were to be revived the student body would become better acquainted with all of the members of the faculty; they would be proud to see the growth that has taken place in the faculty and they would all feel better about attending assembly. In a word, it would make the spirit of corps much better.

## STUDENTS AND ADVERTISERS.

Much is said by newspapers concerning advertisers and the patronizing of those who believe in using "printer's ink" to build up a business.

The majority of the Missoula business men have always given the Kaimin good support, but as is the case everywhere, there are a few who believe that everything should show on one side of the books. It is an unusual thing that those men are the ones who make the biggest drag on the university pocketbooks, and those are the men university students should avoid.

Mr. Merchant, did you ever stop to think that university students and faculty bring into the city of Missoula and distribute among you about \$125,000 a year? Who secures the benefit of this money? Isn't it everyone in the city? Some merchants secure more than their share and yet refuse to advertise; it is a noticeable fact that some of the very merchants who cater to the university trade are the ones who refuse to advertise. It is up to the students to remain loyal to their institutions and patronize the men who advertise in the Kaimin. If you intend making a purchase look up a patron of the Kaimin and we know that he will treat you right, for our advertisers are our friends.

## THE FIGHTING SPIRIT.

A week ago comments were being passed as to the lethargic state of college spirit this year. The freshmen and sophomores had not yet gotten over their homesickness enough to start anything. But things are awakening. On Friday morning university circles were electrified by the news that battle royal and harmless was raging upon the greensward of the Sacred Oval, the favorite battlefield. Certainly college spirit was not dead; it was merely suffering from Rip Van Winkletitis. Twenty freshmen bear the marks of college spirit; thirty sophomores tremble lest they shall tonight also be brought to martyrdom for the sake of college spirit. The first football game is a little over two weeks away and by that time college spirit will be so wide awake that neither defeat nor the presidential blank will be able to thrust it under.

## PETTY THIEVERY.

During the last year or two there has sprung up around the university, a class of gentlemen burglars, who make a practice of "snooping" around the rear doors of residences where festivities are in progress, and silently and skillfully steal the refreshments, liquid or otherwise. This practice should be stopped. We do not like to incriminate anyone, but we do think that it is a very naughty thing to do. It is a crime against society—one which cannot be made any lighter by volumes of profanity on the part of the victim. Any young man who deliberately, wilfully, intentionally and maliciously steals ices ought to be severely spanked with the same shingle he used in devouring the booty.

## KAIMIN ASSOCIATED PRESS.

On another page in this issue is the account of the Kaimin's new News Bureau. This is to be started as an experiment, and it is hoped that the hearty co-operation of all the High Schools in the state can be had.

The High Schools of the state, it is believed, don't know enough about each other, and until now they had no means through which to learn about

each other. Through this news agency, this Associated Press as it were, all of the schools throughout the state have an opportunity of knowing what the other schools are doing. This cannot help but cause each school to take an interest in its sister institutions, and in so doing a better spirit will be fostered.

It is hoped that every high school will take this matter up immediately so that we may get the Bureau going at once. If there is any further information wanted on the subject, the editor of the High School News Bureau of the University of Montana will be more than pleased to furnish it.

## GERMAN CLUB.

Where is our German club? No one seems to know, but everyone unites to mourn its loss. Perhaps it is because there is no moving spirit to take Miss Walker's place, who made the club so successful last year. Who does not remember those weekly meetings, when everyone forgot that he was English, and either expressed himself in German, or maintained a true German silence?

Perhaps one of the most enjoyable features of the club meetings were the talks and informal lectures given every time by people of note, who told of the life, customs and manners of German folk in their own tongue. Then there were the quaint German games, into which everyone entered with a zest, and the folk songs which the students sang, as far as they were able, let us say.

However, we fear that those refreshments which appeared with unfailing regularity made the greatest appeal, because it took no effort or knowledge to eat in German, you know. Be that as it may, we fondly hope for the reappearance of the club, and let us try to conjure up some good spirit who will take the lead and call the German club back into its days of former "prachtigkeit."

## SINGING ON THE STEPS.

The first singing on the steps which was held last Thursday night was a success from everybody's point of view. When 7:30 arrived the steps were crowded to their capacity. Yell Leader Veal was in charge and conducted the program in a very creditable manner.

One of the pleasant features of the meeting was the return of F. Thayer Stoddard. Thayer was yell leader for three of his college years. It seemed like old times to have "Stoddie" at the helm. Mr. Stoddard demonstrated by his great success in leading that he is nothing like Mr. Jeffries. "Stoddie" can and did "come back."

Between the two leaders things were kept humming all the time. It was with a sigh of regret that those assembled heard the clock strike eight—dispersing time. Those present voted it the best time they had had this year, and all were loud in their wishes that we may have some more of the same soon.

## VISITORS.

Messrs. Hardy and Benjamin Page visited their sister, Miss Frances Page, on their way back to Annapolis, where they are students of the Naval Academy.

Miss Sadie Stabern has registered as a Junior in the University. Miss Stabern took the first two years of her college course at Stanford University, and we are glad to welcome her here.

Miss Agnes Sulgrove of Helena was the guest of Miss Rose Leopold at Craig Hall on Thursday, when she stopped in Missoula on her way home from the coast.

Mrs. Motz and Miss Ruth Motz of Helena paid Miss Rose Leopold a hurried visit Saturday on their way home from Plains, Montana.

The football outlook for the season of 1911, while brighter than it was some time ago, has not assumed anywhere near the brightness desired by the student body. Some progress has been made in practice, but as yet the strong team that Montana has had for the past two years has not been approached.

There are, of course, many things which contribute to the failure of the squad to show championship speed, but with the first game so near the fact that there are reasons for a poor team does not count for much. The whole trouble seems to be that until very lately the squad has not shown any of the fighting spirit so essential to good football. This may be because of the lack of experience of many of the men. It seems, however, that by this time enough experience could have been had to overcome this greenness.

The coaching staff has been working hard and well and have accomplished a lot, but as yet there is a lot more to be done. The fault is not with the coaches, because we have some of the best men in the state. It seems to lie primarily with the team itself. Many of the best men in school have not reported. This is a drawback and like a bucket of water on the rest of the team. Every one knows what these men have done and can do. Not to see them but makes a feeling among those out that the team is to be no first-rater, and naturally causes a lack of interest on the part of those striving to make the team.

This condition was more noticeable at first, but seems to be somewhat dissipated. Still there is a little of the same feeling which should not be allowed on the gridiron because it has no place there.

Since Tuesday the football field has taken on a more business-like appearance and the men out to practice have seemed to have a better spirit. This may be due to the fact that when the new equipment for the men arrived more men reported than were out before, or it may be due to the fact that the men have decided to show those who were "crabbing" the game that they can get along without them and still have a regular good old Montana team. From whatever cause the change has come it is noticeable and greeted with much joy by the students in general.

Montana is going to try this year to compete with the teams of the northwest. What kind of a contest they can put up against these bigger teams remains to be seen, but nevertheless if the fighting spirit keeps on increasing in the week to come as it has in the week past we need have no fear that the contests with these big fellows will at least be interesting.

With the state teams we know that we will have a hard, uphill fight if we are going to accomplish as much as we have in the past two years. We

have received reports that both the School of Mines and the Agricultural College have an abundance of material out every night. This with the coaching ability that both schools have lined up this season makes it a certainty that Montana, in the words of the poet, will have to "go some."

The thing for us to do is to get more fighting spirit; get men out and the coaches will do the rest.

#### NEW TOGS.

There was great joy among the football candidates last week when it was learned that the new football equipment had arrived. All have been waiting for these "togs" for some time. In the assortment that arrived were new suits, new Sox, and best of all new shoes. The suits this year are not of the variety known as union suits. Experiments have been going on for some time with the union suit and the separate pants and jersey and it was found that the separate style gave far better satisfaction.

Owing to the fact that many of the men could not come out to football because of the lack of decent clothes the outlook for a while was extremely black. Now that we can clothe all candidates decently many men who did not report before have come out and the prospects for a good team are getting brighter every day.

During the past week there has been nearly two full teams out every night. Of course, this is not a very great number, but it is far better than it was at the start, when only part of the team could be secured. Coach Cary says that the greatest drawback now is the fact that many of the men out are green. It will take some time to teach them the game and get them into fighting condition. However, he hopes for the best and will at least make a fight for the championship honors of the state.

#### RUBBERS NEEDED.

Here is the opportunity that so many students have been looking for. A good many times each night during football practice one will hear the remark: "Gee, I wish I was bigger so I could play football." There are many ways in which the students can help the team without actually playing, and here is one of them:

Each night when the team comes in from practice, the fellows are dead tired, and naturally they want to rest. During this period of rest their muscles are apt to get "tied" up, which prevents their getting into shape. If two men could be secured to rub the members of the team after practice, the team would round into shape much more rapidly and the chances for a championship team would be greatly increased.

## UNIVERSITY YELLS

Some of Cheers to Help Our Teams to Victory—Learn These, the Rest Are Easy.

As yet there has not been much done by any of the student body toward accepting the offer of the A. S. U. M. to give a season ticket to the writer of the best college yell. Neither has there been any songs turned in, in the Cary contest. Both of these things seem to indicate that the students, as a whole, are not taking the interest they should in these contests.

The reward in both cases is surely great enough to command a little effort by all. The A. S. U. M. it will be remembered gives a season ticket to the writer of the best college yell and the Cary prize is a ten-dollar bill. We need new yells and songs and now is the time to get them. It is worth anybody's time to win a prize like either of the above, and, besides, the winners would know that they had done something really worth while for the University. It is to be hoped that something more will be done during the coming week.

Below is printed some of the yells of the University now in existence. It will be well for all new-comers to learn these, and it would not hurt the old ones to brush up a little. Let's all have these committed by the next singing on the steps.

#### University Yells.

#### ALUMNI NOTES.

Clarissa Spencer, '08, is taking a post-graduate course in the University of Montana.

Daisy Penman, '10; Mary Diamond, ex-'10; Florence Thieme, '10, and Edith Steele, '11, attended teachers' institute which was held in Billings last week.

Marjorie Mason, '10, who is teaching at Plains this year, was at home for a few days this week, having come to attend her sister's wedding.

Roberta Satterthwaite, '10, is teaching in Kent, Washington.

Mr. Arthur Bishop, '11, who is now Land Examiner for the Northern Pacific railroad, spent his week end in Missoula.

Roberta Satterthwaite, '09, and Bertha Simpson, '01, attended summer school at the University of Washington during the summer.

Montana Buswell, '09; Alice Wright, '09, and Phoebe Finley, '08, spent the summer studying in the graduate school of the University of Chicago working toward Master Degrees.

Debora Waggy, '06, attended summer school at the University of California during the summer.

Mr. Charles McCowan, '11, has made a present to the department library of psychology which is highly valued by the professors. Mr. McCowan has sent his psychology note book, neatly bound, to the department for reference work. This is possibly one of the best note-books ever kept by any student of psychology, and is therefore of peculiar value. We wish here to thank "Stuff" for his donation.

Mr. Gil Reinhard, '07, has lately returned from an extended trip to the coast.

#### YELLOWSTONE PARK TOURISTS.

Toward the latter part of the summer a party composed of the Misses Smith, Knowles and Stewart, and Professors Reynolds and Underwood, all of the Faculty of the University, and several friends, visited Yellowstone National Park. Owing to the bad weather and the high altitude, it was extremely cold and part of the pleasure of the trip was spoiled for this reason. However, the party voted the trip a most enjoyable one.

#### PROFESSOR PLANT.

Professor Plant reports a very pleasant and profitable summer spent in research work in the University of Chicago and in inspecting the mathematics departments of the Universities of Minnesota, Michigan and Pittsburgh. The object of this latter investigation was to ascertain in what manner our own department of mathematics might be improved. He reports that our own department compares very favorably with the departments of the large universities visited. The last three weeks were spent in Michigan, with Mrs. Plant and his two children, visiting relatives and friends.

Professor Plant returns to us with renewed enthusiasm for his department, which he hopes to make one of the best in the country.

Purdue has a new hydraulic laboratory with a floor space of over 8,500 square feet.

On Saturday, the 16th, a chapter of Delta Gamma was installed at the University of Idaho.

AMID CAMPUS JUNGLES.

### Annual Faculty Reception.

Mr. and Mrs. C. A. Duniway entertained the Executive Board and Faculty of the University at a reception Friday evening in their new home just south of the University grounds. About sixty guests were present, there being Judge Clayberg, J. H. T. Ryman, Mr. and Mrs. Charles H. Hall, Mr. and Mrs. A. L. Duncan and the members of the Faculty.

### Mrs. Winstanley Hostess.

Miss Evelyn Polleys was the guest of honor on Tuesday at a spoon shower given for her by Mrs. Winstanley.

### For Ethel Wilkinson.

The Misses Teitjen and Miss Dorothy Sterling entertained at the home of the former Saturday afternoon. The early part of the afternoon was spent in sewing and quilting. After refreshments were served the guests were entertained with music and dancing. About thirty guests were present to enjoy the hospitality of the hostess.

### Mrs. Dr. W. P. Mills Hostess.

Mrs. Dr. W. P. Mills was hostess at a delightful afternoon given at her home on Stephens avenue in honor of Miss Wilkinson and Miss Polleys. The afternoon was spent in fortune telling, after which Miss Polleys was showered with many useful and beautiful gifts; Miss Wilkinson received many excellent cooking recipes. The decorations in the dining room were lavender and yellow. About forty guests were present.

### Kappa Kappa Gamma Spread.

Wednesday evening the members of Kappa Kappa Gamma Sorority entertained at an appetizing "Dutch lunch" in their suite at Craig Hall. The spread was given in honor of Miss Ethel Wilkinson and Miss Evelyn Polleys, who are both to be married this fall. Thirty members of Kappa Kappa Gamma were present.

### Luncheon.

Miss Ethel Wilkinson and Miss Evelyn Polleys were the guests of honor at a delightfully-appointed luncheon given by Mrs. Charles Hall. Those who enjoyed the hospitality of Mrs. Hall were the Misses Ethel Wilkinson, Evelyn Polleys, Mary Elrod, Maude McCullough, Eva Coffee, Bess Gould, Josephine Polleys and Mildred Jenkins.

### Sigma Nu Auto Trip.

Friday evening eight automobiles loaded with passengers left the Sigma Nu house on University avenue for the Maclay ranch. They arrived there without any accidents about an hour later. Immediately upon their arrival a huge bonfire was built and the evening was spent around the campfire singing, telling stories and toasting marshmallows. At a rather late hour they repaired to the Maclay barn, where they spent the night. After an early breakfast, the party left for Hamilton, where dinner was served for them at the Ravalli Hotel. The remainder of the afternoon was spent touring the Marcus Daly ranch. The party left Hamilton about four o'clock, and when they arrived in Missoula a delightful supper was served for them at the Sigma Nu house. Those who made the trip were Mayor Evans, James Bonner, John Lucy, Frank Bonner, T. B. Knapp of Portland, Floyd Hardenburgh, J. B. Speer, Walter Beck, Harold Sloan, A. W. O'Rourke, Clarence Buck, Ray Dinsmore, Allan Toole, Dan Conner, Carl Cameron, Earl Hughes, Massey McCullough, Bob Kitt, Clifford Day, Donovan Worden, La-

mar Maclay, Holmes Maclay, C. E. Dobson, Earl Speer, George Armitage, D. V. Young, Ed. Simpkins, R. S. Berland, Kenneth Wolfe, Coburn Madden, Bert Peppard, Mr. Gilchrist and Mr. Tope.

### Box Party.

Tuesday evening the members of Kappa Alpha Theta Sorority were hostesses at a box party to see Gertrude Hoffmann and the Russian Ballet in "Cleopatra." At the close of the play a most delightful supper was served at the home of Miss Gladys Freeze. The party was given in honor of Misses Francis Page, Merle Kettelwell, Marguerite Bonner, Esther Biraby and Miss Clarke, a member of Kappa Alpha Theta from the Wisconsin Chapter. Mrs. Rowe and Mrs. James Bonner acted as chaperones.

### Thompson—Neville.

One of the pleasant surprises of the year was the recent marriage of Prof. Thompson to Miss Neville of Nashville, Tenn. The marriage is the outgrowth of a pretty college romance which began at Peabody college, six years ago, where both Prof. and Mrs. Thompson were students.

The ceremony, which was performed by the Rev. E. P. Anderson of the Methodist church, was a quiet one, only the immediate relatives and friends of the bride and groom being present. Prof. and Mrs. Thompson left immediately for Missoula, in order to be definitely settled at the opening of the school year. The Kaimin takes this opportunity of congratulating the newly married couple and wishes them every success and happiness.

### Kappa Alpha Theta Entertains.

Wednesday afternoon members of Kappa Alpha Theta Sorority entertained at their suite in Craig Hall, in honor of Mrs. Robert N. Thompson and Miss Pearl Green. Thirty guests were present and a very pleasant afternoon was spent in needlework. Tea was served late in the afternoon.

Mrs. Thompson is the bride of Professor Thompson at the University.

Miss Pearl Green is the National Secretary of Kappa Alpha Theta Sorority from Ithaca, N. Y. She spent two days with the Chapter at the University before traveling west to inspect other Chapters.

### A. S. U. M. Dance Great Success.

Friday, the 22nd, the first A. S. U. M. dance was given at the Gymnasium by the students of the University. The program of twenty dances lasted from nine o'clock until midnight.

A delightful punch was served during the evening.

For the first dance of the year the A. S. U. M. was remarkable, an unusually large crowd of both students and town people being present. On account of the splendid success of this first dance we are led to believe that the student dances will have a better attendance this year than ever before.

### Kensington.

Mrs. C. A. Duniway entertained several of her friends very informally at a Kensington Thursday afternoon. Tea was served later in the day. Those present were the Misses Josephine and Evelyn Polleys, Francis Corbin, Eloise Knowles, Mary Stewart and Mable Smith.

I used to think I knew I knew,  
But now I must confess:  
The more I know I know I know  
I know I know the less.

Remember that the Bureau of Printing does the best work in town.

## ATTRACTIONS ARE MANY

LECTURE COURSE FOR COMING  
YEAR PROMISES TO BE BEST  
EVER—ALL WELL KNOWN.

As usual, the University Lecture Course will hold the leading place among the University attractions. The course has always been carried on by the Lecture Course Committee of the Faculty, and this year no departure will be made from the regular custom. These lectures have always held a distinctive place in the entertainments of the city in general, they being more of the educational order than any other amusements offered.

The course will this year contain eight numbers, all of them high class. Many of the attractions offered will be old favorites with the lecture course patrons, but, of course, this year they will give an entirely different program than any given here before.

### Best Ever.

The members of the Lecture Course Committee are sponsors for the statement that the attractions are as good or, possibly, a little better than any that they have been able to secure in years past. All of the lecture numbers presented have been chosen by the committee with the idea of the position the speakers hold in public life. The musical numbers are those best known in the musical world, and the magician, Laurant, is well known to all the Missoula pleasure-loving populace.

### The Whitney Brothers.

The first number on the course is one that is sure to please all that have ever been patrons of the course before. It is the Whitney Brothers' Quartette. This year the Whitneys have an altogether different program, which is said to be even more attractive than any given before. This pleasing musical number is to be in Missoula on October 14.

### Murdock.

Following the Whitneys, in the same month, October 31, will be presented Murdock. This lecturer is well known to all of the Missoula people, so nothing need be said concerning him.

### Francis J. Heney.

On November 16 we will have the pleasure of hearing the man who has created possibly more talk than any other one man in the country. It is Francis J. Heney of San Francisco fame. His lecture is sure to be of interest to all people at all interested in clean government.

### Senator Gore.

The blind senator from Oklahoma follows Heney. Senator Gore will be with us on November 21. The man who has done so much against such great odds is sure to have a message for us that will strike home. The arrival of his lecture will be awaited with much interest by all.

### Laurant.

This magician is slated to be here on December 9. Laurant, famous magician, probably one of the most eminent men in his line in our country, this year has a complete set of new and startling illusions which he will give to the Missoula public for the first time.

### Frank J. Cannon.

The next number will not come for quite a while, but when it does come, it is a certainty that all will feel repaid for the long wait. Mr. Frank J. Cannon, the man who turned things upside down in Utah, is to be with us February 16. A man who has done the things that Cannon has, and a man of so much national importance cannot help but be of interest to all.

With a list of attractions such as the above the lecture course need have no fear as to the outcome of the season. The course is of high order from every point of view and is sure to please. As yet, no pledges have been asked or obtained, but the committee will be out after them in a very few

days. The tickets this year are, as usual, at the popular price of \$3.00 per set. There may be some slight changes made in the dates of some of the numbers, but the above are the dates as now arranged.

### Newens.

Newens, as may be thought from the name, is not a troupe or group of entertainers. Newens is a man. He is said to be one of the best men in his line. It is his business to make you laugh and he has done so well that he is considered as a good substitute for the inimitable Mark Twain. The stories and jokes that he perpetrates are good and he is a guaranteed mirth producer.

### Madame Le Brun Troupe.

The last attraction offered is a dandy, and is a fitting wind up to so good a course. On April 12 will appear the Madame Le Brun Troupe. This is composed of some of the best talent that the country affords. The selections rendered by this organization will consist mainly of parts of the best-known standard grand operas.

### HAWTHORNE.

The first meeting of the men's literary society, "The Hawthorne," is to be held next week, and all the old men are requested to be present, and a hearty welcome will be extended to as many new men as wish to become affiliated with the society.

Heretofore the Hawthorne has concerned itself mostly with debating, and last year the members had charge of the collegiate debating altogether. Since a debating class has been organized this year, which will deal exclusively with that subject, it is thought that the literary society will devote itself to some other branch or work.

Five hundred Chinese students are being educated in the universities of the United States, with Cornell as the biggest drawing card.

## Y. W. C. A. IS ACTIVE

Young Women's Association in University Is Doing Things—Activity Is Extending Over Work.

There was a conference held last spring in Constantinople that stands in the world's history, in that it was entirely different from any other meeting of men. The members of the conference gathered together for the purpose of discussing the welfare of university students all over the world. Three representatives were present from this country; among them was Miss Conde, the student secretary of the national board of Y. W. C. A. For three days before the general conference met, the representatives met on a little island out in the Mediterranean sea, trying to get into tangible form something that could be presented at the meeting for the benefit of the student world along ethical lines.

The importance of this unique conference lies in the fact that in addition to being the first one of its kind ever held, it was an international movement. The representatives of all the countries of Europe and America were there. Among other men of note, the greatest educator of France was present.

It is with a touch of pride that we recall that our own little band of Y. W. C. A. workers here in the university was a part of this world-wide movement, which is simply significant of the broadening influence of the Y. W. C. A., and of the ever-widening circles of its power.

To make geometry popular, Professor Dought of the University of Chicago is preparing a text book in which theorems are applied to football.

### LAW SCHOOL DOINGS

Many Improvements — New Library Purchased, New Reading Room Added.

The Marshall Library was purchased recently from the heirs of the Colonel Marshall estate, and is, without a doubt, one of the most complete private or public law libraries in the state.

It is in every way complete as a law library, containing all information of law as practiced in Montana. There are in the collection the Reporter System, Montana, California and New York reports, all standard encyclopedias of law evidence and procedure, federal and U. S. reports, S. R. A. and all the standard text books.

The law department expects to make this library further complete by the addition of a digest system.

When thus completed, this library, in combination with the W. W. Dixon collection, and with the modern texts ordered by the law department, will be one of the best in the state, and in order to keep up the high standard, established in the law schools, will be kept strictly up to date in every particular.

Tuesday afternoon Judge Clayberg, Dean Emeritus of the Law School, delivered a lecture on mining law. This is the third lecture of a series of lectures to be given by Judge Clayberg, and was well attended by both Faculty and students.

### JUDGE CLAYBERG LECTURES.

Judge Clayberg of Helena, head of the law department of the University of Montana, delivered his first lecture of the course last Thursday. Mining law was the subject of the discussion. Friday he gave the second lecture—"Pleading and Practice."

Both lectures were attended by students of the first and second year courses, instructors of the law school, and some members of the local board.

### LAW READING ROOM.

The law library reading room has been nicely furnished with new oak tables, electric lights and other conveniences. The law students are encouraged in their work in the library because of the books of reference be-

ing so near at hand and the ease with which instructors may be found and consulted.

Lawyers and all those interested in law are invited to make use of the library.

### STATE FAIR EXHIBIT.

(Continued From Page One.)

the country and was generally conceded to be one of the best booklets ever published on this subject. Everywhere the demand exceeded the supply, bearing evidence of its popularity. The other booklet tells of life at the "U" during the past year. In this way it tells of the advantages offered by the university, outside of the classroom. Last week the Kaimin printed seventeen hundred copies, which have been sent to Helena for distribution. All those that take the trouble to read these pamphlets will gain a clear idea of the life and the work done at the University of Montana.

James Haines, '14, a student of the university, will remain in Helena during the week to look after the exhibit. It is also likely that Professors Plew and Elrod will go to Helena later in the week, the latter to take pictures of the fair for the university.

### MANY MORE MEMBERS.

(Continued From Page One.)

fessor Gross was shop assistant in the university has gotten a man that is a every way a high class man and has a thorough understanding of the subjects he has been employed to teach.

The other man who has been added to the engineering department is Professor G. H. Cunningham. He is to have charge of the course in mechanics and also to supervise the descriptive geometry and mechanical drawing. Professor Cunningham is a graduate of Cornell of the class of 1908. He is also an alumnus of the Virginia Polytechnic Institute. He has the Degree of Bachelor of Science and also Mechanical Engineer. Before coming to the University of Montana he was actively engaged in engineering work with the Consolidated Coal company of Kentucky. That Professor Cunningham is very competent in his line has already been shown by the great strides he has made in the department.

## A. S. U. M. BOSSES MEET

EXECUTIVE COMMITTEE OF ASSOCIATED STUDENTS PASS IMPORTANT MOTIONS.

September 13, 1911.

Regular meeting of the Executive Committee of the A. S. U. M. called to order by President Hubert. Present: Hubert, Whipple, Thompson, Harkins, O'Rourke, Hansen, Thleme. Minutes of the last meeting read by the secretary.

Motion carried that the following conditions imposed by the Executive Board of the University, with respect to the system of a \$5 fee, be accepted.

I. The books of the manager of the A. S. U. M. shall be kept in a manner satisfactory to the Executive Board or its officers and shall be open to inspection at any time by any of its members or officers.

II. At the end of each calendar month the Manager shall submit to the Secretary a financial statement showing: (1) A list of the vouchers for the month, with the purposes of expenditures called for by the vouchers; and (2) a statement showing the condition of the several accounts, together with a statement of the amount of money necessary to pay the bills of the Association for that particular month. A check will then be made out in favor of the Manager.

III. A copy of the annual financial report showing (1) the total receipts for the year, (2) the total expenditures for the year, (3) resources on hand, and (4) liabilities, if any, shall be submitted to the President of the University at the end of the college year.

IV. At least five (5) per cent of the fund will be held until the financial report for the end of the college year is submitted and approved by the President of the University.

Motion carried that the note and interest of \$152.25 at the Western Montana bank be paid out of the reserve fund.

Motion carried that the bill from the Western Montana Flouring Company for \$5.75 be paid.

Motion carried that the regular meetings of the Executive Committee of the A. S. U. M. be held on the first and third Mondays of the month at 4:10 p. m.

The matter of the dissolution of the Press club and taking over the Kaimin by the A. S. U. M. was presented by President Duniway. Motion carried that the following resolutions be adopted:

I. That the Executive Committee is in favor of the publication of the Weekly Kaimin by the A. S. U. M. in the event of the dissolution of the Press club.

II. That under such arrangement the existing staff be retained for the present semester.

III. That every member of the A. S. U. M. be a bona fide subscriber to

the Weekly Kaimin as thus published.

Motion carried that a standing "Rally Committee" of three members be appointed by the President.

Motion carried that the Executive Committee offer a season ticket to the football games for the best original University of Montana yell submitted to this Committee in competition, and that the results be published in the Kaimin.

Motion carried that upon the payment of the \$5 fee, faculty members become members of the A. S. U. M. with all privileges extended to student members not otherwise withdrawn by the constitution.

Adjourned.

### Committees Appointed.

President Hubert of the A. S. U. M. has appointed the following committees, who will serve as their names indicate: Social—Carolina Wharton, chairman; Hugh Satterthwaite and Cecil Dobson. Rally committee—Bill Vealey, chairman; George Armitage, Wayne Johnson, La Rue Smith and Carl Dickey.

### SOFHS. FIRST BLOOD.

(Continued From Page One.)

Differences of opinion concerning class precedence, which usually manifest themselves in the form of class rushes, fall wool-clips and the like, a committee of upper classmen has met and prescribed what it deems an effective adjustment. However, it is not to be inferred that the upper classmen have any monopoly on glistening craniums, nor that they are putting on the market a substitute for Herpicide; but they do deem it advisable to check all indications of premature knowledge.

Hence an official contest between first and second year men has been scheduled to take place on the campus this afternoon at 1:30. The contest will take the form of a tying match, the object being for each class to tie as many members of the opposing faction as possible and to keep them tied at their respective bases.

The following set of rules has been formulated in order to give the contest an organized aspect:

1. All men of both classes are eligible to compete.
2. Each man shall carry rope; said rope to be furnished by the respective classes.
3. There shall be no slugging on

## BIJOU

Presenting the world's best photo plays, with the popular Bijou

5-PIECE PEERLESS ORCHESTRA

Entire change of program Sunday, Monday, Wednesday, Friday and Saturday. Matinees Saturday and Sunday.

We Cater to Ladies and Children

penalty of disqualification.

4. The rocks in the center of the campus shall be the goals; the choice shall be determined by a coin flip.

5. It shall be the privilege of each class to untie its own men if possible, but no knives shall be used to cut the ropes.

6. The contest will last not longer than fifteen minutes.

7. The class which at the end of that time has the greater number of men deposited at its goal shall be declared the winner.

8. Two juniors for the freshmen and two seniors for the sophomores will act as advisers.

9. All upper classmen will umpire.

It is to be noticed that the rules of the contest leave only one alternative for each class to follow and each has adopted the war cry, "Bind or Be Bound." The nature of the contest warrants close association and it is hoped that with the severance of the ties each class will have a better understanding of the other.

### LAW SCHOOL GROWING.

The enrollment of the law course is slowly increasing, and the last man to register Monday brought the number up to 18, of which five are second-year men.

With the school growing as it is, we know that next year we will have fine material for the law school, and with everyone working his best to make it a success we are sure to have the university reach the standard hoped for by its founders, the men who struggled to make the university the very best possible.

Lives of Seniors all remind us

We can make our lives sublime,  
And, by asking foolish questions,  
Take up recitation time.

### THETA'S HONORED

Alpha Nu Chapter Receives Gavel for Excellence in Scholarship During Two Years.

At the Kappa Alpha Theta convention, which took place during the past summer, Alpha Nu chapter, which is situated at the University of Montana, was presented with a gold-mounted ebony gavel for having maintained the highest standard in college work of any chapter for two years.

The University of Montana is proud of the fact that it possesses this Fraternity chapter which has gained such an honor.

The Bureau of Printing wants to see those who want printed matter. Their shop is especially fitted to turn out classy work that pleases.

## SMOKE WREATHS

PROFESSOR KIRKWOOD.

Professor Kirkwood spent the summer in active work for the Forestry Department. Most of the time was spent near Eugene, Oregon, timber cruising for the government. He also visited the Cascade National Forest, from which locality he collected botanical specimens for the Department of Botany in the University. Photographs showing the formation of the country were also part of the work in this locality.

Professor Kirkwood then visited Northwestern Oregon, in the region of Nehalem River. He reports that the timber in this valley is the finest on the coast in point of quality. Part of the time was spent in visiting the saw-mills and studying the timber and forest products and collecting data.

After a two weeks' visit in Portland, Professor Kirkwood returned to the University with renewed enthusiasm for the future of his Department.

DR. ROWE.

As usual, Prof. Rowe spent a busy summer, examining several mines and studying the ore deposits of various localities. Prof. Rowe made a particular study of the Carter mining district, and an interesting article appears in the latest issue of the Mining World, which tells of the prospects for the future of this mining camp, which is now in its infancy.

Prof. Rowe also visited the coal districts in Cascade county, and the Garnet mining camp in Granite county. When not actively engaged in field work, Prof. Rowe's leisure time was spent working on a book of his own, which deals with the ore deposits of the state of Montana.

PROF. REYNOLDS AT INSTITUTE.

Professor Reynolds spent last week, from Monday until Friday, in Billings at the Teachers' Institute. He had charge of the Literature and English, and conducted the various sections in these departments. On Thursday afternoon he read "The Piper," and spoke on "The Drama League in America" to the Woman's Club.

More than three hundred teachers were present and the institute was a decided success from every point of view.

DR. BOOK.

Dr. Book is at Kalispell this week at the Flathead County Institute, where he has been engaged as one of the instructors. Later, he will go to Glendive for the same purpose.

PROFESSOR RICHTER.

Professor Richter left early in the week to attend the State Fair at Helena.

PROFESSOR ELROD.

Professor Elrod spent the greater part of the summer in Glacier National Park, in the northwestern part of the state. While there he made a study of the insects and lakes of this locality. He reports that several good specimens of the former were collected, which will be a valuable addition to the museum.

Professor Elrod was accompanied by Professor P. M. Silloway of Virden College, who made a study of the birds of the Park. He also reports that several specimens were collected.

Beginners Begin.

The Freshmen decided that they needed an official body (law and order being well inculcated into them) to lead them on to victory. They met in solemn conclave last Wednesday, and, after the usual yelling and shouting, dispensed, amid the general confusion, the following officers were declared elected: President, "Skinny" Halfred;

Vice President, Alvina Hodgson; Secretary, Marion Bickford; Treasurer, Kenneth Wolfe.

Institute in Missoula.

Beginning October 10 an Institute will be held in Missoula representing Ravalli, Sanders and Granite counties. Here also Drs. Book and Reynolds will give instructions, and Dr. Duniway will be one of the principal speakers. After the close of the institute those attending will be entertained at a reception given at the university.

Jolly, Jolly Junior.

The Junior Class held a short business meeting Friday electing officers as follows: President, Carl Cameron; Vice-President, Hazel Lyman; Secretary, Gladys Huffman; Treasurer, Peter Hansen.
