# THE WEEKLY KAIMIN

VOL. VI.

UNIVERSITY OF MONTANA, MISSOULA, JANUARY 18, 1912.

NO. 14

## STUDENTS PRESENT PLAY

CAST TO GIVE "WEDDING JOURNEY" IN MAIN HALL TOMORROW.

## IS COMICAL COMEDY

Plot Contains Laughable Situation and Incidents—Actors Are Working Hard.

On Friday evening, January 19, "The Wedding Journey," a play by the German playwright, Benedix, will be presented by the Associated Students at the University hall. The play is a sparkling comedy and has been presented by various organizations throughout the country and has always made a decided hit. The play concerns the marriage of a professor whose knowledge and understanding of women is distinctly a minus quantity. The story of how he brings his young wife home and attempts to fit her into his former plan of existence is amusingly and cleverly told. Of course, the wife rebels, much to the excitement of the household. But her woman's wit finally saves the day and converts the professor.

### The Cast.

The cast that presents the play is a very experienced and competent one. D. D. Richards, who has the part of the professor, has had the leading parts in the University productions of the past two years. Miss Farrar Kennett, as the professor's wife, has a part which suits her very well. Hers is probably the wittiest and cleverest character in the play, and Miss Kennett makes the most of her opportunities for fun. Her performance of the maid in "A Curious Mishap" will be remembered as one of the best in the play. The remaining members of the cast, Roscoe Wells, Miss Florence Mathews, Wayne Johnson, are also experienced players. Mr. Wells' playing one of the leading characters in last year's play, and Miss Mathews and Mr. Johnson appearing at different times. The play is being ably coached by Miss Mabel Smith, head of the department of elocution at the University, who is doing all she can to make the play successful.

The curtain will rise at 8:30. Tickets are on sale at the Nonpareil for 50 cents.

## ICE CARNIVAL POSTPONED.

The Ice Carnival, postponed from Friday, January 12, to Thursday, January 18, has been again postponed on account of unfavorable weather. Just as soon as the weather permits, however, the carnival will take place and will be even bigger, brighter and more glorious than it would have been if it had been. Consequently the only thing for you to do is to carefully put away that costume of yours and save your money, and wait. We are aware that you've had to do quite a lot of waiting already, but that wasn't all our fault. We did our best. Besides we are just as eager to take your money as you are to give it, and with us it's "the sooner, the quicker." Even now we have a coat of water on the rink and are only waiting for it to freeze. So if you want to win one of those prizes, just be patient—and pray for cold weather.

## CHEMIST GETS COIN

The American Society of Science and Art has conferred a signal honor upon Dr. Harkins by giving him a sum of money to be used to pay the expenses of research work. This is not the first honor of the kind for Dr. Harkins, as he has in the past carried on extensive researches with grants from other funds. He was at one time engaged in work for the Carnegie foundation and also did a great deal of research on the celebrated Smoke case.

The University is proud to have such a man, for only four schools gained this honor. The others were Harvard, Princeton and Johns Hopkins.

## FULL DRESS NOT NEEDED

ATHLETIC BALL, JANUARY 26, TO BE INFORMAL—EVERY BODY MAY ATTEND.

The Athletic ball this year will be held on Friday, January 26th. This is the first really big dance of a formal character which has been given this year. As this is an annual event we know just about what to expect. The affair will be along the same lines as in the years past, but this year the committee in charge promises a bigger and better dance than has ever been attempted.

While the dance is a formal one the committee wishes it expressly understood that it is not entirely a "dress suit affair." Feeling that some or many would be inconvenienced by the necessity of having to wear the formal uniform they want it known that any one with "ordinary" clothes will be very welcome and expected. "The dance this year is to be such a grand affair that it would be really too bad for anyone to be deprived of the privilege of attending just because of the lack of a dress suit," said a fair member of the committee to a Kaimin representative. "We want them all to come, so won't you please put something in the paper about the dress suit not being necessary or even expected to be seen on every one who attends?"

Already invitations have been issued to the townspeople by the committee. In fact, everything that makes advance a success is being looked after, so the people who are fortunate to attend this annual function this year may expect great things.

## LAW TRIAL HELD.

While The Kaimin is going to press one of the most bitter trials ever held is being carried on in District Court No. 1, of the University of Montana. Cecil Dobson and Kenneth Wolfe are being retried for entering the Y. M. C. A. last fall and relieving certain occupants of valuables.

Judge Clayberg is presiding at the trial and the jury is composed of the foresters that are taking the short course.

Meagher and Kelly are the attorneys that are making a great effort to send the accused to the state's prison, while Cameron and Smith are equally determined that they shall go free. Permanent records of the trial are being kept by Court Stenographer Blair. The Kaimin regrets that it is unable to publish the results of the trial.

## AGITATION ABOUT KAIMIN

MOVEMENT STARTED TO TURN VARSITY ORGAN OVER TO ASSOCIATED STUDENTS.

## OWNERS WILL DECIDE

Meeting of Stockholders Called for Tomorrow—A. S. U. M. Don't Want Paper.

At a meeting of the Board of Directors of the University Press Club held last Monday evening, the Board heartily endorsed the present management and policy of the Weekly Kaimin.

The subject of the A. S. U. M. taking over the Kaimin was again brought up for discussion. Dr. Dunway was present at the meeting and talked on this matter. The report of the faculty committee, appointed to investigate the Kaimin, report was read before the meeting as was also a petition which was circulated last fall asking that the Kaimin be taken over by the A. S. U. M.

After much discussion and a review of all of the actions taken and asked for by the faculty and students, the Board of Directors stated that they could see no immediate need of turning over the paper at this time. The Board thought that the best time to take such a step would be at the beginning of the next school year.

However, inasmuch as some of the stockholders wanted a meeting a motion was carried that the Board call a meeting of the stockholders for Friday, January 19th. At this meeting the stockholders are to decide whether or not they wanted to change and also, if desired, to fix the time for the change.

The faculty report which was read to the Directors was as follows:

### Action Agreed Upon By Committee

June 5th.

1st. Form of report required of Hubert, September 1st.  
2nd. Recommend Directors meet every month and receive and audit monthly report of business manager and then present to Faculty.  
3rd. Outline form of report to be used by business manager made by J. B. Speer.  
4th. If these requirements are complied with we recommend a trial be made of the present management (that is, of the Editor and Business Manager already elected) during the first semester of next year before further action be taken.

5th. We recommend that proxies should not be given on stock owned by the Faculty.  
6th. With reference to taking the ownership and management of the paper from the Press Club and giving it to the A. S. U. M. we do not think it wise for the Faculty to interfere at present and arbitrarily order this change, unless the Press Club fails to comply with the requirements outlined above.

We also consider that the change when thought desirable should be made in the right way according to the Constitution of the Press Club.

W. M. ABER,  
J. P. ROWE,  
J. B. SPEER.

The following is the action of the Faculty in regard to the report:

"Professor Aber read the report of the Special Committee consisting of Aber, Rowe and Speer concerning the Weekly Kaimin. Moved by Book that the report be adopted with the understanding that the President meet the Executive Committee of the A. S. U. M. and the Board of Directors of the University Press Club with a view to putting the management of the Weekly Kaimin under the A. S. U. M., since it was believed that the new incidental fee would make the arrangement feasible. The motion was seconded by Speer, and unanimously adopted."

### Faculty Satisfied.

As many of the Faculty have voluntarily commended the Kaimin in public the Board felt that it was being run to the satisfaction of that body. The Board then passed a motion that

(Continued on Page Five.)

## DECIDE SQUABBLE

Tomorrow at 4 o'clock the stockholders of the University Press Club will meet to decide whether the Weekly Kaimin shall remain under the control of the University Press Club or be turned over to the Associated Students, thus involving the election of editorial manager by popular vote.

The general consensus of opinion seems to be that the change should be affected; the one question seems to be the time at which the transfer will be made. Considering popular opinion it would perhaps be safe to predict that the paper will be turned over to the Associated Students at the expiration of the school year.

## CAPTAIN IS ELECTED

SOPHOMORE CHOSEN TO LEAD VARSITY BALL TOSSERS—IS GOOD MAN.

Last Thursday afternoon, at a meeting of the Interclass Basketball team, P. T. McCarthy was elected captain of the Varsity basketball team for this year.

"Pat," although only a sophomore, is one of the best players on the team. In the few games that were played last year his work was of a stellar quality. Always in the game "Pat" may be depended on to do much toward turning out a winning team.

### Whitlock Loyal.

The Kaimin takes this opportunity of thanking Professor Whitlock for the able way he is coaching the team. Since taking charge, he has imbued a new spirit into those trying out for the team. Each night two or three teams are on the floor, and the material is such that no veteran is sure of his position on the team.

### Good Season Ahead.

Up to the present time there are six games scheduled with the prospect of arranging for two or three more. With the prospect of six good games to be played, every man in the "U" should get out and see what he can do toward making it interesting for the "battle-scarred veterans" that now compose the team.

## WILSON CLUB MEETS.

On Thursday, January 11, the Woodrow Wilson Club held an enthusiastic meeting to discuss plans for the forthcoming campaign. At this meeting little buttons bearing a picture of Woodrow Wilson were given out and as a consequence a person can hardly venture forth on the campus without running into one. The club has on hand literature explaining the object and ideals of the club, which they will be glad to furnish to anyone who desires it. It was decided at the meeting Thursday evening to hold public meetings, in which addresses would be given by prominent men on Woodrow Wilson's beliefs and principles. A letter from Senator Myers, heartily endorsing Mr. Wilson, was read. The club has secured on its list of members many prominent men of Missoula and hopes to secure many more.

## MONTANA SYSTEM BAD

MAYOR EVANS DEPLORES THE WAY SCHOOL MONIES ARE HANDLED.

## WILL START REFORM

Fight to Remedy Situation Should Be Started by Friends of the University.

One of the most thought-producing and most interesting assemblies which has been held this year was the one held Wednesday at 11:30. Mayor John M. Evans of Missoula had consented to talk. He gave the student body and the faculty a concise idea of the way the University was being wrongly administered to and discriminated against by the State Board of Examiners.

### The Mayor's Talk.

After the announcements had been made President Duniway introduced Mayor Evans. He stated that the mayor had been asked to talk on the commission form of government, but that the mayor had signified his intention of using his speaker's right and was going to talk along some other line.

### Submissive Government.

Mr. Evans told the student body that until last night he had intended to talk on "Commission Government," but that today he was going to talk of "Submissive Government." This, he said, was a thing that concerned the University and so he was going to lay special stress on that part of the law and constitution of the State of Montana which dealt directly with the University.

### The Law Read.

That portion of the law and constitution was then read. The mayor explained the meaning of it, and told what was originally intended. He said that the state board was clothed with the power to administer the affairs of the University, but that that power had been taken from them, and they really did not now have much to say regarding the University, except in matters where no money was involved.

### Too Much Power.

"The Board of Examiners," said the mayor, "have all the power of money matters in their hands." He went on to show that everything that pertained to money for the University was handled by them and that if they did not want to give a cent to the institution they were not required to do so.

"Why," said the mayor, "they have even violated that part of the constitution which says that all money derived from the rents of the lands of the institution should be kept for the institution whose lands were rented. Fifty thousand dollars of such money, belonging to the University of Montana, has been used by the Board of Examiners to buy state bonds."

### People Should Fight.

Mr. Evans brought out many other things showing where the examiners had too much power and showed that even at times they had exceeded the power which they had. He also showed

(Continued on Page Six.)

## VARSLITY GIRLS PLAN A LEAP YEAR BALL

A quiet season, in a social way, at least, generally precedes mid-year exams. This year, however, is to be an exception. The co-eds have planned something lively in the way of entertainment for the men—namely, a leap year dance to be held January 30. The men are lolling about expectantly holding their breath for fear they won't be asked. It has been suggested that the girls do not ask them until the last minute; that they be kept on the uneasy seat for a while.

However, this suggestion has been disregarded by one at least of the most ardent maidens. This was heard in the library:

"Say, Bill, have you a date for January 30?"  
Bill squirmed, blushed, felt of his back hair and answered coyly, "No, I don't believe I have."

"May I have the pleasure of your company?" breathlessly. Then coaxingly, "I'll see you have a good time."  
"Why, yes, I think I'd like to go," said Bill, appearing to relent. And everybody was happy.

Among the co-eds there are very bitter man-haters, but even these agree with those who are admirers of the sex that no man shall be a wall

(Continued on Page Five.)

## GLEE CLUB TO TOUR STATE IN THE SPRING

Again the loyal men of the University who can sing have collected and under an able director and leader have begun practicing to make a successful glee club. Professor J. P. Rowe has undertaken the direction of the double quartet and under his careful enthusiastic efforts the success of the musicians is assured.

### Tour Planned.

A tour of the state has been planned and the University will be represented by its Glee club singing its college songs just as it is represented now by the extension lectures and The Kaimin.

Miss Smith has consented to accompany the quartet on its tour as reader and Professor Gustav Fischer kindly offers his services as a violinist. Besides these outside attractions a single quartet, taken from the double one, will render special selections.

A beautiful start has been made and the director urges the men to be faithful in rehearsals and energetic in arousing interest in this branch of the University's activities. We others who haven't voices or for any other reason cannot lend our aid in that direction, can help the new enterprise by being sympathetic with it, loyal to it and boosting it whenever we can.

February 26.—Carroll Club vs. U. of M. basketball in Helena.  
March 1.—M. S. S. M. vs. U. of M. basketball in Missoula.

## WHY ALL THIS HASTE?

That is the question which is puzzling about 75 per cent of the stockholders of the University Press Club.

The Board of Directors in their meeting last Monday showed very plainly that they were satisfied with The Kaimin as it now appears. They thought and said that at present they were against any change that might be proposed which was to take effect sooner than September, 1912.

The Board of Directors feel that everything that they require is now being done by those elected to run the paper, and they do not ask any more—or any changes.

This whole matter of immediate change comes mostly from those who have not at any time exhibited enough interest in the college paper to buy any shares of stock. Of course, there are some who have shares that want an immediate change, but these are very few in number.

The Board of Directors inquired to know why it was deemed advisable to make this change at this time, but it appears could get no satisfactory answer. As a matter of policy the members think that the change would be a good one for The Kaimin, eventually, or at the beginning of the next academic year. They are, however, in the dark as to why the change would be a good one now.

The paper is going, so the board seems to think, better than it has ever gone before. Still, all this cry for change! Immediately! The board says they do not understand it. Neither do we. The board is on record as being

opposed to any change at this time. They are in the best position of all the student body to know what they are talking about. Will they be compelled to transfer to the A. S. U. M. IMMEDIATELY, or will they be given the time they ask and deem advisable to make the change. This time is September, 1912.

## FOR PUBLIC SERVICE.

The University of Montana has always been earnestly endeavoring to be of public service to the citizens of the state. From time to time different things in which the people have been interested have been taken up and discussed, with that end in view.

The extension courses were started for the purpose of carrying information to the people who cannot come to the University. This has been tried for the past two years and has met with great success. There are as many requests as can be attended to and in some departments even more. All of this has shown the people of the state at large that the University of Montana is an institution for public service.

By having different professors go to cities and give lectures on the subjects in which they are specialists the people have acquired a knowledge which before the commencement of the extension work could be acquired only in the class room. All of this reflects credit upon "the leading educational institution of the state of Montana," to use Governor Norris' words. The University has indeed been of public service to the citizens.

Along the educational branch the University is now well known. The people of the state realize that they have an institution which, along educational lines, is able to rank with any other in the country.

The latest move of the carrying out of the extension plan has but lately been started. This is extension work along physical lines. From now the Gym will be a place where all who care to come may be given instruction in athletics and gymnastics. This is surely making use of the institution for public service.

All men who do office work in the city now may have a chance to use the University gym and, guided by competent instructors, get the exercise which is necessary to keep the body in a good physical condition. As there is no Y. M. C. A. Gym or any other place where the exercise may be taken so advantageously in Missoula, the University, by giving this course, is answering a demand which has long been made.

There are many who have already taken advantage of this course for people outside of the University and we hope that the number will constantly increase in order that the University of Montana may be of the greatest possible public service to the greatest possible number.

## THE SOPH ON EMBLEMS.

The Soph and the Sporting Editor were out for a stroll around the campus. In the course of their travels they passed many co-eds. Some of these ladies wore sweaters. They looked very fine in the garments, a fact which the Sporting Editor noticed but said nothing.

Sudden'y the Soph broke out, "That's a thing that ought to be stopped."

"What are you talking about," asked the Sporting Editor.

"That," snapped back the Soph.

"Oh, yes, I see," answered the S. E. "You're very lucid. You mean the water, the snow, the price of eggs, the Dorm or something."

"Aw, shut up," growled the Soph. "Every time I see it, it makes me sore. But take time and I'll explain."

"I should be very glad indeed if you would enlighten me as to what this thing is that causes you to boil," replied the Sporting Editor.

"Well," replied the Soph, "every time I see one of these girls wearing a sweater with an 'M' on it, it makes me feel that somewhere there is a fellow that don't perhaps think as much of his emblem as he should."

"That's all right," replied the S. E., "it doesn't necessarily mean that just because a fellow lets the one of his choice wear his 'M' sweater that he thinks nothing of the emblem he won."

"Maybe it doesn't," answered the Soph, "but to me and also to a lot of other fellows it seems that if a fellow is given something by the student organization of the University he should at least be grateful enough to use the sweater himself and not let it be worn out by some girl."

"You're a little radical," answered the S. E. "That sweater belongs to the fellow who worked hard on some athletic field to get it."

"Oh, he did, did he?" asked the Soph with fine sarcasm, "so every fellow that got a sweater worked hard for it? Well, if that is the case, not one of those men should have gotten a sweater. Worked hard for it! Why, if those fellows went out there to represent us just in order to get a sweater they should have all been disappointed."

"Well, that isn't exactly what I meant," answered the S. E. "I meant that those men earned those sweaters."

"Yes, you're right," answered the Soph, for once agreeing, "they did earn them. But the sweaters were given them by the A. S. U. M. as a token of appreciation for the service that they had rendered the University, and not because they were entitled to them in any way."

"Then to have a fellow who has been fortunate enough to be remembered by the A. S. U. M. with a present, to let that sweater get out of his grasp and be worn by a girl whenever she may wish isn't right I tell you. That emblem was given, as I have said, as a reward and not as a means of courting young ladies."

"Well," replied the S. E. "I never thought of it that way before. It would probably be better if the man who received the sweater would receive it as a token rather than as a thing worked for and gained."

"You bet your life it would be better," exploded the Soph. "The custom of letting girls wear 'M' sweaters isn't right. It doesn't show the right spirit and the student body should create a sentiment against the practice. It is now growing to alarming proportions in the University and the sooner that steps are taken to do away with it the better it will be. That was not the spirit in which the sweater was given and that is decidedly not the right use to make of it."

"Well, so-long, I've got to go home and study for these semester end exams."

## ADDITION TO LIBRARY.

The library has just received two new volumes of the Encyclopedia Americana, which are two supplementary volumes giving recent information. These are a valuable addition to the library collection. They have also received from the department of education at Washington, D. C. pamphlets and books to fill up the Montana set of the publications of that department. Students interested in Montana geography may have a chance of looking at a brand new Montana map, with all the new counties, railroads, etc. up to date, which Miss Buckhous is displaying at the library with great pride.

Next Tuesday, at 4:30 P. M. in the gymnasium, Miss Smith's classes will give a public exhibition of the work done this semester in physical culture. All the women of the University are invited to attend.

The Yale faculty announces a series of unique prizes in rhetoric. They are the two "senior sermon prizes" to the divinity student who wins a place on the Yale debate team, and the others for a victorious Yale divinity team in interschool debates.

# HIGH SCHOOL EXCHANGES

## Broadwater County High School.

On the evening of Thursday, December 21, the first Christmas carnival of the Broadwater High School was carried out with all the success its enthusiastic supporters had hoped for. The senior class presented an original play of "Our High School Days," in which each class was represented by a senior and the principal by its most sedate and loquacious member. The play consisted of jokes and slams aimed at both classes and teachers. The Freshman class presented the "Last Day of School" in a country "deestrick" where the board was present in full regalia, ready to respond to a call for an address from "our ougust board" by seconding any former remarks and resuming their seats as quickly as their dignity and unremoved silk hats would allow. A program was given by the school in which "America" and "Rock-a-by-Baby" were rendered in the same high key. A mother of several young "hopefuls" also made a speech on "Woman's Rights."

Not to be outdone by the energetic students the faculty presented an off night of the "Schubert Concert Company" and surprised the company by the variety of selections to be rendered from egg-beaters, clothes baskets, wringers, bicycle pumps and tin pans. A wonderful doll chorus was that of the sophomore class, which was never heard before this side of the Atlantic. Four girls, representing Dutch dolls, with wooden shoes and all other accessories, four Santa Clauses in the regulation red jumpers with snow trimmings and four colored gentlemen made up the company which was ably directed by Ernest McCuin as stage manager. Local songs and hits made up the program. The juniors were "last but not least" on the program. Their part of the performance was divided into two parts. The first part was a farce without words, in which the troubles of a very popular girl, who had too many fellows, was depicted. The other was a "Woman Suffrage" meeting. An old maid delivered an address in a high, squeaking voice and was cheered on by an assembly of women from all ranks of humanity. There was the society girl with her evening gown and there was the Irish washwoman in a mother Hubbard. The boys were also dressed as girls and looked exceedingly "girlish" in big hats and muffs. After the program Santa Claus appeared in the latest "McCuin Model" and distributed a number of "valuable" presents from a tree made of a two-by-four with lath nailed on it from every side. The tree was constructed by the ingenuity of Professor Brubaker of the commercial department. The senior class presented the juniors with a bottle of "catch-up," and in return the juniors gave them a "cabbage-head." Then everyone repaired to the business room and partook heartily of a good, big lunch.

The final debate between the juniors and sophomores took place on the Friday before Christmas. The juniors were represented by Bernice Boone, Mary Shindoll and Walter Baumgartner; the sophomores by Fay Fairchild, Booth Holker and Emmett McKeever. The debate resulted in the sophomores receiving three-fourths of a vote more than the juniors. The team selected to represent the school was Mary Shindoll, Fay Fairchild and Walter Baumgartner with Emmett McKeever as alternate.

## Chinook School Notes.

The girls' basketball team, composed of seventh and eighth graders, went to Harlem last Saturday and played the return game. They were defeated 5 to 7. The first game was played here and won by Harlem, 3 to 5. In this game the score was a tie when time was called in the last half. The game was continued until one side should score. Both teams were totally exhausted before either could score. Harlem finally threw a goal from the field and ended the struggle. The Harlem team is much heavier than ours. We had a little the better of it in team work and also had the star individual player, but owing to the fact that boys' rules were used, and the referee allowed "roughing it," Harlem's greater weight finally told on our team and we were bsted. One noticeable feature of the game at Chinook was that we suppressed our yells and songs in deference to girls. We did not wish to do anything that might embarrass our opponents, nor did we wish the contest to take on that spirit of abandonment that usually characterizes a boys' foot-

ball or basketball contest. Harlem created us fine in both games.

Those were proud looking boys who were called to the platform last Thursday. The occasion was the presentation of monograms to some of the football team—the first event of this kind in the history of our school. Mr. Willman gave an inspiring talk on the meaning of loyalty and its influence on the affairs of men. He concluded by reminding us that football is not the only school activity that gives opportunity to show loyalty to our school, but that basketball, track, baseball and several intellectual accomplishments each offer its chance to prove our devotion to the orange and black.

Coach Rhode, after explaining the rules governing the giving of monograms, presented them to the following men: Captain Guy Downen, senior; Mac Montgomery, senior; Joe Miller, junior; Mark Wheeler, junior; Finley Ross, junior; Guy Christian, junior; James Takeda, sophomore; Tom Ross, sophomore; Connel Blackwood, sophomore; Fred Wheeler, freshman; John Kelley, freshman. Our squad consisted of 15 good men.

We are glad to have in our school Miss Lydia Winter. She won first place in the essay contest arranged by the state board of health, and open to all students in the state under high school grades. The subject was "Tuberculosis—How Spread and How Prevented." We are informed that there were over 100 contestants.

Just before Christmas the Omega Literary society put on W. D. Howells' farce, "The Mouse Trap." They played to a good house and pleased everybody with their performance.

While every one did well, the work of Dorothy Ziebarth in the leading part deserves special mention. Principal French and Miss Duke gave splendid piano selections, and the recitations of Susie Clarkson and May Fuller were excellent.

The Alpha Literary society is now preparing a play to be given soon. The character of this play has not been made known.

Superintendent Willman, Principal French, Misses Wax and Maris of the high school and Miss Montgomery of the primary department attended the Teachers' Association at Great Falls. They report having spent a pleasant vacation in the Electric city.

This year our students have had more advantages in the line of athletics than in years past. This is due to the fact that we have arranged with the manager of the New theater to use the building as a gym, during the winter months. The first floor is used for basketball, and in the basement we have installed a boxing alley, wrestling mats, bars, striking bags, and other athletic apparatus. Every Friday night there is pulled off several basketball games, a wrestling contest and a boxing match. Next Friday night we play Bingham here.

## Haure High School.

Who says the juniors aren't awake? Friday, December 29, they entertained at a delightful dancing party, good music and refreshing punch aiding greatly in the evening's entertainment. The walls were decorated with pennants and a junior cozy corner was artistically arranged. Now the prospects for the junior prom are indeed favorable.

The seniors have created quite an impression in the high school with their new purple and white class caps, and according to one of the members of the faculty "Solomon, in all his glory, was not arrayed like one of these."

The freshmen have been holding a series of class meetings this week, but the only evident outcome, so far, is a candy sale and some reports of plans for a freshman dance. Keep it up, freshmen.

The new song books, which were purchased by the literary society, have arrived, and a revived interest in our singing exercises is to be expected now.

The senior banner has at last arrived, and it was displayed at the last meeting of the literary society. This banner is to be dedicated to the high school when the class graduates, a practice which will probably continue with every class in the future.

## Flathead County High School.

The Christmas vacation is just over and we are all back for good, hard work. Semester examinations occur week after next; that is, during the third week of this month. Everyone is conscientiously cramming to the full

capacity of his being in order to tide over the crisis.

A basketball league, composed of six teams, has been formed in the city. F. C. H. S. is represented by a swift little team which at present is a strong contender for first place along with Hay's Cafe team. Co. "F" leads the league.

During the Christmas week our team made a little tour of the west, playing Libby and Bonner's Ferry. A game had been scheduled with Sandpoint, Idaho, but for some reason was not played. Two games were lost to Libby and at Bonner's Ferry we were overwhelmingly victorious.

Instead of clubs or literary societies, as in previous years, orations are now the order of entertainment in school. The seniors have already delivered their eloquent appeals, during the first semester, and it now remains for the juniors to show their talent.

—Fred Brinkman.  
P. S.—To all our good, old friends over in the University we bid a kind "hello" and a happy new year.

## Butte High School.

The principal's office is in receipt of an invitation from the University for the Butte High School to participate in the Interscholastic meet to be held in Missoula, May 11, 1912. It is expected that Butte will be represented by a strong aggregation this spring.

"Keep It Out of Court" is the title of a farce-comedy in four acts to be produced by the students of the high school for the benefit of the Athletic Association. It is to be burlesqued by having the few girls' parts portrayed by boys. Rehearsals are being held regularly and it is planned to produce the play the first week in February. It is thought by those in charge that the play will go far towards uplifting the financial status of the Athletic association.

Owing to the illness and death of her father, Miss Helen Venus of the faculty left suddenly for Tacoma the early part of this week. The high school greatly sympathizes with Miss Venus in her late bereavement. Her classes are under the temporary supervision of Mrs. L. M. Post.

The debate with Bozeman will be held here, either February 2 or 3. The Butte team is in active preparation for their first debate.

On Thursday, January 11, Mr. Stevenson of the faculty gave an instructive talk in the senate on the "Principles of Argumentation." It is the intention of Mr. Stevenson to give many of these talks during the next semester. This will greatly increase the efficiency of the work done in the Senate.

Another of those fine "Kipling" programs was enjoyed by the Kappa Literary society. The girls are becoming very familiar with the work of this great writer, and this is the second program of its kind this year. Following is the program.

Life of Kipling—Dora Mottelson.  
Short Description of India—Inez Haskins.

"If"—Anna Simon.  
Ballads of East and West—Pearl Carruthers.

"Mother o' Mine"—Octette.  
Kipling anecdotes—Frances O'Brien.  
The Alpha Chapter enjoyed a "Miscellaneous" program and a "Women Suffrage" program occupied the time of the Beta Chapter.

The school board has allowed an appropriation toward securing some new apparatus for the Physics laboratory of the High school. It is expected that the new apparatus will be installed the first of next semester.

## Dawson County High School.

School opened January 8, for the second semester of the High school term for the years 1911-1912, with the result that the pupils are resuming their work diligently.

Two new pupils, Anna Kolda and Asley Arbogast, have been enrolled in the High school since the beginning of the semester. The former is finishing her work in the Freshman class; the latter is taking up his work with the Sophomore class. Mr. Arbogast just arrived from Minneapolis where he has been attending school.

The class in chemistry has begun their work in experiments, and will work in the laboratory from 2:30 to 4 o'clock on Mondays, Wednesdays and Fridays.

The Girls' Basket Ball team played the Dickinson Girls' team January 12, and were defeated 11 to 14. Nevertheless, the girls played a good game, in

## Florence Steam Laundry

PAUL DORNBLASER, Student Agent

## THE PALACE HOTEL

CAFE AND GRILL THE BEST IN THE WEST  
PRICES WITHIN THE REACH OF ALL

fact, they played an excellent game, playing as they did for the first time. The Dickinson girls on an average were larger than our girls, some of them have played basket ball for four years, and the team has the name of being the champion girls' team of North Dakota. Still they are unable to beat our girls more than three points. The team goes to Dickinson February 9 to play the return game, and we hope they will make as good, or a better showing on Dickinson's waxed floor.

January 12 the Boys' team was victorious over the Miles City team at Miles City, with a score of 43 to 23. There was much fast playing on both sides, although the game was featured with much roughness. The Miles City team took the defeat bravely, considering it was a great surprise to them, as they imagined they were playing against wooden men, as they termed us. Miles City played nine men against us, changing every man except the captain. They also had both officials, our official being late in starting and consequently not arriving in time for the game. The physical director of the Miles City Y. M. C. A. thought our boys played such a good game that he immediately extended an invitation to our manager for a game with his senior Y. M. C. A. team to be played either in Glendive or Miles City. We will undoubtedly accept. The Miles City boys have sworn vengeance; so keep your eyes open for the return game at Glendive, February 9.

Dawson County Basket Ball team will play the Dickinson team at Glendive, January 26. This will be a very fast game as the Dickinson team has the championship of North Dakota for the preceding year. Everyone come and see what we will do to Dickinson on an unwaxed floor, and help the boys along with your presence and the twenty-five cents with which you purchased a ticket.

Principal R. L. Hunt has received an invitation for the Basket Ball team from the State Agriculture College, to attend the Annual Basket Ball tournament to be held at Bozeman March 7, 8 and 9. The boys have had the expectation of attending this tournament, and have therefore been practising diligently.

—Oliver Phillips.

## Glasgow High School Notes.

The Turner art exhibit, which was held in the Glasgow High school from December 13th to the 16th, proved to be a great success.

The pictures were beautiful, being copies of the best works of our famous painters of the mediaeval and modern times.

The High school had charge of the exhibit one afternoon and evening, then the four rooms from the north side school had charge of it the two following days, and the two lower rooms of the High school served a lunch and gave a program on the 16th.

The money, which the different rooms took in while having charge of the exhibit, was spent for pictures for the rooms. The exhibit was well attended and the faculty and pupils were very well pleased with it.

Teachers and pupils have returned much rested after the two weeks' Christmas vacation.

During vacation a part of the basement was floored. The boys intend to make a gymnasium of it. Lately they have been talking of buying a mat and having some wrestling matches.

At last the Athletic Club has found a place for basket ball practice. The team has already received several challenges and is preparing to answer them soon. With the gymnasium and hall for the basket ball practice we hope to have the track team in good condition for the meet this year.

The balance of power between enthusiasm for athletics and zeal for study is kept by the approaching semester examinations.

When you want something nifty in the way of programs, invitation announcements, score cards, etc., you should call at the Bureau of Printing.

**Kappa Alpha Theta Entertains.**  
Saturday afternoon the members of Kappa Alpha Theta sorority gave a "teacup" shower for the Theta suite. A very pleasant afternoon was spent playing "500." Later delicious refreshments were served. Those who attended the shower were the active and inactive members of the sorority and their pledges.

**For Sigma Nu.**  
Mayor and Mrs. Evans entertained the members of Sigma Nu fraternity at their home on Maurice and Beckwith avenues last Friday evening. A very pleasant evening passed with dancing, popping corn and toasting marshmallows. A delicious punch was served during the evening and later refreshments were served. Mayor and Mrs. Evans were assisted by Mrs. Tyler Worden, Miss Stewart, Miss Smith and Dr. Reynolds. About 60 guests were present, including the Sigma Nus and their friends.

**K. A. B. Dance.**  
On Friday evening the high school fraternity will give a dance at Elite hall. The dance is an invitation affair and many guests have been invited, including a large number of university students.

**Senior Party.**  
Saturday night the senior girls gave a "leap year" party. They had intended going for a sleigh ride, but when the snow began to disappear they changed it into a moving-picture show party with supper at the Nonpareil. The girls were the hostesses throughout.

## MAJORS CLASSIFIED

Office Gives Out Facts and Figures,  
Showing How the Students  
Are Classed.

Not many students of the University know just how the institution stands in regard to the number of men majoring in each. This is a good thing to know because it will enable one to talk intelligently when questioned by any one outside of the University.

The following data has been gathered by the kindness of the office. It shows just how many students in each department and the rating of these students, i. e. if they are Seniors, Juniors, Sophs or Freshmen. This list does not, of course, include the foresters of whom there are 24 registered to date.

This data shows that there are 28 members of the Senior class, 26 of the Junior. These are all of the classes shown here because this data deals entirely with Majors, and Sophomores and Freshmen do not have to name a Major unless they so desire.

The number of new students is also shown. Their standing on entering the University is given and they are classed with the various classes to which they belong. Some have advanced by virtue of having attended some other school or college from which they advanced in Montana.

### Analysis of Major Subjects.

## GOOD POEM IS WRITTEN IN WOOD PRODUCTS CO.

A FORESTER TELLS PATHETIC  
STORY OF JIMMIE RYAN  
IN VERSE.

The following article was contributed by one of the men in the Forestry Course. The Kaimin takes pleasure in giving space to articles contributed by anyone and especially by the men from this course. It shows that even though new members of the student body they are already taking an interest in the University's activities. We would like if possible to start a forestry department all of our own and with the men from that course showing such interest it seems very feasible.

This poem is by Mr. E. H. Betts (with apologies to James Whitcomb Riley and Mr. Ross.)

### LITTLE JIMMIE RYAN.

Little Jimmie Ryan came to Rangers' school to stay;  
To study hard and learn a bit and take some dope away.  
And go to 'ssembly, learn his math and set up late o'nights,  
An' learn to draft and go down town and take in all the sights.  
An' all us other fellers when our study time is done,  
We sticks around the basement puffin' pills and has the moosest fun.  
Listenin' to the love tells Ryan tells about,  
An' the damselfs 'at gits yu ef yu don't look out.

Now, last year a fine young feller came over here to school,  
An' took a girl to church one night cause that was'n't agin the rule.  
Then his Sup. got a letter an' his dad a telegram,  
But when they hiked over here to save him, they couldn't find their Sam.  
Tho' they seeked him out at the pool halls and all the boardin' houses far an' wide,  
They seeked the dormitory and all the south side,  
Then all Sam's teachers' said he must 'a gone the wedding route,  
And these damselfs'll git yu ef you don't watch out.

An' now just lately another boy, that allways likes to laugh an' grin,  
And wouldn't listen to the warnins of us old fellers and all his pals an' kin,  
An' 'tother, might when all our bunch was at the Grand, an' nice young girls wuz there,  
He got gay an' made eyes at 'em an' said "by gosh he didn't care."  
And when we got our duds to go, we looked around an' spied  
A great, big browneyed damsel standin' by his side;  
And we wuz afared she'd snatch him to the parson's afore he knowed what he was about,  
So watch out 'er some of these damselfs'll git yu ef you don't watch out.

An' now little Jimmie Ryan says, 'at when the gas is low,  
An' the street-light flickers, an' yer girl says O-o-oh!  
An' yu hears yer heart a'beatin' as she takes yer hand an' kinder sighs,  
An' lays her curly head upon yer breast and just look in tu yer eyes;  
You'd better think o' yer lonesome station an' git yer hat an' go,  
An' swear by all what's holy at yer won't get catched so.  
An' just remember all the married Rangers 'at clusters all about,  
Er yu'll be damseled ef yer don't watch out!

### ENGINEERS' NOTES.

Tuesday the senior engineers conducted a boiler efficiency test of the University's heating plant.

Tomorrow evening Professor Cunningham will conduct a class in mechanical drawing at the Northern Pacific club rooms.

The Bureau of Printing does the work that pleases.

Tryouts are being held at Stanford for positions on the intercollegiate debating team, which meets the California debaters on the evening of November 10. The question for the tryout is the same as that submitted to California, "Resolved, That judges shall be exempt from recall."

The first lady university professor in Germany has recently been appointed to the chair of physics at the University of Leipzig.

PROFESSOR HILL OF CHEMISTRY  
DIRECTOR IN COMPANY—TO  
USE HILL'S PROCESS.

The announcement of the incorporation of a new company, namely the Wood Products Company of Bovill, Idaho, is of special interest to University people as Professor Hill of the Chemistry department is a member of the board of directors and claims the distinction of being the discoverer of a new method of separation of the products and the inventors of apparatus which makes such separation possible. The new method of wood distillation has a decided advantage over the old in that the products are separated as they come from the retorts, whereas in the old method all of the products were run into a tank the heavier products settling to the bottom, the liquid products being separated by fractional distillation. The method employed in the new process insures purer products than those obtained by the use of previous methods, and the old is eclipsed by the new in that the latter is a model of utilization of available opportunities, thus saving much unnecessary labor and incidental expense.

The company will erect its first plant in Bovill, Idaho, which will help in a small way to utilize the estimated 60 per cent waste of the growing tree, and to eliminate the wasteful aspect which modern lumbering has been compelled to assume.

## BAND CONCERT SUNDAY

MISSOULA ORGANIZATION PREPARES TO GIVE REGULAR  
MONTHLY CONCERT.

On account of so many counter attractions making it almost impossible to secure an open date the Missoula band did not give its regular concert in December. However, because it did not make a public appearance is no reason to assume that the boys have been asleep. Instead of this they have been working hard and regular under Director Fischer and are in better condition now than any time during the winter. Manager Frank Martz announced last evening that the band would give its January concert next Sunday afternoon at 3:30 at University hall. This is a free concert and the public is cordially invited to attend.

"Now is the time of the year we need the support of the Missoula people," said Manager Martz of the band last evening. "It is a difficult matter for the organization to get through the winter months when there is no outside playing to keep up the interest. The fact that this has been done, that the band is in splendid form and that the prospects are for Missoula having a larger and better band this coming season than ever before, should, at least, result in a good crowd attending the concert. That will be encouraging—all that we expect. But to go to the trouble of working up the concert and then having only a handful of people to hear us, is somewhat discouraging."

The concert will begin promptly at 3:30 p. m. and will last about an hour.

### GIVE PHILHARMONIC CONCERT.

Next Monday evening, January 29, the Philharmonic society will give one of their delightful concerts in University hall. Rehearsals have been going on for some time and Director Fischer is very confident that the concert will be a decided success. Tickets will be on sale at Elton's, Orvis Music store and Hoyt-Dickinson music store.

### PATTY WILL LECTURE.

On February 13, William B. Patty will lecture under the auspices of the Chemistry club on the subjects of "Liquid Air," "Radium" and "Wireless Telegraphy." The above mentioned subjects, especially the latter, are subjects about which we hear much but about which the average person knows but little. The lecture will be held somewhere down town, the general price of admission being \$1.00. University and High School students will be admitted for 50 cents. All receipts over and above those necessary to de-

hundred and thirteen students have been put on the lists. Last year at the same time, 1,456 names only had been registered. Of the 1,513 the new students in college number 431. Graduates totaled 79.

DONE BY THE OWL.

## QUINTETTE PLAYS SOON

FIRST GAME OF SEASON TO  
COME SOON—MEN PRAC-  
TICING REGULARLY.

Last week's issue of The Kaimin printed a proposed schedule of the basketball season, and by this issue Manager Leo Baker has felt that arrangements have progressed far enough to be able to publish the complete schedule up to date. It is to be regretted that what will probably be the hardest game of the season comes at the head of the list—that with the Agricultural College on the 3d of February. That is the official opening of the season in Missoula and no doubt will attract a large crowd. The Aggies have always had the reputation of having a fast team and playing a hard game from beginning to end, but this season the Varsity is going to be ready for them and give them what they may not be looking for. On the 9th of February a team from Helena, the Carroll Club, comes over to play the University, but as yet nothing is generally known of what "speed" is their team. February 9 is an open date but will be filled later on with some outside team or possibly Fort Missoula. The Varsity will go to Bozeman and Butte on February 23 and 24 and then play Helena again the fore part of the week. This will be the only trip the team will take, which is fortunate. After the journey of the Varsity "Quintette" to the eastern part of the state there will be several other games at home with Deer Lodge, the Montana College and probably Anaconda if they will organize a team. Every day Manager Baker and Coach Cary receive letters from teams going through the state, who are anxious to play the University here. Many of them make very low offers, as an inducement to get the games here, for teams traveling any distance it is almost a necessity for them to get a game here. The distance through Montana is so great it causes them a heavy expense to go on from Bozeman to Spokane without a game in between. However, it is very doubtful if any of these games will be taken up by Manager Baker for, as a rule, most of these teams are of a professional nature and the University wants to keep away from such organizations. While there are no teams of special note that we refer to, it is the question of not knowing anything about the teams before we could play them that makes the University take the stand they do in such games. There are a few of these games under consideration and may be taken on as soon as more is learned about them.

It is understood that the men of Fort Missoula are working in the gymnasium every day and are developing a fast team under the instructions of the officers of the post. Last year two games were played with the Fort and there was a good spirit of rivalry between the army men and the University boys. It is expected that a game will be arranged with the Fort for the latter part of this week and give both teams good practice.

### SPORT COMMENT.

Since the opening of college there has been an awakening in college sports and particularly in basket ball. At first there were only a few men turning out each night to go through the preliminary practice, but gradually the interest has increased until now 15 to 20 men report each evening and make things lively for the Varsity. There has not been much separation into first and second teams as yet, but the old men have been given more chance on the first line-up and they begin to show up better each evening. Fifteen to twenty men are doing well for a college like Montana when many of the larger eastern universities only turn out about twice that number. Brown had only 27 men out for the first practice, and considering the attendance and percentage at such schools, Montana is far ahead. What we need right now is more interest and enthusiasm by the student body. Few of the students realize that there is something going on every evening at the University gymnasium from 4:30 to 6, and the team needs their support. There is plenty of chance to watch the play from the running track

and from now on the Owl wants to see students around each evening to watch the practice.

### Forwards.

For the forward positions there are Whisler, McCarthy, Dobson, Forbis, Buck and a few others. Of these men McCarthy and Whisler seem to have the best development so far this season. Whisler is short, but plays a fast game, covers much ground and follows the ball like a fiend. No doubt Whisler will make one of the fastest forwards on the team. Captain-elect McCarthy, one of the players of last year's team, is sure to hold down one of the advance positions on this year's team. McCarthy is coming to play a strong, steady game and though not having had as much experience as Whisler, he is short and stocky and upon at all times. He shoots the baskets well and is very accurate. With more practice each night he will make any guard busy to keep from letting the ball through the basket.

Dobson plays a game very similar to Whisler, he is short and stocky and must depend on his speed for what he lacks in size. "Doble" was one of the best on the Sophomore team last year and goes after the ball hard, covering lots of ground and always very aggressive. Forbis and Buck are also playing good games for so early in the season. One thing to be noted in all the men is the eagerness and energy with which they get into the preliminary practice, either in running, passing or shooting the baskets they are all on the jump and work hard.

### Center.

For the center positions there are only about three men—Meagher, Wolf and Connors. The latter has played here for several years and knows the game well, though rather heavy he has progressed rapidly the last two weeks and is now making a strong bid for the center position with the other two men. Connors is not as fast as he might be, but plays a hard game all the time and is keen for lots of hard work. Meagher, the lean, lanky player from the Rattlesnake, where they catch lots of fish—where the grass is green and the home of the big, red apple—came out for practice last week and has looked well for a varsity place. Meagher is probably the tallest man on the squad, being close to 6 feet tall, and with a remarkable reach and A. B. degree he should be a very valuable man to the team. However, Meagher has not gotten into the game hard yet; but will no doubt be as good as the other men when he gets down to business. Wolfe, the other man for the center position, comes from the Butte High School, where he played for several years. This is his first year for the Varsity squad and is showing up well in the competition with the other men. He is tall and rangy and readily catches hold of anything new shown him. Wolfe's playing has advanced more than any other man on the team for the last two weeks and has more potential ability than any of them. Wolfe is rather light, but covers the ground well and with added practice would be a good man at making goals.

### Guards.

At present there is a dearth of material for the guard positions, and it may be that two of the center candidates may have to be switched to guard territory. However this depends on how the men turn out during the coming week. There is a very good chance for any guard men just now and it is hoped that the coming week will see more men out and some keen competition for the places. Next week the Owl will probably be in a position to note a few changes in the line-up of the men and have something to say about the guards.

### Tonsillitis Wins.

It is unfortunate that the week's practice should begin so unfavorably as it did this week. There was not much of any practice last Monday, for hardly any one "showed up." Captain McCarthy was sick for several days last week and the fore part of this week. Meagher has been sick for a few days and has not come down from his home in the Rattlesnake. Wolfe was sick over Sunday and Monday, so that few of the regular men were able to report and not much of a practice was held. There seems to be an epidemic of sore throat and tonsillitis

## MANAGER FOR FOOTBALL

WHISLER APPOINTED BY EXEC-  
UTIVE COMMITTEE TO HAN-  
DLE SCHEDULE.

Last week two events of unusual importance in athletics at the University of Montana were chronicled in the school's history—one the election of a basketball captain and the other the appointment by the executive committee of the A. S. U. M. of the football manager for the season of 1912-13. Nineteen-thirteen sounds like a long way off, but it won't be long after the football season starts next fall. No more popular election and appointment could have been made than that of these two men. Both of them are leaders in their respective sports and have the spirit to make their work a success. Mr. McCarthy prepared for the University at the Anaconda high school, where he was prominent in athletics, and since coming to the University has made an excellent record for his ability, hard playing and clean athletics. The University is fortunate in having such men to lead its teams on the athletic field.

Mr. Whisler came to Montana from Wisconsin and has thoroughly become inspired with the University spirit. Last season Mr. Whisler came out for football and in only the short time he played showed that he had "the power behind." Besides knowing more about football, "Fritz" knows what is expected of a manager and will, no doubt, make a success as a manager. Already letters have been received in regard to games for next season and, as soon as possible, contracts will be forwarded to the various teams. Next week Manager-elect Whisler, Captain Dornblaser and Coach Cary will get together and complete a proposed schedule, and then it will be up to the manager to get the games. There is a feeling already "in the air" that next year's team and schedule will be the best in our history. "Do you follow me?" said the Owl.

among the athletes, which it is hoped will not last long.

### McCarthy Right Man.

Last Thursday there was held an election which was of most importance to the basketball team—the election of a captain and leader of the team. In the absence of any former "M" men, those men who had played in two halves of the interclass were allowed the privilege of voting, a privilege they all honored by electing Patrick McCarthy to captaincy. No better selection could have been made, for not only is Mr. McCarthy a good, hard player, but he is a leader as well and will be an inspiration to the men to do all they can. Mr. McCarthy's election has proven popular with the student body and all men of the University interested in athletics are well satisfied. The Owl congratulates you, Mr. McCarthy, and makes you responsible for the defeat of the Agricultural College. Let the slogan be, "Beat the Aggies."

Thursday afternoon January 18, at 4:45, there will be a meeting of all the men interested in basketball. At this time there will be general talks by the captain and coach and the plans for the season outlined more fully than have been given before. General remarks on training will be presented and what will be expected of the men will be brought out. It is the desire of the coach to instill more spirit for work into the men and have each man get the idea of winning from Bozeman. There are only 18 more days before we meet the Agricultural College and no time can be lost from now until then. In many cases "time is money," but here "time is victory." There ought to be 25 men out to this meeting, the more the better.

your presence is that you call to get the girl. She will shoulder the rest of the responsibility.

### Profs. Corner Bids.

It would seem that the most popular men in the university just now are the profs. There has been a wild dash in their direction. Of the women of the faculty one has already declared her intention of asking a freshman. Who'll be the lucky man?

Men, this is an excellent means of telling if the ground on which you stand is solid. But, a word of advice: Don't become bitter if every girl of your acquaintance does not ask you for a dance. That is but the fortune of war. To quote one girl: "Holy cat, girls, there are so many of them we simply can't get around to dance with them all."

And, finally, as regards refreshments. There has been a committee appointed to see to that. As far as can be learned at present refreshments will consist of mush, taffy and soda water.

### AGITATION ABOUT KAIMIN.

(Continued from Page One.)

the management of the Kaimin be endorsed and expressed full approval of the paper for the semester just ending.

One of the regular orders of business which came before the meeting at this time was the election of Editor-in-Chief and Business Manager for the next semester. As this was the last regular meeting in this semester the election was held. D. D. Richards was elected editor and J. C. Haines business manager. Both of these men are to succeed themselves.

It was then moved and carried that the Auditing Committee audit the report of the business manager and submit the same to the proper faculty official.

The following is a complete list of the stockholders who will be allowed to vote at the coming election. Only those who hold shares, or rather only those who hold shares before Monday, January 15th, are legal voters. No shares may be bought, sold or transferred now.

### HARTMAN TO SPEAK

Prominent Bozemanite Will Deliver Charter Day Address This Year.

In response to the request of Dr. Duniway to Walter Hartman of Bozeman, that gentleman has graciously consented to deliver the Charter Day address to the University on February 17.

The University is very fortunate indeed in being able to secure a man like Mr. Hartman to be the speaker of the day on this birthday occasion. Mr. Hartman is a member of the State Board of Education and has always shown the greatest interest in the welfare of the University.

#### Big Celebration.

Charter day this year will denote the 17th mile stone passed in the life of the University of Montana. Commit-

tees have already been appointed who will have charge of the celebration this year, and big plans are already on foot. As yet nothing definite has been given out concerning the nature of the celebration, but rumor has it that the occasion this year will be noteworthy. Full particulars will be published later.

Doctor Elrod lectured in Helena to a large audience on the Glacier National park, last week, and will repeat his lecture in Philipsburg this week.

Mrs. Ralph Gilham has returned to her home in Radersburg, after spending three weeks with her parents and friends in this city.

Mrs. Willie Clanton Spaulding, ex-'10, of Wallace, Idaho, will be a guest at the hall this week end. She and her husband, Claude Spaulding, '06, are on their way to Billings to visit at Mrs. Spaulding's home.

Miss Cecil Sharpe of the freshman class has left the University and returned to her home in Stevensville.

Miss Phoebe Finley, '08, a teacher in the Central school, is confined to her home on Spruce street with a sprained ankle.

"Sprig tibe is coming, a-ged; a-ged; get your apparel frob the shop of med"—B & A.

## GIRLS TO GOVERN SELVES

PRESIDENT OF CRAIG HALL TO  
MAKE OWN LAWS—TO  
RULE DORM.

Dean Stewart called a meeting of the residents of Craig hall on Monday evening to promote plans for self-government in the hall. The self-government idea has been advanced and partially considered at a previous time.

#### Has Been Successful.

It is successfully operating among students in other universities and is becoming recognized as the most efficient and praiseworthy of all forms of student government. In the opinion of Miss Stewart and enough of the hall residents to make the trial worth while it promises to be effective for good in many respects here.

#### Will Be of Benefit.

In talking of the matter, Miss Stewart stated that it would eliminate the present condition by which the hall residents have not the restrictions of a boarding school nor yet the privileges of college students—neither the rules of the former nor the personal responsibilities of the latter. Self-government entails self-made and self-kept rules. It operates through the students themselves and is conducive to more thorough knowledge and understanding on the part of the students, of the restrictions, limitations and privileges, and the reasons for such, which are designed fully for their welfare.

#### Committee Appointed.

Suggestion was made and acted upon that Miss Stewart appoint a preliminary committee of representatives of all the classes, to draw up plans and rules for self-government, which will be subject to the approval or rejection of the residents at a later meeting. The committee consists of Florence Leech, Annabelle Robertson, Rose Leopold, Madge Beatty and Frances Leary.

## NIGHT GYM. INSTRUCTION

TOWNSPEOPLE TAKE PHYSICAL  
TORTURE UNDER SUPERVISION OF COACH CARY.

Last Tuesday the new work in University extension courses was begun at the gymnasium under the direction of Athletic Director Cary. There were about 40 men reported the first evening and there are many more who have signified their intention of reporting next Thursday when the classes meet again. This work promises to be of great importance to the men enrolled, and will be a great influence in widening the influence of the athletic department of the University. This is only a part of the work planned by the department, and it is proposed to make the extension work a "greater use of school and college equipment for the people of the state."

The enrollment last Tuesday was very good for the first evening, and with the increased attendance and enthusiasm, it is bound to have a far-reaching effect in developing the men. When seen by a Kaimin reporter after the first evening's work, Coach Cary had this to say: "We were very much pleased and surprised at the attendance this evening. There was a fine crowd of young men present and every one seemed keen for the work. It is going to be a big success, and before the season closes there will probably be 100 men enrolled. In the absence of any city gymnasium the possibilities for greater work are unlimited and we expect to extend it as far as possible."

As many of the men Tuesday evening were not prepared with gymnasium suits, the regular class work was not taken up, and instead, the men were given a chance to play different games with the basketballs, medicine balls, and other light equipment. Next Thursday the work will begin in earnest, and those contemplating joining the classes should see the Athletic Director at once. Any men of the University who have had any of the college gymnasium courses and who desire to help in the work would have a great opportunity by assisting on Tuesday and Thursday evenings.

For quick work see the Bureau of Printing. Phone 645, 137 East Main street.

Since 1892 the University of Chicago has granted 5,895 degrees.

## TAYLOR WANTS QUALITY

EDITOR OF ANNUAL TO HAVE  
QUALITY AND HASTE FOR  
HIS BOOK.

The renowned Soph remarked to a Kaimin reporter that he thought the people of the 1913 Sentinel, by placing a time limit for subscriptions and photographs were merely running a bluff. "Because," declared the Soph, "they will certainly want to sell all of the books they can, and the person who doesn't happen to have the dollar on hand can get his copy just as well at the end of the term. There are always a few copies left over. As far as the picture business is concerned, that is all tommyrot. Their book wouldn't be any good without my—oh—a—without the pictures."

#### Ten Dollars Reward.

The management of the 1913 Sentinel announces two prizes in real money; in real gold. Regular students in all departments and short course Foresters are eligible to compete for these prizes. Five dollars will be given to the winner of each of two contests. The contests are as follows:

One for the best collection of cartoons. Quality counts more than quantity. They must be fun. However, they may have a deeper meaning.

One for the best collection of jokes and roasts. Hit your friends for fun—

and for money. Quality demanded. All collections must be in the hands of Editor Taylor on or before March 1, 1912.

#### MONTANA SYSTEM BAD.

(Continued From Page One,

wherein the University was oftentimes discriminated against, and said in closing: "It is not right. The people of the state; and especially of this institution, should fight. The law is not right that allows such conditions and we should see that it is changed. The life-blood of the University is being taken by this system. The University of Montana is not getting a 'square deal' and as there is nothing left for us to do we should fight for a better condition of affairs."

President Duniway called the attention of all to the fact that any new students who may so desire may enter the University at the beginning of the second semester, while the courses are perhaps better arranged at the beginning of the year for the entrance of law students. Still the president showed that many courses are arranged so that they may be taken up by new students in the second semester.

#### Announcements.

There will be a special class in gymnastics started for the foresters Monday morning. All interested are requested to report to Physical Director Cary immediately.

There will be a meeting of the men interested in basketball today at 4:30 P. M. in the Gym. All players and "fans" are invited.
