SB38-01/02

Resolution Regarding Dornblazer^S Parking Lot Paving

● **Whereas** the Senate of the Associated Students of the University of Montana agreed to increase the parking fee last year,

Whereas the Senate was led to believe that this increase would place the paving of a Dornblazer^S parking lot as a high priority in the University schedule of work,

Whereas the ASUM Office of Transportation Park-and-Ride serves an average of 225 students every day and saved 40,707 miles of vehicle travel during fall semester,

Whereas during fall semester the Park-and-Ride saved 1351 pounds of Carbon monoxide, 188 pounds of hydrocarbons, and 186 pounds of nitro oxides from being released into the air of the Missoula Valley,

Whereas the University has the potential opportunity to expand the Park-and-Ride -- along with the Downtown Parking Commission and Mountain Line -- add 6 hours of Trolley service daily, and pave a Dornblazer lot using a CMAQ (Congestion Mitigation Air Quality) grant if they furnish a \$200,000 match for the project;

Therefore, be it resolved that the Associated Students of the University of Montana urge the University of Montana Administration, along with the Office of Public Safety, to agree to fund the \$200,000 CMAQ match and to pave the Dornblazer^S lot within 3 years.

Exhibit B

Referendum to Create a Graduation Fee

Whereas, a fee of \$25.00 is required to file an application for graduation.

Whereas, a \$3.50 fee, enforced on every students bill, would create enough funding to pay for the graduation of all seniors.

Whereas, paying \$3.50 every year ^{four} for 4 years, (\$14.00 total), would be less of an expense than one payment of \$25.00.

Whereas, a graduation fee of \$1.75, (in autumn and spring semester), or \$3.50 a year would help defer the cost of the fees associated with the graduation process.

Therefore let it be resolved, ASUM place on the spring election ballot a referendum to create a graduation fee, reducing the amount of money students have to pay to graduate from the University of Montana.

(The ballot will read as follows :)

Currently, UM Students pay a fee of \$25.00 when they register for graduation. This referendum will create a graduation fee of \$3.50 per year (\$1.75 per semester) to replace that \$25.00 fee. Over the course of 4 years, the total cost to the student will be \$14.00 ($\$3.50 \times 4 \text{ yrs} = \14.00). *The assessment of the fee will not be contingent on the students graduation.*

☐

Yes, I do support the creation of a graduation fee, and I understand that my spring and autumn semester bills will include a \$1.75 fee.

☐

No, I do not support the creation of a graduation fee.

Exhibit C
SB 44-01/02

Resolution in Support of Recycling Oversight Committee

Whereas The 1991 Montana Legislature enacted House Bill 160 that established a 25% waste reduction target for the State and its agencies,

Whereas the students of The University of Montana pay a two-dollar recycling fee per semester without any control over its use,

Whereas the creation of a committee, in charge of: 1) Overseeing the activities of Facilities Services recycling operations; 2) Promoting educational events and developing new initiatives and research projects related to waste reduction and recycling, was proposed several years ago,

Whereas this committee was never created,

Whereas the Recycling Coordinator Tom Morris supports the creation of such committee,

Whereas ~~the proposal~~ ^{current} ~~allow~~ ^{for the creation of the committee does not} for adequate student voice,

Therefore let it be resolved that the Associated Students of The University of Montana support the creation of The University of Montana Recycling Oversight Committee,

Let it be further resolved that the Associated Students of The University of Montana support the addition of a third student vote to the proposed committee,

Let it be finally resolved that the Associated Students of The University of Montana encourage the committee to incorporate the 25% waste reduction goal of Montana State House Bill 160 into its charge.

Exhibit D
SB45-01/02

Resolution Regarding Math117 Class Sizes

Whereas math is a discipline which necessitates an environment where students can participate in active dialogue with their professor in order to be taught effectively,

Whereas since the spring of 2001 Math117 classes have commonly held two to three hundred students,

Whereas the standards used for assessing student performance have been substantially lowered in order to compensate for the decreased quality of education received in Math117,

Whereas Math117 is a class which affects many students in a variety of majors,

Whereas if this cycle of shortchanging students continues, The University of Montana will be falling short of its inherent intention and ~~have~~ ^{have} responsibility to ensure students receive a quality, well-rounded education,

Therefore let be resolved that the Associated Students of The University of Montana strongly urge the provost's office to implement a policy waiving the standard one-hundred dollar fee for students wishing to retake Math117 until the class sizes return to their original size of thirty-five students,

Let it be further resolved that the Associated Students of The University of Montana strongly urge the Math Department to increase the standards for assessing student performance in Math117.
