DURING THE MEET.

## GALLATIN WINNERS INTERSCHOLASTIC MEET THIRD SUCCESSIVE TIME---HOUSER AGAIN THE CHAMPION

### IDAHO IS REPRESENTED IN MONTANA MEET FIRST TIME

WALLACE HIGH SCHOOL SENDS  
ATHLETES TO NINTH INTER-  
SCHOLASTIC GATHERING.

One of the most pleasing things in the interscholastic meet was the spirit and pep with which the Idaho schools entered into it. These schools, coming to Montana for the first time, came with a feeling toward the University which was admirable.

All of our visitors from the state on the west were pleased at the invitation to come. They expressed themselves as pleased at the opportunity to compete with the schools of Montana and were struck with the beauty of the University grounds.

All regretted that the team from Coeur d'Alene City could not come, but those that did come showed themselves to be gentlemen and good sports. We are glad to see these schools take such an interest in the things in Montana, and hope that we see more of them in the meets to come.

The deference shown by these Idaho men to the opinions of the Montana schools was pleasing in the extreme. Whenever asked for an opinion on any subject they firmly, but politely, refused to give any, saying that they were willing to abide by whatever Montana schools thought best.

### PRESIDENT DUNIWAY BIDS HIGH SCHOOLS FAREWELL AT JOLLY-UP

At the final jolly-up last Friday evening, Dr. Duniway bade farewell to the high school people of the state in one of the most sincere and touching speeches heard in Assembly hall for some time. It was an inspiration to every person that heard it and gave some idea of the bigness of the man who spoke and his whole-hearted zeal for the work which he has considered a great privilege to carry on for four years.

Dr. Duniway said:  
"I can't help preaching a little sermon now that I have a chance. You future citizens of Montana all love your state. You love her for her wealth, her beauty, her might. As the chief

Sturdy Bozeman Athletes Led by Captain Jolly, A Close Competitor to Houser for Individual Honors, Roll Up Total of 42 Points and Make It Three Straight.

### MISSOULA DUPLICATES PERFORMANCE OF LAST YEAR BY WINNING THE RELAY

Houser Lowers Gish's Old Record in the 440 Dash by Two-fifths of a Second and Beats Jolly of Gallatin Out for Individual Championship by Narrow Margin of Two Points---First Idaho Is Represented in Meet---Large Crowd Attended.

All the excitement and pleasure of interscholastic has passed and it's hard grind for three weeks, but the terrors of these weeks after the vacation just enjoyed is modified by the strong spirit of satisfaction felt by all Varsity students. Satisfaction because of the successful completion of the Ninth Interscholastic as the finest in every way of any ever held on Montana field. Perfect track weather and a splendid track gave the high school men the opportunity of showing the best there was in them. And the scholastics did their part. Especially large teams were sent by all the schools and the larger ones were accompanied by organized rooters.

Gallatin county took the meet with 42 points, this victory making their third in succession. Houser of Anaconda took the individual with the same list of points that won him that honor in 1911. His time in every event was faster than his records of last year, and that made in the quarter bested the time of Gish by four-

fifths of a second, and thereby gave the record to the Anaconda boy. The 20 points made by Houser in the 50, 100, 220 and 440-yard dashes were increased to 25 by the splendid performance of Kiely in the mile run.

Although but one record was broken, every event went off with good figures. But two events, the low hurdles and the discus throw were under last year's marks. Especially good were the trial heats of the 50-yard dash. All but one were run as fast as winning time last year, and one was run in five and two-fifths, tying the record. Results in the mile, high jump, hammer throw and dashes were all close to the records.

Missoula again won the relay race, and this victory, together with that of last year's, makes the two consecutive winnings necessary for possession of the relay cup. Nine teams were entered but the race soon became one between Missoula and Butte. Their starters left the field behind in the first lap. Butte took a lead at once, which was kept until McHaffie started the third lap five yards to the bad. In a splendid exhibition of fight and speed he finished his turn and gave Jones an even start for the finish. Frazer, who ran the third shift for Butte, in his haste for a speedy start, ran out of the 20-yard zone before making connections with his team-mate. This disqualified them, although they finished the race.

Jones of Missoula was the surprise of the meet when he closed in on Houser in the quarter and ran him to the finish. At the 220 pole he was running fourth. On the curve he passed two and came up on Houser so steadily that he finished less than a yard behind the winner. It was probably due to his hard pushing that Houser broke the record.

Eastern Idaho schools, to which the meet was opened for the first time, were represented only by Wallace. Coeur d'Alene had intended to enter, but owing to a clause in the Montana rules which differed from the Idaho rules so as to exclude part of their team, they were unable to come. The

Wallace team numbered but one point winner, Murphy, who took third in the half mile.

One interesting feature of the meet was the fact that only nine teams took points. The reason for this remarkable bunching of points was probably because of the work of the well-balanced Gallatin team and Houser.

On Thursday were run the preliminaries of the 50, 100, high hurdles, low hurdles and 440, and the semifinals in the 50 and 100. The pole vault, which, in former years, has run over two days, was finished on Thursday. Other finals were the shot, discus, broad jump and mile. Trials had been arranged for the half mile, but were later thought unwise, and so only the finals were run.

Friday was by far the most successful of any day of the nine years of the interscholastics. The weather was of the same perfect sort that had

(Continued on Page Five).

### HAUSER IS FORCED TO MAKE A SHORT SPEECH

Perhaps the most exhausting part of the interscholastic meet for Edwin Hauser, the speedy little champion from Anaconda, was the receiving of his well-earned medals. Four times were the words, "To Edwin Hauser of Anaconda, the gold medal," spoken, and four times was Hauser compelled to mount the stage. The fourth time up, when the champion received his medal for the 440-dash, in which he broke the record, the president detained Hauser to receive the fob for the individual championship. In presenting the fob, Dr. Duniway said: "We honor the man who two times in

(Continued on Page Five).

### MEET IS WOUND UP BY BIG JOLLY-UP IN THE GYM

MEDALS AWARDED IN ASSEMBLY  
HALL---ACTORS AND GLEE  
CLUB PERFORM.

As a fitting ending to the best track meet ever held in Missoula, nothing but the very best "Jolly Up" could suffice, and this, indeed, was the kind pulled off Friday evening.

This meet was the best in many ways, not least of which was the breaking of records in events and the breaking of any former records as regards the size of the crowd which enjoyed Friday's sports.

But, though almost all the good things had happened and Gallatin had so firmly established her claim to the trophies, the best of all was saved for Friday night—the awarding of medals and the big "Jolly Up" of the evening.

#### Glee Club Good.

The Glee Club, which, the evening previous, had been unable to appear, did really sing for our visitors and we can say that the cure for a cracked, rough voice caused by yelling was certainly a most wonderful one and miraculous in its powers for restoring voices to their original condition, for never have the men done better work. Though most reluctant to part with

(Continued on Page Five.)

### PRESIDENT HANDLES CROWDS SKILLFULLY

The ability of Dr. C. A. Duniway to handle a crowd and his cleverness as an extemporaneous speaker was never better demonstrated than Friday evening when the wind-up of the interscholastic meet was held in Assembly hall.

The room was packed with a mixed crowd; hundreds of athletes and their supporters overflowing with vociferous enthusiasm over the victories and triumphs of the preceding days; staid townspeople who had attended the meets and who wished to be present at the awarding of the medals. The

WHITLOCK, A. N., assistant professor of Law; U. 21—539 University Ave.; Bell 1070 black.

## A HUGE SUCCESS.

The University students and faculty are all jubilant. And there is a reason. When one looks over the week just passed he cannot help but smile with satisfaction over the Ninth Interscholastic Track Meet.

The meet this year was probably the most successful that has ever been held in the University. From the debate on Tuesday night until the Jolly-Up on Friday, there was not a thing which marred the meet. And the high school students, there was not a dull moment for any of them. The committee had everything so well arranged that the old comparison to clock work falls short.

Everyone contributed to make the meet the best ever. This was done, too, without any of the agreed pull-together spirit. The spirit was there and it came out. The people of Missoula are to be thanked for the hearty support they so willingly gave. The students of the University are not to be overlooked, either. Each and every one "came through" with a "pep" that would make anything go.

The Interscholastic committee surely deserves praise. They worked day and night to make the meet a success and their work was not fruitless or in vain. These people are responsible for giving the University and the city of Missoula the finest meet that has ever been held.

If the size of this ninth meet shows the interest of the high schools of the state in the University we are indeed gratified. And if the support given by the citizens of Missoula shows their willingness to help the University, we cannot help but feel that this institution is on the high road to success.

The Interscholastic committee wish here to publicly thank every one who contributed to this meet to make it a success. They appreciate the support given.

## BETTER FEELING.

Last Wednesday when the University track team went down to a glorious defeat before the strong team sent here by the Agricultural College at Bozeman, there was shown the best spirit that has ever been manifested in either institution.

In times past there has been the keenest rivalry between the two institutions, and it must be said that the rivalry has not always been of the best kind. However, we are glad to be able to say that things have changed. In the meet on Wednesday there was not a thing to mar the most friendly of relations. During the stay of the Aggies in the city they were entertained in every way possible and the feeling shown by both sides was all that could be desired.

Things are now becoming as they should be. We should be friendly; in fact, we should be the very best of friends. Every man who came to Missoula from Bozeman showed himself to be a good sport and a gentleman.

We are glad to meet the Bozeman men on this friendly ground. We want to be friends of theirs and we want them to be good friends of ours. All the pettiness that used to cause friction between the two institutions has been buried. We never want to see its head again. Sometimes we have been in the wrong; sometimes they have, but however that may be

from now on we are both going to be of the right sort.

We, of the University, noticed the existence of better feeling and were glad; the Aggie men noticed it and were pleased. We are now on the right road, let us stay there.

## COMING UP THE STRETCH.

In what kind of shape is your work? Are you ready? Will you be "ready" when the great day comes? Think it over.

The foregoing are some of the many questions which should receive serious consideration by all of the student body. There are just eleven days more in which we have to prepare for the final reckoning. Just eleven school days remain in this year.

It behooves all of us to remember that there is little time left in which to make good. If when, on Friday, May 18, you find that you are just a little below in some of your work it will be too late to make amends. You will have no one but yourself to blame, so if you want to be a success of this college year, get busy.

We have been in the race with varying fortunes, for practically nine months. The wire is in sight. To stumble and fall now, when the end is so close, would be a tragedy. None of us can afford to loaf now. We must finish with all of the speed and glory possible.

This weather is not the kind that makes it easy to study. In fact, it is hard to do anything but loaf. However, the state of the weather will be poor consolation for a failure.

This "sermon" may be unnecessary, still it is well to look to your life boats, so that if anything should happen you will be able to reach the shore in safety.

"Prepare thyself."

## THE SOPH ON THE SHELF.

The Soph was slowly dragging himself around the campus when he was overtaken by the Owl.

"Why this snail's pace," inquired the Owl.

"Oh," replied the Soph, "I'm all in. After those three days of track meets I feel like a man about fifty years old."

"I noticed that you were having a good time," said the Owl, "but I didn't think that it would affect you like this. You ought to be able to stand a few days of celebration without taking a week to get over it."

"Yes, I suppose I had," replied the Soph, "but those were such glorious days that I wouldn't care if I never got over them."

"So you liked the meets did you?" asked the Owl.

"Like them," exclaimed the Soph. "Well, I should smile. The college meet was a peach and the interscholastic was a dinger."

"Say," he went on, "did you ever see anything to beat the spirit in that college meet. Everyone felt right and because we didn't win there was no one who crabbled. We made the Aggies fight hard for the honor of winning. We did the best we could and I have not heard any one offer an excuse."

"No," answered the Owl, "they earned that victory, and no one has a kick coming. The right kind of spirit exists between the two colleges now and everyone should see to it that it continues to exist. Say, tell

# HAZEL BAIRD OF STEVENSVILLE AND DAVID ROBERTS OF MISSOULA WINNERS IN DECLAMATORY CONTESTS

An unusually large crowd, in fact, a great number more than Assembly hall could accommodate, gathered on Wednesday and Thursday evenings of last week to hear the declamations given by the contestants from the various schools of the state.

## Boys Stick Judges.

Wednesday evening was given over to the boys and at the conclusion of the contest the judges were somewhat at a loss as to what decision to make. The contest was an exceptionally fine one in every respect. The audience was attentive and interested and the speakers well deserved the applause which they were so generously given. Each year seems to show a marked improvement over the former one in all of these contests, and the work done by the boys Wednesday evening, individually and collectively, deserves very favorable comment. The judges awarded first place to David Roberts of Missoula, second to Francisco Higson of Helena, and third to Bruce Hopper of Billings.

## The Girls.

The girls' contest Thursday evening was as well attended as the boys' and the audience just as sympathetic and

enthusiastic. The decision in the girls' contest resulted in first place being given to Miss Hazel Baird of Stevensville, second to Miss Antoinette Simm of Butte, and third to Miss Phoebe King of Bozeman.

The following program was given Wednesday evening:

Music, University Orchestra.

The Old Actor's Stories (Sims) Herman Walton, Hamilton.

How the La Rue Stakes Were Lost (Yates), Carl Ostrander, Beaverhead county.

The Philippine Question (Hoar), Francis D. Hegsen, Helena.

For the Love of a Man (London), Bruce Hopper, Billings.

Brutus and Cassius (Shakespeare), David Roberts, Missoula county.

Until the Dawn (Parks), University Quartette.

The American Flag (Beecher), William Peterson, Anaconda.

The Lost Word (Van Dyke), Louis Bretzke, Glasgow.

Miss Butterfield Announces Her Engagement (Holland), Harry Schug, Columbus.

John Brown (Finley), David Davidson, Great Falls.

Last Speech of Robert Emmett (Em-

mett), Charles M. Lloyd, Broadwater county.

The following program was given Thursday evening:

Music, University Orchestra.

The Perfect Tribute (Andrews), Rose Shaw, Park County.

Nydia, the Blind Girl (Bulwer-Lytton), Nathalie Smith, Fergus county.

Bobby Shaftoe (Anon), Hazel Baird, Stevensville.

Too Late for the Train (Anon), Susie Gottlob, Sweet Grass county.

The Lie (Donnell), Phoebe King, Gallatin county.

The Third Degree (Klein), Antoinette Simon, Butte.

Bud's Fairy Tale (Riley), Maude McVey, Victor.

Aair de Ballet—Pas des Autores (Chaminade), University Trio: Professor Fischer, Margaret Fischer, Hans Fischer.

The Bear Story (Riley), Ada Baker, Plains.

Bobby Shaftoe (Anon), Lella Manning, Flathead county.

The Man of Sorrows (Churchill), Corinne De Celles, Jefferson county.

Bobby Shaftoe (Anon), Clara Pinger, Teton county.

## EXHIBITION BY SPEEDY TYPIST

On Monday afternoon the students of the University were treated to an exhibition by H. O. Blaisdell. Mr. Blaisdell is demonstrator for the Underwood Typewriter company. He holds the world's record for the fast operation of a machine. This is 112 words a minute, net, of unfamiliar copy.

While at the University Mr. Blaisdell gave several unique demonstrations. He took 105 words from dictation without an error. Another was the writing of 105 words from unfamiliar dictation while blindfolded.

In writing from familiar copy, the demonstrator turned out 150 words in one minute. From unfamiliar copy he wrote 112 word in one minute.

The Spokane manager of the company introduced Mr. Blaisdell and gave a short talk on the speed contests held every year in New York. It was a novel demonstration and was much enjoyed by the University students.

## WILLIE WITH US.

William Emmett Ryan, for four years one of the "champeen" football players of the institution, is again with us. Ryan came last week and his arrival is now known by all of the student body. Still, we feel that some official record should be made of this official visit of one of our former athletes. Emmett will be with us for some time, having come prepared to stay, anyway, until commencement.

W. E. Ryan has been teaching school since leaving the University and has done much to raise the standard of learning in this country, and especially in the county of Teton. He says the University looks good to him, and we are not in a position to dispute this statement. It must look good to any one who will spend 10 hours of every day sitting on the library steps and "bumming" around the campus.

"Rin" is just as husky as ever and perhaps a little bigger. His thorough training on the University teams, football and other sports as well, shows on him in no unmistakable manner. Then, too, he drew on the fund of knowledge held by one James Woodmansee Rhodes, who trained the muscles and nerves of the students for two years during Mr. Ryan's stay here.

Everyone is pleased to have this "husky" on the campus. We notice that the girls are especially pleased. Half of the boys now in the Senior class have applied for positions as school teachers, thinking that this has something to do with the pleasure of the girls at seeing this "Pride of Teton."

Folders, pamphlets, circular letters, etc., always printed in the most artistic style at the Bureau of Printing.

## DUNIWAY TO ANACONDA.

On next Sunday President Duniway will speak in Anaconda before the anniversary meeting of the Epworth League of Montana. He will also visit, during his absence, many of the schools of Anaconda and other cities nearby. He will look up matters pertaining to the summer school.

We would advise all Engineers to read the March issue of the Electrical Journal.

## WINNING ARTICLE

The following story is the one which won the \$5.00 prize offered by the Publicity Bureau for the best story or essay written by a University student on "Why Come to the University of Montana." There were several scores of stories turned in, but we print here only the prize-winner. Lewis Hunt of the Kalmin staff took second place.

This is given to our readers by the courtesy of the Publicity Bureau. The story:

Come to Montana University:

Because of its situation. A healthful climate, inspiring scenery, and natural advantages for out-of-door recreation are conducive to mental vigor. The Greeks founded their universities in the most beautiful spots. So did Montana.

Because of its youth. A young university is a growing university. It has no past achievements to rely on. You must make its history and its traditions. You cannot recline on former glories. Neither can its administrators. Only the best of material can go into it.

Because of its student body. Everyone knows everyone else by name and by accomplishments. The gilded youth of the larger college is conspicuous by his absence. Individual merit counts. Individuality is not swallowed up in mere numbers.

Because of its opportunities for self-help and self-discovery. The self-supporting student is assisted to find employment while pursuing his studies. The student of superior abilities is not crushed by force of numbers, but is certain to be recognized and his powers cultivated.

Because of the close personal communication between professors and students. Garfield said: "An ideal university is Mark Hopkins on the end of a log." Montana offers that sort of a log to you.

## COMMUNICATIONS

### JUST LOOK AT IT.

As you probably know, it is a custom at most schools to have one day each year set aside for the students to work on the campus. A statement was made some time ago that this institution would benefit by such a day.

Members of the group remonstrated at such an idea. They could not see where we needed any work done on the campus. Said they: "The University has two or three men working on the campus all the time. All they have to do is to keep it nice. There is nothing more to be done."

No, I wonder if we wouldn't take more pride in our campus if we did a little work on it ourselves? And as for there being no more to do—just look at it! See those dandelions out there. Doubtless the student body and possibly the faculty could keep busy for part of a day at least, digging out those pests.

### SOME ARE, AT LEAST.

Much stir was caused by the fine "M" that the Freshmen built upon Sentinel. It's too bad the Sophs tried to change the "M" to a "14." Still

## MANY INVITATIONS COME TO VARSITY

During the past two month scores of requests have come to the University office asking that the president or some delegate selected by him, be present at anniversaries held by other universities and colleges. All of these have been declined because of the distance to the other institutions.

In speaking of the matter, President Duniway said: "I would have liked to have had a member of the faculty at every one of these functions but lack of funds and the distances to be traveled make it impossible."

In every case greetings were sent, but that is as far as the University of Montana was able to enter in the celebrations.

more excitement was caused when the "15" appeared on Jumbo. A Soph was heard to ask a Fresh why the "15" was put over on Jumbo.

"Well," said the Fresh, "when we put the 'M' on Sentinel you tried to make it a class affair, and now you come around asking why we put our '15' on Jumbo. We put that 'M' up there on account of love for our college. We put that '15' on Jumbo for the same reason."

### WHERE IS IT?

Some time ago a great agitation was abroad for a Student Council. Evidently a damper has been put on the boosting of this idea. Why not start the agitation again? A student council is what we need here. No one denies it. Let's not let a good thing like that stop for want of support. It's true, everyone is busy now, but a little boosting, a little talking and a little time on the matter will bring it to a head. Ask your friend about it right now, if you are not informed on the subject. Boost for the student council.

A SUBSCRIBER.

### DUAL MEET PICTURE.

In the Anaconda Standard of last Sunday were some interesting pictures taken at the dual meet between the Varsity and the Agricultural College held last Wednesday.

One picture shows the start of the mile with Hauser running for Montana and Schumacher and Hillis for the Aggies. Another shows "Bill" Vealey going over the bar for second place in the high jump. A third one shows Pat Sheedy grabbing five points for Montana in the pole vault.

The pictures were taken by David Kemper, a special student, who was official photographer at both the dual and the Interscholastic meets.

### PROF. KIRKWOOD LECTURES.

Prof. Kirkwood lectured on the subject of "Arizona and the Desert Country of the Southwest" on May 1 at the Lowell school. The lecture was given under the auspices of the West Side Woman's Club. Tomorrow evening he will lecture in the Methodist church on "Mexican Plants and People."

The Bureau of Printing wants to give you figures on your printing.

MILDRED INGALLS.....Editor

**Cosmos Club.**

Mrs. Hiram Knowles and Miss Eloise Knowles entertained the Cosmos club on Monday evening. Miss Mary Stewart had the main paper of the evening, ing.

**Theta Reception.**

A delightful social function during the interscholastic meet was the reception given by the local chapter of Kappa Alpha Theta in their suite at Craig hall in compliment to the young ladies of the visiting high schools. Bowls of yellow tulips were placed through the rooms with charming decorative effect, adding the Sorority colors of black and gold to the other artistic furnishings of the suite. Nearly 100 guests accepted the hospitality of Kappa Alpha Theta, happy to become better acquainted with their hostesses and interested to learn the pleasant meaning of Sorority life in the University.

**Dinner Party.**

The Misses Helen and Edna Leopold of Helena, and their sister, Rose, whom they visited during track week, were the guests of honor on Saturday evening at a most delightfully appointed dinner given by Mr. and Mrs. Herman Kohn.

**Sigma Chi Banquet.**

About 50 Sigma Chis, including the active and alumni members of the local chapter and members of other chapters who came from various parts of the state for this event, enjoyed an elaborate and pleasant banquet at the Palace hotel on Thursday evening. Joseph Streit presided as toastmaster and many clever and interesting toasts were given. One of the most novel and entertaining features of the evening was a minstrel show, given by some of the talented members of the fraternity who go by the name of "The Royal Artesian Troubadours." The minstrelists included Robert H. Cary, Paul Dornblaser, William G. Ferguson, George P. Stone, Walter Marshall, Merritt Owsley and E. Pat Kelley.

**A Pleasant Dinner.**

Professor and Mrs. G. M. Palmer entertained at dinner Saturday evening for several of the visitors who were here for track. The guests were Miss Hazel Baird of Stevensville, Miss Dorothy Baggis of Stevensville, Principal Holst of the Victor high school, and Miss Mabel Shannon, instructor in English at the Stevensville high school. The dinner was charmingly arranged and served.

**For Miss Cordz.**

Mrs. A. W. Wilcox entertained the patronesses and members of the Kappa Alpha Theta last Monday afternoon, in compliment to Miss Effie Cordz of Seattle, who was a guest of the Theta at Craig hall during the week. There were six tables of guests to play bridge in rooms richly decorated with the Sorority colors of black and gold. Those present were Mrs. E. L. Bonner, Mrs. E. W. Spottswood, Mrs. John Lucy, Jr., Mrs. Gilbert Reinhard, Mrs. Homer Slaughter; the Misses Cordz, Lucile Marshall, Lillian Williams, Donna McCall, Bertha Foster, Marguerite Bonner, Frances Page, Merle Kettlewell, Esther Birely, Katherine White, Gertrude Whipple, Anabel Robertson, Louise Smith, Grace Saner, Alice Hardenburgh, Gladys Frieze and Bess Rhoades.

**Anderson-Cole.**

Mrs. Elizabeth Anderson and Ralph R. Cole, a law student and instructor in German in the University, were married Wednesday at 2 o'clock at the home of the bride's mother, Mrs. Mary C. Schilling, on South Fifth street, west. Rev. Elmer E. Burton performed the ceremony in the presence of the immediate family.

**Thieme-Hamilton.**

A wedding of much interest to the students of the University was that of Miss Florence Thieme and Ray Ham-

ilton, which took place in Butte Saturday. The bride is a graduate of the University and the groom was a student there and took a prominent part in athletics while attending the institution.

**Luncheon at the University.**

The ladies of the faculty gave a luncheon at the University Friday in compliment to the teachers who came from other towns for the meet. There were about 125 guests, including instructors in the local high school, with the visiting teachers. A table was beautiful with all the dainty appointments of the menu and decorations of spring flowers and ferns. From this the 15 young ladies of the Senior class served the guests, who were seated in groups about the room. The opportunity for visiting thus pleasantly together was counted by the guests one of the happiest events of their stay in Missoula.

**Sigma Nu Picnic.**

The members of Sigma Nu and their friends enjoyed a most pleasant picnic on Tuesday. The trip up the Rattlesnake was made in automobiles, which added greatly to the day's pleasure.

**Miss Schilling Hostess.**

Miss Cora Schilling was hostess on last Wednesday evening to a number of her friends. The young people spent the evening happily, developing pictures, singing and playing. Dainty refreshments were served in conclusion. Those present were the Misses Hazel Hawk, Ruby Jacobson, Edna Laughlin, Nellie Schilling, Cora Schilling; and Messrs. Lucius Forbes, Robert Forbes of Helena, David Kemper, Harvey Ade, Roscoe Brown, Guy Henderson of Bozeman, and Leo Baker.

**Pi Eta Pi Dance.**

The members of Pi Eta Pi and their friends spent a very delightful evening dancing in Barber-Marshall hall on Monday evening. Punch was served throughout the evening.

**Sigma Chi at Home.**

On Friday afternoon, directly after the track meet, the members of Sigma Chi were at home to a large number of the athletes and visitors from the high schools taking part in the meet. The afternoon was pleasantly spent in singing college songs and smoking. At 6 o'clock a delightful supper was served.

**A Picnic.**

The members of Sigma Chi and Iota Nu and their friends started out in tallyho on Tuesday morning and rode up Grant creek, where a dainty and appetizing luncheon was prepared. The return was made in the cool and delightful evening.

**Sigma Chi Dance.**

The active chapter of Sigma Chi will entertain their friends at a dance in Barber-Marshall hall on Friday evening. A lunch will be served at the Chapter house after the dance.

**Freshmen Celebrate.**

The Freshmen celebrated the planting of the ivy vine on the campus Monday evening with an impromptu dance in the gym. The dance was started by a score of energetic Freshmen, but within 10 minutes the harmony which the student orchestra tore out of a piano and a snare drum broke up the grind party in the library and routed the dorm from its slumbers so that before the dance was over the place was crowded. This is not the first "live" stunt the infants have pulled off—they are becoming decidedly the pepperist bunch in the University.

Cassiers Magazine for April describes the practical use of the aeroplane in the war between Italy and Turkey.

Folders, pamphlets, circular letters, etc., always printed in the most artistic style at the Bureau of Printing.

## INTERSCHOLASTIC IS LAUDED BY "STANDARD"

Anaconda Paper Praises Meet Held by University—Says It Tends to Make of Competitors Good Citizens.

The high regard in which the press and people of Montana hold the annual interscholastic meets and the efforts of the University in fostering clean, square sportsmanship, is well illustrated by the following editorial which appeared in the Anaconda Standard Thursday, May 9:

Probably lots of people can furnish some pretty sincere arguments for disliking the prominence given to athletics in the schools today. But the prominence is a fact, and it's just as well to make the best of it. That's what the University of Montana did when it instituted the state interscholastic track and field games. The standard of real sportsmanship has been raised by the influence of the annual gathering, and to that end the university has done a notable work.

This form of athletics is in a class by itself; it is the acme of individual effort and thoroughly disciplined ability. Other popular games call for teamwork; the contestant on track or field has to stand on his own merits, the aid of others counting only in guidance of his training. But this preparatory work must be of high order; it must, if successful, make for self-control, the mental alertness that comes with clean living and concentrated attention, the courtesy of competition that recognizes the worth of rivals and concedes that victory must go with actual merit. It is the form of sport that was made classic by the traditions of the Greeks in their highest development; they had good reason for the honor conferred upon the worthy athlete.

In addition to the physical equipment to qualify the boy for this competition, there is wisely added a mental standard; scholarship requirements must be met before the athlete can represent his school. Here again the university is to be commended for its influence; it has led the way in the upbuilding of honest sport in the state. Mere muscularity will not suffice to assure victory; the competitor must be a really worthy representative of a scholastic institution. The result is doubly commendable—there is a higher form of sport because disciplined mind is a factor in the contest, and the games are lifted to a place in all-around culture. Consequently Montana's best boys meet in the competitive events, and they are well worth the attention they command. Unless all signs fail, their training makes them considerable as future resources of the commonwealth where sturdy good citizenship is going to count for a lot in the next few years.

The University of Washington pedagogues have taken well to the idea of a baseball game with the Pullman faculty this spring, and feel confident that they can trim the "major league nine of farmer-teaching tutors." The Washington faculty team has a record of two straight annual victories against the alumni baltossers, and this year is out strong for the faculty championship of the state.

The various Greek letter fraternities of America have over 300,000 members today. They are all derived from a secret fraternity organized in 1750 by the students of William and Mary College in Virginia. Among the members were Edmund Randolph and Thomas Jefferson.

Harry Knox, a freshman at the University of Washington, has a lung capacity of 467 inches, 31 inches over the present world's record. Normal lung capacity is 288 inches.

## The Rooter

WHEN you attend the events at Montana field this week, you root hard for the boys you want to win. You root for them because you like them and because you have an interest in them. That is the right spirit. It is the spirit which should possess us all with respect to every home institution. We should root for the home merchant, we should root for the home manufacturer, we should root for the home farmer. Whatever is for the benefit of home should receive our support. The home merchant, the home manufacturer and the home farmer should receive the solid support of the home folks as long as his wares are as good as those with which they are in competition. By this standard, all your printing should be done at The Missoulian Print Shop. It is a home institution and the quality of the work done here is as good as that which you get anywhere else; it is, in fact, a good deal better than what you get at most shops. The Missoulian Print Shop is entitled to your business because it is a home institution and because it does good work.

## YEARLY CATALOGUE IS INCREASED IN SIZE

Annual Register Issued This Week.  
Much Larger Than All Previous,  
Owing to New Course of Study.

This week appears the official register of the University. This book has been in process of construction for some time. It was hoped to have it out ready for distribution during Interscholastic week, but because of the size of the book this was impossible.

The register, this year, is much larger than any register of the University has ever been. The book contains full details of the summer school and also of the law school. The University extension work also comes in for a large amount of space in the new register. This work has been so popular and so many inquiries have come in regarding it that it was deemed advisable to devote a section of the register to it.

Then, too, the large number of new courses added to the regular curriculum made it necessary to have a larger volume.

All of these things contributed to make the book a little later than was planned. However, it is now ready for distribution and may be had upon application to the registrar of the University.

The Electrical World of April 13, 1912, has an interesting article on "Highest Voltage Transmission System in the World." This article refers to the plant of the Au Sable Electric Company in Michigan.

The students of Kansas State Agricultural College have recently adopted a system of mutual student insurance against illness. A deposit of 50 cents is required at the beginning of each year, and a student upon becoming ill is entitled to the services of a physician without further expense.

## DR. DUNIWAY WILL ADDRESS SENIORS

The commencement address to the Seniors of the Missoula County High School will be given this year by President C. A. Duniway. The high school authorities have requested the president to make the commencement talk and he has accepted. The commencement will be held in the Missoula High School on May 24.

There have been several requests sent in for President Duniway to give commencement address in other high schools around the state, but he has had to decline all of them. Because of the pressing duties attached to the opening of the summer school and because of other matters the president is sorry, but it will be impossible to attend any of these commencements. He would be pleased to answer every request but cannot do so.

**A RECORD.**

A record for long-distance telephone conversation was established January 12, when connections were made between Denver and Boston, a total distance of 2,400 miles. Connections were made through five toll boards, including New York City. No trouble was encountered, conversation being carried on with ease.

## TEAM STARTS IN RACE FOR FOOTBALL HONORS

At steps in the direction of the football championship will be at once. On tomorrow evening at 8 o'clock Captain Dornblaser will call prospective candidates for the team on Montana field for light with the ball. On Monday evening the Sigma Chi house will be a meeting place for the football men of the city. A man who expects to come out of the fall is urged to be at these meetings.

Nothing as strenuous as a game can be done before the fall, a good deal of progress can be made in kicking and passing in the weeks before vacation. At present the team is without a punter. It will be difficult to develop one, however, from material now in school, and means of this spring's work and practice he will be ready by

account of a change in the rules removed the 20-yard limit on forward passes and now legalizes a pass of any distance, that play will be more than ever and practice on the field in the spring will give a good deal of work. All men with a leg will be put in a squad and work in drop and place kicking, all as punting. Others will handle the ball and receive passes. It is hoped a good-sized squad will be out by Friday evening and for the next two weeks, for in this way much can be done that will be effective in starting fall with a rush.

A meeting Monday evening will be held at the Sigma Chi house. It is called the idea of accomplishing several things. Several of the talks will be on summer training, pointers on keeping in shape during the three months to be ready for hard work on the field in the fall. Other talks will be on a nature intended to arouse interest and to outline the work of next year, so that the plan may be placed in the hands of new men whom the members of the team will meet in the summer.

One who will address the men on Monday evening is Lieutenant Phil All-American center and coach at Military Academy last season; Dr. King Cole, who coached the Varsity last year; James Teevan of Fish-American Athletic club, who talks on summer training, and local Director Cary of the University, who will explain the new rules. First three speakers will give reminiscences and explanations of recent points of the game. Captain Dornblaser will outline his plans for next season.

## BASEBALL AMONG CLASSES BOOMED

At the time seems to be ripe to again the subject of interclass baseball. Interdepartment or frat, some kind of a league within the institution. Track is now limited from interference, tennis is limited to the number of players and gym gets more unbearable every day, so why not the national game. It is true that studies are now being given attention, but few, not doing grinds, study from 5:00 in the evening until 6:30. And that is time for baseball games.

Among 100 men it should be simple to make some line of division that would lead to the formation of at least two teams. Departments could be divided into Law, Engineers, Arts and Sciences, which would include geology, forestry, chemistry and biology. Or, each of the three fraternities and the Young Men's Christian Association could be represented in the league. Class division would be the equal, but could be arranged by grouping men from the popular classes with men from a small membership.

Any arrangement that is chosen should be perfected at once and play started next week. There is still time left and with a game every night each team will have at least one meeting with every other team and a championship series be run.

## OWSLEY ELECTED TRACK CAPTAIN

At a meeting of the track team yesterday, Merritt Owsley was elected captain, but is, nevertheless, probably the best all-around athlete in school. The team showed no hesitation in their choice and the whole school cannot but commend them for their selection of a leader.

At Missoula high, where he prepared for the University, he was strong in all branches of athletics and a point-winner in interscholastic. He played at fullback on last season's Varsity with such ability that, in the opinion of many followers of the game, he was the best back in the state. In the interscholastic meet he won the individual championship with 22 points. This same honor was his in the dual meet with the Agricultural College, when he took 16 points.

He is a leader as well as an athlete, so there is very reason to look for a championship team under his guidance.

## JOLLY-UP ENDS MEET

(Continued From Page One.)

them, the audience was finally persuaded to give its attention to the next thing on the program, the play entitled, "Lend Me Five Shillings," which had been given before with great success by the University students, and by request was repeated at this time.

### Play Liked.

Mr. Golightly was a great success, as he always is, and as one small boy said, "Say, that's some actin'." It is safe to say he did not hold this opinion alone. Both Mr. Golightly and Major Fobbs were cheered for their good work. In real life these gentlemen are Nat Little and E. Pat Kelly, respectively. The whole play was good and went off in fine style.

After another selection by the quartet the real work of the evening was begun. The culmination of all efforts, all training and work for so many weeks—the presentation of medals—the official recognition of work well done.

### Hauser Individual.

This year, precisely as it occurred last year, the individual prize was won by Edwin Hauser of Anaconda, who, indeed, was not content with breaking all of his records of last year, but in the 440-yard dash finished well by breaking the state record by two-fifths of a second. It now stands at 53.4-5 seconds.

### Honors About Even.

Honors were certainly well distributed among the various high schools, though it is true that Gallatin got her share of everything going—the debate with the Fergus county high school and the meet itself—Anaconda, individual honors; and Missoula, the relay race. For a time Butte bid fair to win the relay, but the gods had willed otherwise.

The largest audience which has ever crowded into the Assembly Hall witnessed the distribution of prizes, and many were the interruptions caused by pent-up enthusiasm breaking forth in yells.

Later, near the entire crowd went over to the gym for the dance. People did not dance, however, for such a thing was impossible, so crowded was the hall, but everyone met everyone else. The visitors were taken care of, and all expressed themselves as having had the best time of their lives, and certainly this was the liveliest and best track meet ever held at the University.

## DAWSON COUNTY HIGH SCHOOL.

It is customary for the Juniors to entertain the Seniors to show their appreciation for their past friendship and sorrow for their departure. This year it is up to the class of 1913 to foot the bill. They will give a banquet in the cafe of the Hotel Jordan on Thursday evening, May 16.

The Seniors have their class parts written and in shape for rehearsal. The first rehearsals will begin this week.

Junior pennants have arrived and everyone is well pleased with them. In fact, we think they are exceptionally nice.

Bulletin of High School, which Principal Hunt has been preparing, is now

## "PUNK" OWSLEY BREAKS BROAD JUMP RECORD

In referring to Varsity track records after the dual meet with the Aggies it was found, too late for last week's Kalmin, that Merritt Owsley of the Varsity had broken the broad jump record. As it stood the record was 21 feet, but this was bested a quarter of an inch by Wednesday's star. Besides being individual champion of the meet this gives Owsley the distinction of being the only record-breaker of 1912. Owsley is a Freshman, but is not without a career as an athlete. In last interscholastic he won the broad jump, besides taking points in sprints. Since coming to the Varsity he has improved his form in jumping and running and with his performance in the dual together with his promising future he may well be classed with the Aggie gingabos.

## HAUSER MAKES SPEECH

(Continued From Page One.)

succession can be the most consistent and highest point-winner in the interscholastic. For his successful work the University presents to him this little fob.

Hauser thanked the president and started to leave the stage. "Speech! Speech!" yelled the crowd. For the first time in the strenuous two days Hauser's feet faltered, but he was game. Responding to the popular demand, he said:

"Mr. President, the faculty and students of Montana: Every year the interscholastic meet has been growing bigger and its success has grown with it. For my team-mates and all the contestants I wish to thank you for the kind treatment you have accorded us here." The "champ" continued, finishing strong, eager to break the tape.

## PRESIDENT IS SKILLFUL

(Continued From Page One.)

way the president handled this crowd was indeed admirable, often interrupted by ill-timed cheering he still retained his grasp of the situation.

Perhaps the most clever speech of the evening and one which was most appreciated by the majority of those present, was the one in which he asked the crowd to "get fun out of the play, 'Lend Me Five Shillings,' and not poke fun at it." This little speech was prompted by the ungentlemanly manner in which some of the persons in the gallery, who, we are pleased to state, were not contestants in the meet, received the entertainment offered by the Glee club. It must be said that this short speech secured for the actors a respectful hearing which they would not have received otherwise.

completed and will soon be ready for publication. This is the first time anything of this sort has been gotten out by the High School, and we hope it will be a success.

Concrete walks six feet wide and six feet from the building are being laid around the High School. This will enable the pupils to go from the front of the building to the back without going through the school house and yet keep off the lawn.

So far five Underwood typewriters have been ordered for the work in the commercial course next year.

Parking in front of the High School building has been seeded. Twenty-three dead trees have also been replaced.

Seniors attended the Congregational church Sunday, May 12, for baccalaureate sermon. Union service was held.

Commencement exercises will be held at the High School building Friday evening, May 24. Curtain rises at 8:30 o'clock. The Glee Club is preparing music. The German class will also endeavor to show their ability at singing. Don't forget the work on exhibition both afternoon and evening in the different rooms.

## GALLATIN WINS MEET

(Continued From Page One.)

prevailed during the first of the week and the crowd outnumbered any before in Montana stands. Gallatin entered the lists with 27 points to the good, and with the cheers of an organized section of 60 rooters filled with the spirit of victory from the debate urging them on. Beside the Gallatin supporters were the Missoula rooters. On the bleachers was a good bunch from Butte and another from Victor. The rooting, which adds so much to the spirit of the meet, was much better than has been seen for several years. Across the track was the Missoula band, whose lively strains were all that was needed to complete the holiday atmosphere.

The events started well on time with the high jump and hammer throw, followed by the finals in the high hurdles and 50. Trial heats of the 220 followed each other rapidly, and were run in good time. Because of the abandonment of trials for the half mile that event was run with the track well filled with entries. A fighting finish between Ingram of Helena and Hall of Flathead made this a pretty race. Following this were finals in the 100, and semi-finals in the 220, finals in the low hurdles and the 220.

As I worked out the afternoon's exhibition could not have been better planned by a dramatist. Keen interest was excited by lively competition in the field events, then increased through the finals of the dashes and hurdles and rose to the climax in the quarter and relay. Hauser had been considered as dangerous to existing records in the dashes, and especially the 440, and this interest, further increased by the speedy finish of Jones made the quarter one of the finest races in the history of interscholastics. This race, together with the relay, immediately after, left no doubt in the minds of the spectators that the interscholastic is a source of excitement sufficiently strenuous for any supporter of vigorous athletics.

The official final scores of the meet are as follows:

- High Hurdles.**  
 Covert (Billings) first, Bourquin (Butte) second, Howard (Gallatin) third. Time, :18.
- 50-Yard Dash.**  
 Hauser (Anaconda) first, Jolley (Gallatin) second, Newman (Helena) third. Time, :53-5.
- 220-Yard Dash.**  
 Hauser (Anaconda) first, Newman (Helena) second, Dowd (Victor) third. Time, :23 3-5.
- 880-Yard Run.**  
 Ingram (Helena) first, Hall (Flathead) second, Murphy (Wallace) third. Time, 2:09 1-5.
- 100-Yard Dash.**  
 Hauser (Anaconda) first, Dowd (Victor) second, Jolley (Gallatin) third. Time, :10 3-5.
- Low Hurdles.**  
 Collins (Butte) first, Bourquin (Butte) second, Street (Gallatin) third. Time, :29.
- 440-Yard Dash.**  
 Hauser (Anaconda) first, Jones (Missoula) second, Dickinson (Helena) third. Time, :53 4-5.
- Hammer Throw.**  
 Larimer (Billings) first, Jolley (Gallatin) second, Rice (Flathead) third. Distance, 129 feet, 10 inches.
- High Jump.**  
 Gattson (Gallatin) first, Wheatley (Billings) second, Westlake (Gallatin) third. Height, 5 feet, 6-8 inches.
- Relay Race.**  
 Missoula, first; Hamilton, second; Flathead, third. Time, 1:40 1-5.
- The teams: Missoula—Molchoir, Stone, McHaffie, Jones. Hamilton—Toole, Marr, Gray, Peterson. Flathead—Hall, Roemer, Miller, Grant.
- Mile Run.**  
 Kiely (Anaconda) first, Binko (Helena) second, Cowan (Victor) third. Time, 4:48 2-5.
- Discus Hurl.**  
 Jolley (Gallatin) first, Heagney (Gallatin) second, Duquette (Missoula) third. Distance, 99 feet, 1 inch.
- Broad Jump.**  
 Jolley (Gallatin) first, Ross (Missoula) second, Dowd (Victor) third. Distance, 20 feet, 1-2 inch.
- Shotput.**  
 Brittain (Gallatin) first, Heagney

## DR. GATLEY ADDRESSES HAWTHORNE TONIGHT

Rector of Episcopal Church Will Give Illustrated Lecture on the Bermuda Islands—Everybody Is Invited.

Tonight at 8 o'clock the last meeting of Hawthorne for this year will be held in the Physics Lecture room. Rev. H. S. Gatley, the rector of the Episcopal church, will address the members, and all others who wish to attend, taking as his subject, "The Bermuda Islands." The talk will be illustrated with several slides of the islands.

Dr. Gatley is known as a virile speaker, and all those who attend his lecture will be amply rewarded for the time spent in listening to him. President Forbes, president of Hawthorne, hopes that a large crowd will be present and wishes it made known that this is a meeting open to everyone in the University, including the co-eds. Dr. Gatley's subject, "The Bermudas," is an interesting one and one with which he has been made thoroughly familiar by residence in the islands.

## ENGINEERS LEAVE ON BIG INSPECTION TRIP

The Senior Engineers, accompanied by Professors Richter and Biegler, left at 4:30 o'clock Wednesday afternoon on the first engineers' inspection trip. They will go to Anaconda, where they will spend Thursday inspecting the big Washoe smelters, which are among the largest in the world. While in Anaconda they also expect to visit the large foundries of the Anaconda Copper Mining company. Leaving Anaconda Thursday night, they go to Butte for two or three days, where they will visit several of the large mines, the electric substations and the pumping stations of the Butte Water company.

### To Helena.

From Butte they will go to Helena, where they will inspect the dam and powerhouses of the Missouri River Power company, returning to Missoula Monday night.

The object of the trip is to enable the students to study the practical operation of various engineering plants and large machines. It is hoped that each succeeding senior class will have this opportunity. The senior engineers who have taken advantages offered by these trips are Messrs. E. Fredell, L. Baker, D. M. Conner, F. E. Thleme and M. Mason.

## CHANGES MADE IN THE RULES OF DEBATING

High Schools Will Debate Government Ownership of Telegraph Next Year. Rebuttal Speeches Are Out.

At a meeting of the Montana High School Debating League, held last week, it was decided that the question for debate next year should be the government ownership of the telegraph systems. Many questions were proposed, but this one was finally chosen. It was proposed by David Lever of the Missoula High School.

Several fundamental changes in the manner of conducting the debates were made. Heretofore there has been no definite plan of choosing judges. Several plans were discussed. The one finally adopted was suggested by Professor Palmer, debating coach at the University. A list of judges, including available lawyers, high school principals and others, is to be made, and approved by all the high schools who participate in debating.

From this list each contesting school will choose a judge. These two chosen will then appoint a professor from the University faculty to assist them in judging the debate. The time for rebuttal speeches was cut from five to three minutes.

## ORATORS TO MEET FRIDAY MAY THE 24

The Third Annual Interstate Oratorical contest between the members of the Interstate Oratorical association, Universities of Washington, Oregon and Montana, will be held in University hall Friday evening, May 24. The Interstate promises to be the most exciting and entertaining oratorical contest held in Missoula for several years. The orations are of present and practical questions as well as of historical themes.

The persons who will compete in this contest are Miss Florence DeRyke of the University of Montana, Carlton Spencer of the University of Oregon, and A. Reuben Hilen of the University of Washington.

The King County Bar association gives \$100 in prizes, \$75 to the winner and \$25 to the second choice. In 1910, first place was awarded to Glen Hoyer of the University of Washington. In 1910, second place was awarded to Charles Robinson of the University of Oregon. It seems natural and probable that the first place this year will be won by Miss Florence DeRyke of the University of Montana.

The judges of composition are Pro-

## FRESHMEN PLANT VINE WITH MUCH CEREMONY

Virginia Creeper Affectionately Dedicated by First Year People—Dance in Gymnasium Follows.

Always on the move, ever showing the right kind of Montana spirit and always desirous of showing they are really live ones, the Freshman class again gave the right kind of a demonstration last Monday night.

In the corner on the right hand side of the library steps, as one enters, this class planted Virginia creeper, which will, when grown, cover the east side of the front of the library.

At the plant of the vines there was an appropriate ceremony held. Professor Palmer gave the address of the evening. In this he commended the Freshmen class on its spirit, and said he hoped more classes and organizations would follow the lead of the Freshmen and get in the game of showing spirit in the proper way. He also praised the University of Montana for its high standard of scholarship.

Ruby Jacobson and E. Stanley had the arrangements in charge and everything went off in the best possible style.

After the dedication and planting of the vines the class adjourned to the gym, where an informal dance was held. This was a pleasing function and was enjoyed by many of the student body who were the guests of the Freshmen.

At a late hour the festivities ended. The Freshmen, the lions of the day, is the only organization which observed Arbor day in any official way. The whole student body feels an interest in these vines and are much pleased at the action taken by the class of 1915.

Plans have been made at Yale to construct a new baseball cage, which will be large enough to contain a diamond of regulation size. It will be high enough for an ordinary fly, making infield work possible.

## HONESTY IN LAW URGED BY PROMINENT JURIST

Judge Cheadle of Lewiston Lectures Garret-Dwellers on Trial Evidence and Probate Law—Large Attendance

Judge Cheadle delivered a splendid address before the university law school last evening on "Trial Evidence and Probate Law." The lecture was attended by a full turnout of the students, many of whom had to make close connections with picnics to get there. None of these men who hurried away from yesterday's various outings expressed anything except pleasure over the situation, either, for the talk was more than worth while. Judge Cheadle talked principally of trial evidence, drawing on a vast store of personal reminiscence for illustrations. He told the men of the difficulties of handling evidence, of the general rules regarding evidence and of the manner in which it should be presented. The whole talk was practical and to the point and full of suggestions which will be useful to the young lawyers when they begin practice. In closing Judge Cheadle urged the lawyers always to be honest in their profession, advising them how to proceed when trying to build up a practice. The university's products had all been of the highest class, so far, he said, and there seems to be no doubt but that the law school will turn out men of just as high a standard.

Professor Hulme of the University of Idaho, Professor Coleman of Whitman college, and Professor Robinson of Stanford university. The judges of delivery will likely be Judge W. T. Pigott of Helena, T. J. Walsh of Helena, and President J. M. Hamilton of Bozeman.

Sufferer—I shay, ole buck, what's yer trouble?

Fellow Sufferer—A case of mumps. What's yours?

Sufferer—Two cases of Schlitz.

## FAREWELLS TO BE SAID AT THE LAST ASSEMBLY

Four Select Orators From the Senior Class, Will Hold the Boards at Last Official Convocation.

To the delight of all of the fussers and chronic campus-walkers, there was no Assembly held on Wednesday of this week. This glorious weather makes everything indoors seem slow. Yesterday was the day on which the regular Assembly should have been held, but it was postponed until next week.

### Last Official Assembly.

There is a great treat in store for the students at the next meeting if we are to believe the Seniors. The class of 1912 will hold the boards at that time and plans have been made to have this the most effective Assembly of this year. The Seniors' Assembly will be in the nature of a farewell. There will be four speeches made by members of the Senior class. The best orators of the class have been given the honor of expressing the sentiment of the class on this occasion. President Dunway will also address the student body at this Assembly. His address will be somewhat in the nature of a farewell, this being the last official Assembly of the college year.

The Seniors are desirous of having a large attendance at this Assembly. All students and their friends are cordially invited.

### EXCHANGES

The University of Missouri is to publish an athletic book. It will contain a record of all the scores and pictures of all the football teams which have represented Missouri during the past twenty-two years.

In connection with the horticulture department the University of Missouri has a canning factory which supplies the local grocers with canned tomatoes, corn, beans and beets.

Twenty young Chinese patriots, students in American colleges and universities, sailed for China on December 6th to offer their services to the revolutionary party.

Cornell University received a New Year's gift from Jacob H. Schiff, a New York banker, for the purpose of German culture.

## BOOKS GIVEN THE LAW LIBRARY BY CLAYBERG

Dean Emeritus Donates Two Hundred Valuable Volumes—Full Three-Course to Be Given Next Year.

The law school of the University has been presented with over two hundred volumes of English reports. This includes volumes on English common law, English chancery reports and Vesey Jr. reports.

### Judge J. B. Clayberg Donor.

This magnificent gift is made to law school by Judge J. B. Clayberg, dean of the University's law school. Judge Clayberg will not be with us after this year, but this gift shows warm place he has in his heart for baby school of the institution. Judge has told us that even though may move to California he will always have a deep interest in the University of Montana. This present proves beyond a doubt, that his interest is and lasting.

### Law School Progressing.

During the first year of its existence the law school has more than filled the expectations of its founders and has been very fortunate in the quality of its students who have entered the department and the enthusiasm they have shown.

Next year instruction will be covering the third year work, as well as that of the first two years of law course.

The enrollment of students at law school bids fair to be more than double that of the present year, many undergraduates say that they are looking forward to taking the professional course in law. The school to be congratulated on its generous donors and on what has been accomplished the past year.

In a lecture on Ibsen at the University of Minnesota, Dr. Otto H. of the University of Washington the worship of women as the chief if not the only contribution America has made to the higher culture of age.

Intercollegiate baseball has been abolished at Leland Stanford Junior University by a recent order of President Jordan. It is rumored that a ball will share the fate of baseball an order soon to be promulgated.
