Standard Structure Type
Non-standard Structure Type

Number of most prevalent species recorded 2012-13
- 0-100 individuals recorded 2012-13
- 100-1000 individuals recorded 2012-13
- >1000 individuals recorded 2012-13

Most prevalent species recorded 2012-13
- White-tailed deer (Odocoileus virginianus)
- Mule deer (O. hemionus)
- Black Bear (Ursus americanus)
- None recorded or no data
Standard Structure Type
Non-standard Structure Type

0-100 individuals recorded 2012-13
100-1000 individuals recorded 2012-13
>1000 individuals recorded 2012-13

White-tailed deer (*Odocoileus virginianus*)
Mule deer (*O. hemionus*)
Black Bear (*Ursus americanus*)

Number of most prevalent species recorded 2012-13
