This Oral Presentation is brought to you for free and open access by ScholarWorks at University of Montana. It has been accepted for inclusion in UM Graduate Student Research Conference (GradCon) by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.

The UM Graduate Student Research Conference is interdisciplinary. We welcome presentations from all disciplines and departments. Graduate students are invited to submit abstracts for oral or poster presentations.

While we encourage the involvement of faculty both as conference judges and as additional authors on graduate student abstract submissions, this year we are limiting presentations to graduate students only.

Graduate students are welcome to submit a maximum of one single-authored abstract and one co-authored abstract. However, graduate students are limited to a single presentation at the conference.

Graduate student presentations may include a portion of a thesis or dissertation or a successful seminar or course paper. We also welcome the presentation of talks or posters previously presented elsewhere.

Abstract requirements

Abstract must:

- Be 750 words or less
- Be accessible to a non-specialist

Abstracts will be judged according to the following three criteria:

- The degree to which the abstract presents the project's rationale, 'sets the stage', or frames the context.
 - The degree to which the abstract describes the project's methods, approach, or framework.
 - The degree to which the abstract articulates the project's findings, represents an innovation, provides a fresh perspective, etc.
- The scoring rubric containing the abstract criteria as well as the presentation criteria can be downloaded here: [Scoring Rubric](#)

Abstracts and other presenter information must be uploaded to this website (follow the Continue link below). **Abstracts are due by February 27, 2015.**
