Montana State University Weekly News Roundup

COLVIN COMPLETES INDIAN STUDY

Dr. Milton Colvin, assistant professor of anthropology at Montana University, completed a study of Montana Indians by participating in the ritual and ceremony of the Cree Indian Sun Dance at the Rocky Boy Reservation near Box Elder. The study was supported by a grant-in-aid from the University.

Dr. Colvin, who has long worked with the Cree and the Chippewa, was the guest of Paul Eagleman, chief of the Tribal Council, and stayed in his tepee. The MSU professor is one of the few non-Indians who have been permitted to take part in the religious ceremony.

The University grant-in-aid enabled Dr. Colvin to publish an article about the Cree-Chippewa, which was reprinted in the Congressional Record.

###

LAW PROFESSOR EARNS DOCTORATE

Gardner Cromwell of the Montana State University law faculty has been awarded the degree of doctor of juridical science from the University of Michigan Law School, MSU officials announced.

###

OSTERHELD GETS GRANT FOR CHEMISTRY RESEARCH

Dr. R. Keith Osterheld, assistant professor of chemistry at Montana State University, has received a Frederick Gardner Cottrell grant of \$1,800 from the Research Corporation of New York for the support of his research on determination of phase diagrams for pyrophosphate-metaphosphate systems, University officials said.
