Current Research Literature (BMED 593)  
 Autumn 2008  
 Instructor: Liz Putnam  
 Thursdays 12:10 - 1:00 pm, SB 275

The purpose of this class is to develop skills in the analysis of published manuscripts. This class may be used to satisfy the requirement for a formal journal club presentation. An added benefit is the advance preparation for seminars presented by outside speakers, therefore, this class will primarily discuss manuscripts suggested by speakers in the Biomedical and Pharmaceutical Sciences departmental seminar series. We will analyze paper(s) suggested by class members on weeks without speakers, thus, please submit a paper for potential discussion by the week of Sept. 8. Every effort will be made to provide the suggested papers at least one week before class on the website ([www.health.umt.edu/schools/biomed/events/jc.htm](http://www.health.umt.edu/schools/biomed/events/jc.htm)). Please come to class prepared to discuss the material.
