The ASUM Senate hereby resolves to explore the concerns of the disabled on the University of Montana campus, with particular regard to disability access and services. Realizing that the problems generated by these issues do not have immediate solutions, we commit ourselves and our resources to the long term goal of integrating full disability access and service into all facets of university life. ASUM recognizes the needs of disabled students, staff, faculty, community members, and visitors, and credits these individuals with bringing diversity and unique insight to life in this campus community.

LEASH LAW RESOLUTION

--Whereas the University of Montana has regulations regarding dogs on campus, requiring that dogs be leashed at all times.

--Whereas the problem of loose dogs has become acute, with dogs being left outside of buildings for lengthy amounts of time and dogs being allowed to roam the campus freely.

--Whereas Campus Security is responsible for enforcing this regulation, and has been lax in this regard.

The ASUM Senate hereby resolves:

That Campus Security stringently enforce the regulation regarding leashed dogs on campus, to include issuance of the necessary citations to offenders. We also ask that regulations be adopted preventing the leaving of dogs tied up on campus for more than one hour at a time. We do this in being mindful of the needs of the blind students, faculty, and staff on campus, as well as the general welfare and health of the pet.
