MONTANA TRAVEL EXPERIENCE SURVEY

FINAL SUMMARY REPORT

Glenna Brown, Kara Grau, Megan Schultz

Nonresident Survey Summary Report
Data collected June 2021 - June 2022
This summary report highlights select findings from the nonresident 2021-2022 Montana Travel Experience Survey. Data included here were collected from late May, 2021 through June, 2022.

Nonresident travelers who were interviewed by one of the surveyors around the state were given this survey along with the Nonresident Travel Survey after completing an in-person “Front End” survey at a gas station, rest area, or airport. (Current and historical nonresident travel data can be viewed by clicking on Interactive Data on ITRR's website.)

Through June, 2022, 1,327 surveys were collected. Questions included topics related to visitors’ use of public lands, trip planning, and questions for first time and repeat visitors. Some highlights are summarized below.

This data is unweighted, and represents a summary of findings. Watch itrr.umt.edu for additional updates and publications related to this data and survey effort.

METHODS

Data were collected by trained surveyors who asked questions to nonresidents as they filled up their vehicle with fuel at gas stations, when they stopped at rest areas around the state, or while waiting for their departure at an airport. ITRR has permission from over 100 gas stations and 7 airports across the state to talk to travelers during the time it takes them to fill their tank, stretch their legs at a rest area, or while in the boarding area before flights. Travelers 18 years of age or older at these locations had an opportunity to be surveyed about their time in Montana during this visit. Respondents are asked to take and complete additional surveys covering more information about their trip to the state, as well as the survey highlighted here, covering their use of public lands and other aspects of their Montana experience.
For this trip in Montana, which of the following most accurately describes your time in the state?

- Montana was my main or only destination for this trip: 57%
- Montana was one of several destinations planned for this trip: 23%
- Montana was not a specific destination on this trip, but we took our time passing through: 5%
- On this trip, we spent just long enough in Montana to get through the state to our destination elsewhere: 15%

- For nearly 60% of respondents, Montana was the main destination for their travels.
- 15% considered themselves to be just passing through.

26% of respondents who had done some planning "More than a year ago" had planned, but then postponed their trip because of the COVID-19 pandemic.

Respondents were asked if they had been able to stay in their preferred location and preferred accommodation type during their stay in the state, with an opportunity to answer 'yes' or 'no' for up to 8 nights. The vast majority, 95%-98%, replied 'yes' to both.

1ST TIME VISITORS

Montana is a popular destination for repeat visitors. However, we wanted to know a bit more from first-time visitors...

Upcoming analysis will describe what motivated first-time visitors to make the trip, and what some of their expectations for Montana were before they came.

Likewise, we will analyze responses to questions about what may not have met their expectations, what exceeded them, and what they wish they had known before they arrived.

**Why Did You Choose to Visit a New Area of the State?**
PUBLIC LAND ACTIVITIES & USES

During the 12 months prior to completing the survey, 10% of respondents had visited Montana public lands once, while 25% had visited 2-5 times, and just 8% had visited 6 or more times.

Of those who had visited public lands in the past 12 months, over half had visited somewhere in the state that was new to them, for a variety of reasons.

WHY DID YOU VISIT THESE NEW MONTANA PUBLIC LAND AREAS?

- Wanted to explore new locations: 90%
- Had more time to explore new locations: 43%
- Preferred/usual locations were too crowded: 7%
- Exploring new outdoor areas b/c of limitations/lack of safety indoors due to pandemic: 5%
- Preferred/usual locations had too many regulations; seemed constricting: 3%
- Preferred/usual locations had too few regulations, felt unsafe: <1%

58% visited Montana public lands areas they had not previously been to.
PUBLIC LAND ACTIVITIES & USES

All respondents were asked about their activities and use of public lands in Montana during the last 12 months. About 1/5 of respondents said that there were activities on public lands in which they wanted to participate, but were not able to. While many respondents selected from the reasons provided, 43% listed Other as a reason, and responses included wildfire, smoke, and related restrictions; inclement weather; crowding or lack of parking; difficulty obtaining GNP tickets.

Analysis of those "other" reasons is forthcoming. The most frequent responses from the list provided to respondents is below.

**WHY COULDN'T YOU/DIDN'T YOU PARTICIPATE IN THE ACTIVITY OR ACTIVITIES ON MT PUBLIC LANDS?**

- **Not enough time:** 54%
- **Don't own gear:** 14%
- **Too expensive:** 11%
- **Don't possess knowledge:** 3%
