RESOLUTION TO PRESERVE GREEN SPACE ON THE U OF M CAMPUS

WHEREAS, in recent years the displacement of an increasing amount of area covered with grass and other vegetation by concrete has created concern over "creeping incrementalism", and...

WHEREAS, there would seem to be about as much sidewalk as we need, and...

WHEREAS, the University of Montana is the State Arboretum, and therefore a decreasing amount of green space on campus is particularly inappropriate, and...

WHEREAS, deforestation has frequently been discussed in the international environmental community as a factor that contributes to global warming (the greenhouse effect), and the planting of trees and other vegetation is an action that would help alleviate this situation; and...

WHEREAS, as citizens of this planet it would be appropriate for us to take actions which alleviate rather than aggravate dangers to our world;

THEREFORE BE IT RESOLVED...

that the Associated Students of the University of Montana request no new sidewalks be added to campus at this time, and vegetated areas like the cloverbowl not be used as sites for future parking lots (if any are added) and when projects requiring more concrete (ie. bike racks) are being planned that the following be considered:

- if a area already covered with concrete could be used for the project and that area be given preference as the site for the project,
- if no such area exists then consideration be give to removing concrete from an area already paved so no net loss of green space occurs,
- that there be no net loss of trees on campus,
- when landscaping projects take place on campus that preference be given to planting an increasing variety of native species, if feasible, in accordance with the idea of being the state arboretum
- that the overall effect on the amount of green space on Campus be considered whenever a project is being planned and that provisions for public input on the project be provided.

ALSO BE IT RESOLVED...

that a copy of this resolution be sent to the appropriate campus officials.
