SYLLABUS

Course Description

Anthropology is a discipline that investigates the origin and nature of the human species. Anthropologists use a holistic approach to understand and compare humans in all aspects, places, and times. In this course, we will look at the four major fields of anthropological inquiry which includes physical/biological anthropology, archaeology, linguistic anthropology and cultural anthropology/ethnology. Throughout the course, we will also discuss the issue of ethics in anthropology and the notion of applied anthropology.

Required Texts

Ember, Carol, Melvin Ember, and Peter Peregrine (2010). Anthropology, 13th Edition.
A web-based supplement for this class is available on Moodle: <http://umonline.umt.edu>
