MONTANA TECH STUDENTS WIN COMMUNITY SERVICE GRANT

MISSOULA —

Students at Montana Tech of the University of Montana will use $1,000 from the Montana Campus Compact to produce a catalog of social services in the Butte community.

The students will integrate and streamline existing needs assessments and social service studies into a comprehensive document to help prevent duplication and consolidate local efforts.

The Montana Campus Compact is a coalition of 15 colleges and universities in the state working to involve students in community service. Headquartered at The University of Montana—Missoula, the compact awards small grants for service projects each spring and fall.
