The Associated Students of the University of Montana  
Resolution Regarding the Student Sustainability Fee Referendum  
November 9\textsuperscript{th}, 2016  
SB40-16/17  
Authors by: Sam Forstag, ASUM President;  
Meredith Repke, ASUM Sustainability Coordinator;  
Sponsored by:  

Whereas, Efforts to implement sustainable practices have repeatedly received strong support from the student body through campus-wide referenda, campus surveys, and past years’ ASUM resolutions;  

Whereas, The ASUM Sustainability Fee is the only ASUM fee that with an ‘opt-out’ option, and currently sits at $6;  

Whereas, The ASUM Sustainability Fee’s opt-out rate was approximately 29.4\% in 2016 and 31.5\% in 2015;  

Whereas, The ASUM Sustainability Fee is the only dedicated funding source for implementing sustainability efforts at the University of Montana;  

Whereas, The ASUM Sustainability fee has invested over $250,000 into the University of Montana through projects that currently generate over $30,000 in annual savings as of 2014 and account for a reduction of 0.66\% of the University’s carbon-equivalent (CO\textsubscript{2}\textsubscript{e}) emissions;  

Whereas, Transitioning the fee from its current opt-out status to a campus-wide fee would lead to an increase of over $40,000 in additional funds being generated annually;  

Whereas, An increase of $6 for the ~30\% of students that would otherwise ‘opt-out’ would constitute an increase in the cost of attendance of 0.003\% for in-state students and 0.0002\% for out-of-state students;  

Whereas, The Sustainability Fee is a major source of funding for UM’s effort to reduce its carbon emissions and to protect the interests of current UM students, the human race writ large, and posterity;  

Therefore, Let it Be Resolved, In accordance with the ASUM Constitution, Article 10, Section 2, that the following question be placed before the student body of the University of Montana for vote during the 2017 ASUM General Election:  

“The ASUM Sustainability Fee is used to carry out student-led sustainability projects such as the installation of solar arrays across campus, improvements to campus infrastructure, and the installation of water-bottle filling stations. ASUM is proposing that the current Sustainability Fee be changed from an ‘opt-out’ fee to a mandatory campus-wide fee. This
change to the Sustainability Fee would generate around $40,000 more for sustainability efforts annually, or a 40% increase.

____ Yes, I support changing the ASUM Sustainability Fee to a campus-wide fee and removing its current opt-out status.

____ No, I do not support changing the ASUM Sustainability Fee to a campus-wide fee and removing its current opt-out status.”

Passed by Committee: ___________________, 2016

Passed by ASUM Senate: ________________, 2016
