Introduction:

Aural Perception I is a supplement to Music Theory I and is a required co-requisite to Music Theory I (MUSI 105). It is a lab course in *solfège* singing and melodic, harmonic and rhythmic dictation. By the end of this course music majors should be able recognize key, meter and intervalic relationship in order to apply these skills to solo and ensemble repertoire.

Texts:

A New Approach to Sight Singing, ed. 5, by Berkowitz, Fontrier, Kraft

Materials:

Music manuscript paper is required for each class for dictation purposes.

* Please use pencil for all work!

Grading:

Daily Grade (Attendance/Class Participation/Assignments)	200 pts (20%)
Sight Singing Quizzes	200 pts (20%)
Aural Quizzes	200 pts (20%)
Midterm	100 pts (10%)
Final Exam	300 pts (30%)

As this is a course of study dependent on the student's desire to grow as a vocal and/or instrumental musician, it is central to the experience that **daily sight singing practice time** be reserved and made use of in an orderly, productive fashion, much the same as practice/rehearsal sessions for applied study.

*Progression through text chapters is occasionally adjusted for coordination with theory topics. Time spent on each chapter is also adjustable according to overall class progress.

Class Participation:

Class participation is expected and noted for final grade calculation. Attendance is mandatory and will be taken regularly. Missed classes will have an impact on the final grade. Illness will be accepted as an excused absence only if accompanied by a doctor's note. Missed quizzes and exams cannot be made up without prior approval from the instructor.
