Submitted by:

Krista K. Denney

Senate Secretary
SUBJECT: Submission to the National Party Platforms

Two weeks ago, Michael Dare from the Montana Democratic Party wrote a letter to ASUM asking that we submit something to the National Party Platform hearings on behalf of the students at the University. The following is a representation of the research and thought of the S.L.A. Committee who has considered political and social implications of this recommendation.

TO BE SUBMITTED:

We recognize that the future progress of our nation is dependant on, among other things, an educated work force. The university, college and vocational-technical center students of this country bear a great burden in the rising cost of higher education and should receive privileges similar to those extended to commercial entrepreneurs who likewise invest in the economy of the United States. A tax deduction designed to give credit for the amount of money a student or the parent of a student invests in the improvement of the individual and the community should be among the most basic steps to encourage all citizens seeking a higher education to continue their trust in the future. A system of "tuition tax credit" seems the most equitable way to extend this assistance to all citizens wishing to improve themselves.

The deadline for submission to the Democratic Party Platform is May 17th. For this reason, S.L.A. asks that the Senate deal with this very important issue tonight. Michael Mathison, S.L.A. Director, will be available for questions at this Senate meeting.
