Richard C. Bowers, President
University of Montana
Main Hall

Dear President Bowers:

The method used recently in naming the head basketball coach is conclusive evidence of the problems with the University of Montana committee structure. We are very disappointed with the manner in which the entire process was handled. For example, no formal contact was made with the student members of the Athletic Committee to represent the students opinion in the decision. Also a quorum of the committee was not reached. Since the purpose of the committee is to advise the president in the area of athletics, then it is only reasonable to have a full committee notified when such a major decision must be made. It is regrettable that such a lack of concern for student input was part of the decision policy.

In the future we strongly recommend that THE STUDENTS of this University be allowed to participate in every decision making process that has a significant affect on them. We also recommend that in the future a committee should be given full opportunity to make its recommendations on all decisions that pertain to the purpose of that committee. If these committees are not given the power to carry out their function, then we would suggest that strong action be taken by the students to insure that their part of the process is not usurped or ignored as it has been in the process of naming the head basketball coach.

Sincerely,

Garth Jacobson
ASUM President

Patricia A. Jackson
ASUN Secretary

Dear President Bowers:

The following resolution was passed unanimously by Central Board at its meeting last night.

WHEREAS the method which University of Montana President Richard Bowers recently used to reorganize the Athletic Department, and appointment of the new basketball coach was a flagrant ignoring of shared government process at the University. It outrageously disregarded participation of students in that decision making process, as well as proper rules of procedure.

THEREFORE BE IT RESOLVED, we insist that established processes of student participation in university decision making are strictly adhered to. "Reorganization" under any guise must not serve as an excuse for circumventing established procedures.

Sincerely,

Garth Jacobson
ASUM President

Jeff Gray
ASUM Vice President
