VOL. XXII.

STATE UNIVERSITY OF MONTANA, FRIDAY, NOVEMBER 3, 1922.

NO. 10

AGGIES TO BE GUESTS OF STATE UNIVERSITY

College Student Association Asked to Help Prevent Clashes.

A letter inviting the students of the Agricultural College to attend Homecoming as the guests of the University and asking them to co-operate with it in preventing clashes between the rival student bodies has been sent to the Student Association of the State College by Percy Spencer, president of A. S. U. M.

The present plans call for stunts between halves by students of each school. If the plan is accepted by the College a committee of judges will be selected from the faculty of each school to judge the best stunt. A cup, purchased by the University, will be the prize, the competition for this cup to be an annual event. Promises are made that the University will have no demonstration, win or lose, if the Aggies do not.

The officers of the Student Association of the State College will be invited to a conference with the officers of A. S. U. M. at which the problems incidental to the conduct of the Greater University will be discussed. An effort will be made at this time to promote a more friendly spirit between the two schools. It is planned to hold this meeting before Homecoming if possible.

Newman Speaks to Sophs.

Ritchie Newman, A. S. U. M. auditor, explained the Homecoming plans to the sophomores yesterday. A message from President Clapp asking the sophomores to aid in preventing fights between the two student bodies, was read at the same meeting. Two sophomore meetings will be held next week, one to complete arrangements for the Homecoming and the other, a special meeting of the men to pick teams for the class fights.

These class fights will be staged on November 11 from 11 to 12 o'clock. The contests will be the tub-rush, the sack race and the obstacle race. A Soph-Frosh relay race will be held just before the game starts. The relay will be from the football field to the M. A. C. building carrying a banner and the winning team being given the privilege of leaving their banner there for the remainder of the day.

The parade will be one of the big features of Homecoming day. Both schools will display floats for prizes. The line of parade will form on Gerald avenue and a battalion from the Fort will lead with military and civic organizations following. The University section will be headed by the Aggie band and students. Next will come the float from both schools. The University band and students will follow the floats.

The parade will march up Higgins avenue to the N. P. station, back on University avenue, and disband on theampus.

Rules for Prize Floats Will be as Follows:

1. Different organizations of the two schools, State College and University, or individuals can participate

(Continued on Page 3.)

TO BEAT THE AGGIES WE MUST

Discourage the breaking of training on the part of the football men. Eat, sleep and talk football. Learn every song and yell we have. Put everything aside for football on next Friday night until the final horn is fired Saturday. Believe in the team.

ENLARGED SQUAD TO POLICE AT AGGIE GAME

At a special meeting of Silent Sentinel men, M men, frosh football men and active and inactive Bear Paws, an organization of special police was formed. Its duties will be to discourage any arguments of an annoying nature that may arise during the game with the Aggies.

Former Bear Paws and M men will be scattered through the stands "with an eye to the weather." The active Bear Paws and frosh football men will assist in preventing Old Sentinel from becoming a too popular grandstand during the game.

The active Bear Paws will also act as official "bouncers" at the Homecoming dance November 11.

CANDIDATES FOR DEBATE WILL TRY OUT THURSDAY

Try-outs for the varsity debate squad will be held Thursday evening, November 16, at 7:15 in convocation hall, according to Professor John Chadwell, University debate coach. The question selected is: "Resolved that the government should own and operate the railroads of the United States. All University students are eligible for the try-out, and each speaker will be given five minutes in which to present one point connected with either side of the question. Ability in rebuttal will be tested also.

Two series of triangular debates have been arranged for this year; the first consisting of Montana, Idaho and Utah, and the second, Montana, Reed College, and British Columbia. On the latter trip debates will be held with Gonzaga, Washington State College, and Whitman College. A program of debates with other Montana colleges is in prospect also.

BLOOM NEW COMMANDER OF DISABLED VETERANS

Charles Bloom was elected commander of the University Chapter of the Disabled American Veterans of the World War at a meeting held Wednesday evening in the "Y" hut. DeWitt Law was chosen vice-commander and Phillip Sarvarey, adjutant. This was the first meeting held this year.

John Mahan, state commander, made a short talk on the work and aims of the organization in the state. He urged all vocational men who are not now members to join. Alva Reese, last year's commander, spoke of the difficulties encountered by the officers in doing the work last year.

The chapter will hold regular meetings every other Wednesday in the "Y" hut, beginning November 8. Arrangements to help the Garden City chapter entertain the state convention of the D. A. V. of W. W. were discussed. The chapter will also assist in the celebration of Forget-me-not day, November eighth.

A mixer will be given by the ladies auxiliary and local chapter soon. Committees were also named to investigate all vocational cases and underserving cases will be reported with the object of stopping their vocational training if possible.

Adjutant Sarvarey extends the invitation of the chapter to all vocational men who are not members to attend the meeting November 8th.

CUBS MEET IDAHO FROSH AT MOSCOW TOMORROW

Adams Has Been Building Up Defense Since W. S. C. Game.

Tomorrow afternoon the Grizzly Cubs will play the Idaho Freshman eleven on the Vandals field at Moscow. Coach Harry Adams and nineteen husky freshmen left last night for the scene of the battle.

Adams has been keeping the freshmen out late and trying hard to build a team that will carry the battle to the Vandal yearlings. In the W. S. C. game the first year men played good football during the first and third quarters. The other two periods their defense seemed to break up easily. This week they have been working their defense against the Varsity and many of the rough spots have been worked out. The following men made the trip: Captain Ilman, Tarbox, Carney, Quinlan, Hyde, Tolin, Johnson, G. Crowley, W. Crowley, Estey, Griffin, Martinson, Wilcox, McIver, Van Horn, Sugrue, Meagher, MacKenzie and Plummer.

MAJOR JORDAN INSPECTS LOCAL CADET BATTALION

Is Visiting All Reserve Units in the Ninth Corps Area.

"This is your course, not ours, and you can make of it what you will," emphasized Major H. L. Jordan, officer in charge of R. O. T. C. affairs in the 9th Corps Area, who inspected the cadet battalion here yesterday.

Although unable to see the Montana cadets perform, the Major was optimistic in his expectations of a successful year in the military department. He characterized the officers of the local unit as efficient and interested men under whom the department of this school with the proper student co-operation, will grow. He placed particular stress on the fact that military training is not a thing to be doled out in measured handfuls, but an activity that remunerates participants in proportion to their investment of energy and interest.

The major is on a tour of inspection of all the R. O. T. C. units in the colleges and high schools of the 9th Corps Area which includes California, Washington, Oregon, Idaho, Montana, Utah and Nevada. He came here from an inspection of the junior unit in the Boise, Idaho, high school and left last evening for Bozeman, where he will visit the State College unit.

PHILLIPS TALKS TO WOMEN ON REFERENDUM MEASURES

Professor Paul C. Phillips addressed the Business and Professional Women's League, Wednesday evening. He explained Measure Number 26, known as the Pari-mutual bill which comes before the voters this fall. He also talked on the constitutional amendment which provides for the consolidation of the city and county governments in Montana. This bill also provides for a commission form of government for the county.

Mrs. Harriet R. Sedman, dean of women, was a dinner guest at the Beta Zeta house, 233 University avenue, on Wednesday night.

LISTS OF HOMECOMERS INCREASE EVERY DAY

Homecoming visitors are sending letters daily to the University and the various personal friends telling of plans to attend the celebration. The visitor who will come the greatest distance is Royal McDonald from San Francisco, California.

The following is the additional list of the people who will be here November 10 and 11:

Hugh Anderson, Billings; Dorothea Buck, Butte; Dolores Chidester, Butte; Dorothy Dixon, Helena; Retta Donaldson, Stanford; Evelyn Giese, Townsend; Edward Jenkins, Great Falls; Dorothy Luttrell, Plains; Samuel Maclay, Lolo; Dorothy E. Miller, Deer Lodge; Adlonie McAllister, Corvallis; Cecil Moore, Butte; Jack Nouckolls, Anaconda; L. E. Noel, Helena; Louise Sponheim, Basin.

CO-ED PROM TO BE HELD AT GYMNASIUM TONIGHT

The co-ed prom will begin at 8:30 promptly this evening. There has been some misunderstanding about costumes, and it has been announced that any kind of a costume will be acceptable if it is not risqué.

Craig Hall and all of the sororities will be given three minutes to put on their stunts. A prize will be awarded for the best stunt. Those who will judge the stunts are Miss Rhoda Baxter, Miss Ellen Geyer, Miss Harriett Gardner, Miss K. W. Gwinn, and Mrs. Harriet Sedman.

It is expected that all of the faculty women and wives of faculty members will be present as invitations were sent to them several days ago. There will be free cider, ice cream, pies and popcorn balls.

PROFESSOR ADLER WILL BE IN MISSOULA SUNDAY

Professor Laurence Adler, of New York, who will give piano lessons at the University, will arrive in Missoula, Sunday, November 5th.

Mr. Adler was graduated from Phillips Exeter Academy in 1904; received his A. B. from Dartmouth College in 1908, and his A. M. degree from Harvard in 1913. When he was in Harvard, he directed music at Riverdale on the Hudson schools.

From 1914 until 1917 Mr. Adler was director of music in Westminster Schools at Simsbury, Connecticut. He enlisted in the United States Army in 1917 and served until the armistice was signed.

After Mr. Adler's release from the service, he went abroad to study piano under the masters of Europe. He has been a student of Rudolph Ganz, Raphael Joseffy, and Kalterborn. He also studied composition from Ruben Goldmark.

Professor Adler delayed his return to the States in order to give two concerts in Paris. He landed in New York on October 29.

"Any students who wish to take lessons from Professor Adler will kindly see the Dean of Music, Monday. Professor Adler will have his office opposite that of Miss Berry in the hospital building," said DeLoss Smith yesterday afternoon.

Mr. Adler will take the place of Miss Josephine Swenson, teacher of piano last year, who now has a studio in San Diego, California.

STEWART IS DRIVING MEN FOR AGGIE GAME

Squad in Good Shape Again; Stiff Competition for Positions.

Coach Jim Stewart is driving his Varsity squad to have them ready for the Aggie game November 11. The Grizzlies have no game this week but the coach has been working them harder than at any time this season.

The Aggies won a tight game from the School of Mines at Butte last Saturday. They showed that they have a fairly heavy team of fighters. This week they play the Gonzaga Bulldogs at Bozeman.

Long signal drills and hard scrimmages against the second team and the freshman elevens have been the order of events on Dornblaser field every day this week. The coaching staff has been working to polish off the rough spots exhibited by the Varsity in the games played this year. Every member of the squad will be in good shape for the Aggie fight unless someone is hurt during the practices before the game is played.

Captain Elliott and MacGowan, who are the regular Varsity tackles are smashing through scrubs and freshmen in wonderful style. They are both in perfect condition and their last game against the Farmers should be a good one.

Ray Murphy will be in shape to play center. His playing at Bozeman last year was one of the features in the Varsity victory. An injury early in the season slowed him up for a while but he is again ready to go.

Duke Johnson who has been running the team at quarterback for Coach Stewart is developing into a real star. In Gonzaga last week his open field running was a sensation.

Kershner, the hard hitting fullback of the Grizzlies, is ready for his last chance to land the Aggies a walloping.

The Varsity halfbacks, Plummer, Porter, Tanner, Silvernale, Christy, O'Neil and Spencer, are ripping things right and left in order to receive the call to start the game. Everyone of them is fighting hard and it is difficult to tell whom Stewart will play.

Madsen and Coleman have been playing the wing positions for the first squad this week. Tough as they make 'em, these two men should smear the Farmers hard and often.

Dahlberg, Straw and Rooney have been alternating with Coleman and Madsen and all three may play against the Plow-jockies.

There is a battle for the two guard positions. Shaffer, Maudlin, Axtell, Ashford, Moriarty, Taylor, Ramsey and Oechsli are all battling for the places. Whoever the coach picks will have to play mighty good football, with the string that will be waiting to go into the game.

TO BE ON THE VARSITY SQUAD THE MEN MUST

Quit smoking and dancing. Take muzzing from everyone for making mistakes. Get broken up; every moment is an added misery. Take real punishment (you feel killed if your throat is taxed a little). Practice until long after dark every day.

THEY'RE ALL RIGHT.

Considerable comment is current on the campus regarding the activity of a certain organization whose duties are to act as campus police, see that the University traditions are observed, as well as act as entertainers for visiting teams of other schools. The criticism has been advanced that this organization exists for the sole purpose of bringing punishment to offenders of University traditions, which has caused it to become an officious, bigoted organization often overstepping the bounds of its authority.

This organization known as Bearpaw, which recently became affiliated with a national organization, Inter-collegiate Knights, is the butt of criticism, which we think in most cases is unjustifiable.

Bearpaw owes its existence to a need that was felt on the campus a few years ago, for an organization that would work under a central head, and look after matters which would be sure to come up at University functions. The need was made more evident when confusion would arise from congestion in crowds, when visiting teams would find difficulty in getting around from place to place, and when observance of University traditions by freshmen seemed rather lax.

Since its foundation, Bearpaw has worked faithfully in service of the school, has carried on its duties in a creditable manner, and has helped to overcome difficulties which so often arise in the course of the academic year.

However, this work seems to be forgotten when Bearpaw is criticized. The fact that students see the paddle more often, either because such punishment generally takes place where students are congregated or because it is the only place of Bearpaw activity which commands the attention of some students, is probably the reason for a few of us getting the wrong impression that Bearpaw exists merely for an excuse to swing a paddle.

Few of us realize the actual amount of work the Bearpaws accomplish. Their work is not spectacular, and they are constantly doing things for the school which does not always command the attention of the casual observer. At times when crowds are on the campus they do excellent work in keeping order both in bleachers and automobile parking space. They entertain visiting teams. They act as ushers at debates, musicales, or any other student gathering. In fact, the men of Bearpaw are always on hand to do odd jobs, when any school function takes place.

Let us not be too liberal with our condemnation of the organization. In some instances mistakes may be made, but that is characteristic of any group. If we see something that does not exactly meet with our approval, let us overlook it as much as possible before blindly condemning it, or at least give it a fair investigation.

The Bearpaws are all right, and worthy of any assistance we can give them.

GOOD FOR BOTH.

The letter sent by the president of the A. S. U. M. to the president of the student body at Montana State College seems to us to be a forerunner of better relations between the student bodies of both schools.

To begin with, the idea of getting

all possible co-operation with the College students for Homecoming is an idea which, if realized, will insure a successful Homecoming. And this idea should not stop with the end of the celebration next week. It should be put into practice for use as long as the two schools exist.

The time has arrived for the abolishment of slap-stick rivalry, and rough-neckism in order to show the "progressiveness" of the two student bodies. Such activity has characterized the past, but with a bright but uncertain future ahead of the schools, realization of which can only be brought about by harmonious relations, a turn should be made for the better.

Let good clean rivalry go on. That is not only to be expected but a good thing. But let's have rivalry of the cleaner sort, and free from mob violence.

GET A GOOD ONE.

Next week is the week. The time when we "show off" to the old ones. It is expected to surpass any Homecoming ever put on in the state, and set a mark for future celebrations of like nature.

We call attention to the parade which is to be held, composed of University floats put on by the various organizations. This parade, although not the main attraction, should be one of the best events of the week.

We want to urge members of the campus organizations to do their best toward putting on a good float. The prize money is exceptionally high this year and should bring out good ideas. We do not merely want to impress our alumni, but the students from the College over the hill.

The parade will not be of the snake-dance variety, or class-day kind. It is to be a real honest-to-goodness affair, and worthy of the celebration of which it is a part.

Get an idea.

FARE AND HALF ON ALL ROADS FOR HOMECOMING

A reduction of one and one-half fare for the round trip on the "Certificate Plan" will apply for visitors, also dependent members of their families attending Homecoming, at Missoula, November 11. Students of the University are asked to help notify all visitors of following directions:

1. Tickets at the normal one-way tariff fare for the going journey may be bought on any of the following dates (but not on any other date)—Going to Missoula, November 7-11 inclusive, returning—November 14.
2. From going station, ask for certificates instead of receipts. Certificates are not kept at all stations and if not buy a local ticket to nearest point where a certificate and through ticket to the place of meeting can be bought.
3. On arrival in Missoula, present your certificates to the endorsing officer, Tom Spaulding, as the reduced fare for the return journey will not apply unless properly identified as provided for by the certificate. He will be in the Business Office, Main Hall, as follows: Friday, November 10, from 9 A. M. to 6 P. M.; Saturday, November 11, 8 A. M. to 12 M., 1 P. M. to 2 P. M., 4:30 P. M. to 5 P. M.

The railroads will grant no refund of fare on account of failure to either obtain a proper certificate, or on account of failure to have the certificate validated.

4. Return tickets issued at the reduced fare will not be good on any limited train on which such reduced fare transportation is not honored.

NEWS FROM F. D. SCHWALM.

In a recent letter from Professor F. D. Schwalm of the department of Fine Arts, on leave for a year, he tells the students of the art school that he is enjoying the sights about Los Angeles and believes he will stay in the sunny clime the entire winter. He is reported as feeling better than at the time of his leave this fall.

She wonders if the Forester's Ball will be formal this year.

No, Nora, the Mortar Board hasn't anything to do with the new buildings.

Tag Sale for Dance To Begin Next Monday

Students may buy Homecoming tags at the A. S. U. M. store Monday morning, according to Professor T. C. Spaulding, chairman of the Homecoming celebration.

These tags, which will cost 50 cents, will be the only possible means of admission to the Homecoming dance at the new gymnasium Saturday night. Prize money for the winners of the parade float competition, and expenses for decorating and printing must also come from the fund thus raised.

Students of the State College will be admitted to the game and to the dance free of charge upon presentation of their associated student tickets. Montana and State College alumni may get the tags necessary for admission to the dance at the alumni dinner, Saturday, at 6 P. M.

The tags will serve the double purpose of dance tickets and brief programs. There will be no admission to the dance without tags. Because of the advertising value of the tags, Professor Spaulding asks that everybody, students and faculty members, buy the tags and insure the necessary financial support, and spread the Homecoming spirit with a tag in every button-hole.

The pledges of Chi chapter of Alpha Phi entertained the pledges of all of the other national and local sororities on the campus, at a Hallowe'en tea, Tuesday afternoon at the chapter house 601 Daly avenue.

STUDENTS PRESENT MUSICAL PROGRAM

A musical program under the direction of Dean DeLoss Smith took the place of the regular convocation last Tuesday morning. The numbers were presented by music students and Miss Katherine Bradley, a visitor in the city, whose selections on the piano were especially enjoyed.

The Program

Prelude in G minor.....Rachmaninoff
Jean Cowan
Ah Tho the Silver Moon Were Mine
.....Lohr
Ardis Cuttell
Kulawlak Unknown
Ruth Hauck
Minor and Major.....Sprass
Gertrude Hassler
Serenade Drdla
Marion Ferguson
Love is the Wind.....MacFayder
Sarah Haight

(Continued from Page 1.)

for prize money. It is urged that outsiders do not enter floats.

2. No names of the organization competing for prizes may appear on floats.

3. All floats must be entered by Thursday noon, November 9, to participate for prizes.

As soon as entry is decided on, organizations should notify Eck Mosby, that they wish to enter.

4. Numbers for positions in the parade will be issued to each organization Friday, November 10,—to be placed on right hand side of float.

5. University floats will assemble on Gerald avenue, south of Eddy.

6. Any float which is not in line before 12:25 P. M., Saturday, will forfeit its right to participate for prize money.

7. Floats will maintain a distance of 50 feet during march.

8. Parade will march promptly at 12:30 P. M.

The prizes for the floats will be as follows: first prize, \$25; second prize, \$15; third prize, \$10. Judges, who will award the prizes are: Colonel Geo. F. Weisel, Chamber of Commerce; Barney Barnhill, business man, and J. E. Miller, faculty member.

RECOMMENDATION BOARD WILL HELP FIND JOBS

The Board of Recommendations of the State University has extended its scope to cover all the schools and departments of the institution, according to Professor W. E. Maddock, chairman. Mr. Maddock has sent out a letter to deans and departmental heads asking their cooperation in registering students desiring positions of various kinds.

The educational department has been the only one to receive the services of the Board of Recommendations until this quarter. Its last reports show that it placed 121 teachers through its work during the summer of 1922.

Professor Maddock's letter asks that all major students interested register with the Committee on Recommendations. There will be no charge either to the employer or employee for any vices the committee may be able to render.

Home Economics Girls To Serve Homecomers

The Home Economics department is planning a Homecoming dinner under the supervision of Professor Emeline Whitcomb. This dinner will be held on Saturday, November 12, at 6 o'clock, in the old gymnasium. Plans are being made to serve from 350 to 400 guests. These will include the faculty and alumni of the State College, the faculty and alumni of the State University, the University Club, the American Association of University Women, and special speakers. Decorations are under the supervision of assistant professor Helen Gleeson of the Home Economics department and Miss Ruth Smith.

CADET BATTALION TO USE SIX TONS OF AMMUNITION

Six tons of ammunition are enroute to the R. O. T. C. from Benicia Arsenal, California, according to word received here yesterday. The shipment includes 162,000 rounds of .30 calibre, 70,000 rounds .22 calibre, 8,000 rounds .45 calibre pistol, 300 rounds Stokes mortar. The ammunition will be used for target practice by the cadet battalion.

MORTAR BOARD WILL ENTERTAIN FRESHMEN

Mortar Board, senior women's organization, will give a tea for all freshman girls Sunday afternoon from three to six, at Dean Harriet Sedman's home on 501 Eddy avenue.

The tea is given in order that the older girls may come to know all of the freshman girls in the University.

"The tea will be entirely informal and we hope that all freshman girls will be there," said Margaret Rutherford, president of Mortar Board.

The committee in charge of the tea is, Vivian Bruneau, chairman; Alice Hankinson; Wynema Woolverton and Solvay Anderson. This committee has appointed the following serving committee: chairman, Elvira Starz; Agnes Boyd; Eleanor Fergus; Roberta O'Hara and Katherine Baily.

Pre-Medic Students Form New Fraternity

The recently organized Pre-Medic solved itself into a fraternity to be known as Sigma Sigma, at a meeting Wednesday.

The organization is of a professional character, designed to work out some of the problems of class room and curricula which confront its members. They plan to invite practising physicians of the city and professors of the University to address them on professional subjects.

There are thirty-five members of the new organization. Membership is limited to men. The officers of Sigma Sigma are: president, Lou N. Claiborn; vice-president, Bert Williams; Treasurer, Walton Whitworth.

DR. H. H. SWAIN VISITS UNIVERSITY BUILDINGS

Says Board of Education Has No Present Plans for Appointment of Chancellor.

Dr. H. H. Swain, acting chancellor of the University of Montana, said that he was well pleased with the progress of the new buildings. Dr. Swain arrived in Missoula yesterday from Helena and spent the afternoon looking over the buildings. He returned to the capital Thursday evening.

"My main reason for visiting the University was to get a clear idea of the building program. It is much easier to get an idea of what a building looks like by actually seeing it than it is by looking at blue prints.

According to the Chancellor, there will be no further building development until some definite legislative action is taken. He also says that the State Board of Education has taken no steps toward appointing a new chancellor.

The freshman meeting which was to have been held yesterday was postponed on account of the Y. W. C. A. meeting. It will be held the latter part of next week.

"WORD MONGERS" and "CHATTERING BARBERS"

"Word mongers" and "chattering barbers," Gilbert called those of his predecessors who asserted that a wound made by a magnetized needle was painless, that a magnet will attract silver, that the diamond will draw iron, that the magnet thirsts and dies in the absence of iron, that a magnet, pulverized and taken with sweetened water, will cure headaches and prevent fat.

Before Gilbert died in 1603, he had done much to explain magnetism and electricity through experiment. He found that by hammering iron held in a magnetic meridian it can be magnetized. He discovered that the compass needle is controlled by the earth's magnetism and that one magnet can remagnetize another that has lost its power. He noted the common electrical attraction of rubbed bodies, among them diamonds, as well as glass, crystals, and stones, and was the first to study electricity as a distinct force.

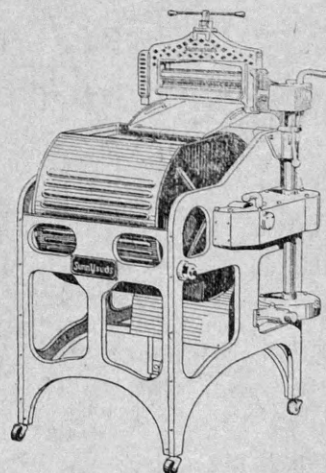

"Not in books, but in things themselves, look for knowledge," he shouted. This man helped to revolutionize methods of thinking—helped to make electricity what it has become. His fellow men were little concerned with him and his experiments. "Will Queen Elizabeth marry—and whom?" they were asking.

Elizabeth's flirtations mean little to us. Gilbert's method means much. It is the method that has made modern electricity what it has become, the method which enabled the Research Laboratories of the General Electric Company to discover new electrical principles now applied in transmitting power for hundreds of miles, in lighting homes electrically, in aiding physicians with the X-rays, in freeing civilization from drudgery.

WOMEN'S NEW DORMITORY HAS MODERN EQUIPMENT

Fireplaces, Telephones and Oak Floors Built for Use of Coeds.

One hundred homes in one, might well be applied to the new residence hall on the northwest corner of the campus. The new women's dormitory will have all the comforts of a modern home and other comforts found only in a modern hotel.

The hall will contain 44 double and 24 single rooms including the maid's quarters. Six fireplaces, maple and oak floors in the dining room and also lounge rooms, a complete telephone system throughout the building, hot and cold running water and individual closets in every bed room are included in the equipment of the building.

A trunk elevator will go to all four floors.

On the first floor the women will have at their disposal two large lounge rooms each with a fireplace. Adjoining the large double dining room is a kitchen, special bakery, cold storage room, pastry room and butler's pantry. The offices, matron's quarters, reception rooms and a few bed rooms will also be located on the first floor.

The second and third floors are the same in every detail and each floor is divided into two duplicate halves. Besides the bed rooms each floor will have two studies, two fireplaces, two kitchenettes, four shower baths and four bath rooms.

A general laundry will occupy a large part of the basement and for the convenience of the residents of the hall a students' laundry will also be provided. A complete refrigerating plant, a trunk storage and a wood and coal storage will also be installed in the basement, the fuel being used in the fireplaces and kitchens since the building will be heated from the central heating plant.

MINES SCHOOL PUBLISHES BULLETIN BY DR. WILSON

Roy A. Wilson, associate professor of geology is the author of a bulletin being published by the State School of Mines entitled "Geology of the Mission Range." Mr. Wilson says that he found evidences of a simple type of plant life known as Algae which grew at a very early period of the geological age. The rocks in which fossils occur belong to the oldest series of sedimentary rocks in North America.

Dr. Wilson was assistant state geologist for South Dakota for two years. He was associate professor of geology at the University of South Dakota. During that time he did research work on the oil possibilities of that state. In March of this year a bulletin on "The Possibilities of Oil in South Dakota" was written by him for the geological survey.

Dr. Wilson was assistant professor in the Geology department here for some time before 1918. On account of his research work he was called to the University of Oklahoma and later to the University of South Dakota. He returned to Montana this fall to assist in the Geology department, and to continue his research work here.

W. S. C. HAS GOOD HOMECOMING.

Washington State College—The greatest crowd that ever attended the Washington State College Homecoming Day were on hand to see the annual U. of Washington vs. State College of Washington football game, last Saturday. A special train carrying 700 rooters and a forty piece band accompanied the team from Seattle to Pullman. Over 10,000 alumni and visitors participated in the Homecoming activities.

FRONTIER OFF PRESS HOMECOMING DAY

The first number of The Frontier, the college literary magazine, will come off the press on Homecoming day, according to the board of directors. Two stories and several sketches and poems will be featured, and the volume will contain a Montana scene for a frontispiece. This month's edition is made up of the work of twelve student and faculty contributors.

One thousand copies will be put into general circulation this year as a means of showing the people of the state what the University is doing in the way of creative literature. Each high school in the state will receive a copy, as well as the newspapers and libraries.

"We urge students to support this enterprise," said one of the directors yesterday. "The cost of printing has increased tremendously and as a result the problem of financing the magazine is a difficult one. We urge students to subscribe for The Frontier and to send a copy to their friends." The magazine rate is 60 cents a year, and subscriptions may be secured through Robert Kirkwood or Professor H. G. Merriam.

LAWYER INSPECTS CAMPUS.

E. B. Howell, Butte attorney, visited the campus Wednesday afternoon to look over the new buildings. Mr. Howell talked on the subject of county and city consolidation at the Missoula Chamber of Commerce, Wednesday evening.

Members of Kappa Alpha Theta honored their house mother, Mrs. Eva Langworthy of Billings, at a tea Thursday afternoon to which town women, alumnae and faculty women were invited. The hours of the tea were from four to six.

UNDERGRADUATE DEBATES ARRANGED FOR CONVOCATION

A series of Freshman-Sophomore debates will be arranged for the Convocation hour within the next few weeks, in Great Falls. She will return to students who are without previous experience in debate, although experienced underclassmen will not be barred. Professor Chadwell urges that those interested see him in his office in Main Hall between 1 and 3, or leave their names with Russell Niles, student-manager of debate.
