The meeting was called to order at 7:00 p.m. by President Tom Stockburger in the Montana Rooms of the University Center.

Minutes: Approved as presented.

President Bowers addressed the Central Board to discuss with them the question of funding the Women's Resource Center coordinator position. Bowers explained that the budget request had been denied in December but the administration will receive further consideration of this matter. He said they are continually observing the reserve fund total and reestablishing order of priorities in funding questions. The higher enrollment for Winter Quarter than was expected will help in reassessing the question of the WRC. Another concern of the administration on this matter is whether this position should fall under the organization of student services. As the proposal is now set up the coordinator would not report to any administrative official and Bowers would like to discuss this aspect of the proposal further with the WRC. He has also asked for recommendations from the Director of Student Services, Del Brown, and Director of the Center for Student Development, Dr. Weldon.

Delegate Steve Gaub asked what priorities in funding had outweighed the request from the WRC. Vice President Landini stated that one of the delays was in waiting to have many questions answered as to the relationship of the WRC and the Women's Studies Department proposal. The funding priorities were 1) $10,000 was given to the Geology Department to hire two technicians which are very valuable not only to the Geology Department but the computer set-up on campus, 2) $7,500 to the History Department's Ph. D. program; it was a question of funding this program or killing it, 3) $5,500 for salary and $4,500 in travel and miscellaneous expenses for the establishment of an office for high school and university relations to take the place of UM Days.

Bowers and Landini agreed that a little money must remain in their Reserve Fund to cover unexpected expenses for Spring Quarter. Gaub asked where, in the future, might the WRC stand in order of priorities. Bowers is waiting on the recommendations from Student Services to make any judgment. John Nockleby, ASUM Business Manager, stated that according to the increase in Winter Quarter enrollment, which meant more funds available than had been projected, there should be between $30,000 and $60,000 in the Reserve Fund. He asked if this was correct and if there were any immediate commitments on these funds. President Bowers stated that his estimate was close and the only commitments on the money were that of the increase in student wages on campus. He also stated that the library acquisitions were the first academic priority on the list for funding.

Hummel asked why it was that the structure of the University was so fixed and unable to adjust to the needs of the people rather than the people's needs having to adjust to the structure of the University.
Bowers replied that he had many variables to consider in making budgetary decisions and he did as best he could to meet the needs of the people. Bowers answered a question by Rice stating that a preliminary budget had not been drawn up as yet but that he hoped that the funding requirements for Men's Intercollegiate Athletics would not be any higher than this year's amount. He stated that Women's Intercollegiate Athletics is another matter.

Stockburger asked Bowers when the administration would be considering again the request of the WRC and give CB their decision as to whether they are going to fund the coordinator position. Bowers stated that he would know by February 15, if not sooner, whether these funds would be appropriated.
